

C1-01 [EVAL] target: RED

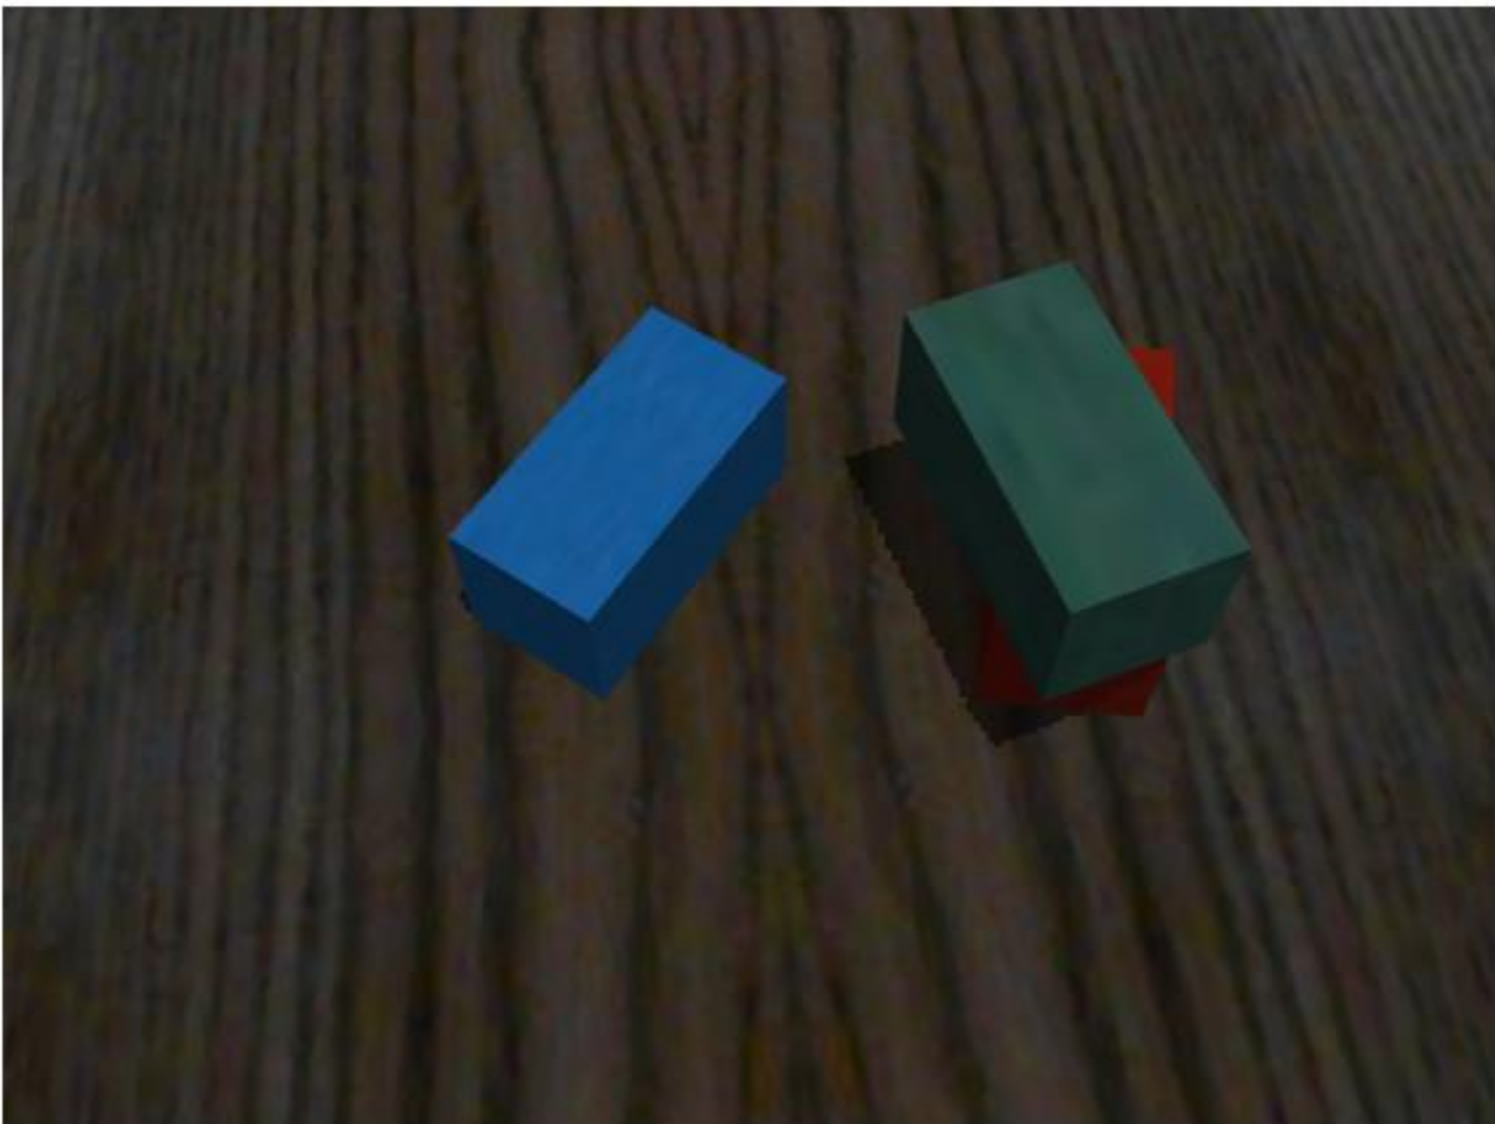

one block on the target; occlusion: partial; best order: green → red (2 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

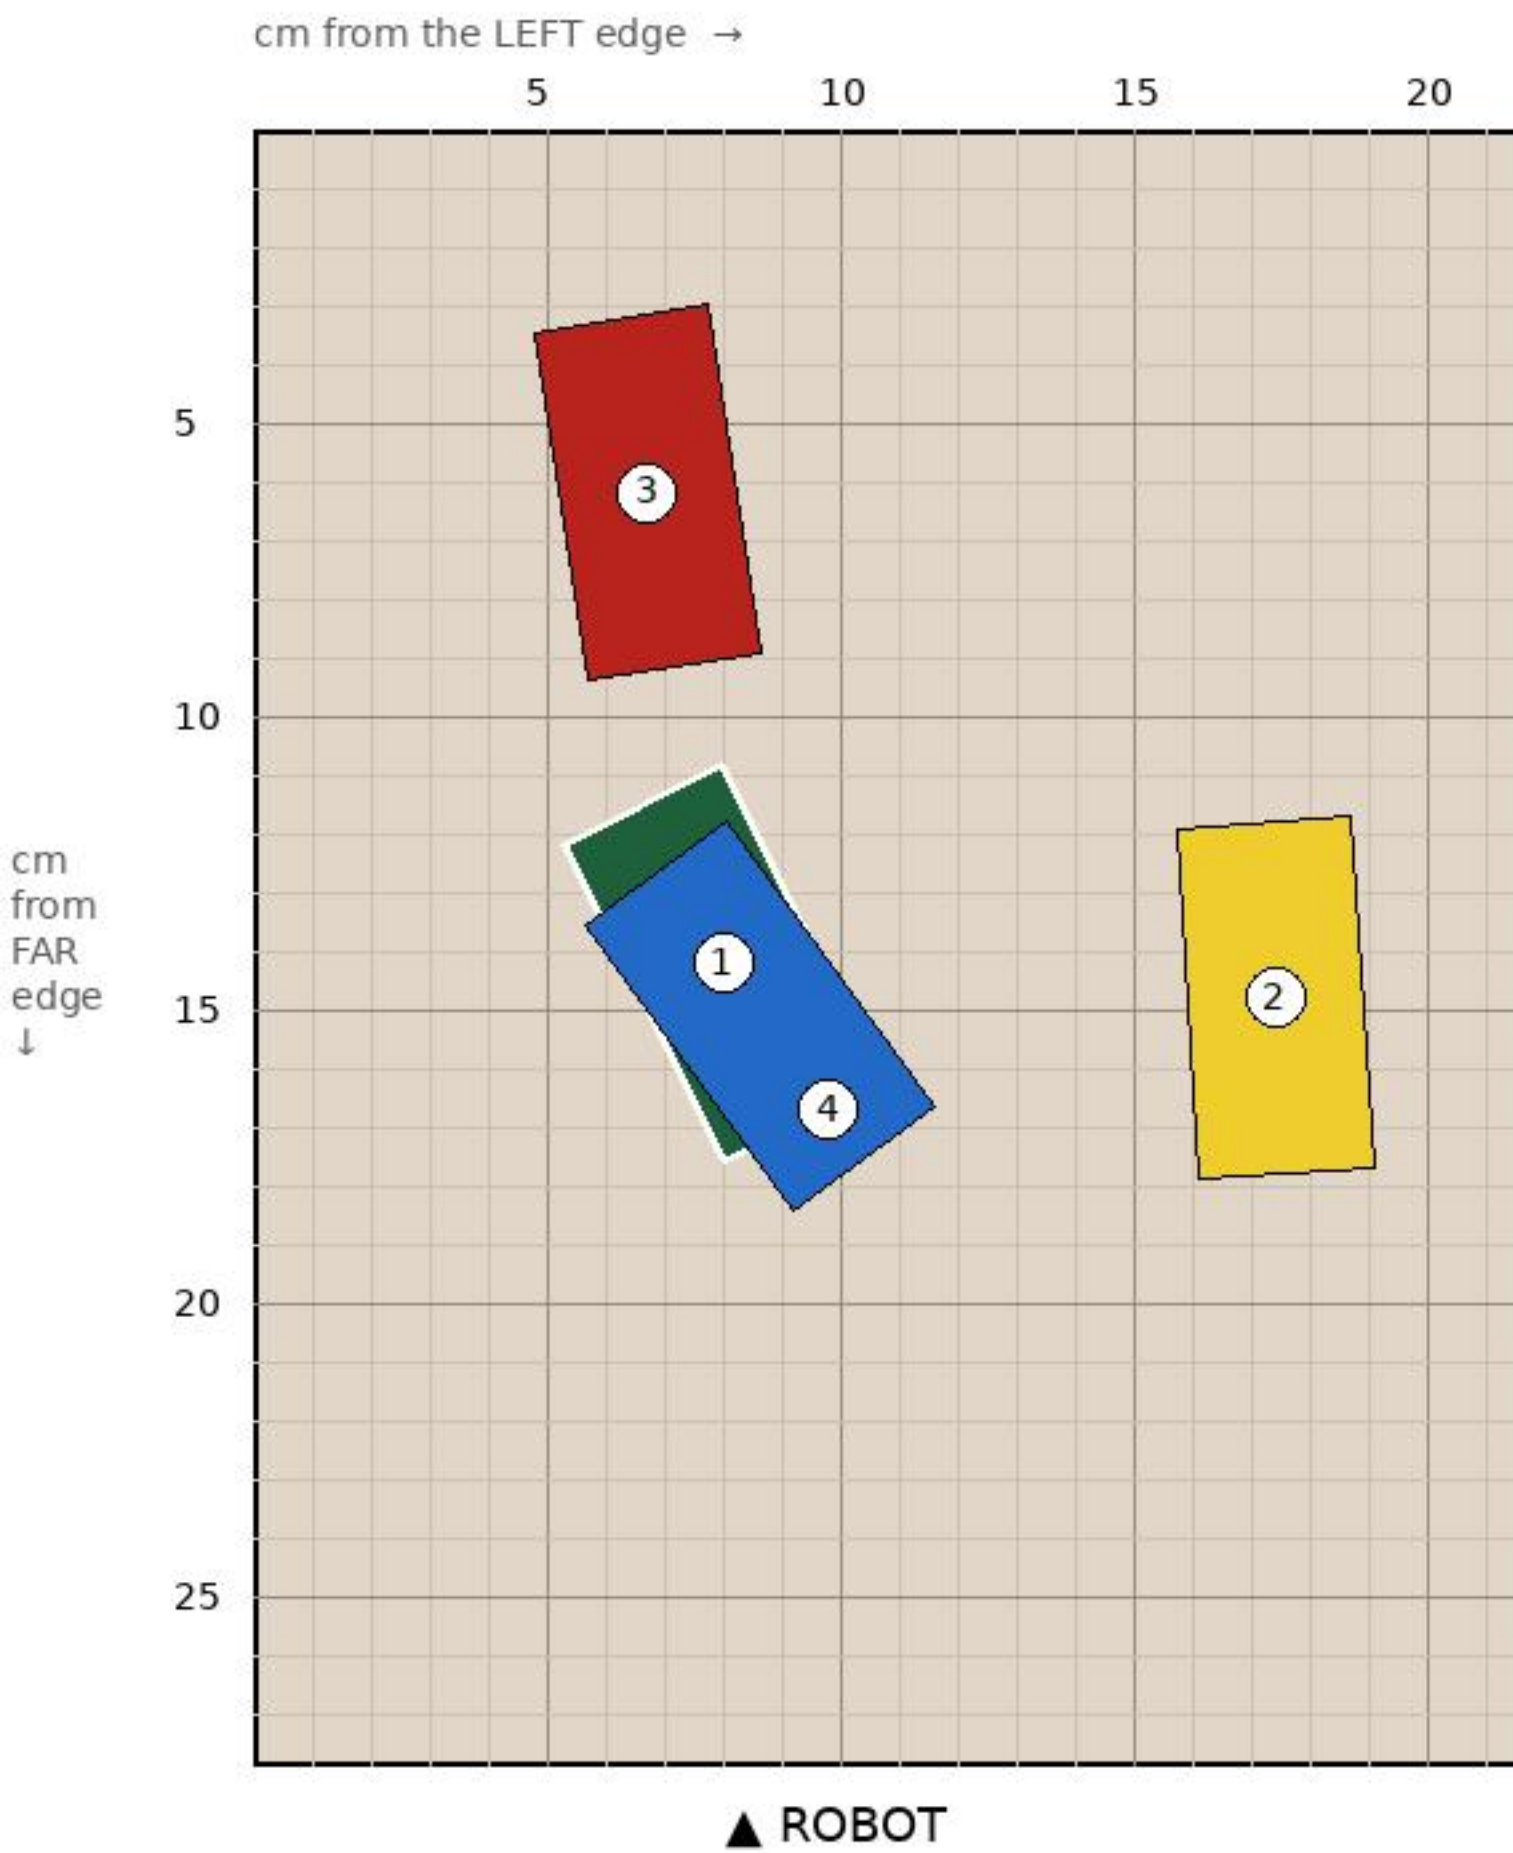

Build in this order (numbers = the circles in the top view). Positions are block centres.

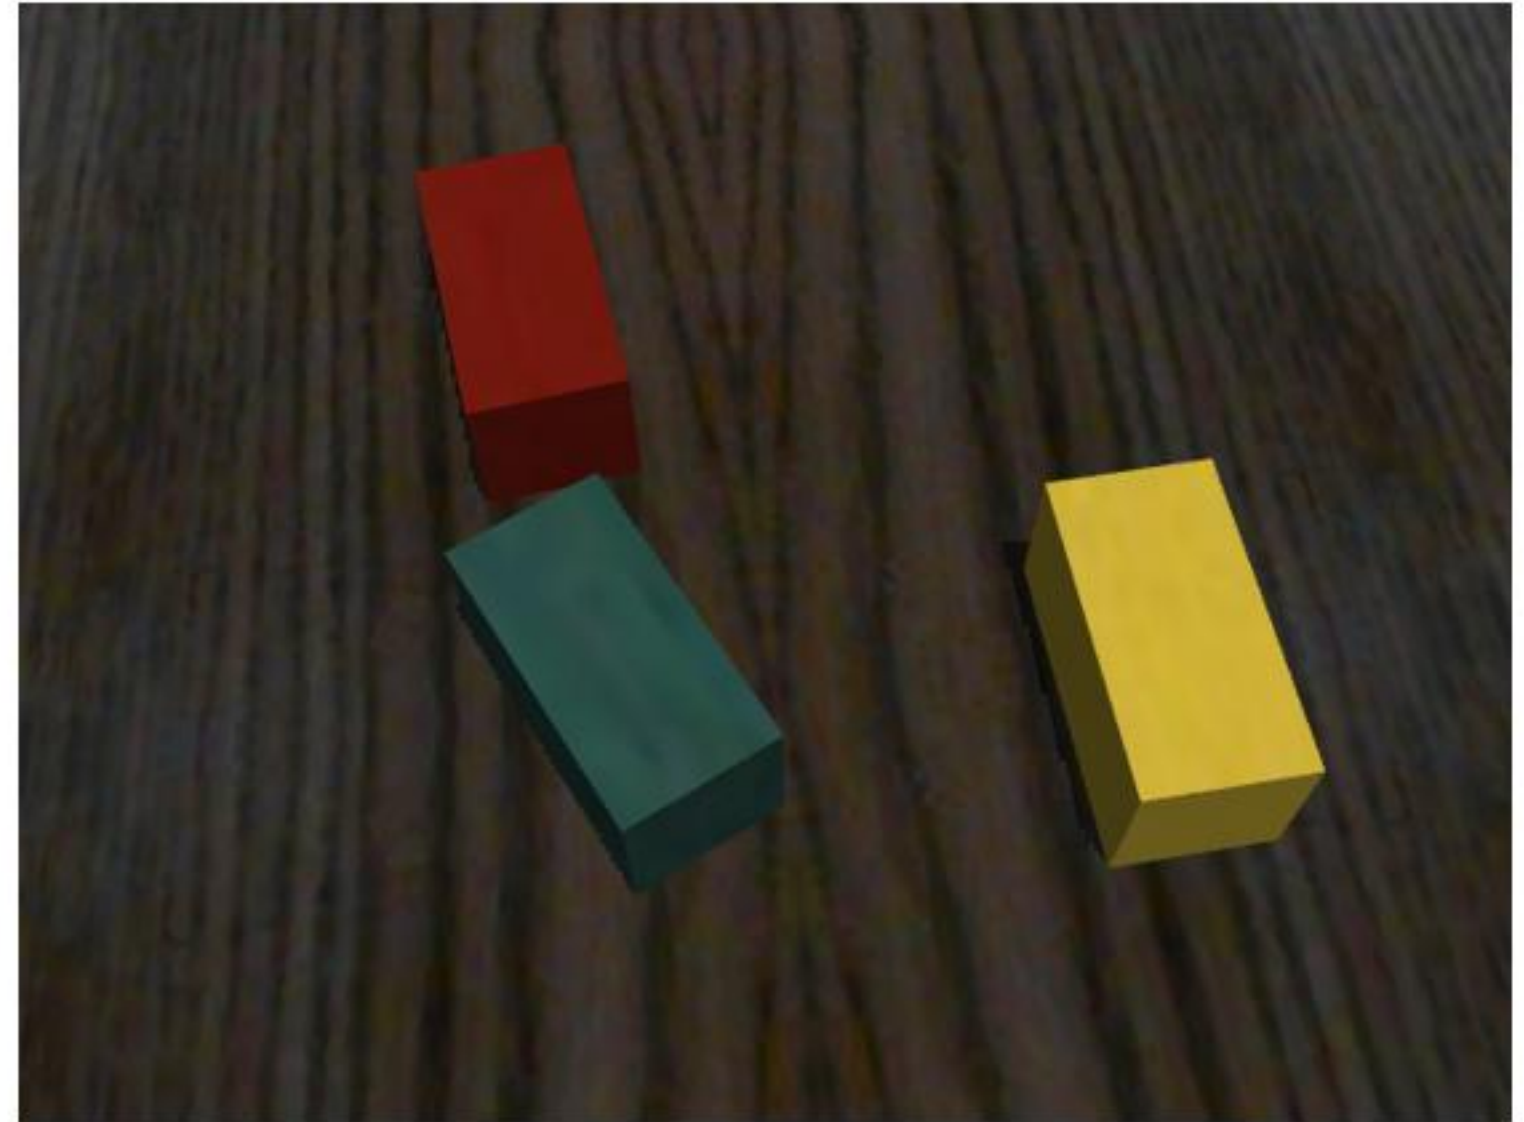

- 1. red far edge 11.9 cm left edge 16.8 cm turned -13° (far end to the right) flat on the table (TARGET)
- 2. blue far edge 10.5 cm left edge 8.7 cm turned -40° (far end to the right) flat on the table
- 3. green far edge 12.7 cm left edge 15.8 cm turned +15° (far end to the left) lies on red, level

C1-02 [EVAL] target: GREEN

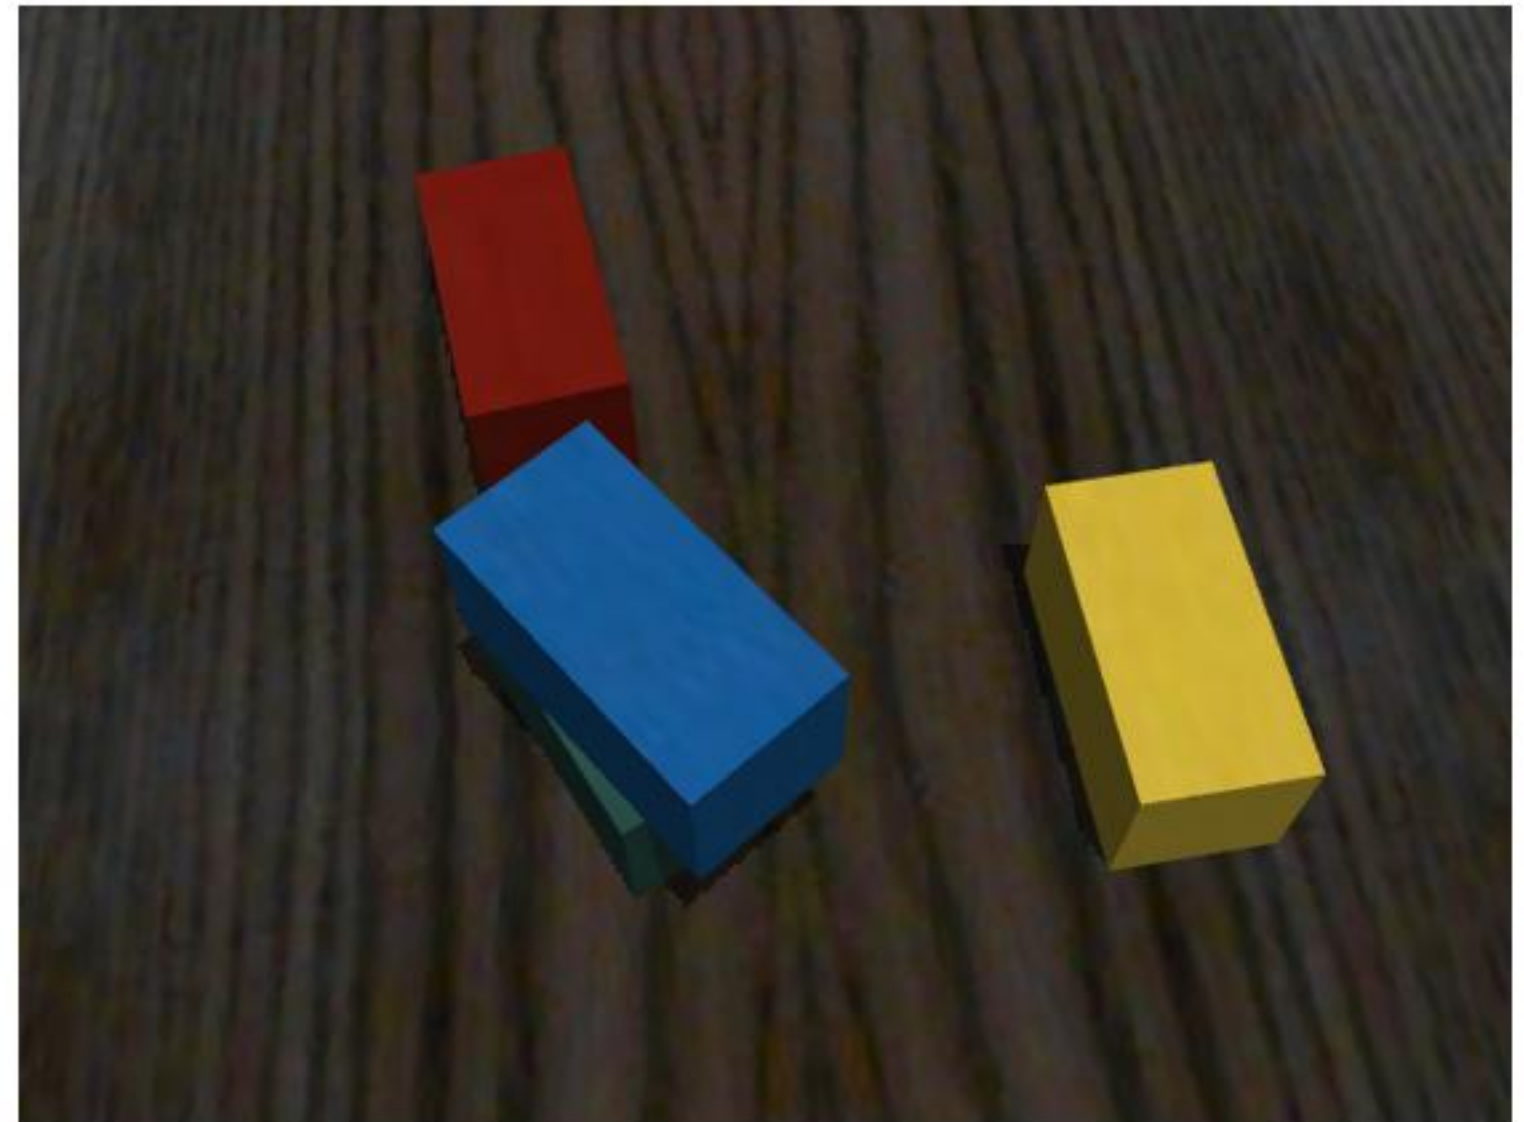

one block on the target; occlusion: partial; best order: blue → green (2 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

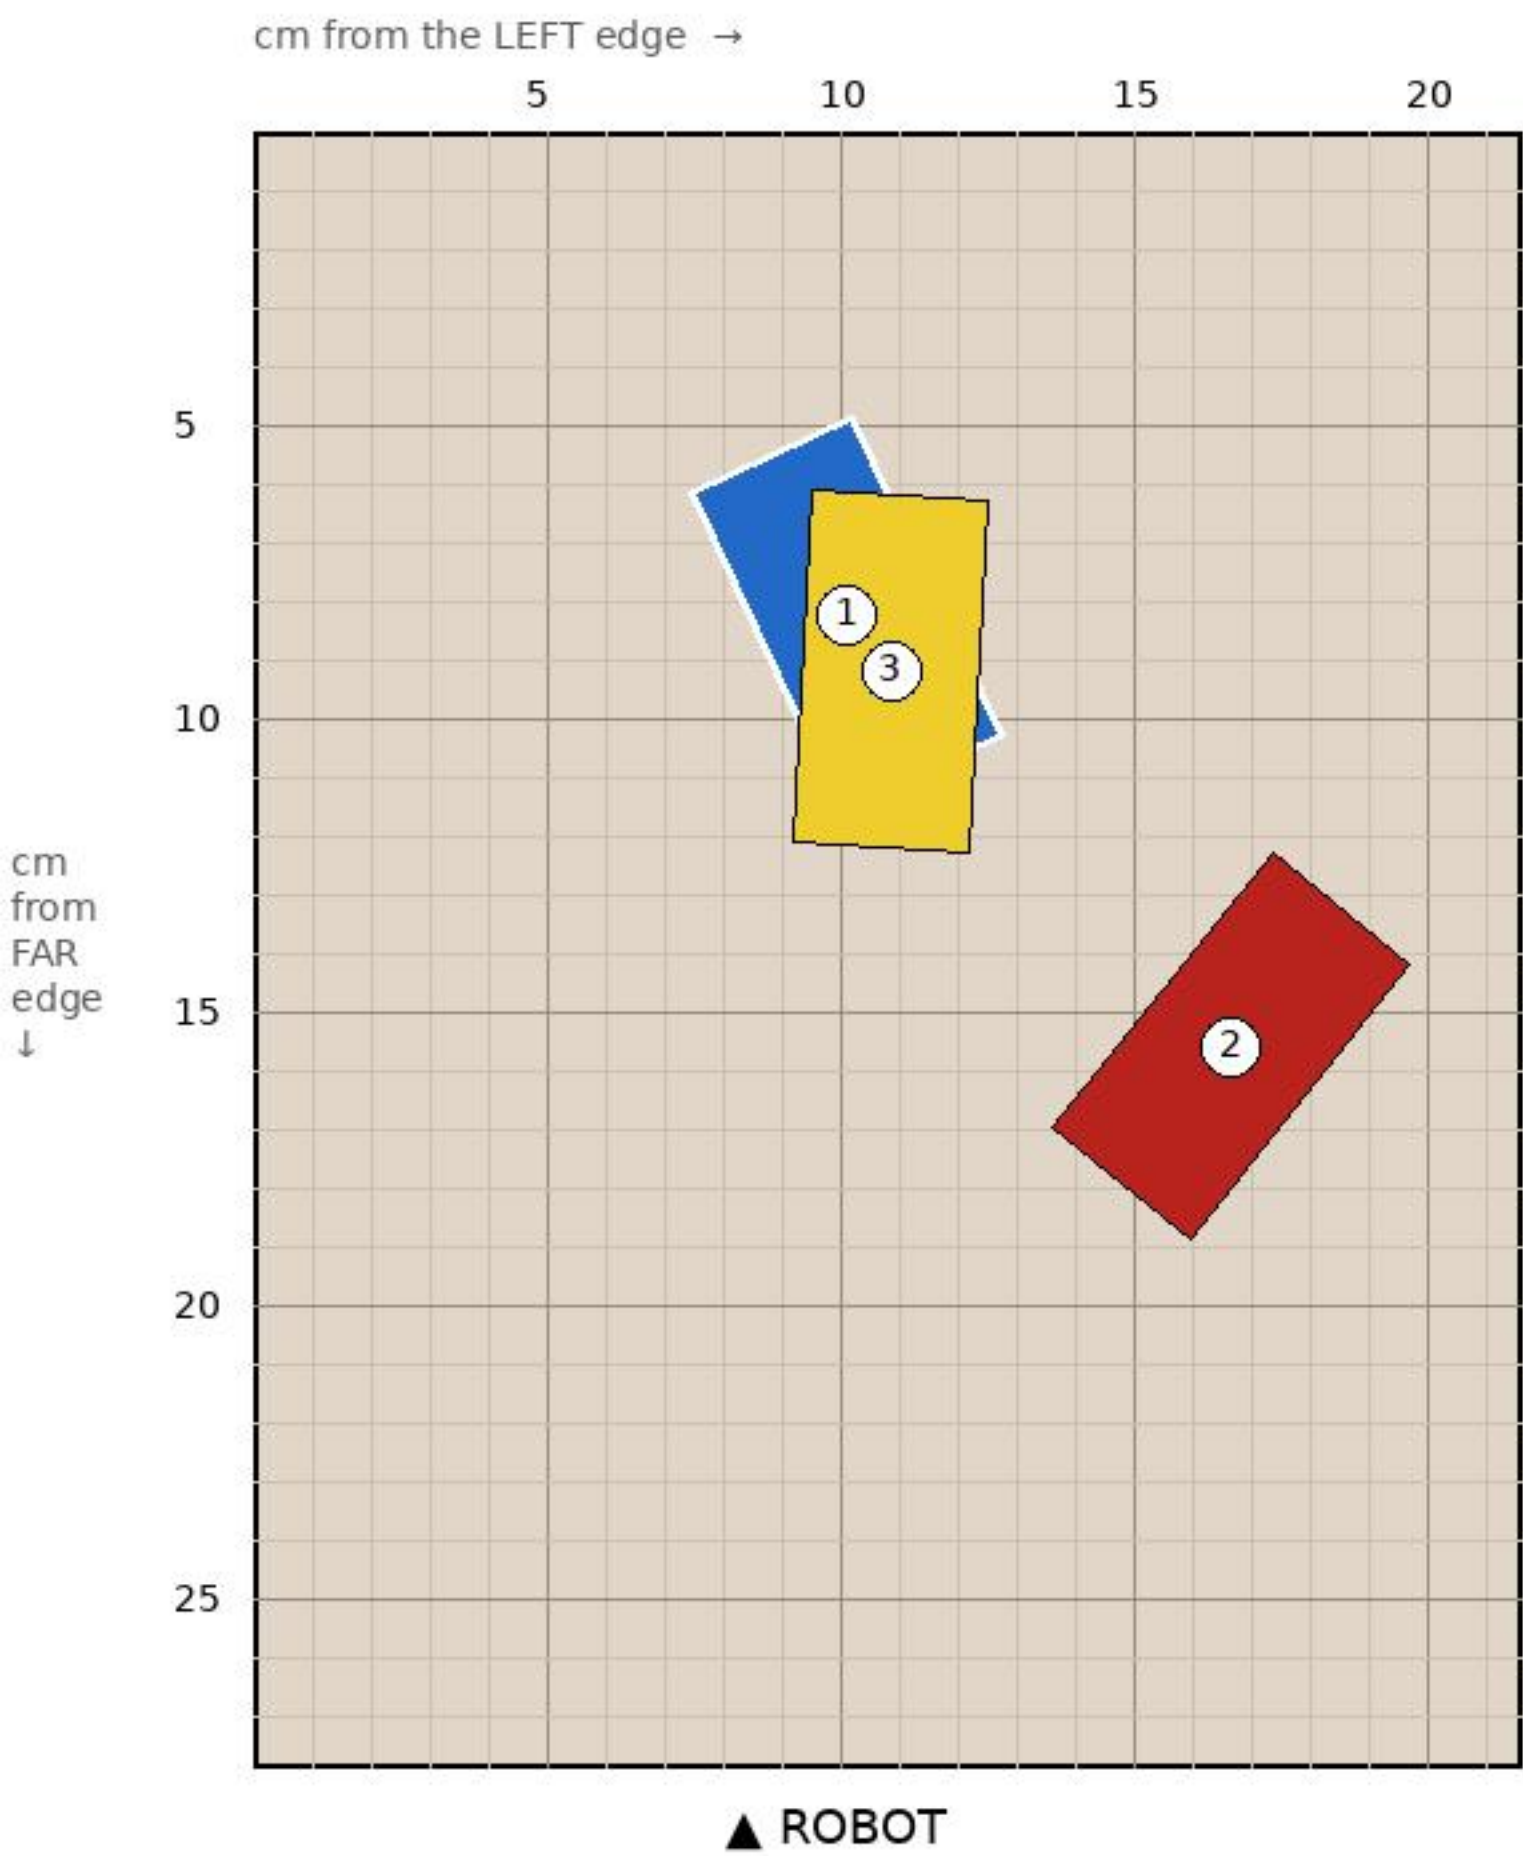

Build in this order (numbers = the circles in the top view). Positions are block centres.

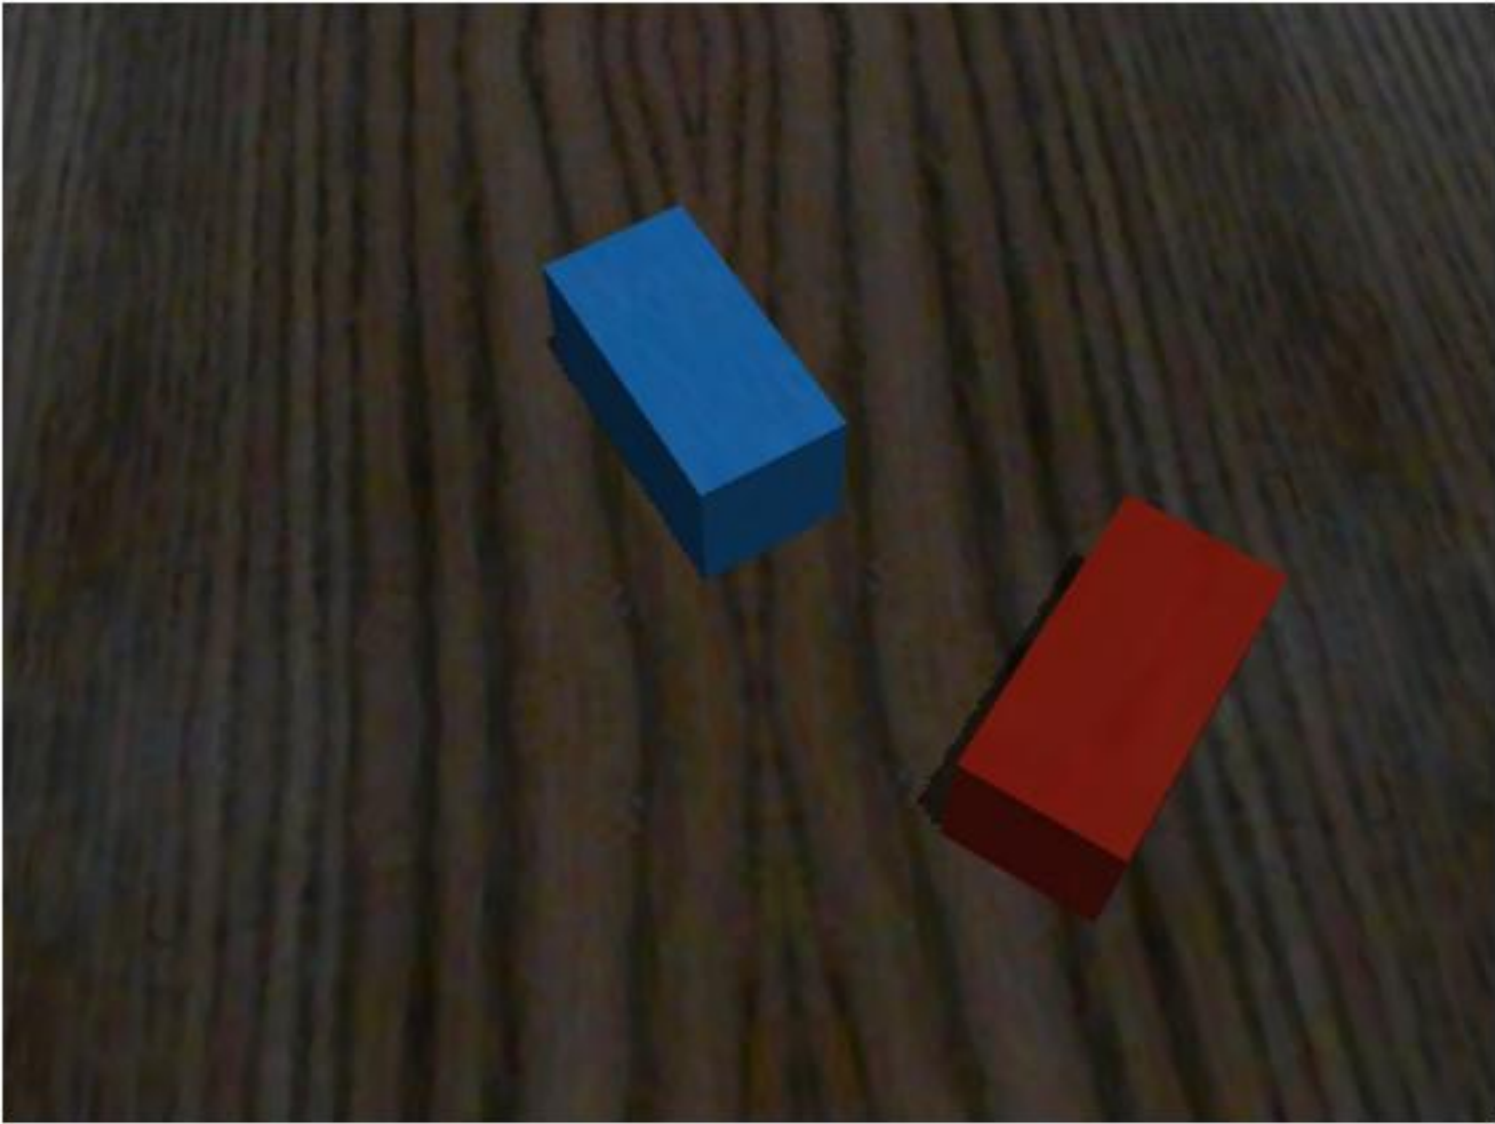

1. green far edge 14.2 cm left edge 8.0 cm turned $+27^\circ$ (far end to the left) flat on the table (TARGET)
2. yellow far edge 14.8 cm left edge 17.4 cm turned $+4^\circ$ (far end to the left) flat on the table
3. red far edge 6.2 cm left edge 6.7 cm turned $+9^\circ$ (far end to the left) flat on the table
4. blue far edge 15.1 cm left edge 8.6 cm turned $+36^\circ$ (far end to the left) lies on green, level

C1-03 [EVAL] target: BLUE

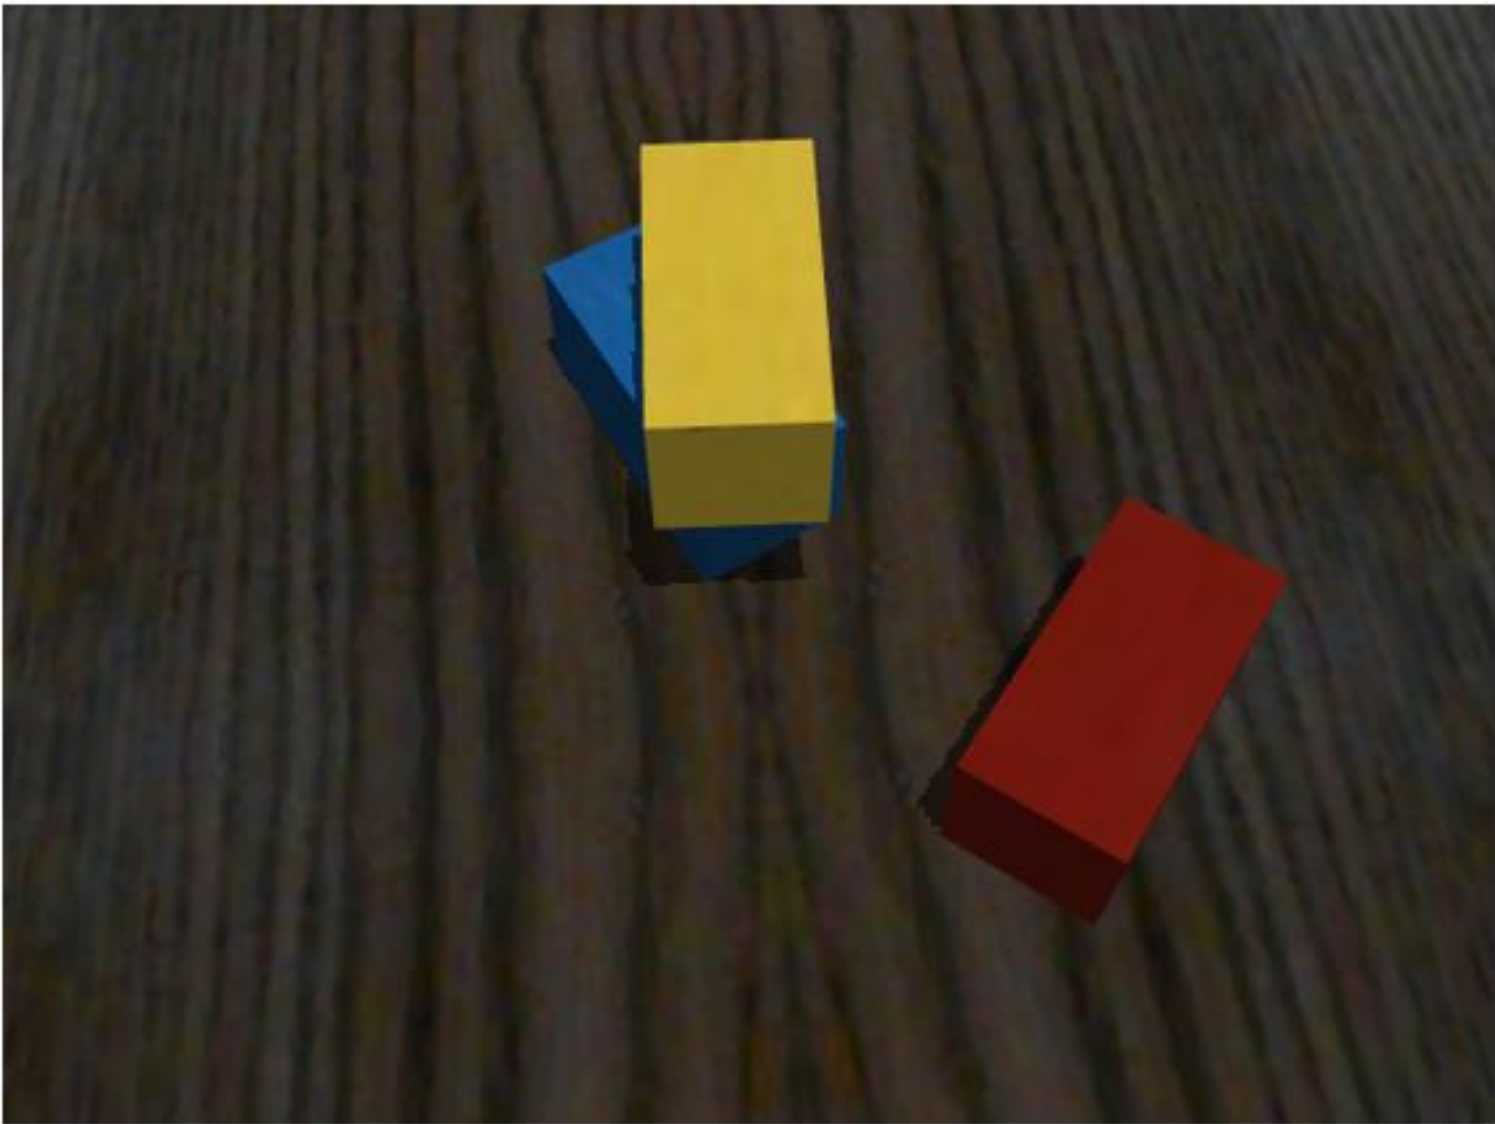

one block on the target; occlusion: partial; best order: yellow → blue (2 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

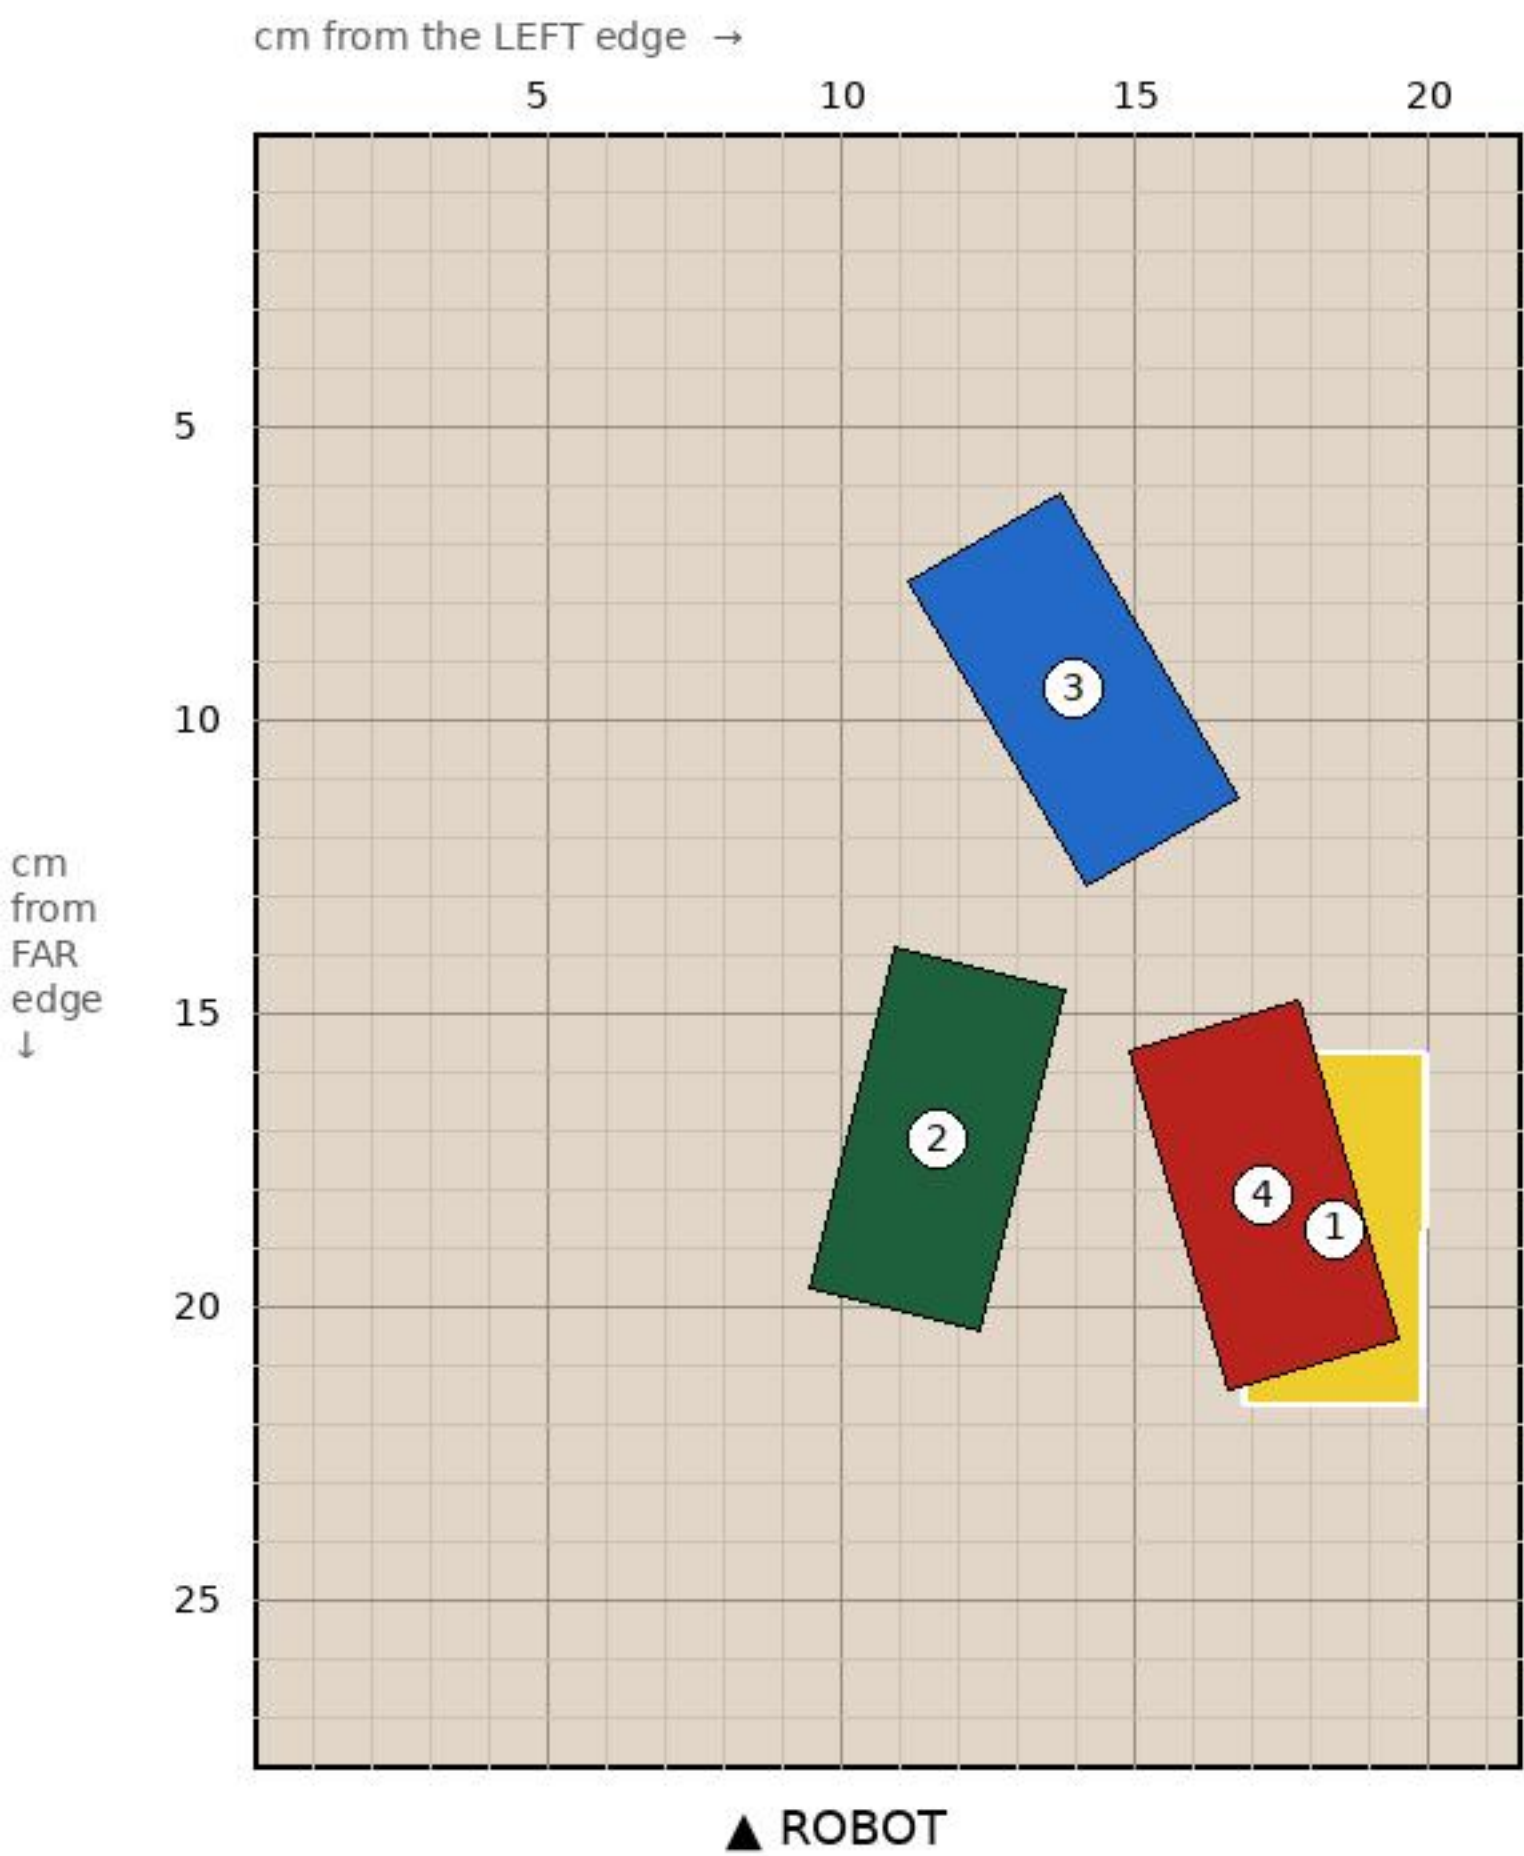

Build in this order (numbers = the circles in the top view). Positions are block centres.

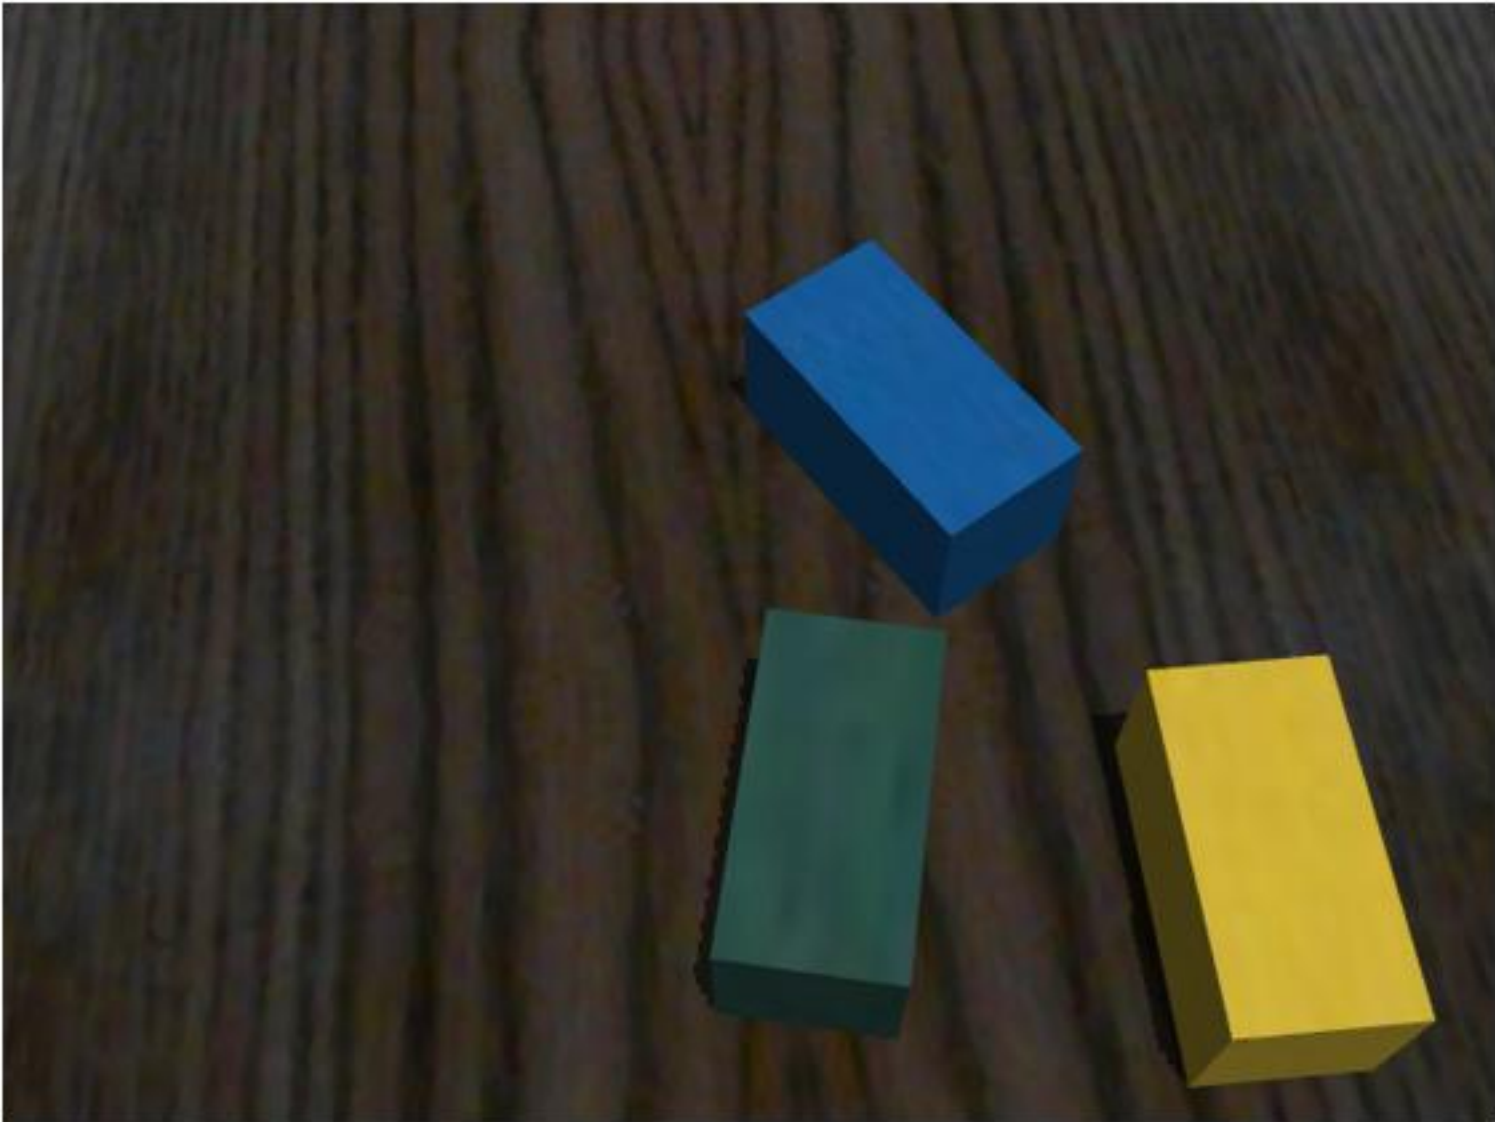

- 1. blue far edge 8.2 cm left edge 10.1 cm turned +25° (far end to the left) flat on the table (TARGET)
- 2. red far edge 15.6 cm left edge 16.7 cm turned -39° (far end to the right) flat on the table
- 3. yellow far edge 9.2 cm left edge 10.9 cm turned -3° (far end to the right) lies on blue, level

C1-04 [EVAL] target: YELLOW

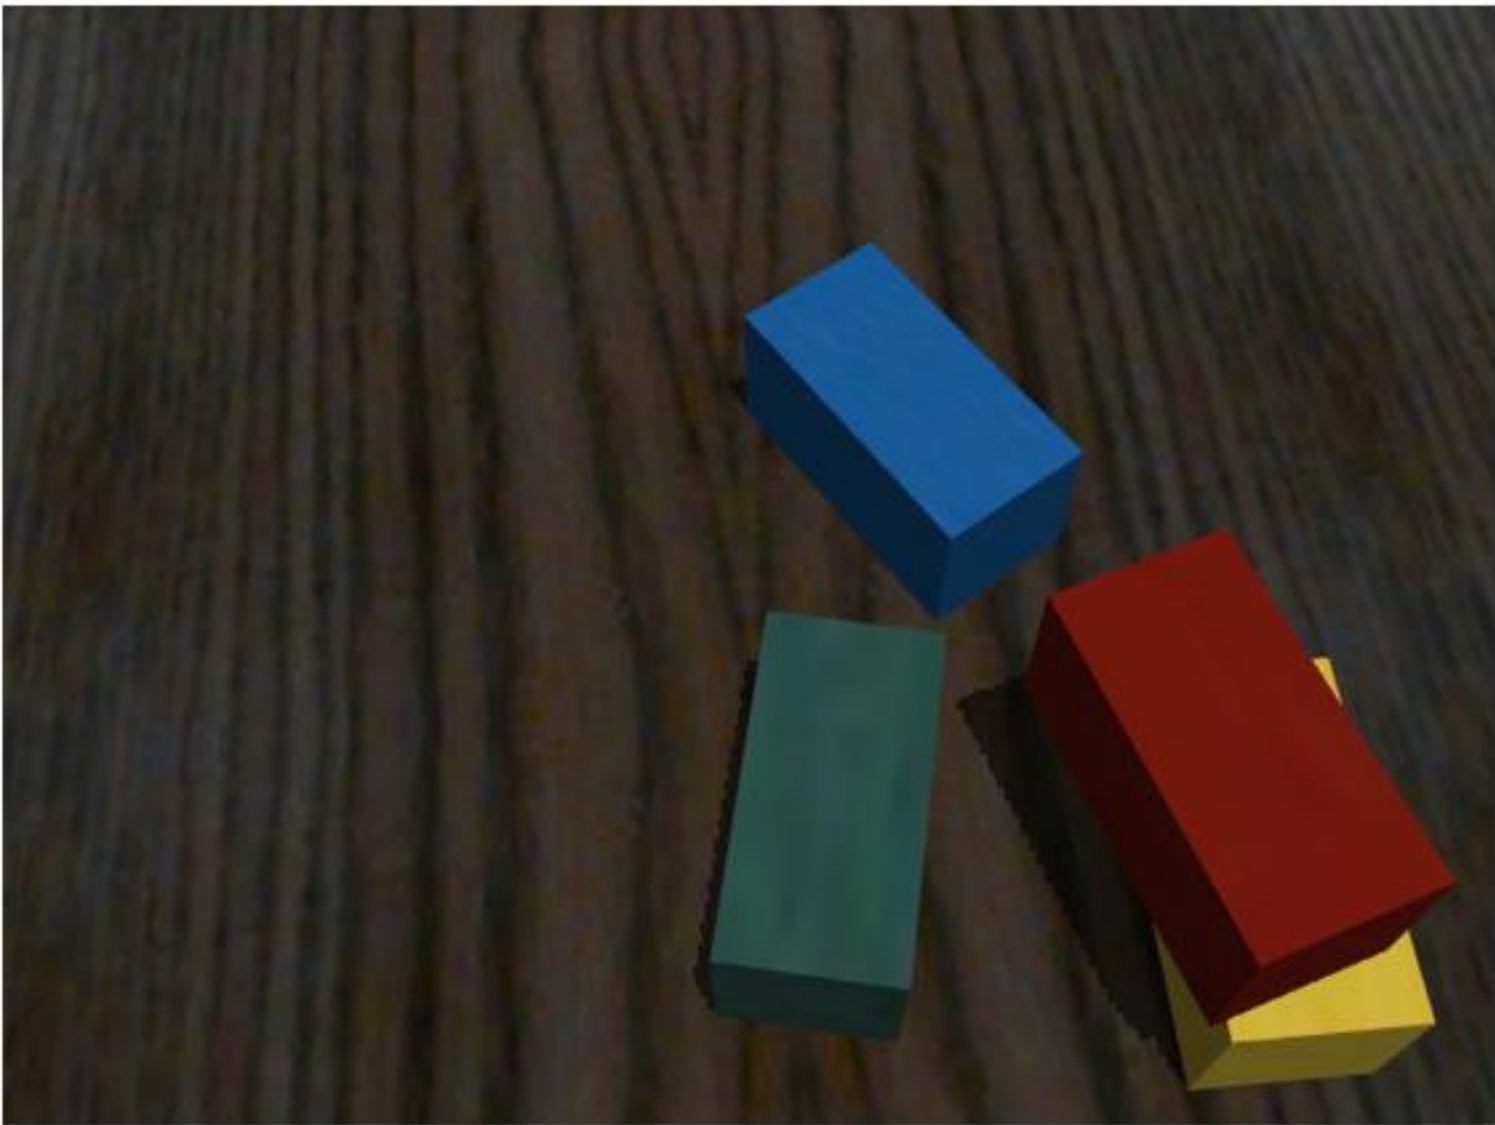

one block on the target; occlusion: partial; best order: red → yellow (2 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

Build in this order (numbers = the circles in the top view). Positions are block centres.

1. yellow far edge 18.7 cm left edge 18.4 cm turned -1° (straight) flat on the table (TARGET)

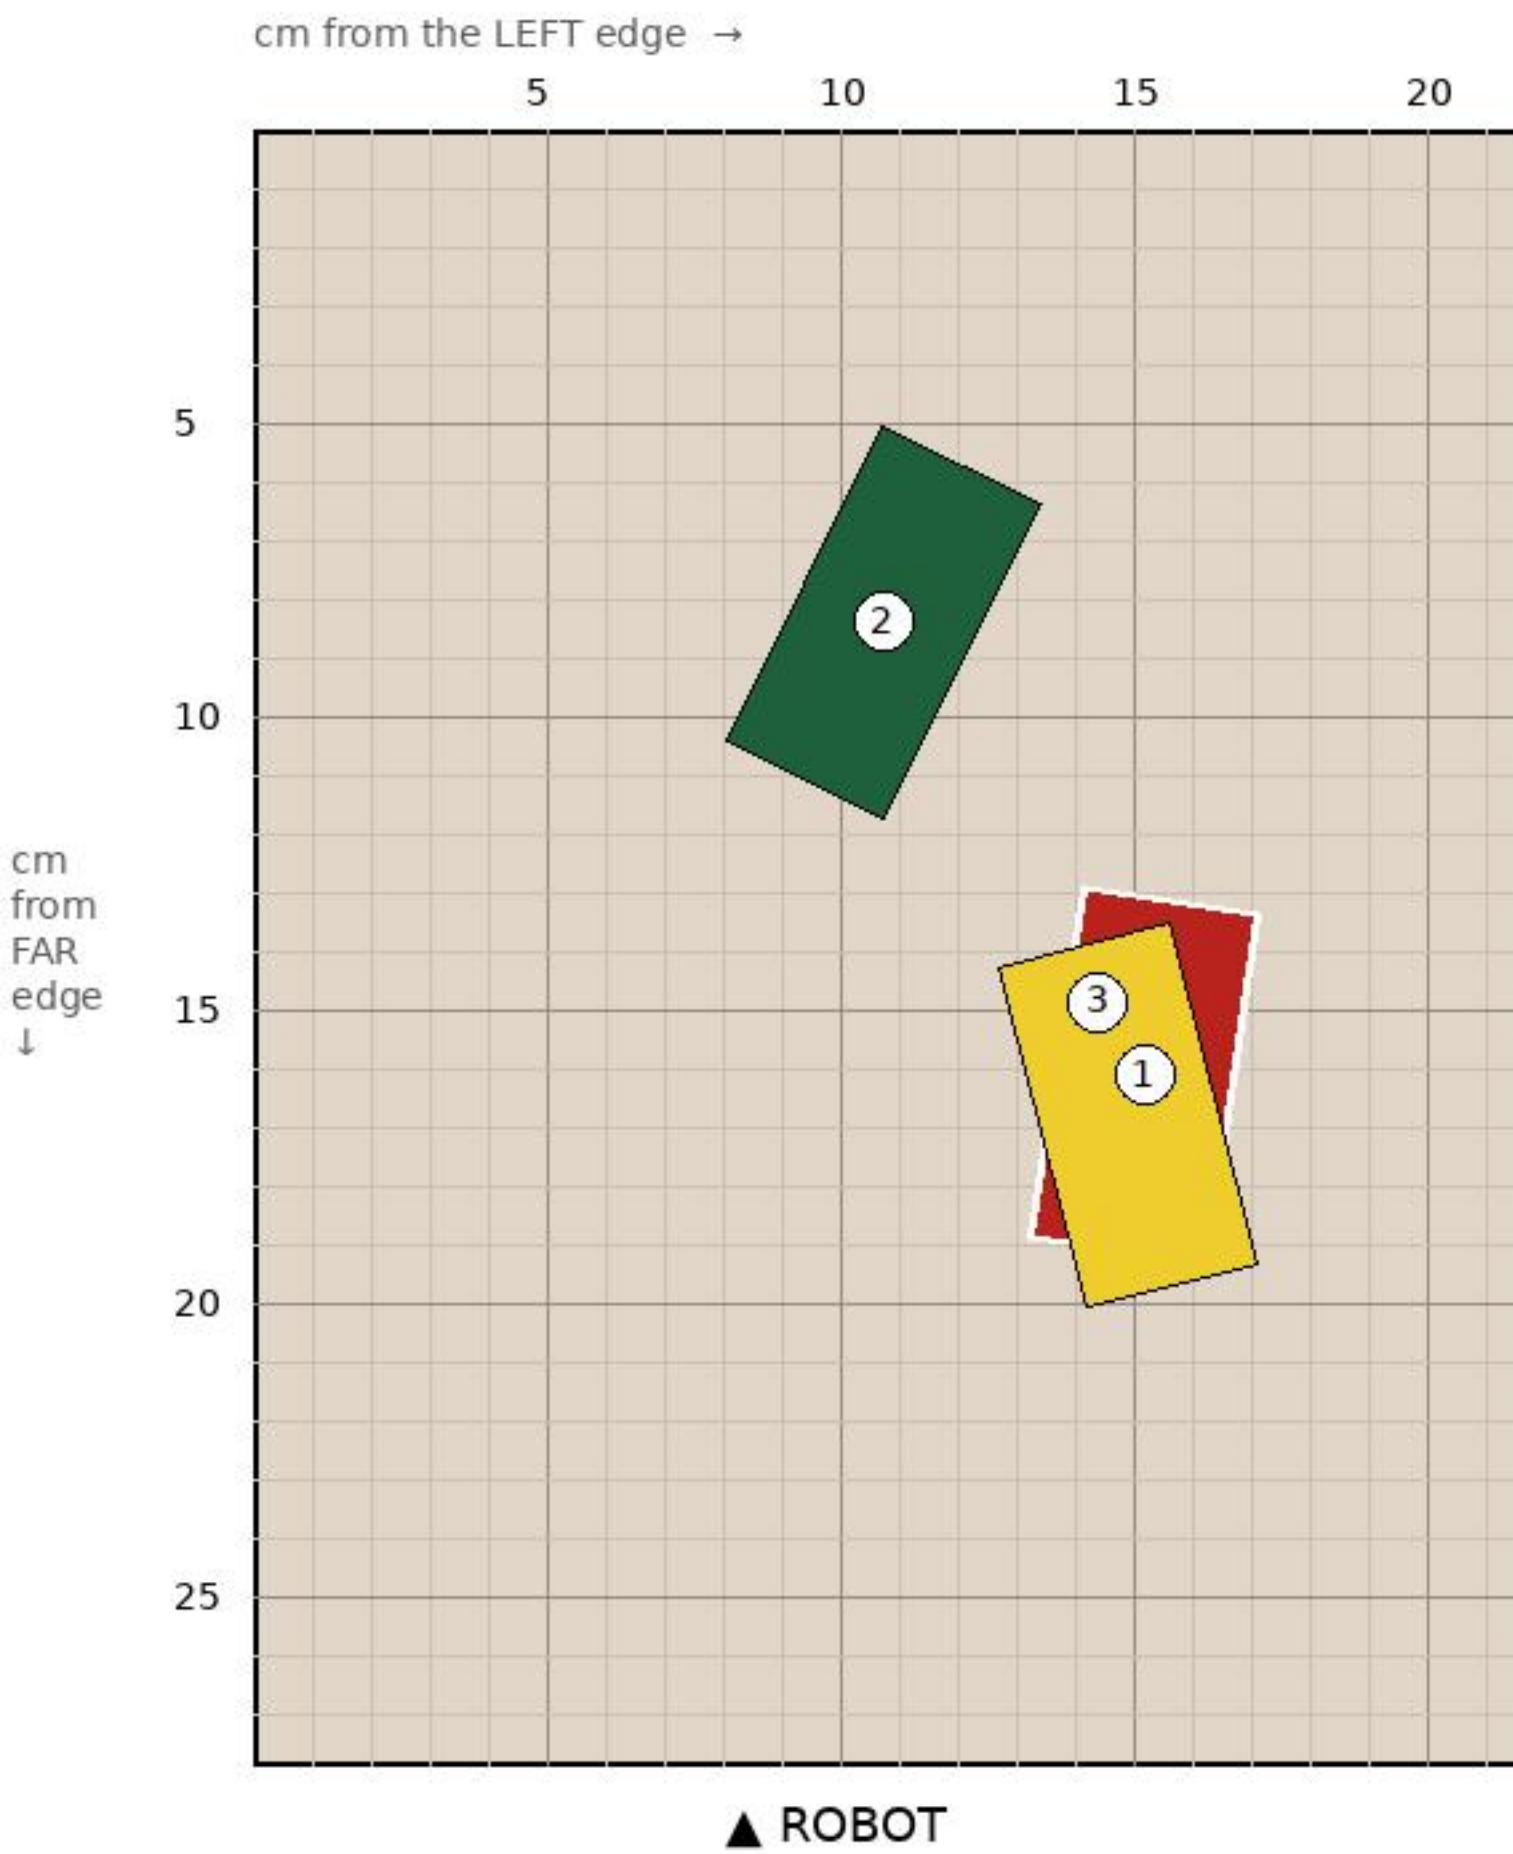

2. green far edge 17.2 cm left edge 11.7 cm turned -14° (far end to the right) flat on the table

3. blue far edge 9.5 cm left edge 14.0 cm turned +30° (far end to the left) flat on the table

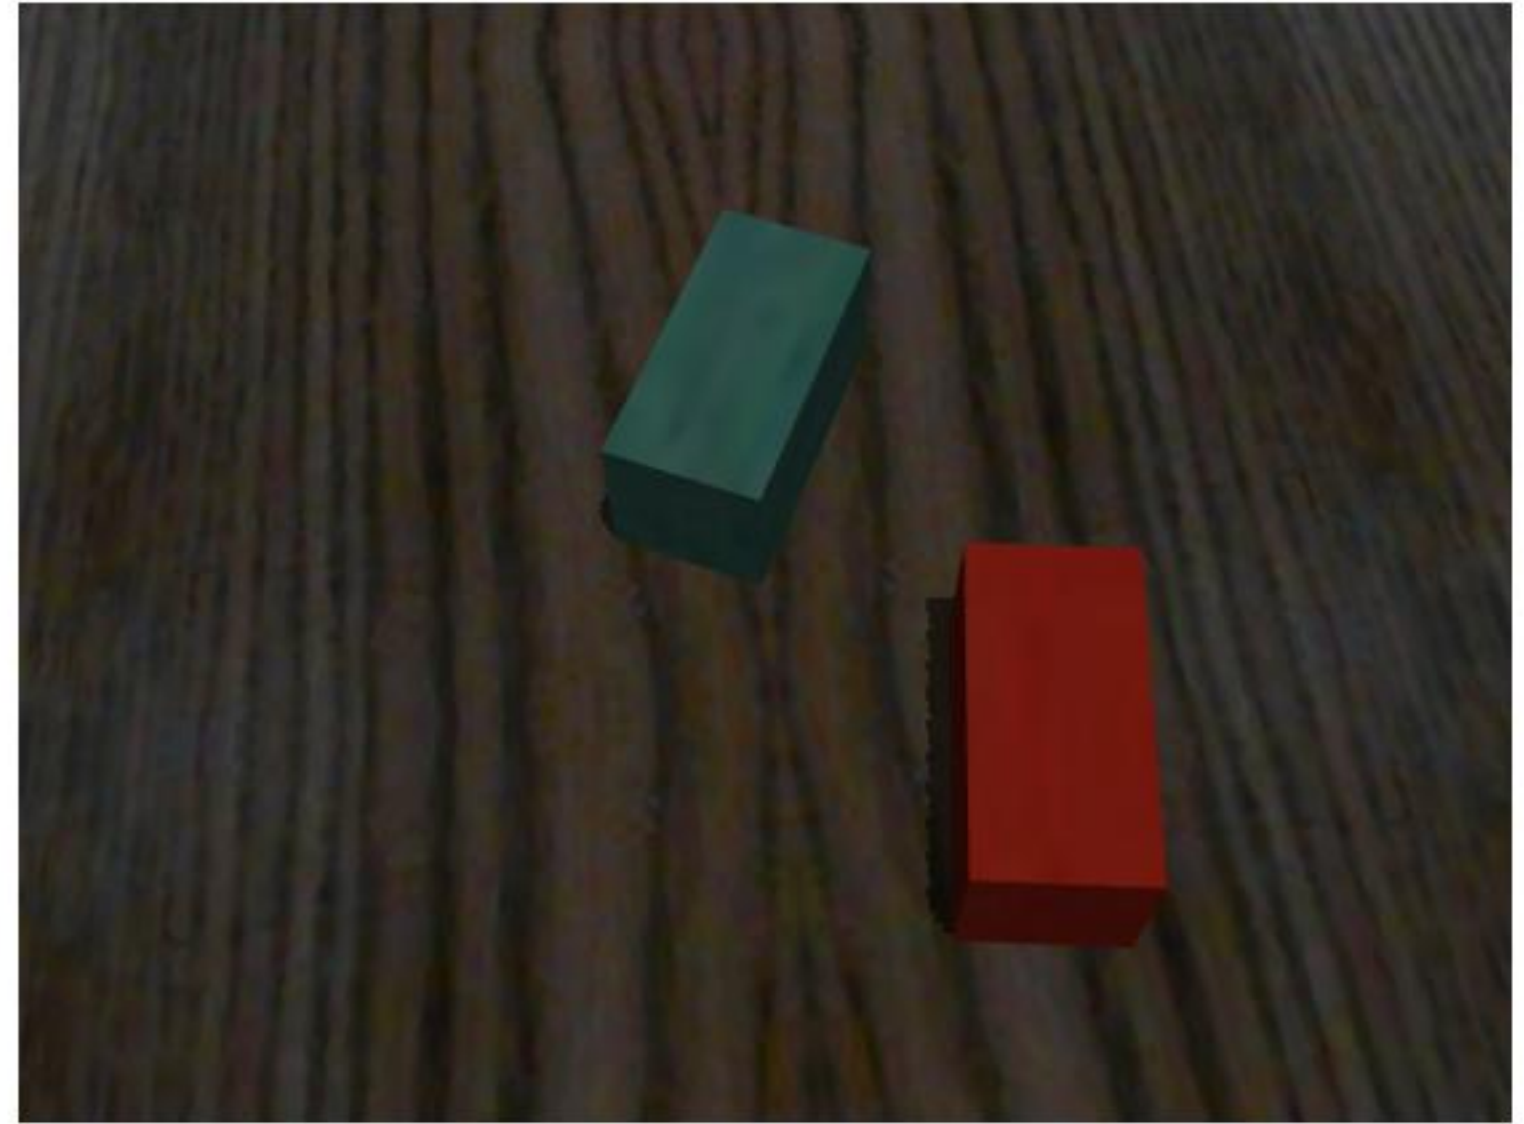

4. red far edge 18.1 cm left edge 17.2 cm turned +16° (far end to the left) lies on yellow, level

C1-05 [EVAL] target: RED

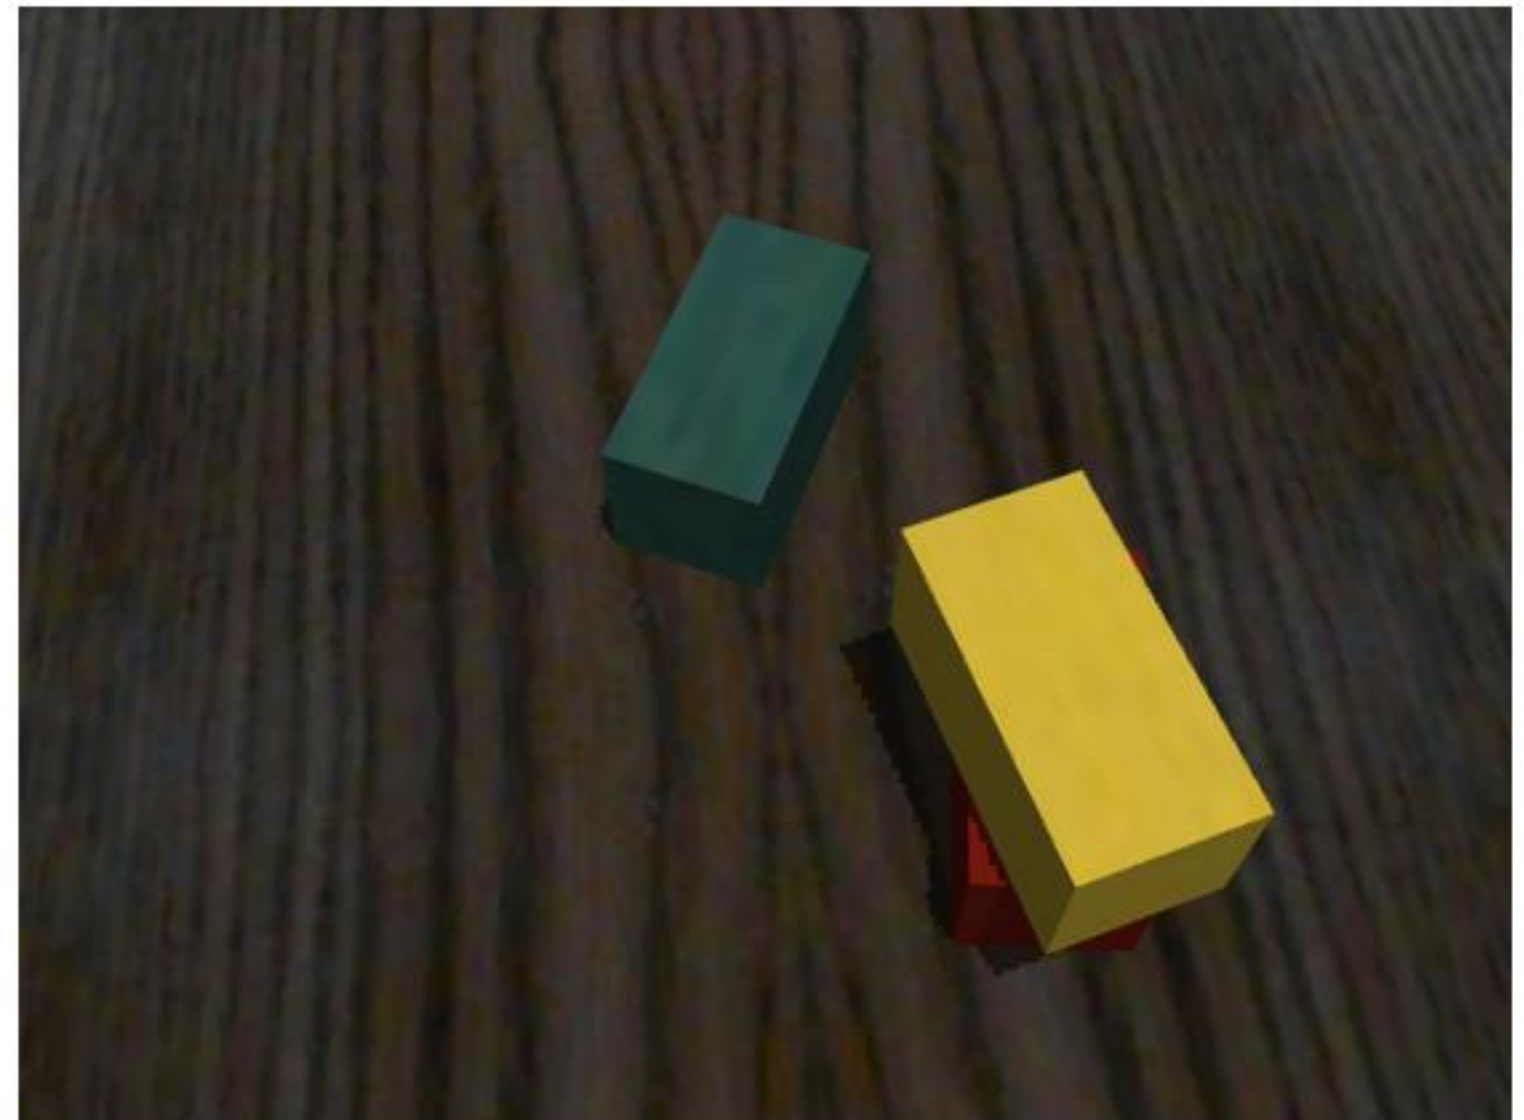

one block on the target; occlusion: partial; best order: yellow → red (2 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

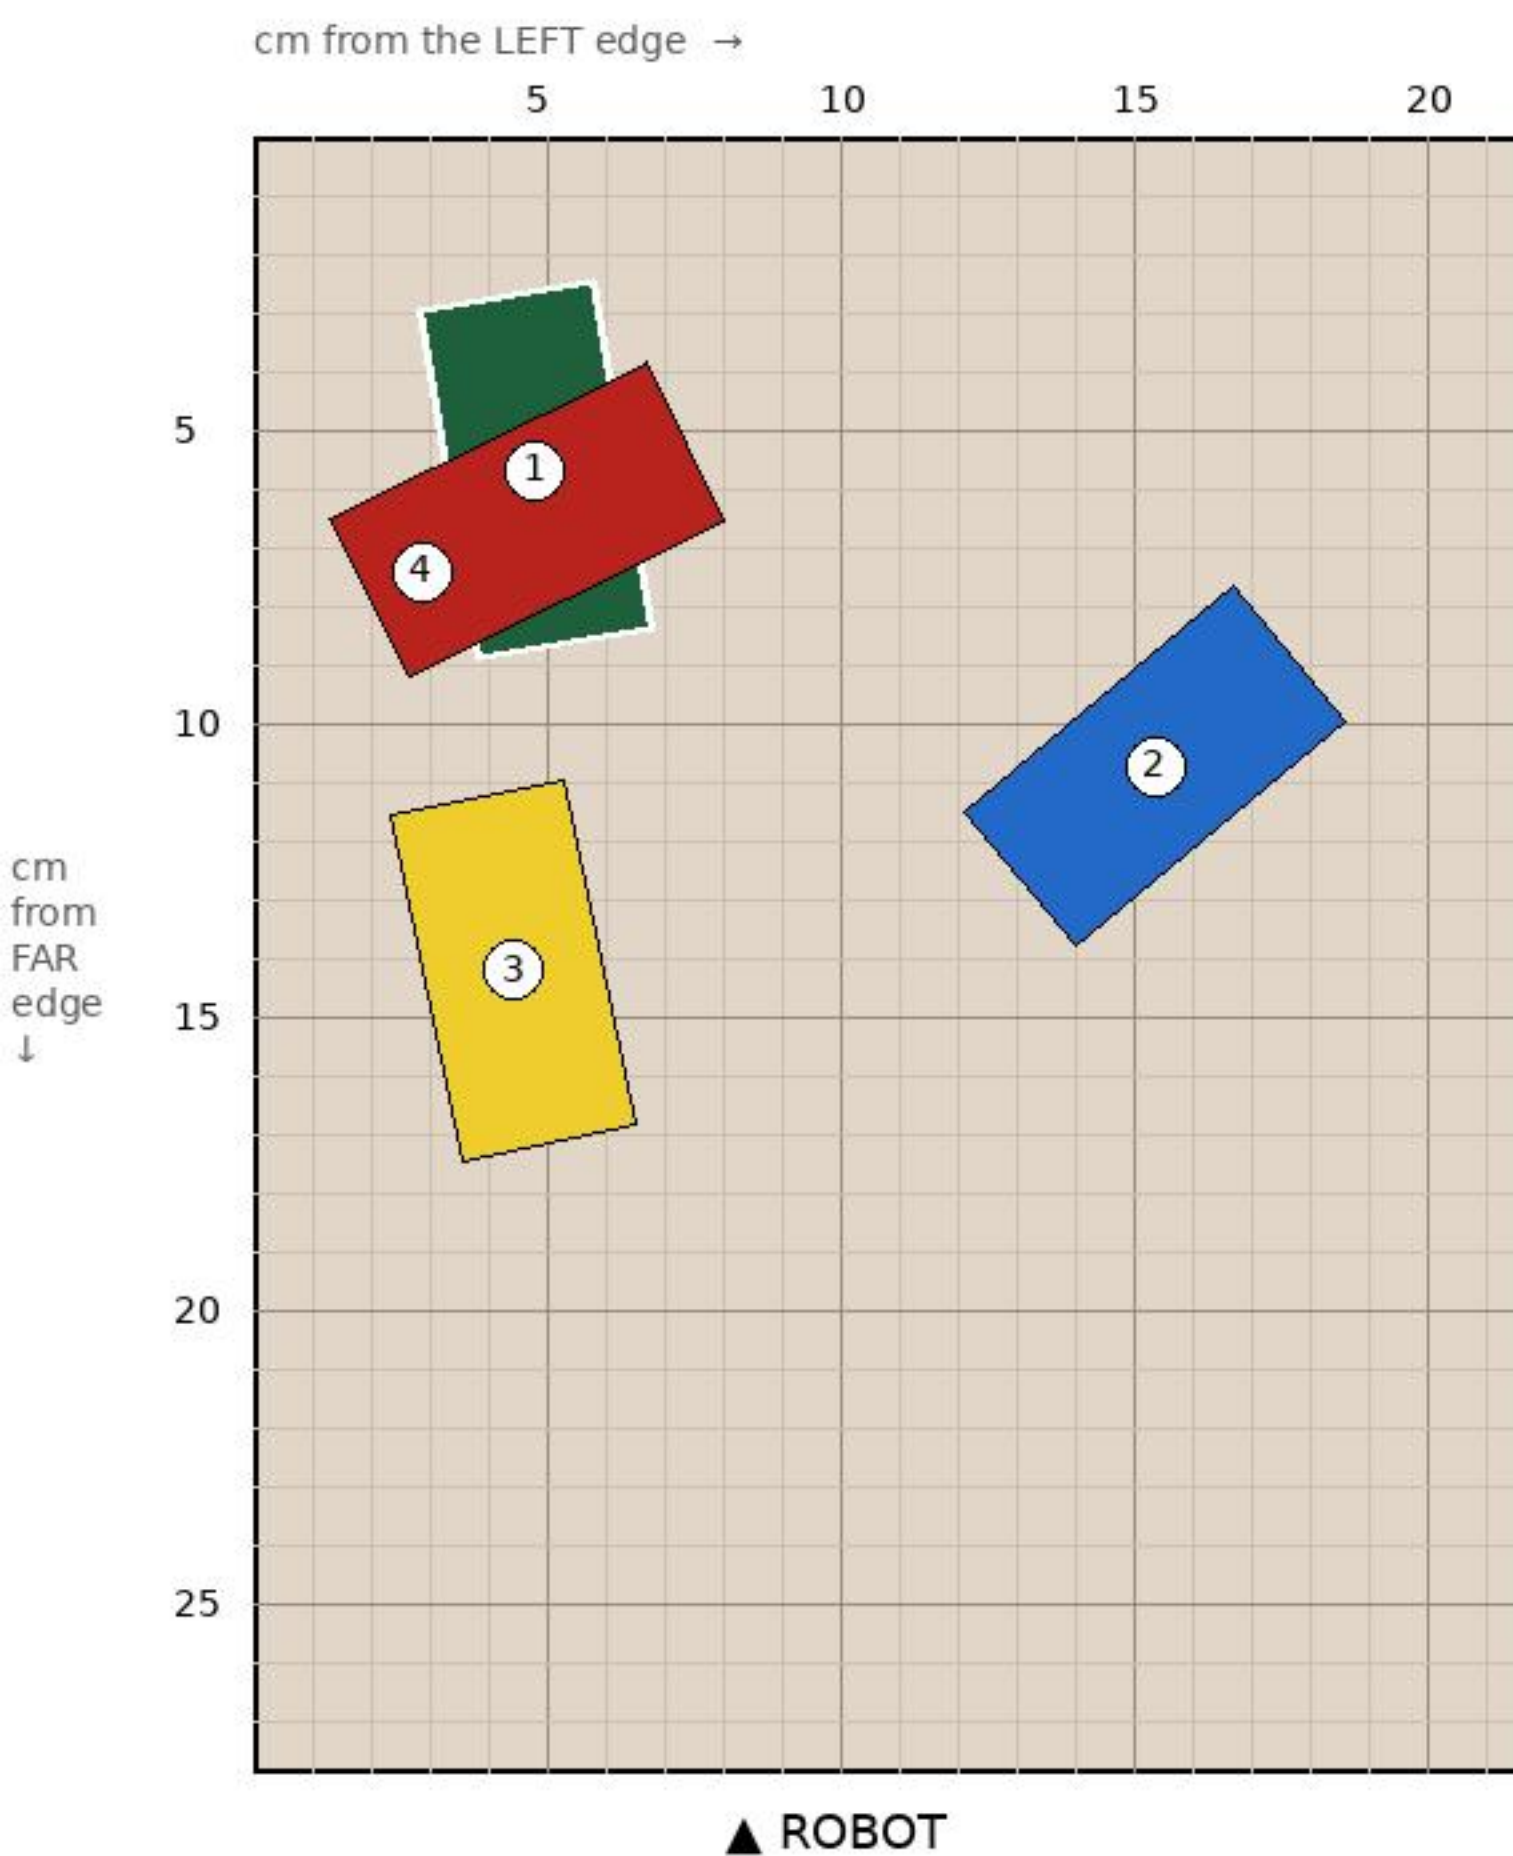

Build in this order (numbers = the circles in the top view). Positions are block centres.

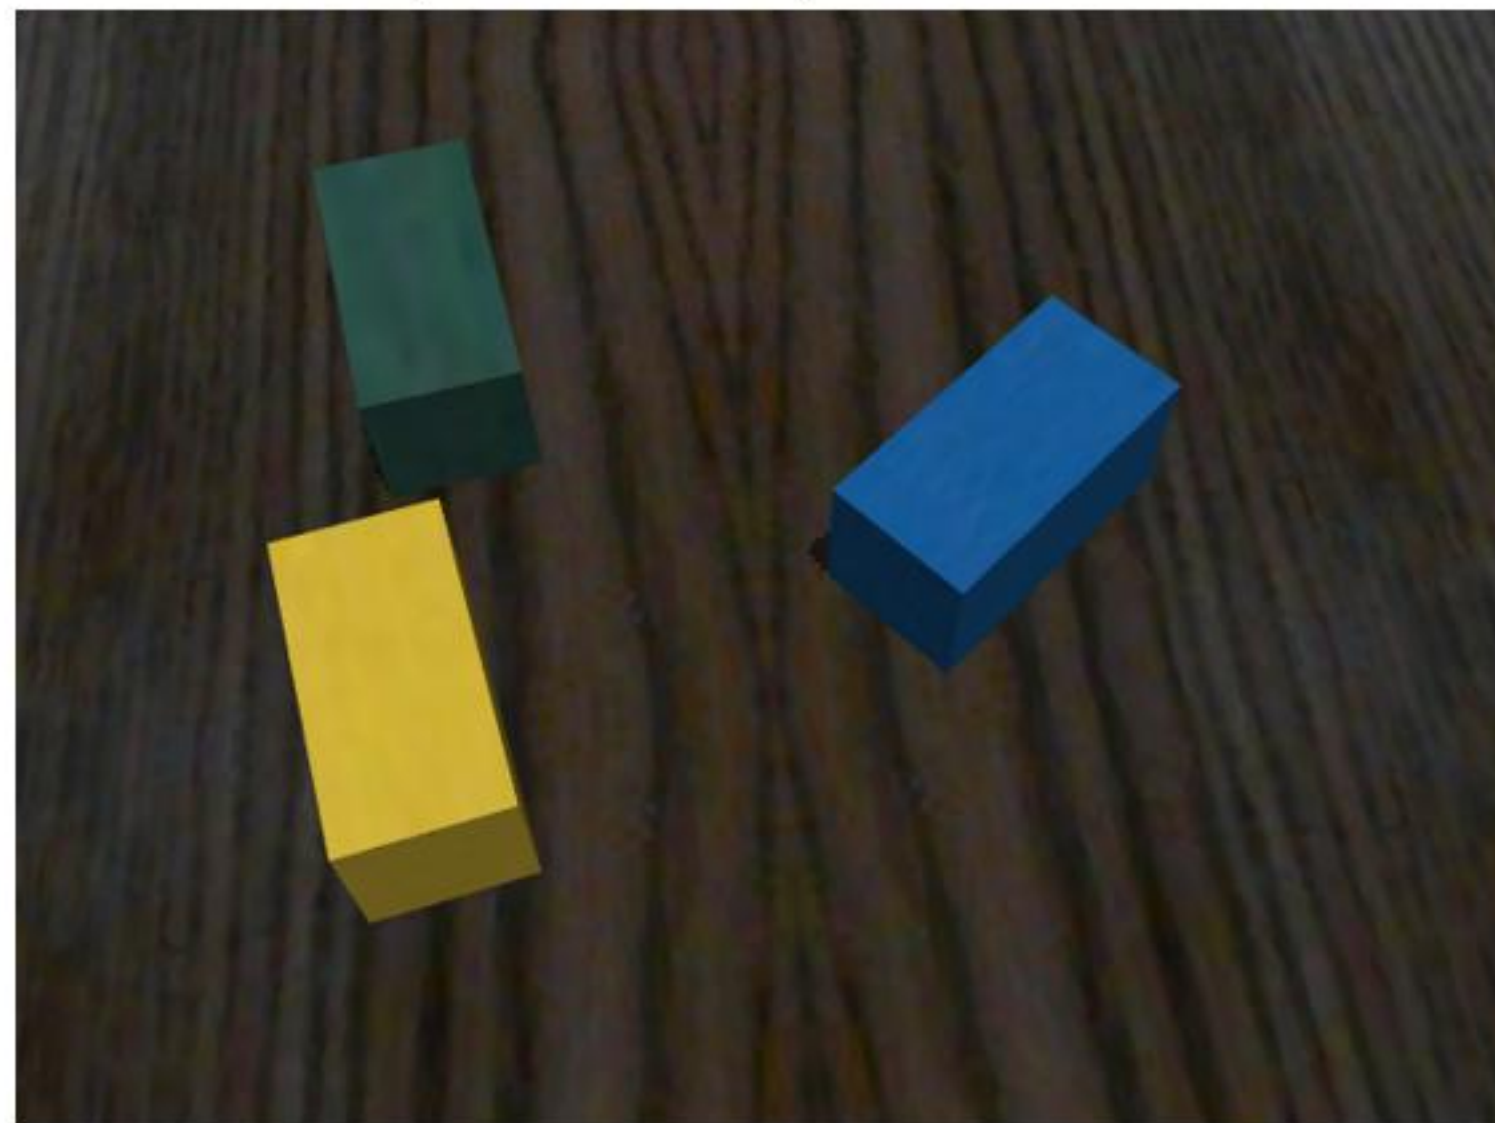

1. red far edge 16.1 cm left edge 15.2 cm turned -8° (far end to the right) flat on the table (TARGET)
2. green far edge 8.4 cm left edge 10.7 cm turned -26° (far end to the right) flat on the table
3. yellow far edge 16.8 cm left edge 14.9 cm turned $+15^\circ$ (far end to the left) lies on red, level

C1-06 [EVAL] target: GREEN

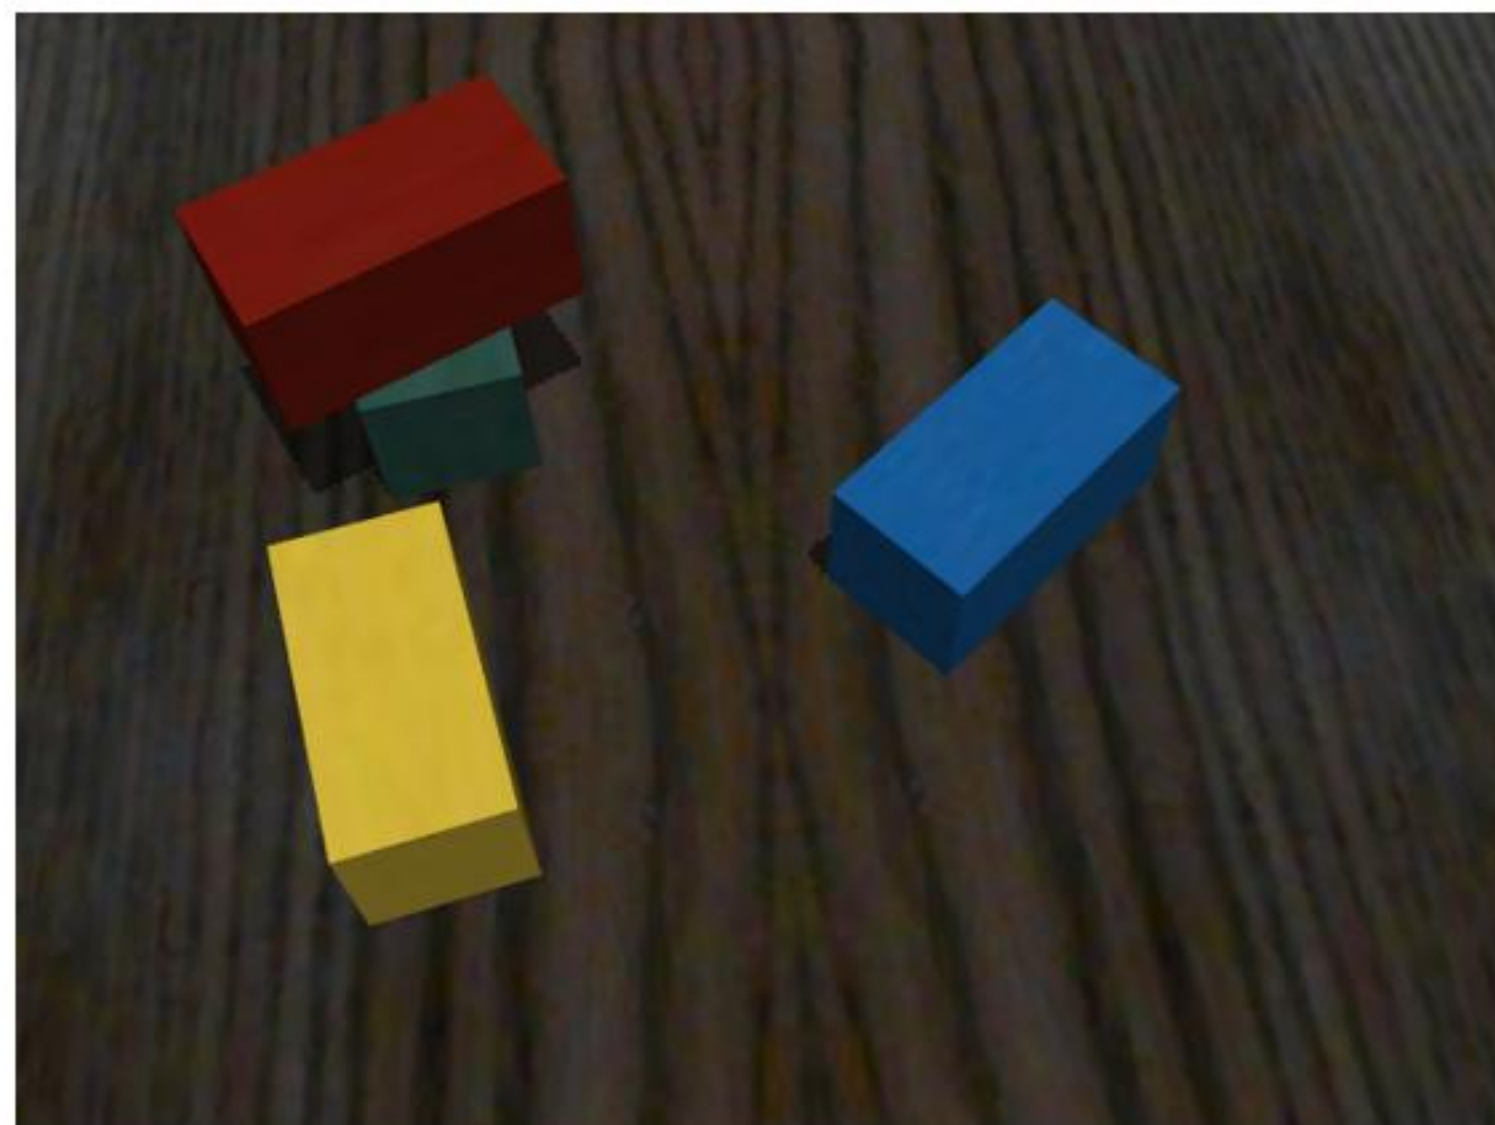

one block on the target; occlusion: partial; best order: red → green (2 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

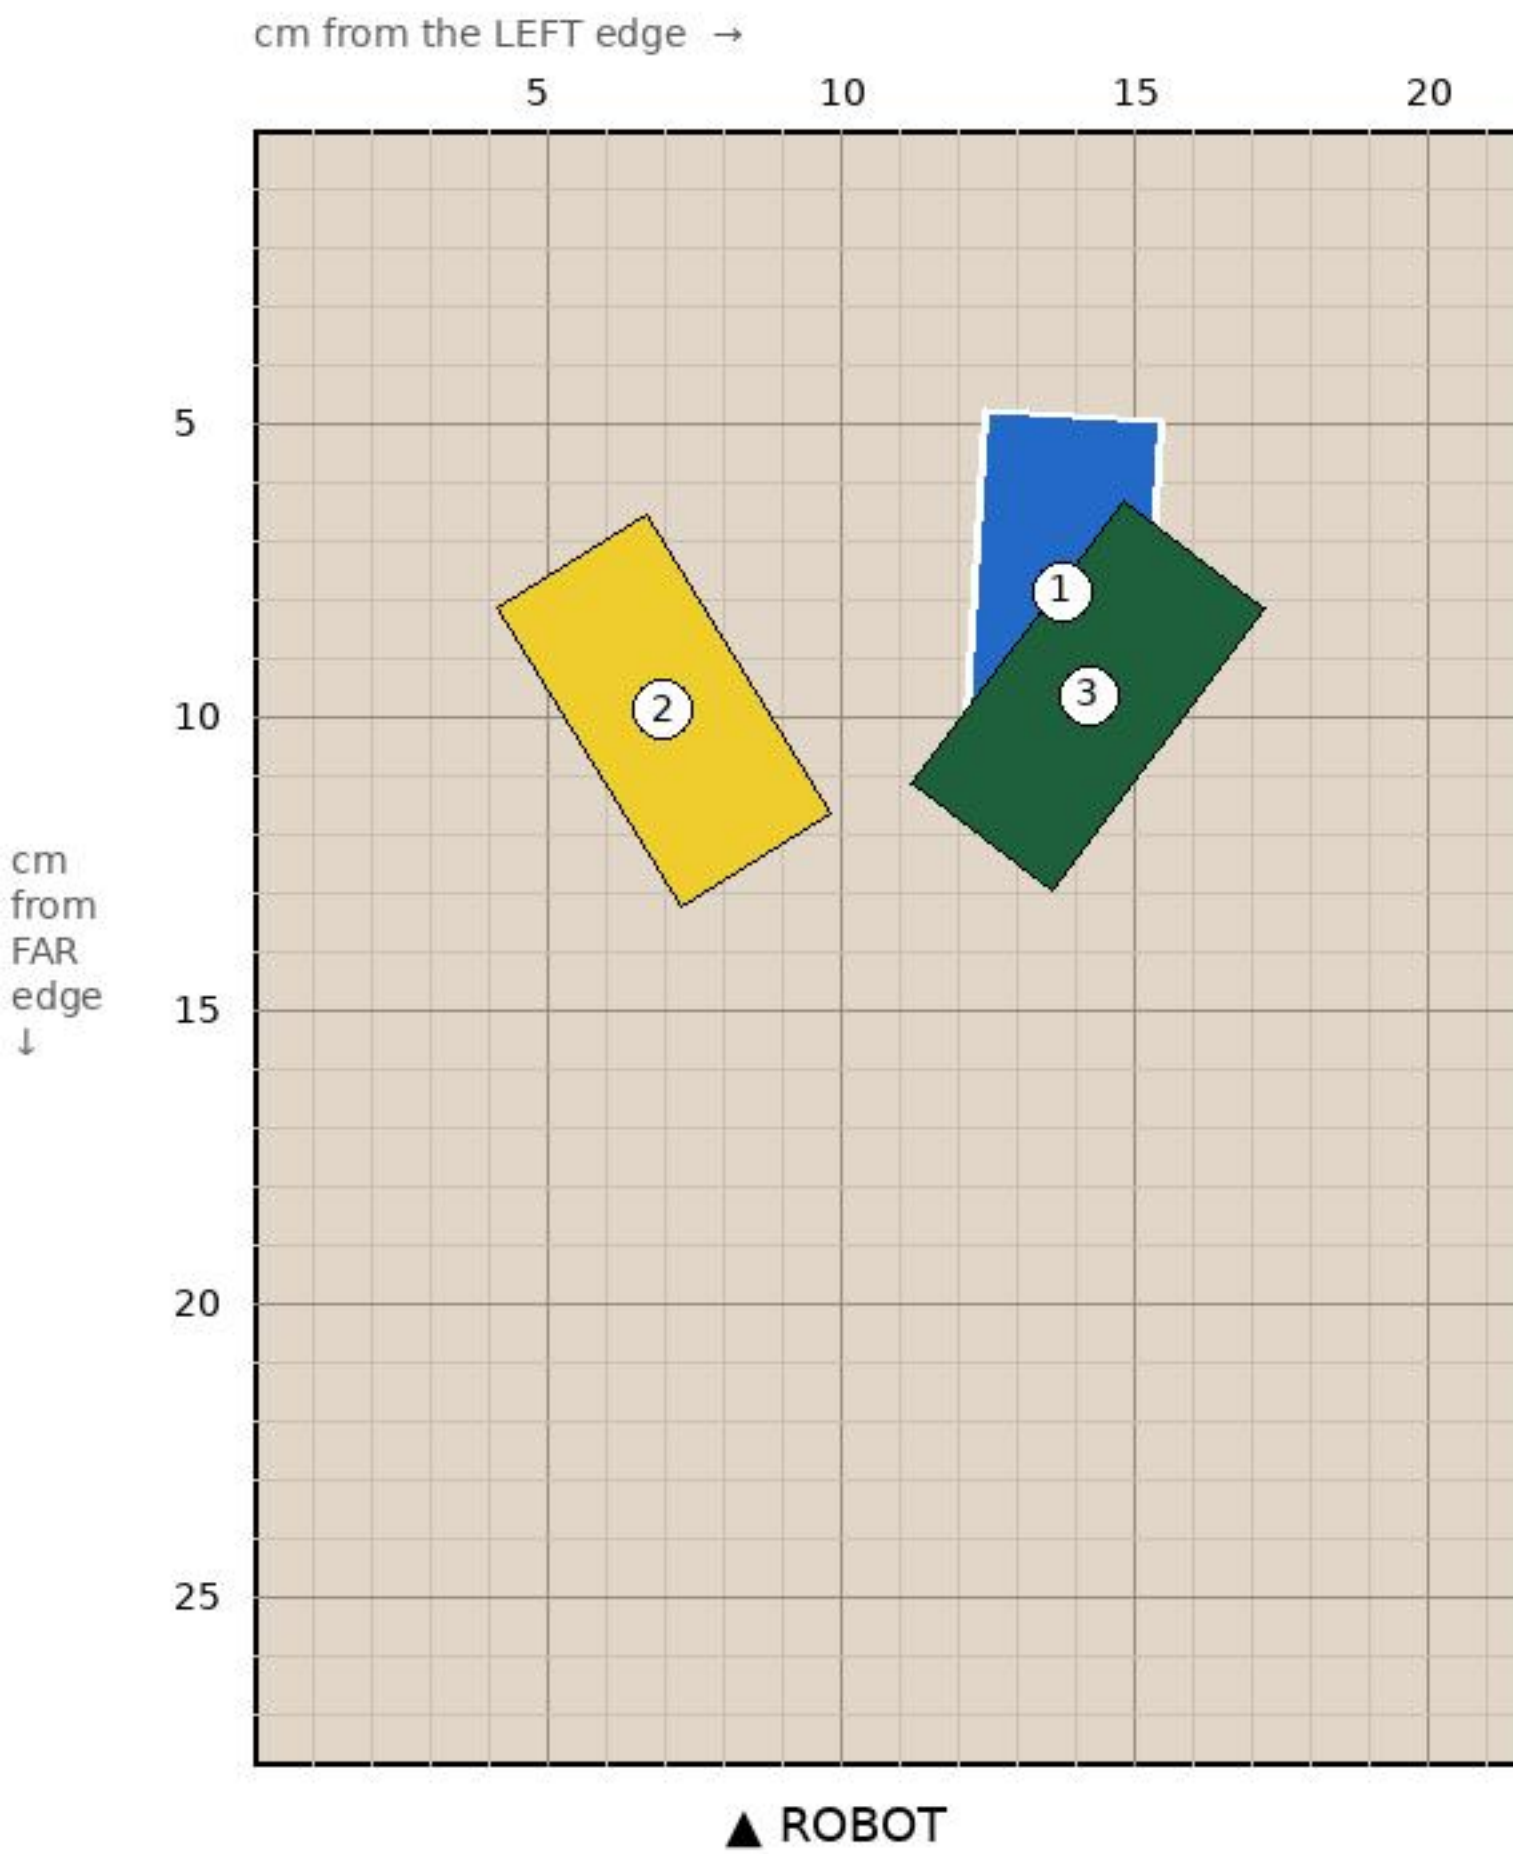

Build in this order (numbers = the circles in the top view). Positions are block centres.

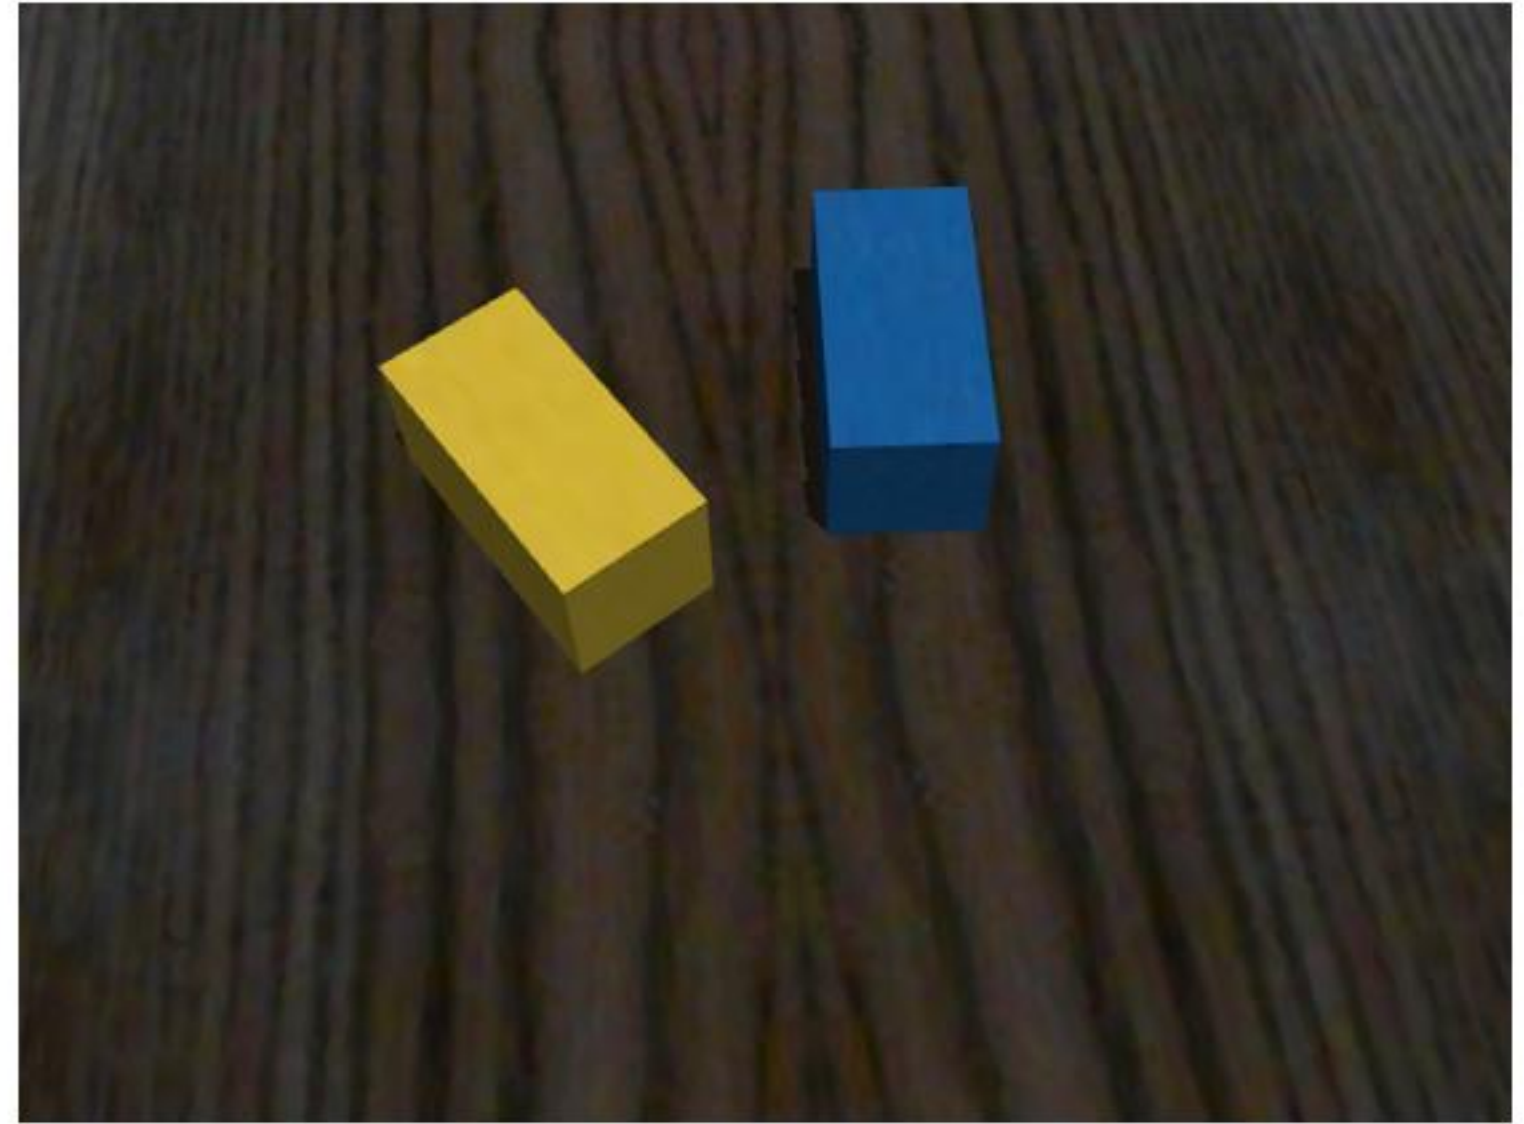

1. green far edge 5.7 cm left edge 4.8 cm turned $+10^\circ$ (far end to the left) flat on the table (TARGET)
2. blue far edge 10.7 cm left edge 15.4 cm turned -50° (far end to the right) flat on the table
3. yellow far edge 14.2 cm left edge 4.4 cm turned $+12^\circ$ (far end to the left) flat on the table
4. red far edge 6.5 cm left edge 4.7 cm turned -64° (far end to the right) lies on green, level

C1-07 [EVAL] target: BLUE

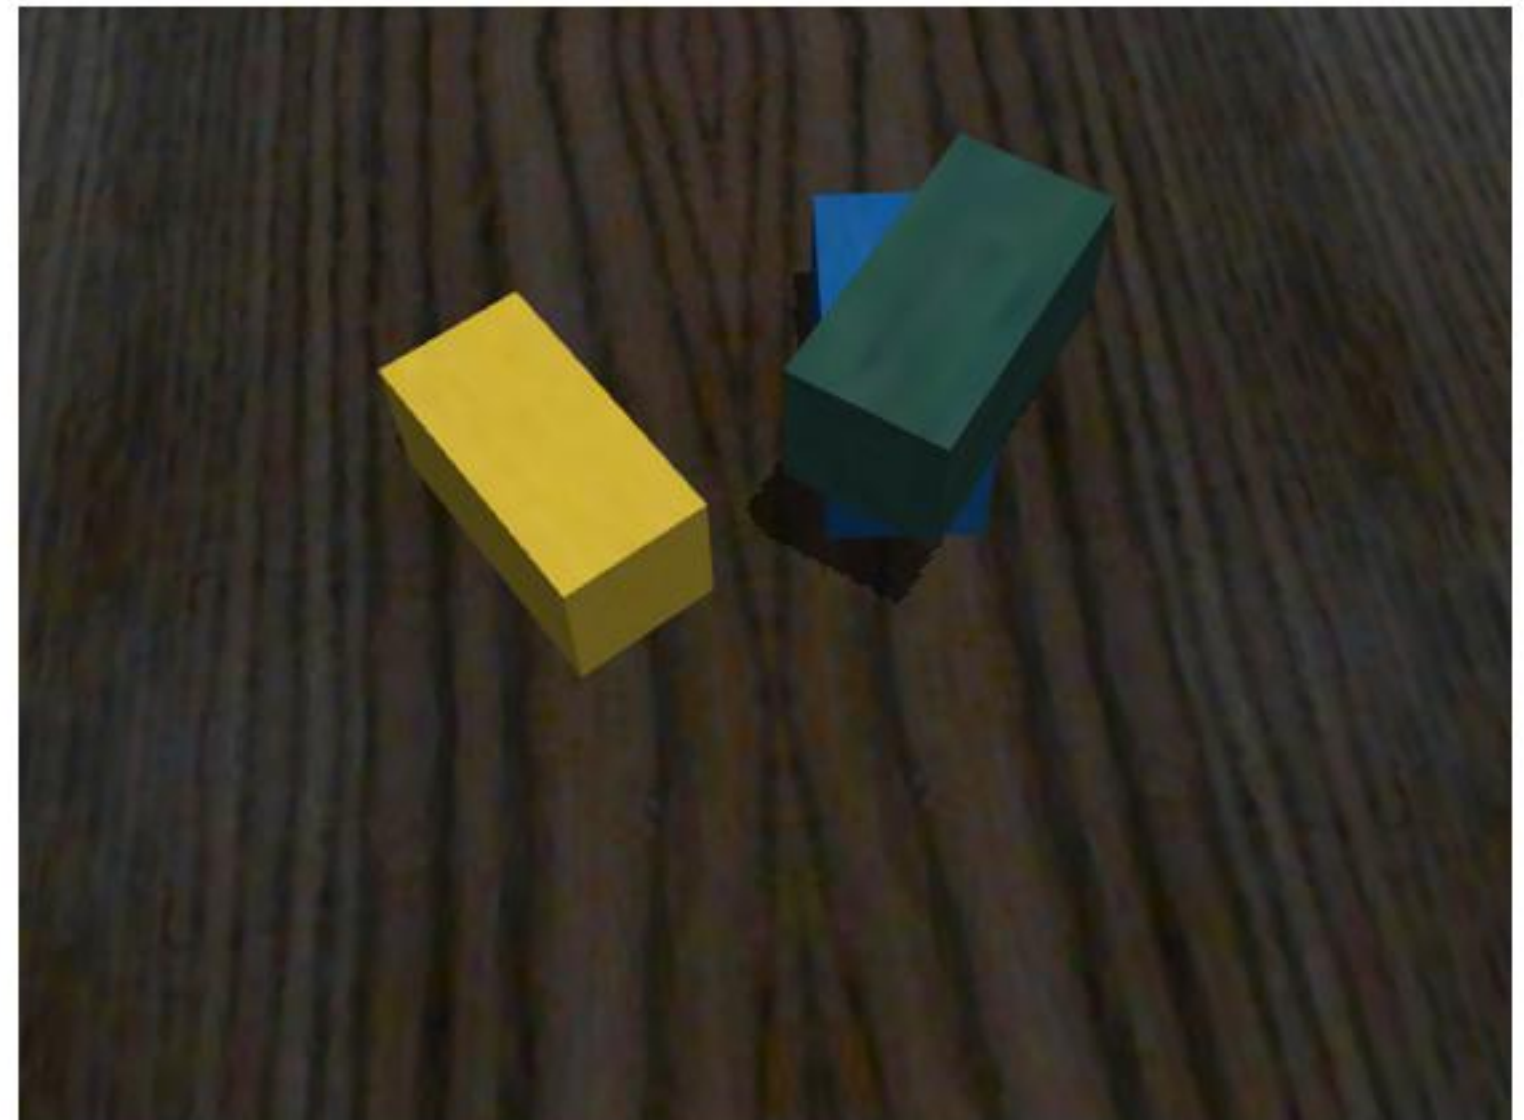

one block on the target; occlusion: partial; best order: green → blue (2 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

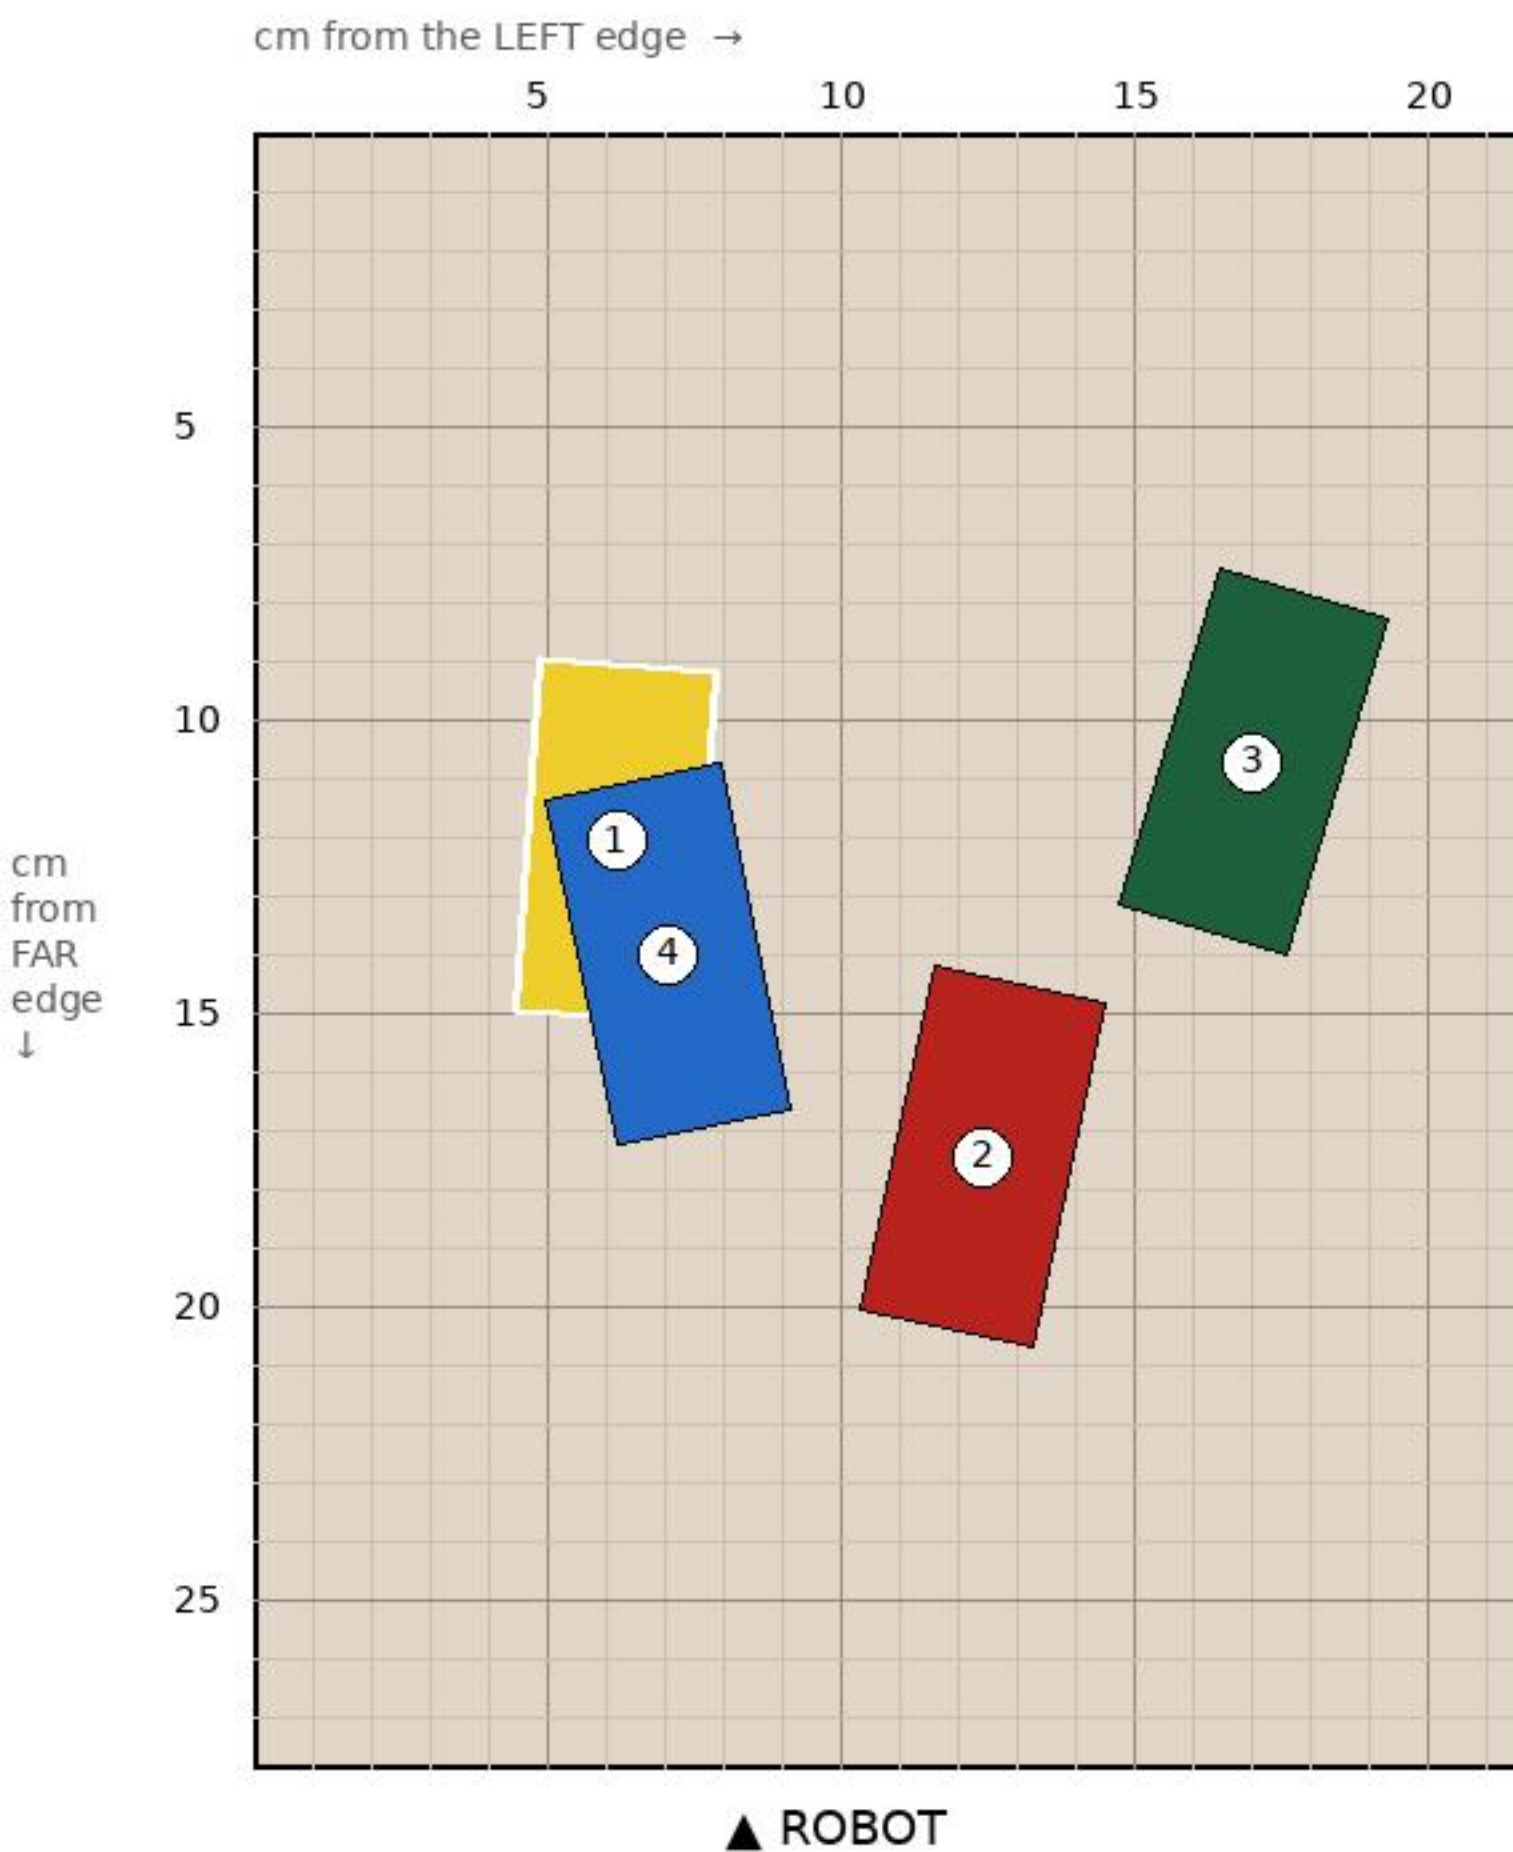

Build in this order (numbers = the circles in the top view). Positions are block centres.

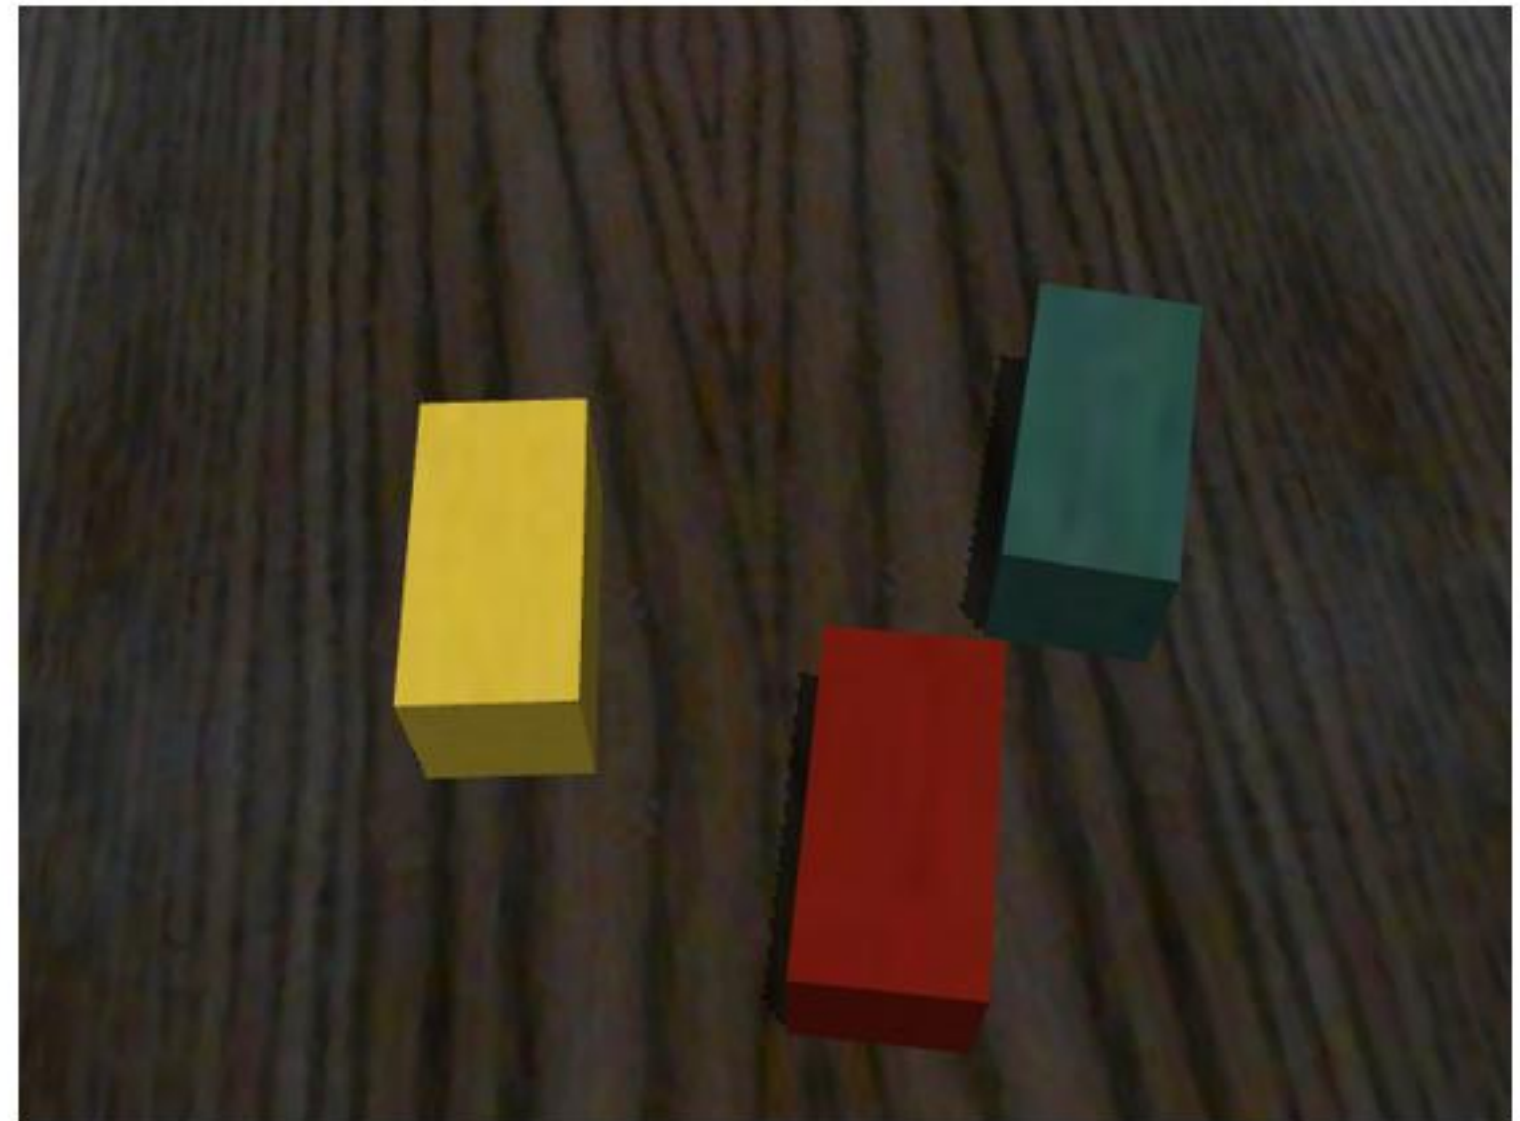

1. blue far edge 7.9 cm left edge 13.8 cm turned -4° (far end to the right) flat on the table (TARGET)
2. yellow far edge 9.9 cm left edge 7.0 cm turned $+32^\circ$ (far end to the left) flat on the table
3. green far edge 9.7 cm left edge 14.2 cm turned -37° (far end to the right) lies on blue, level

C1-08 [EVAL] target: YELLOW

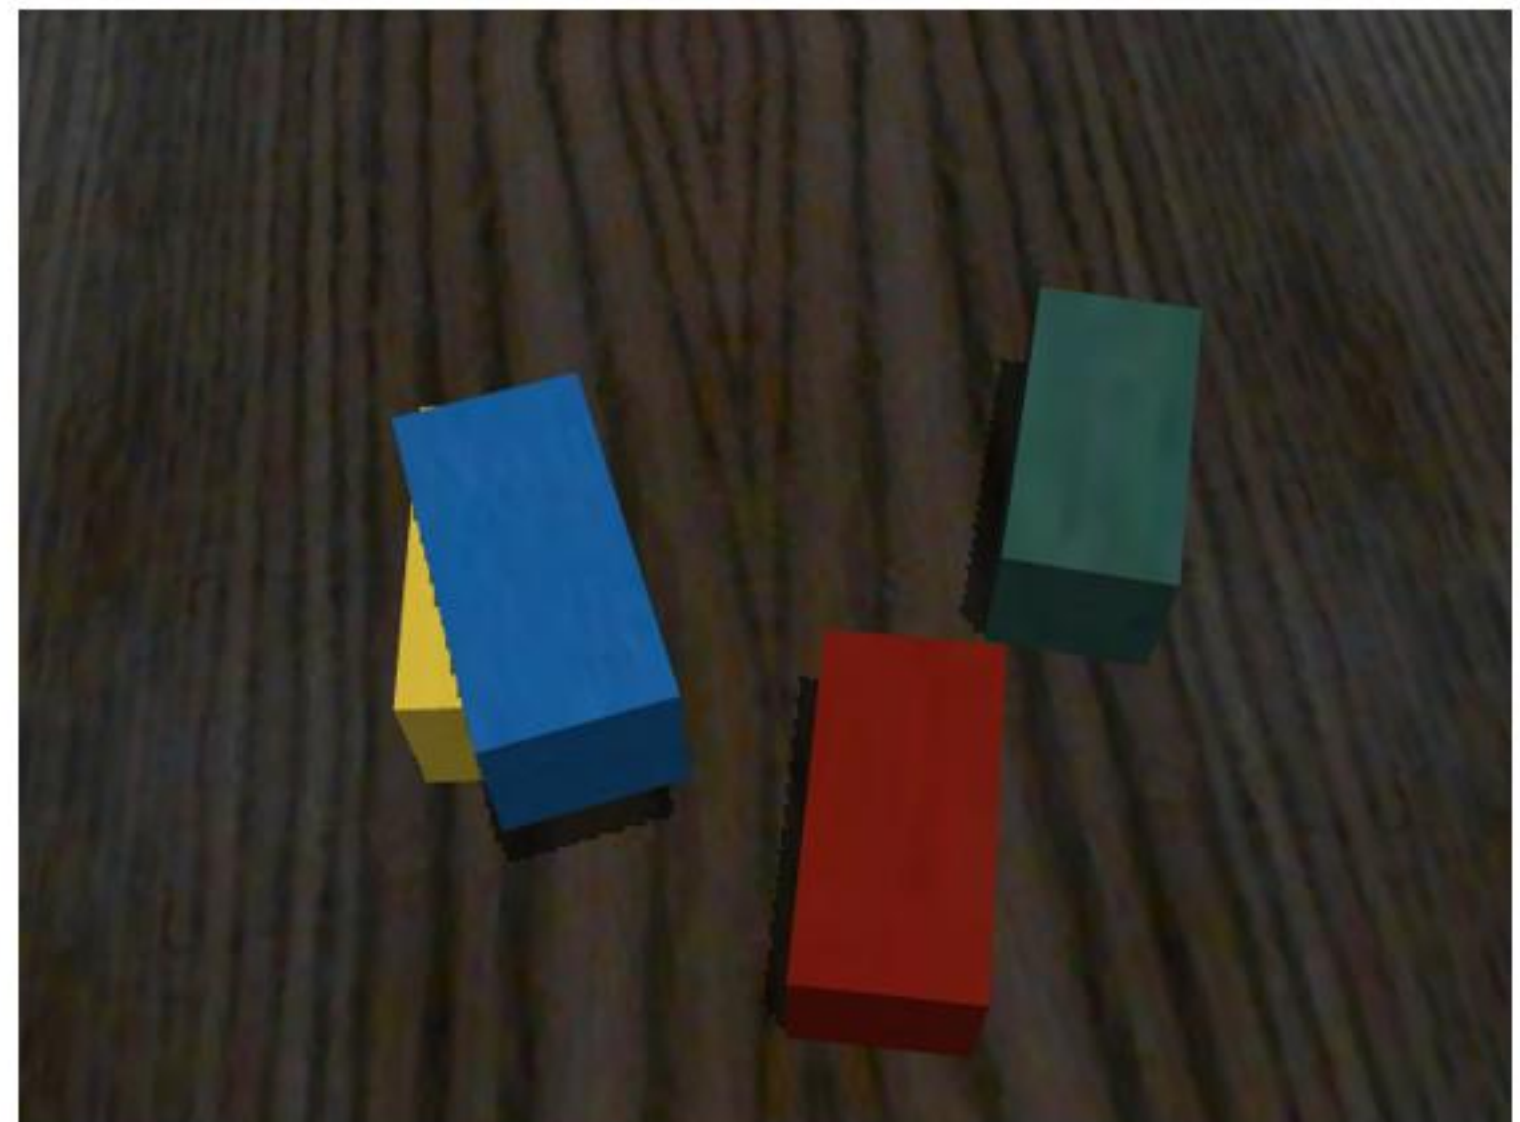

one block on the target; occlusion: partial; best order: blue → yellow (2 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

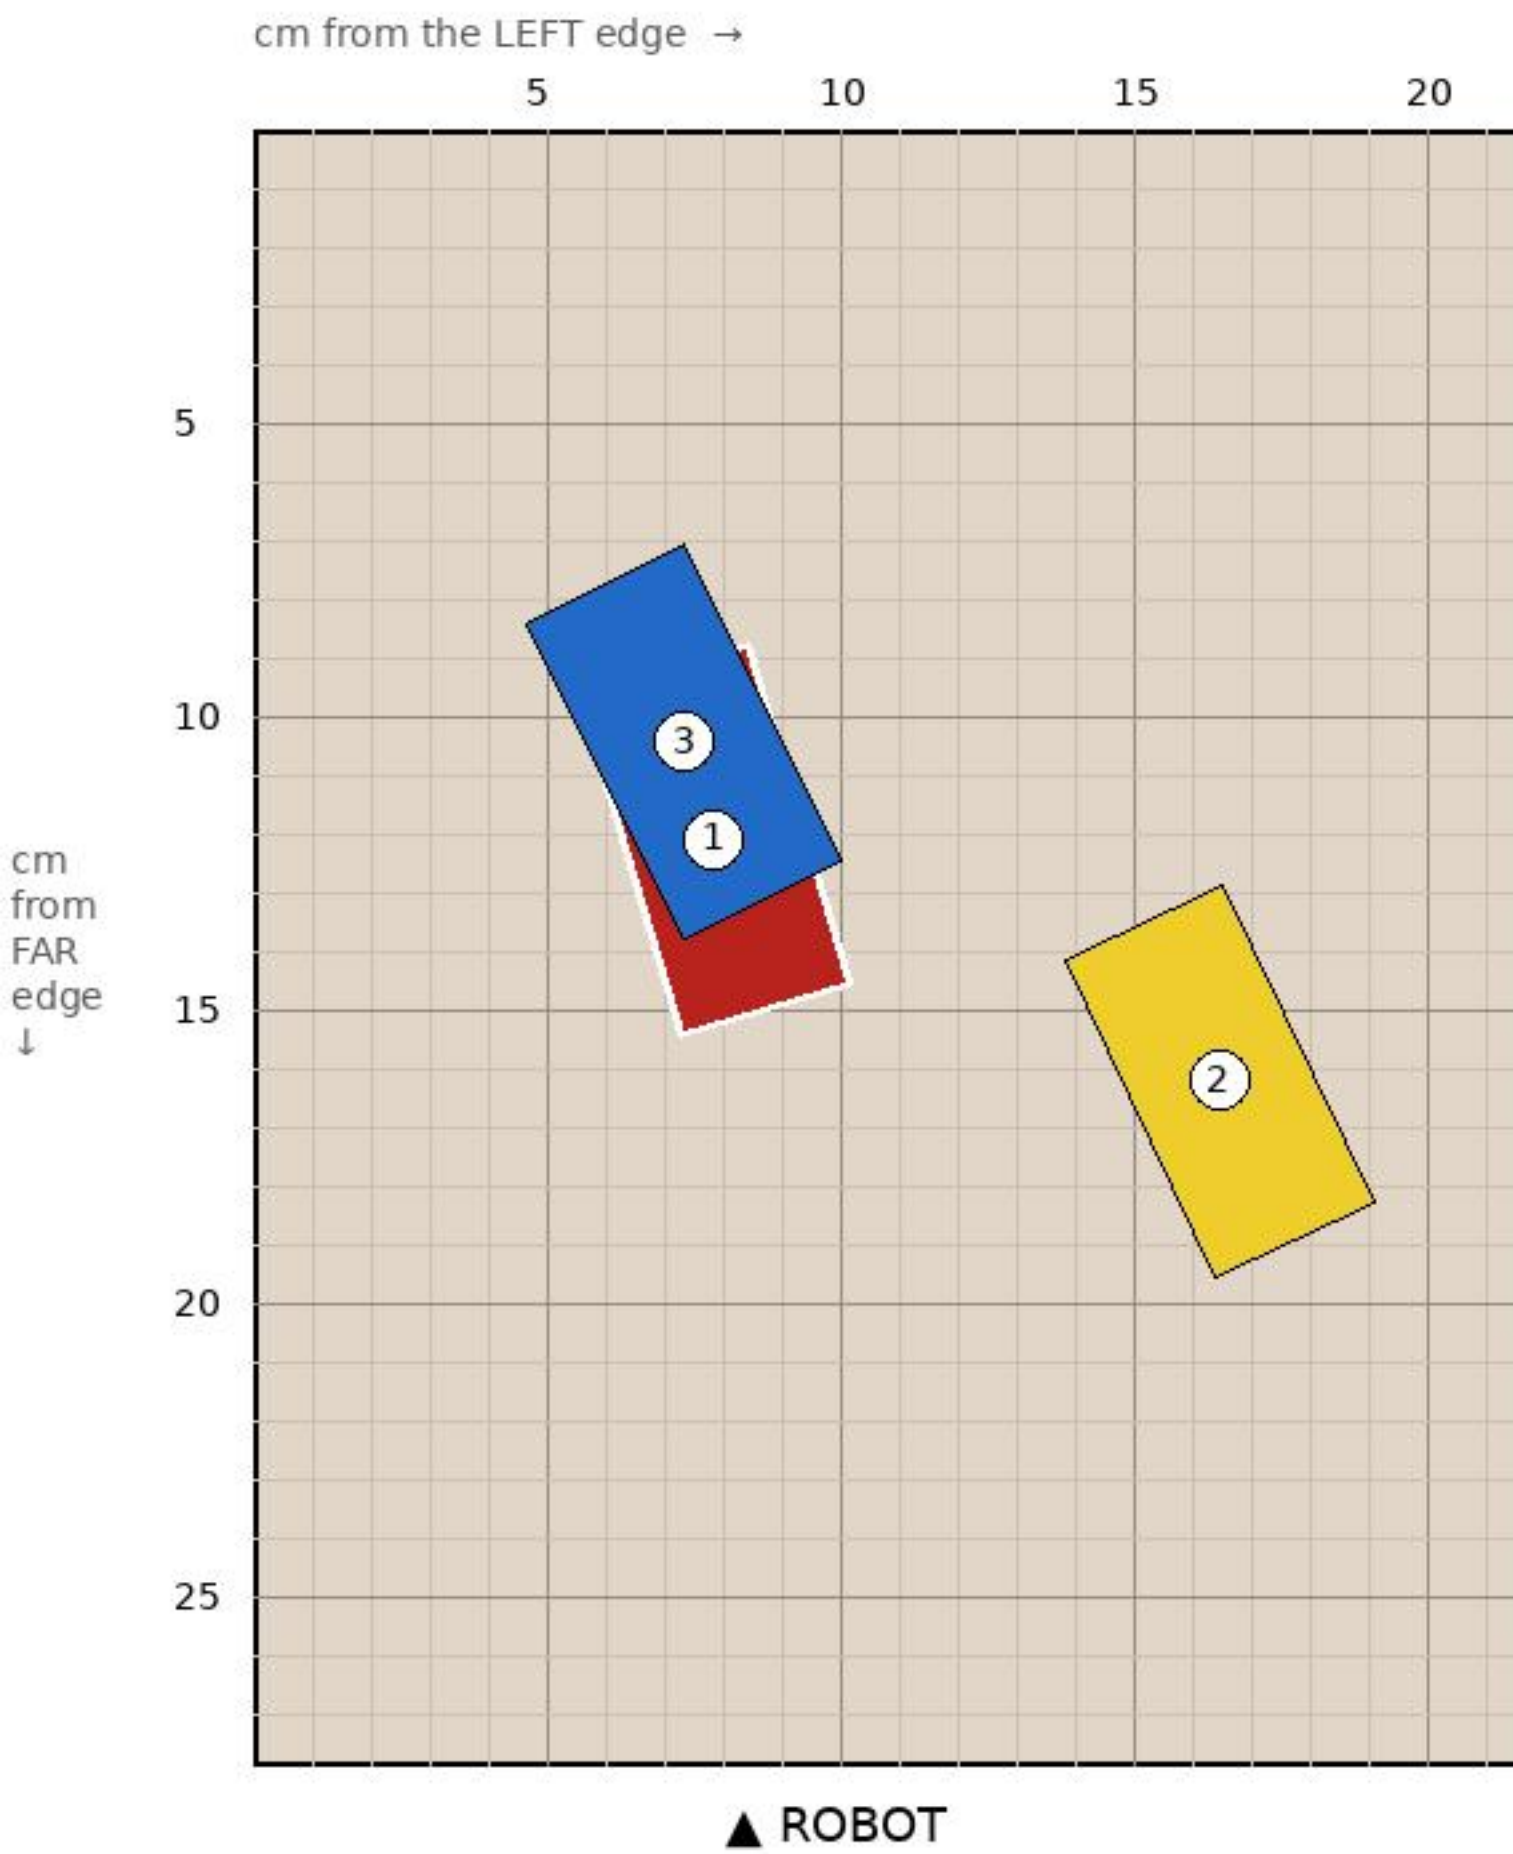

Build in this order (numbers = the circles in the top view). Positions are block centres.

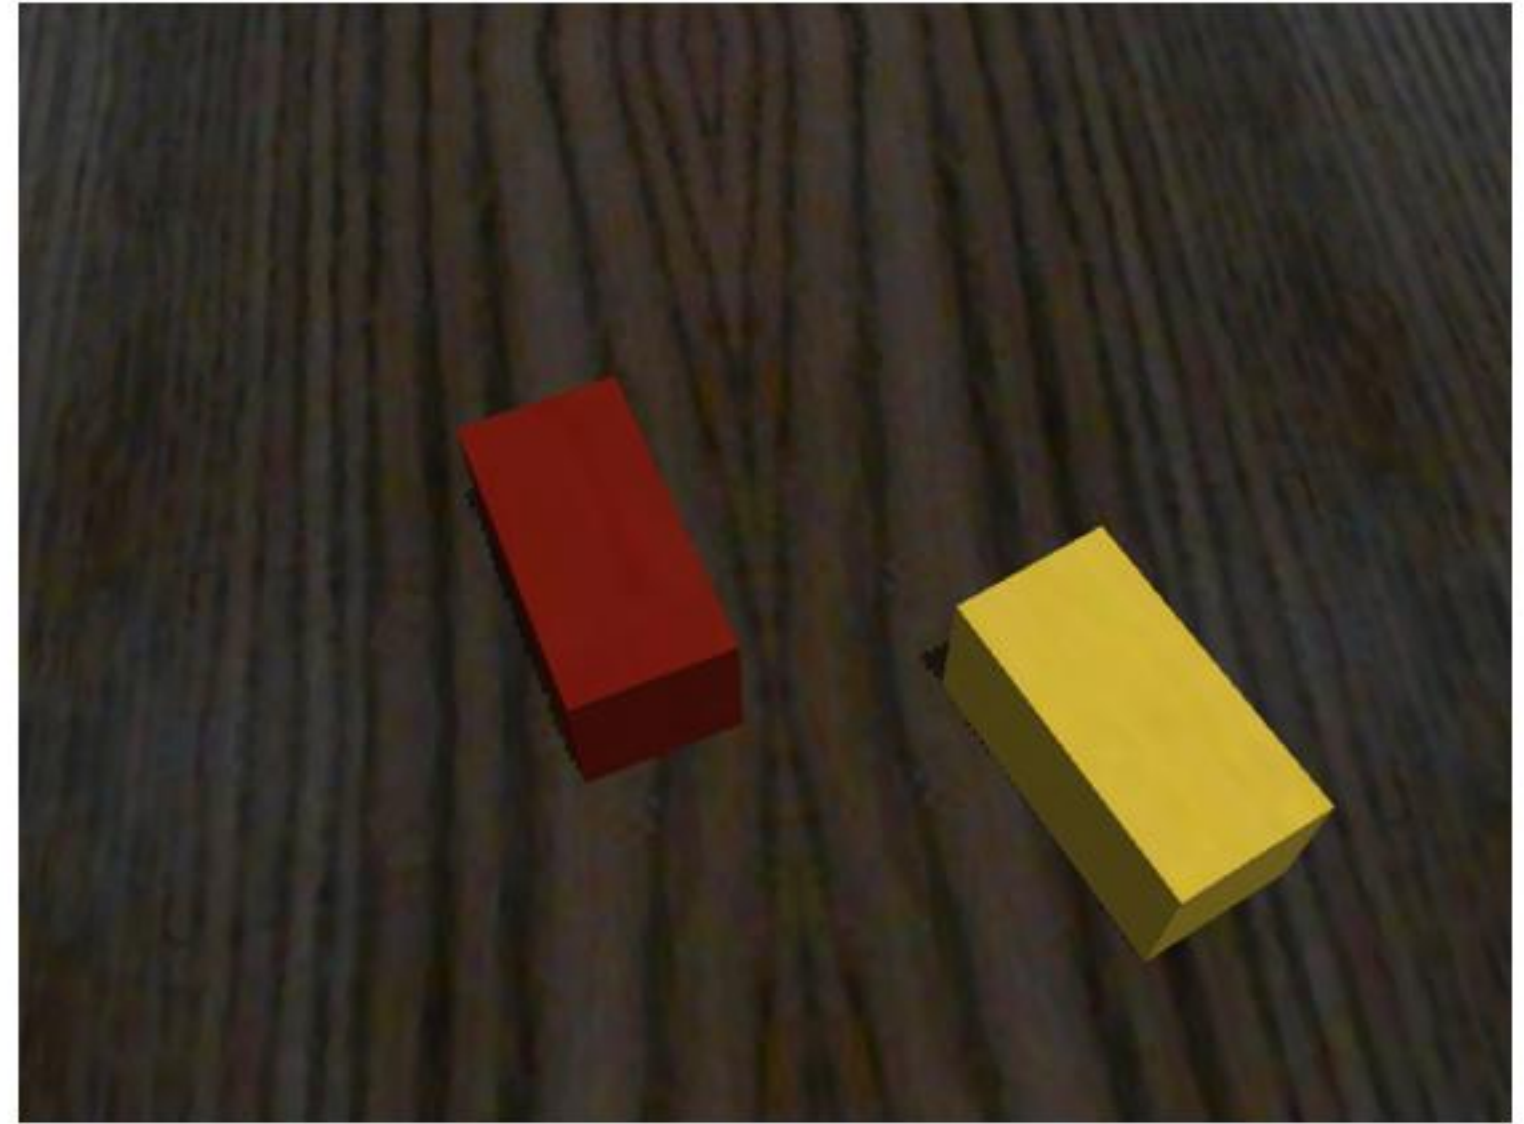

1. yellow far edge 12.1 cm left edge 6.2 cm turned -4° (far end to the right) flat on the table (TARGET)
2. red far edge 17.5 cm left edge 12.4 cm turned -12° (far end to the right) flat on the table
3. green far edge 10.7 cm left edge 17.0 cm turned -17° (far end to the right) flat on the table
4. blue far edge 14.0 cm left edge 7.1 cm turned $+12^\circ$ (far end to the left) lies on yellow, level

C1-09 [EVAL] target: RED

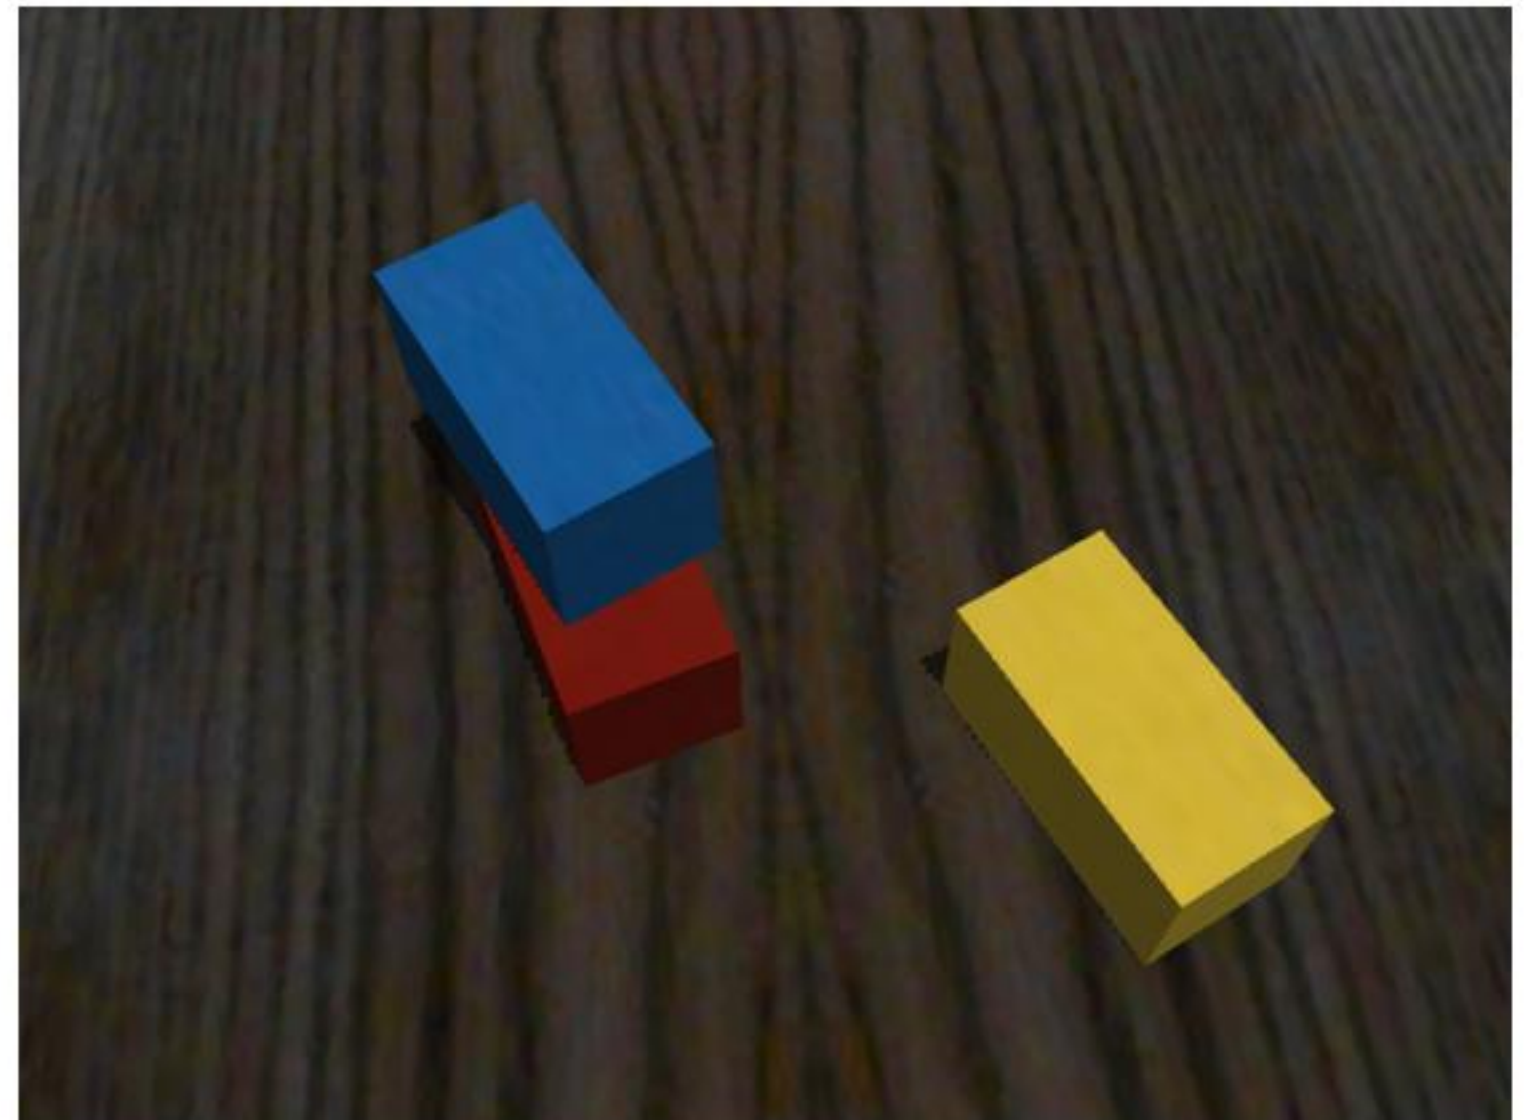

one block on the target; occlusion: partial; best order: blue $\rightarrow$ red (2 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

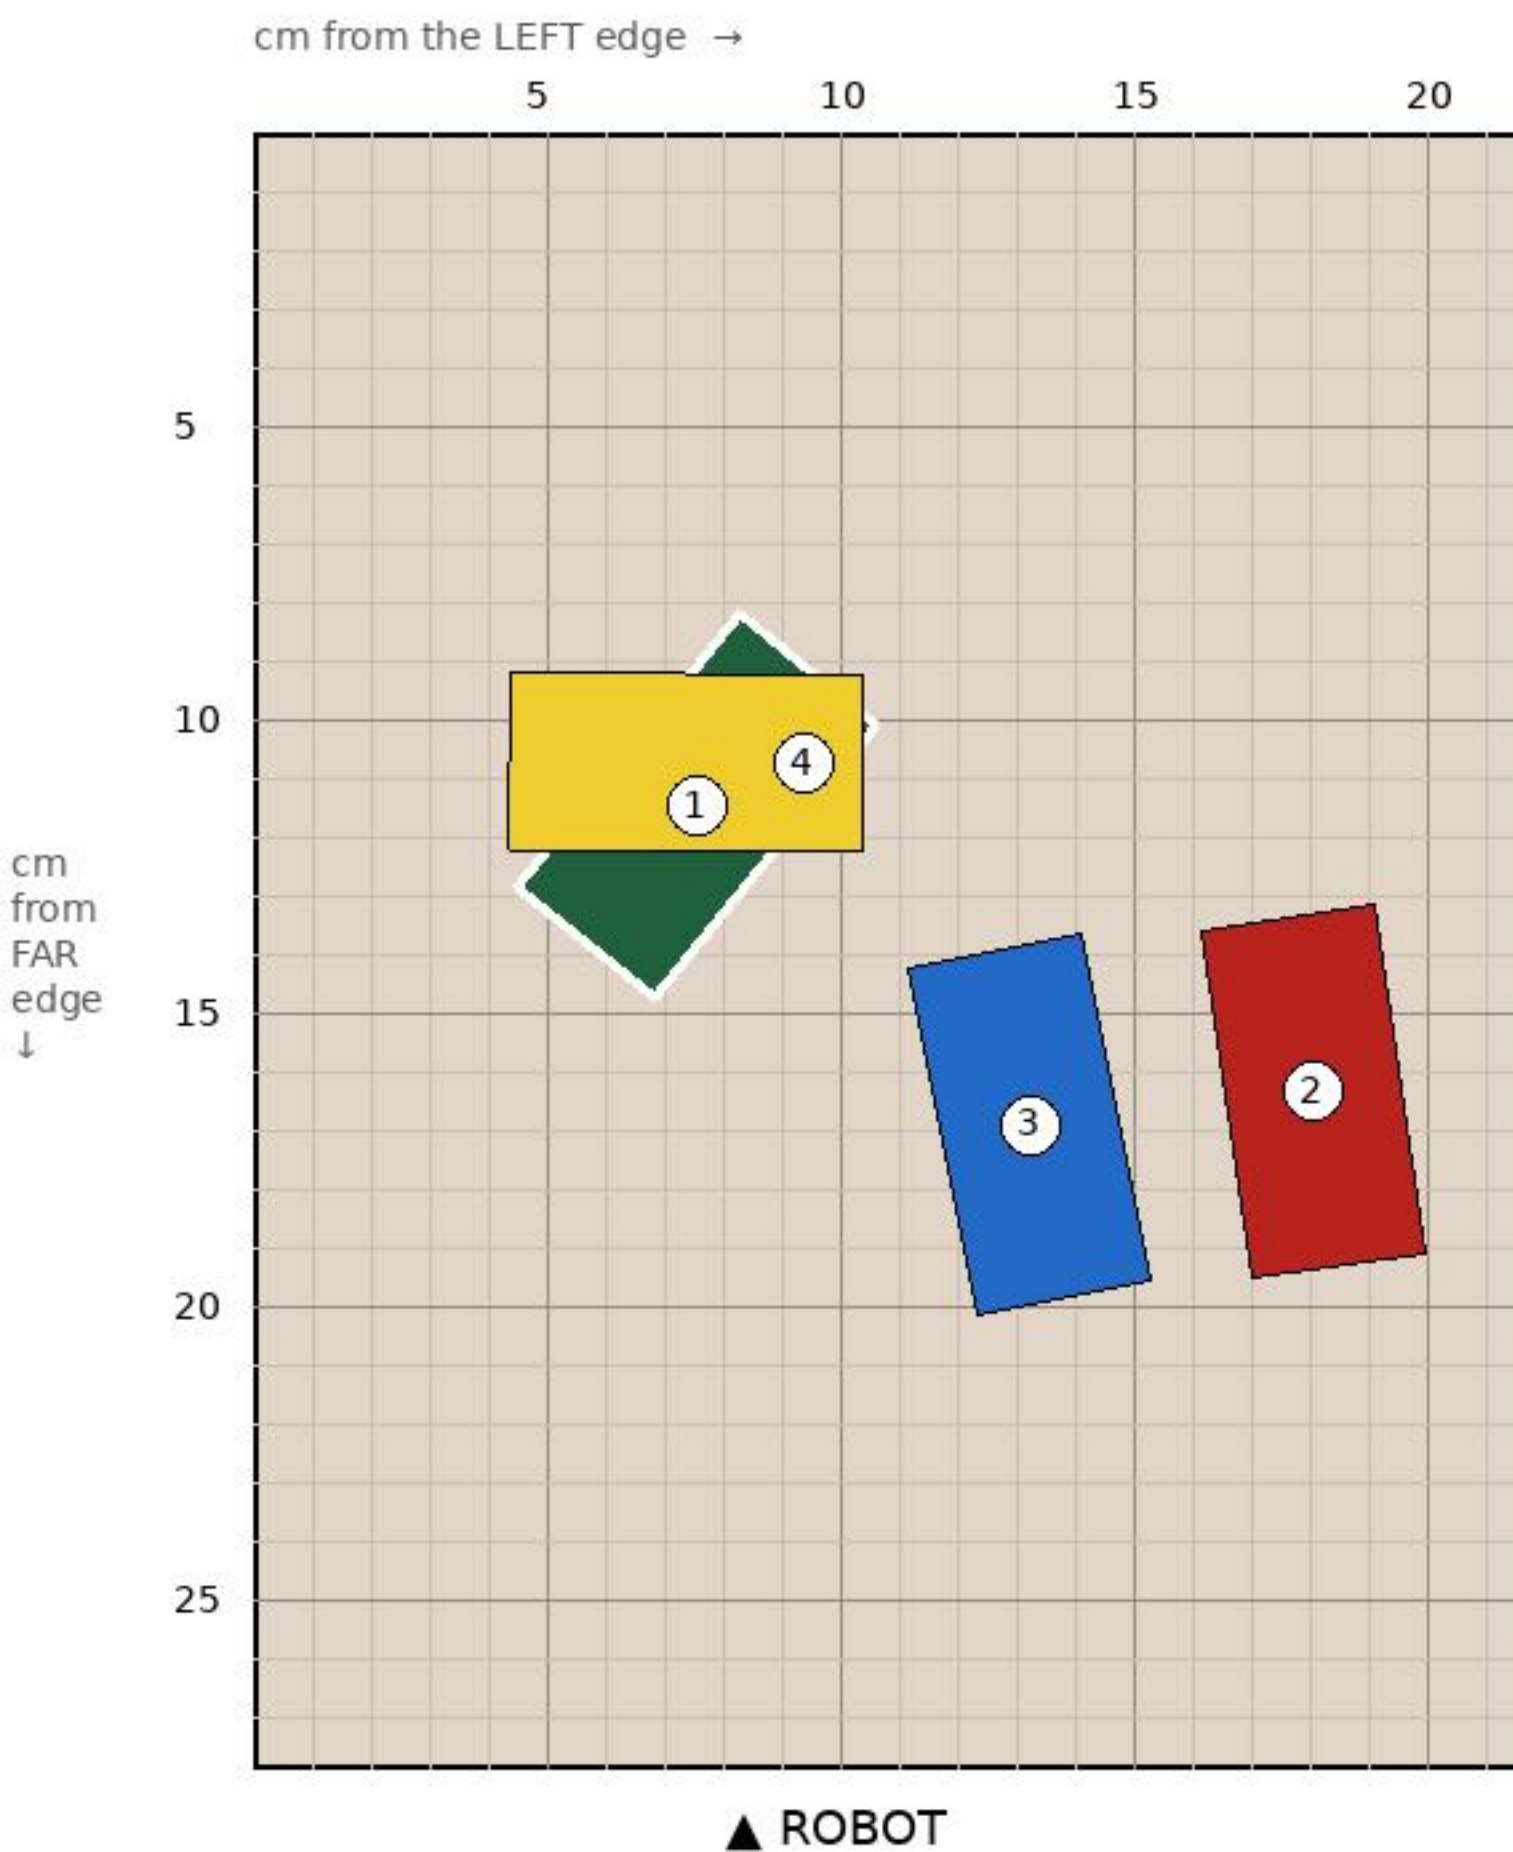

Build in this order (numbers = the circles in the top view). Positions are block centres.

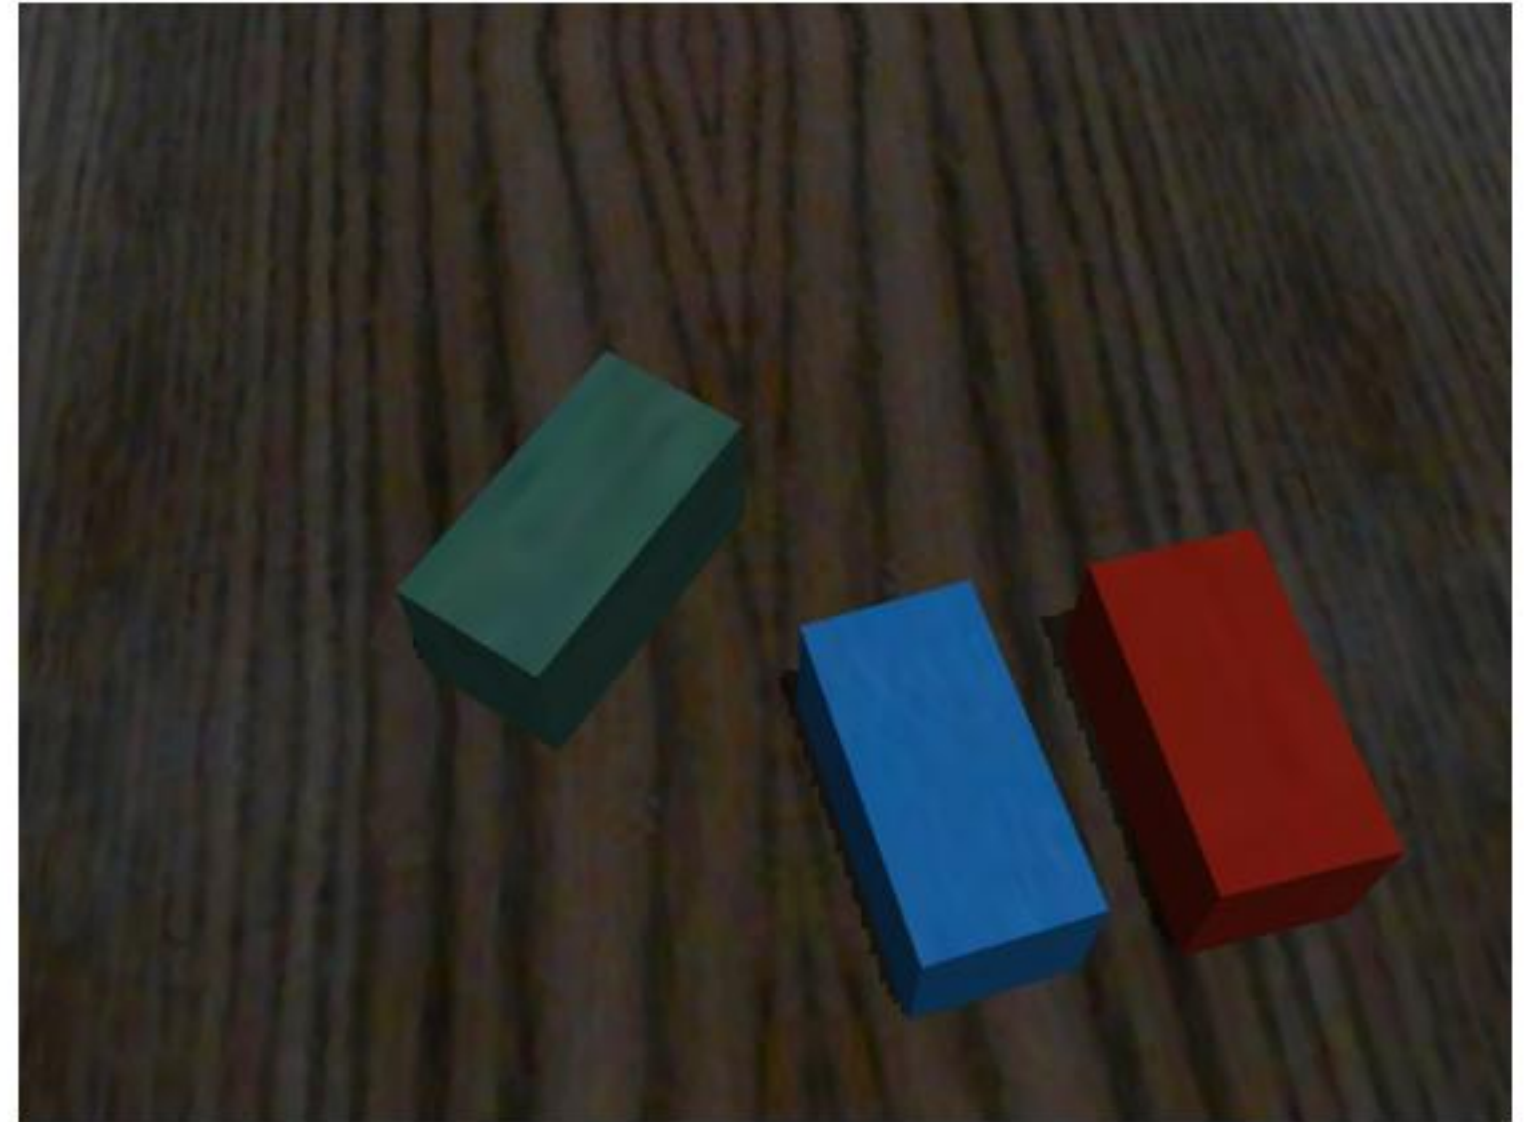

1. red far edge 12.1 cm left edge 7.8 cm turned $+17^\circ$ (far end to the left) flat on the table (TARGET)
2. yellow far edge 16.2 cm left edge 16.5 cm turned $+25^\circ$ (far end to the left) flat on the table
3. blue far edge 10.4 cm left edge 7.3 cm turned $+26^\circ$ (far end to the left) lies on red, level

C1-10 [EVAL] target: GREEN

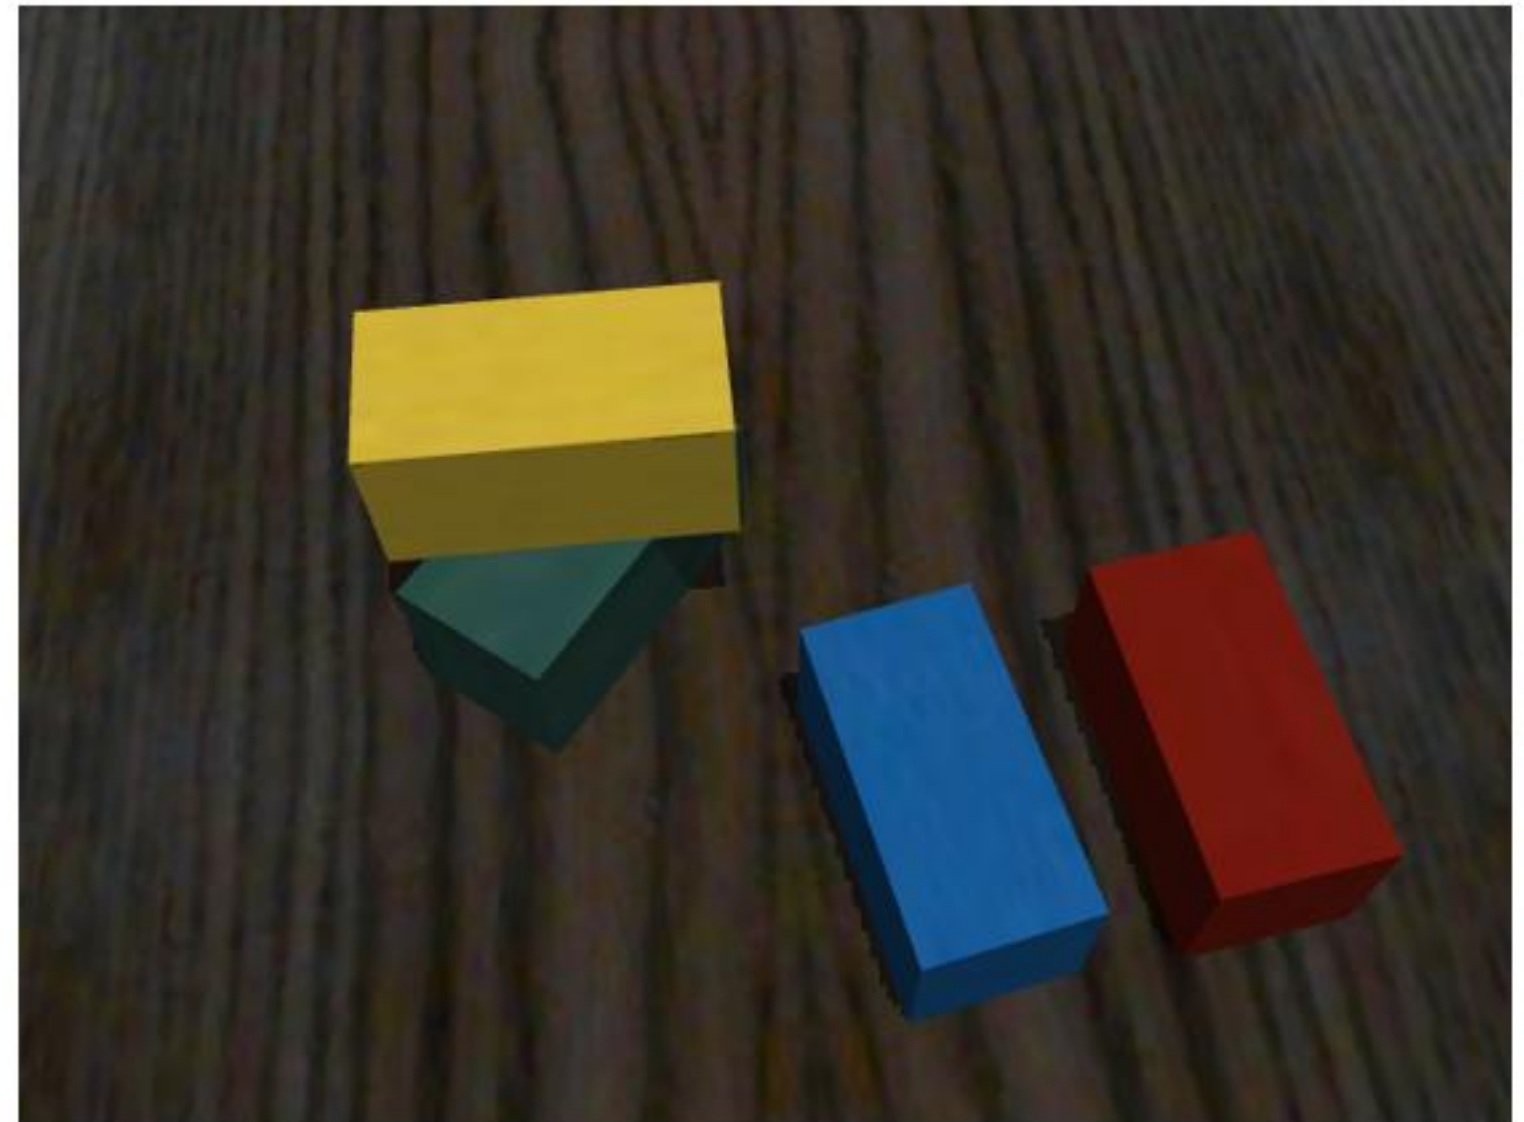

one block on the target; occlusion: partial; best order: yellow → green (2 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

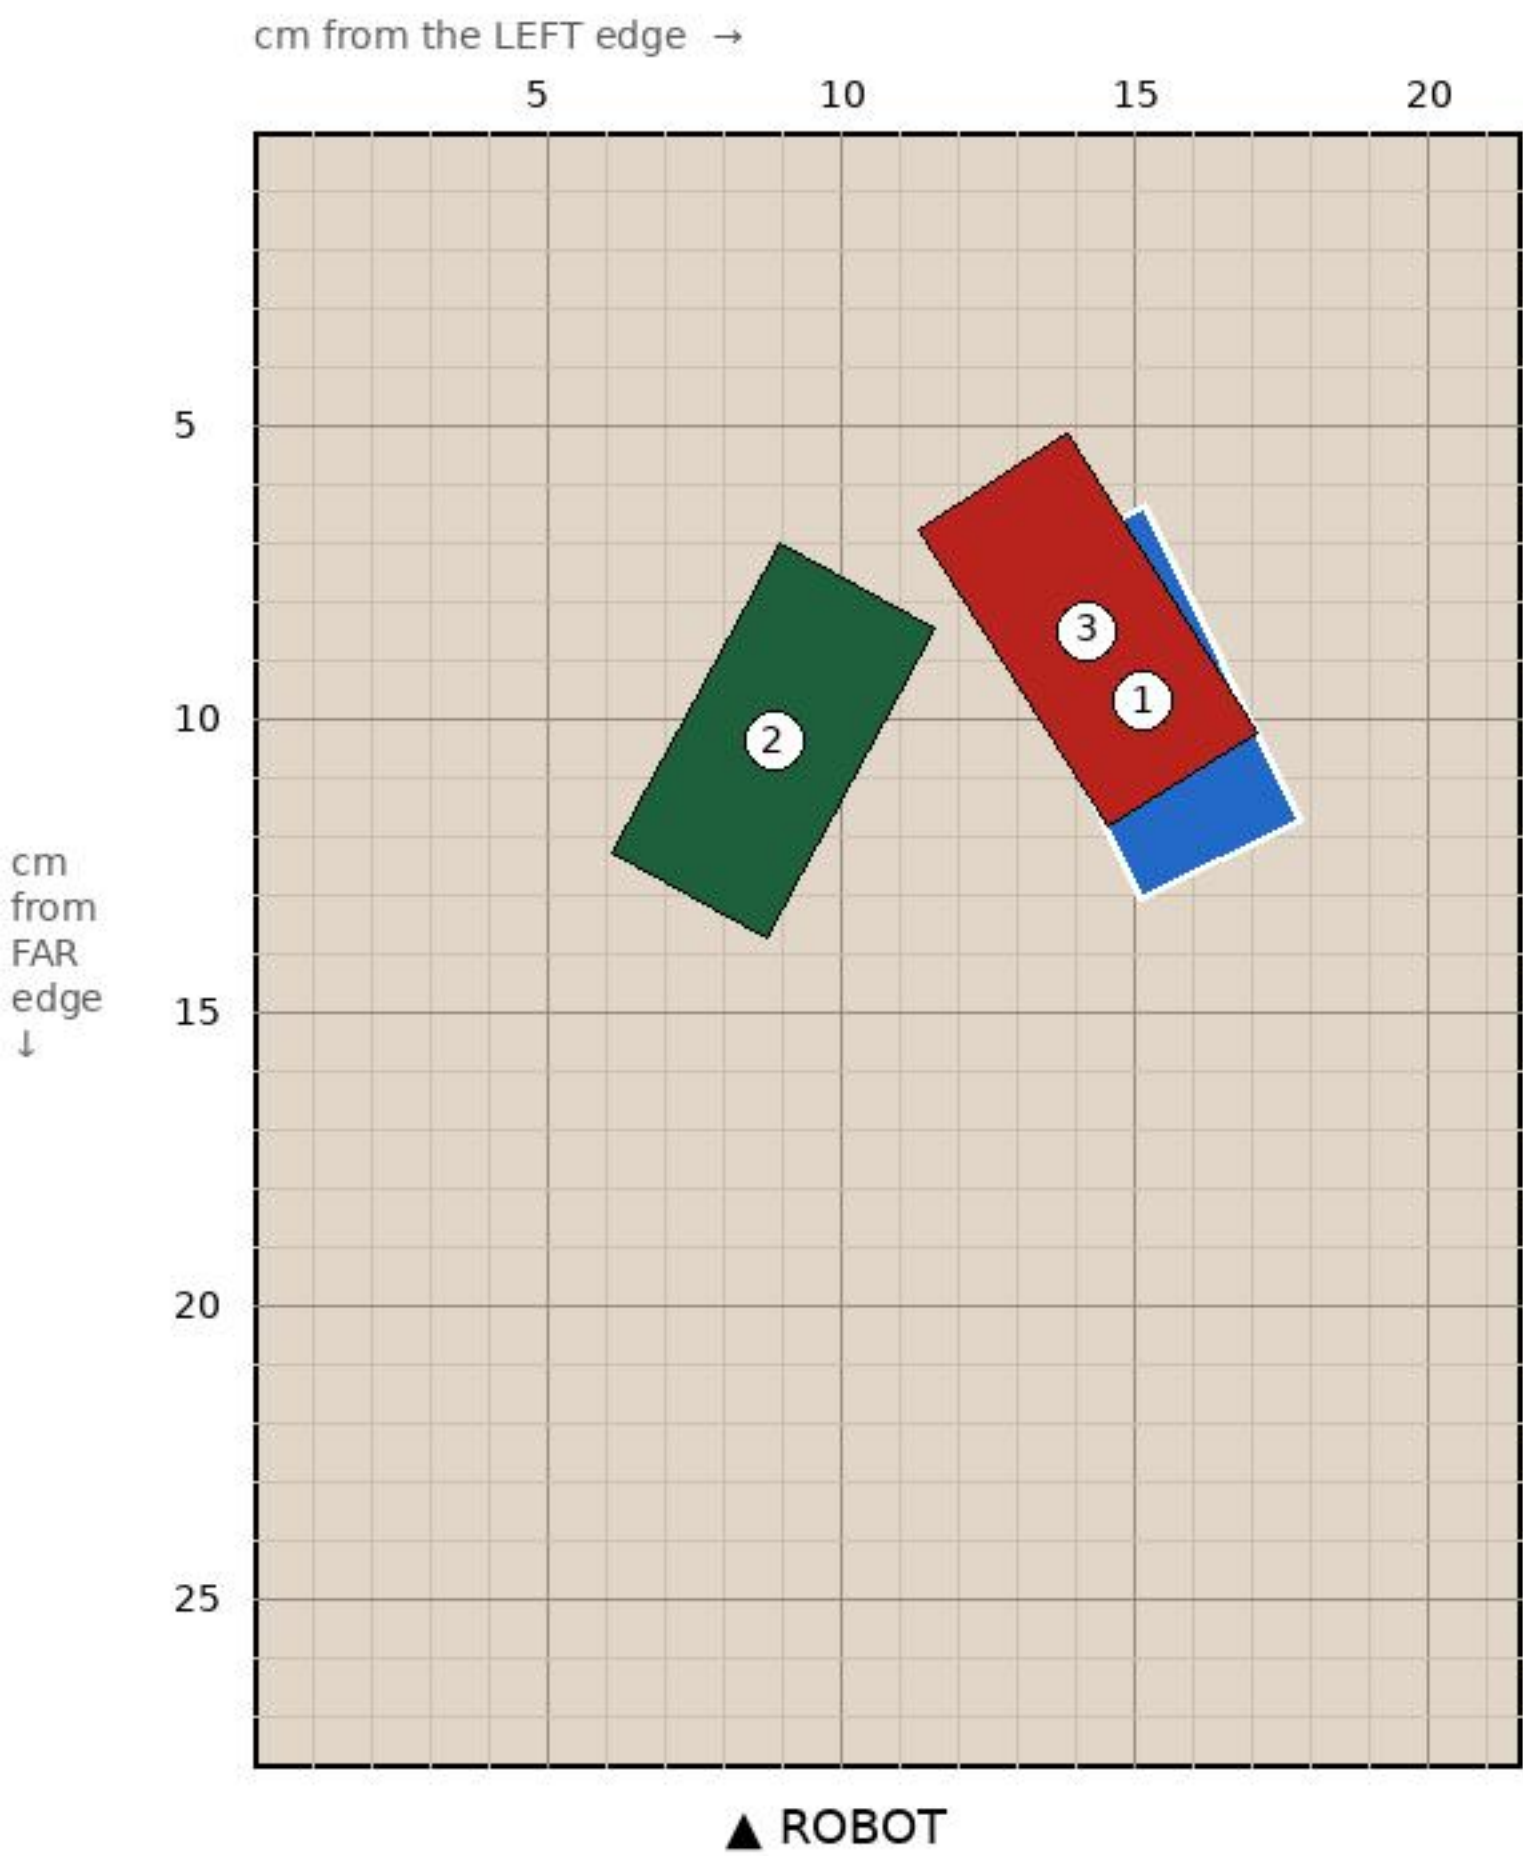

Build in this order (numbers = the circles in the top view). Positions are block centres.

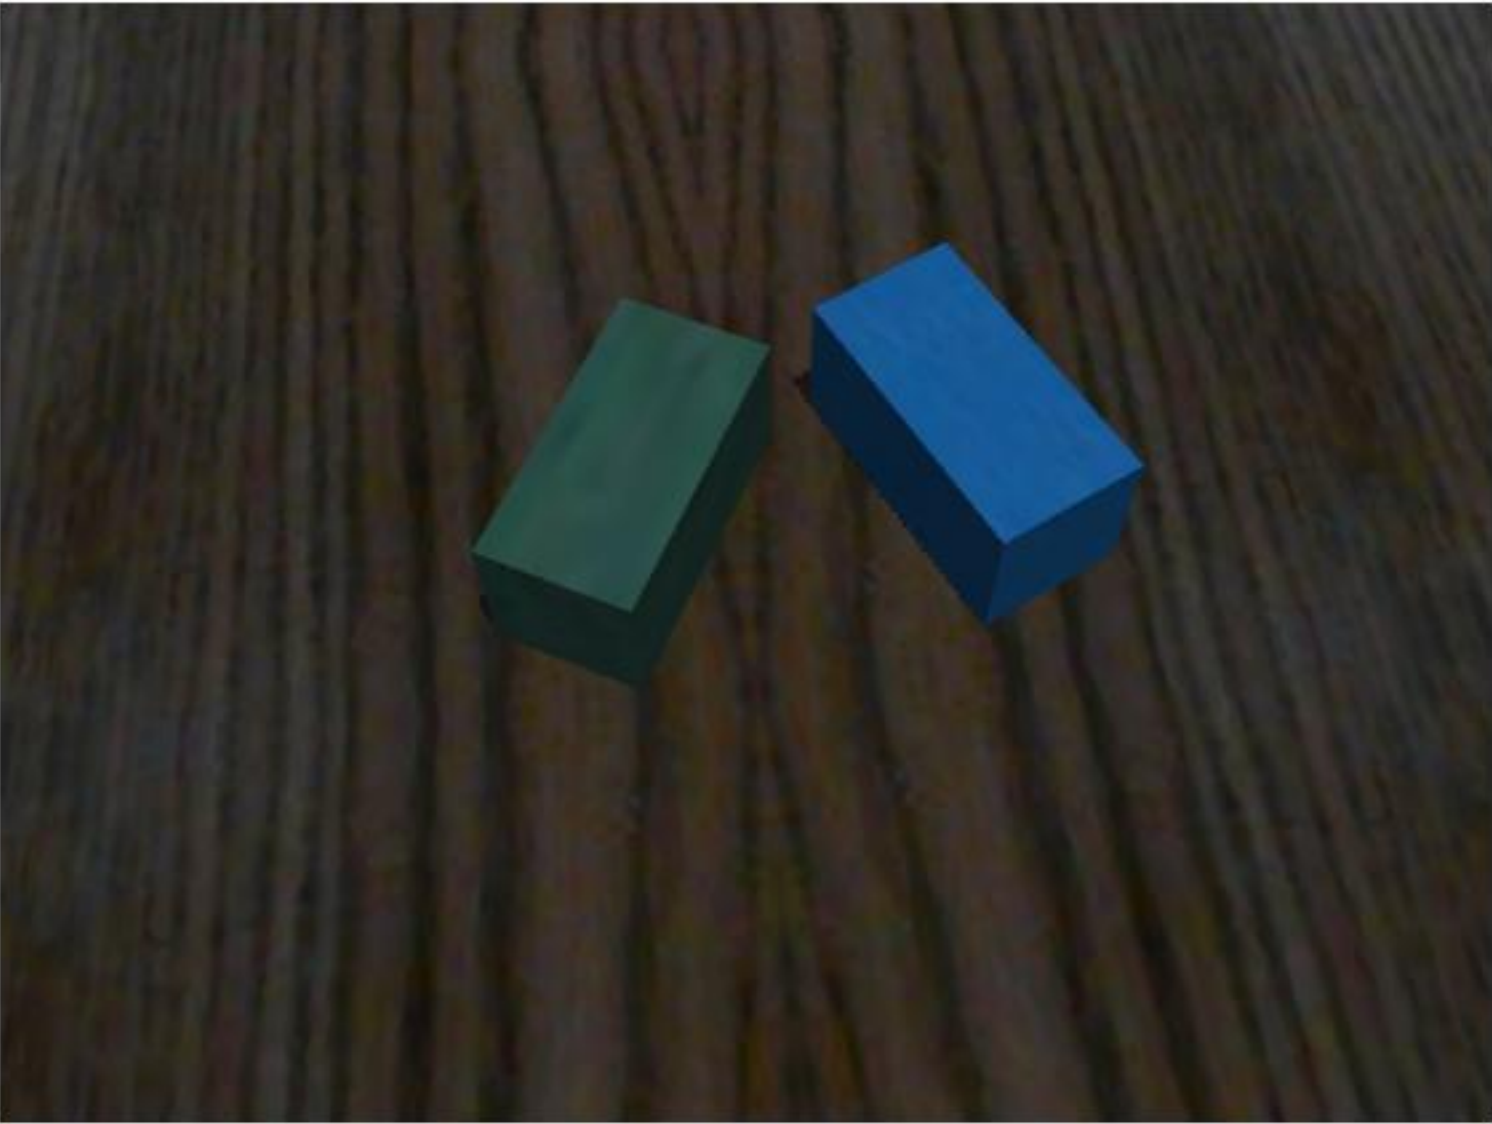

1. green far edge 11.5 cm left edge 7.6 cm turned -39° (far end to the right) flat on the table (TARGET)
2. red far edge 16.4 cm left edge 18.1 cm turned $+8^\circ$ (far end to the left) flat on the table
3. blue far edge 16.9 cm left edge 13.2 cm turned $+11^\circ$ (far end to the left) flat on the table
4. yellow far edge 10.7 cm left edge 7.4 cm turned $+90^\circ$ (far end to the left) lies on green, level

C1-11 [SPARE] target: BLUE

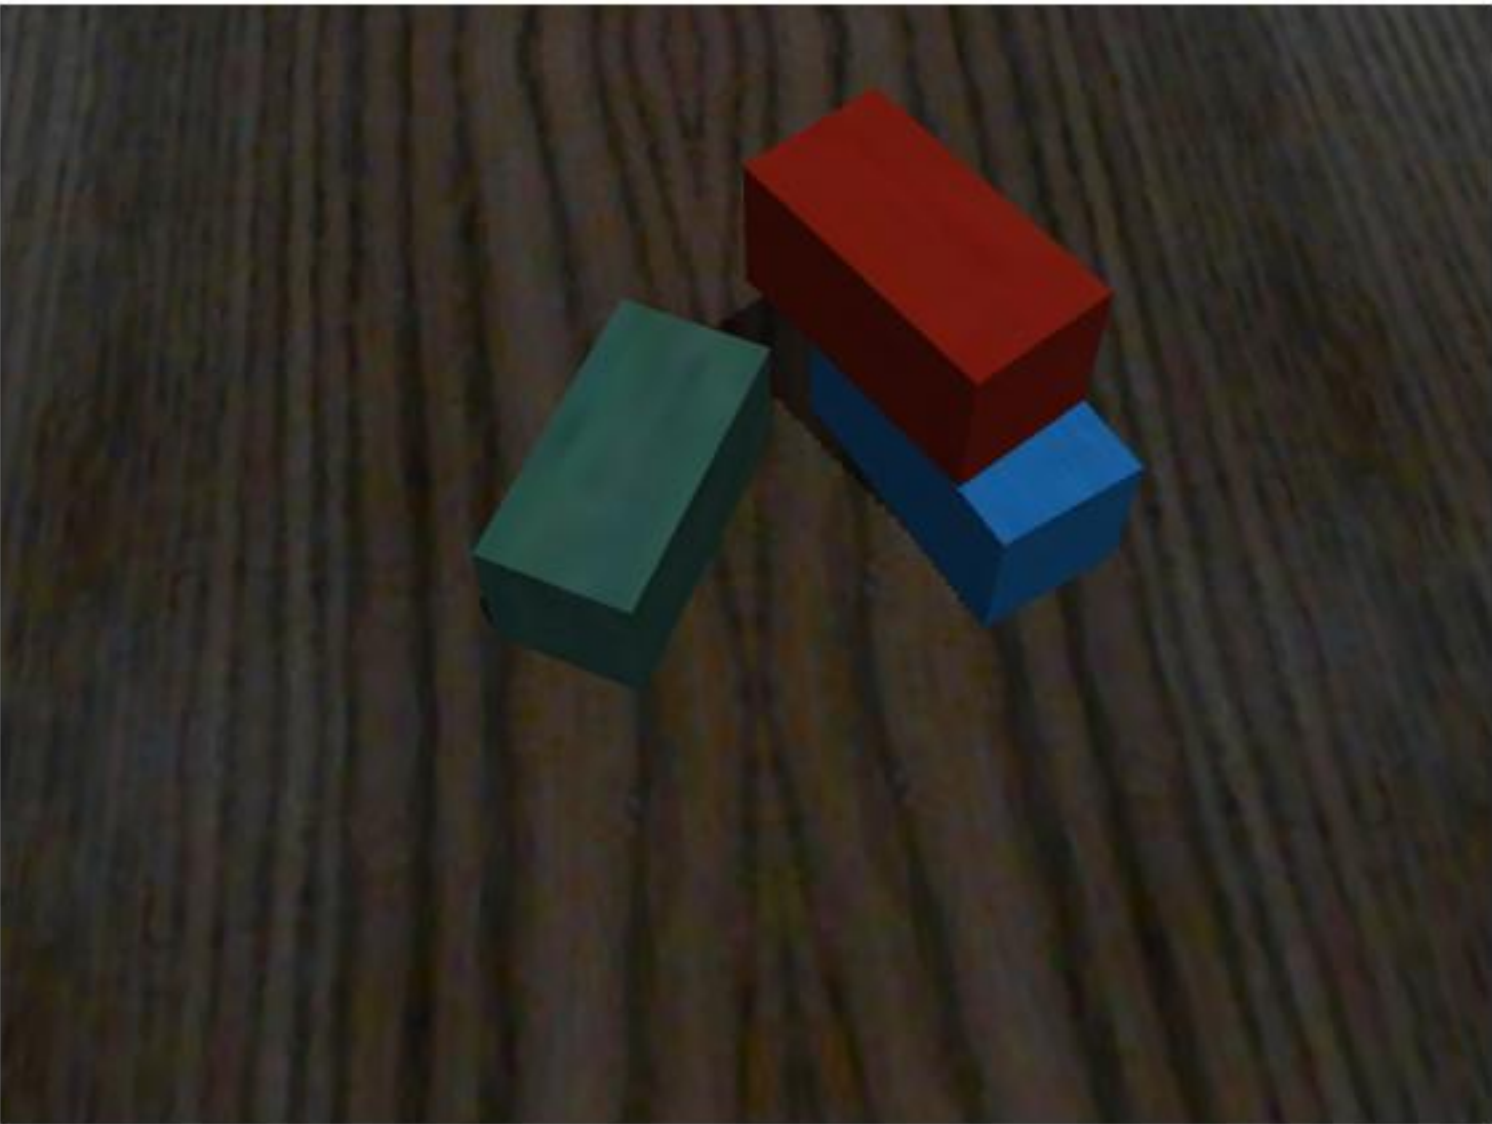

one block on the target; occlusion: partial; best order: red → blue (2 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

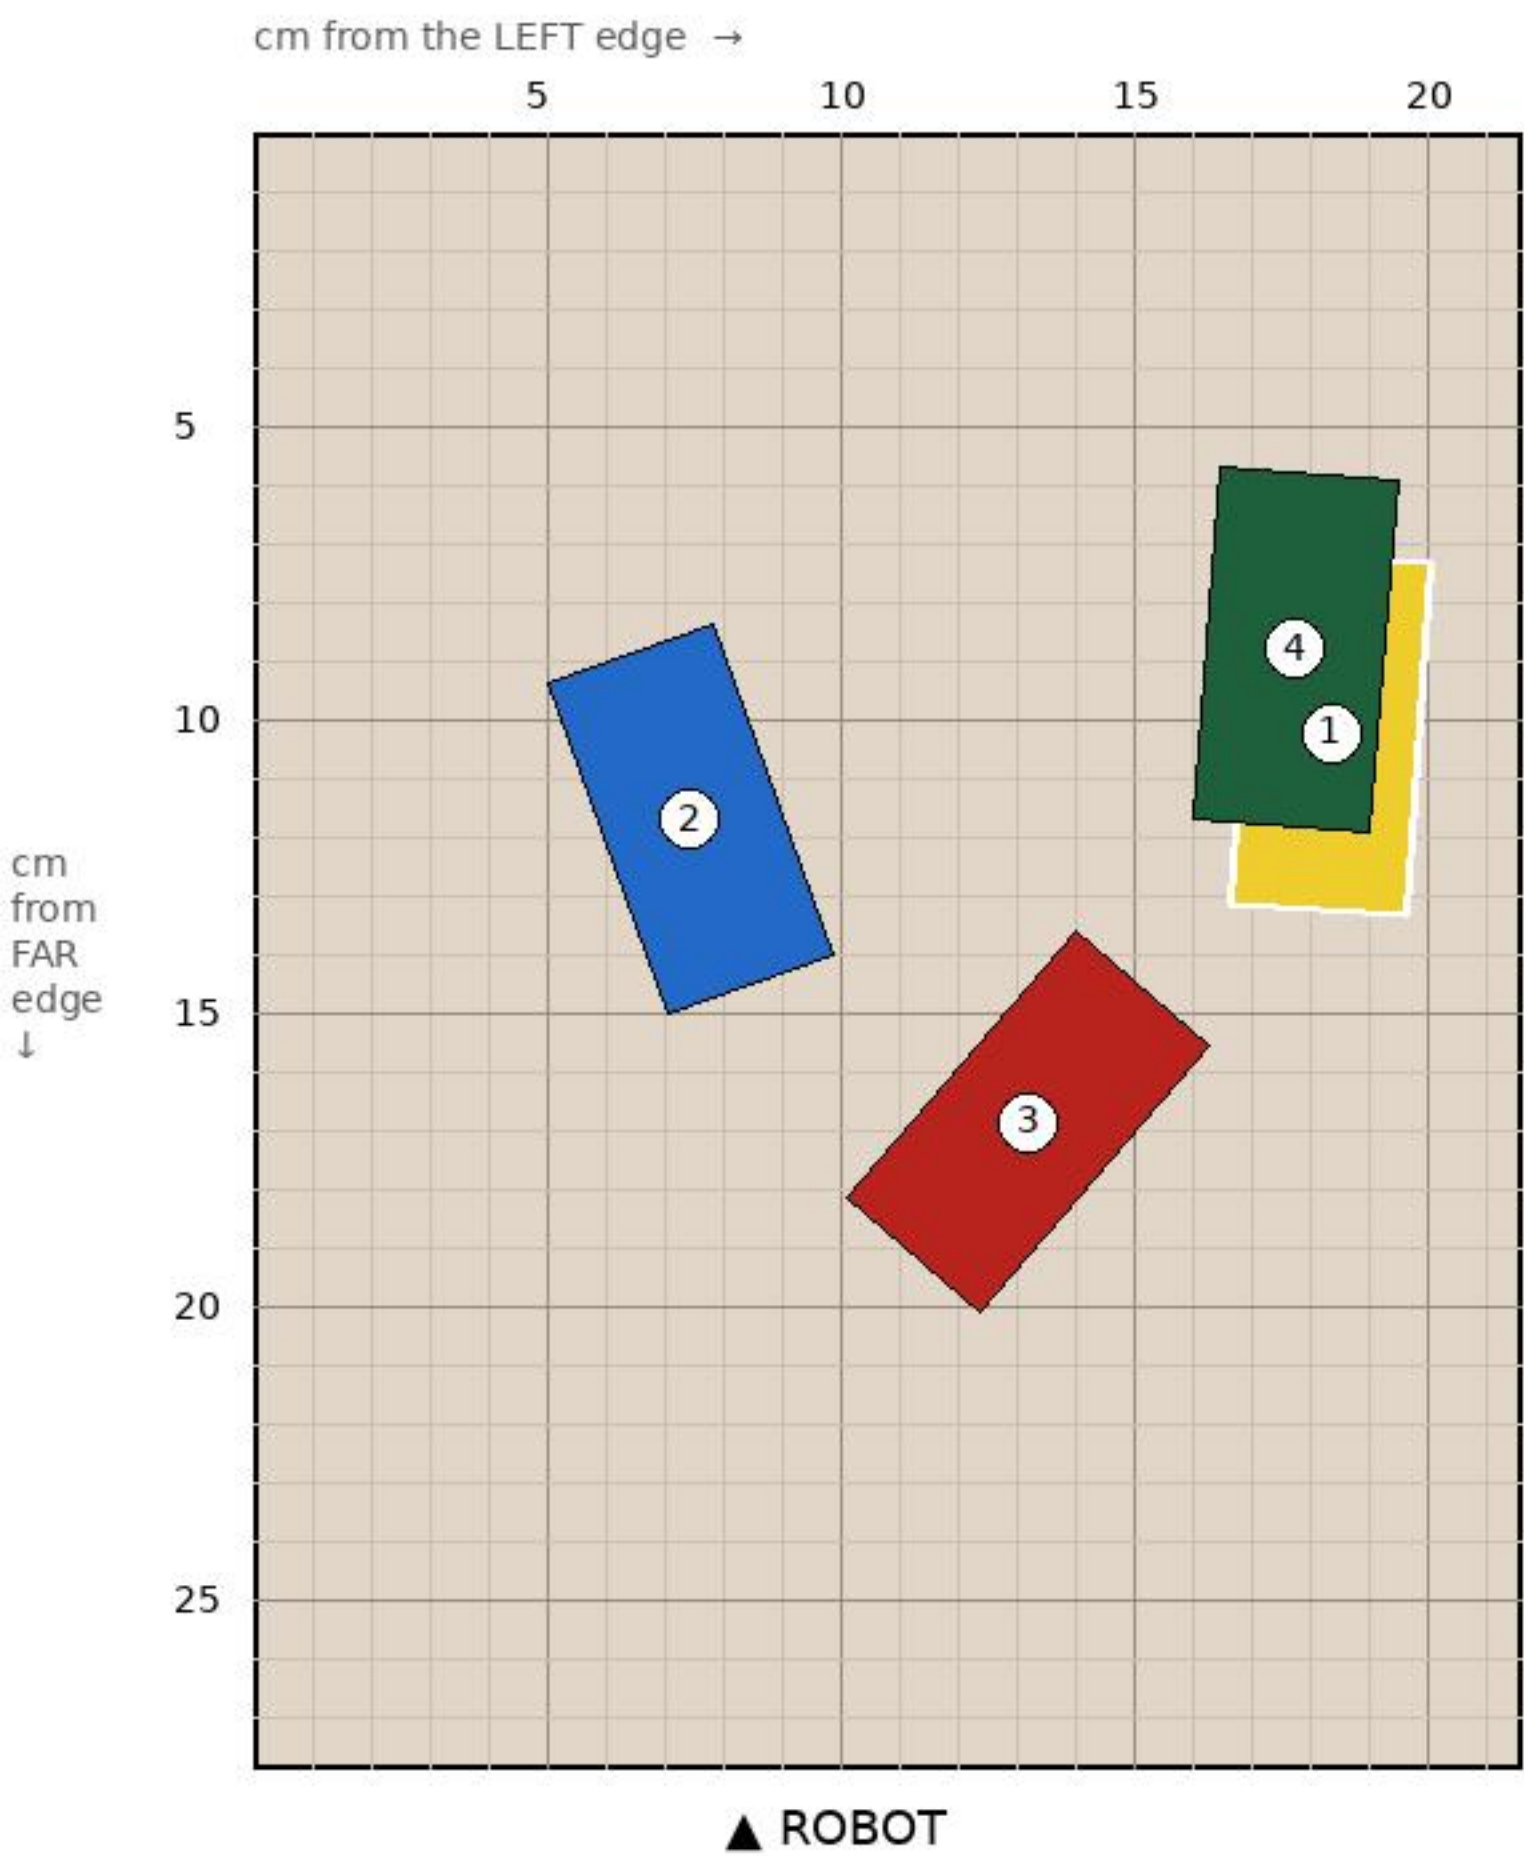

Build in this order (numbers = the circles in the top view). Positions are block centres.

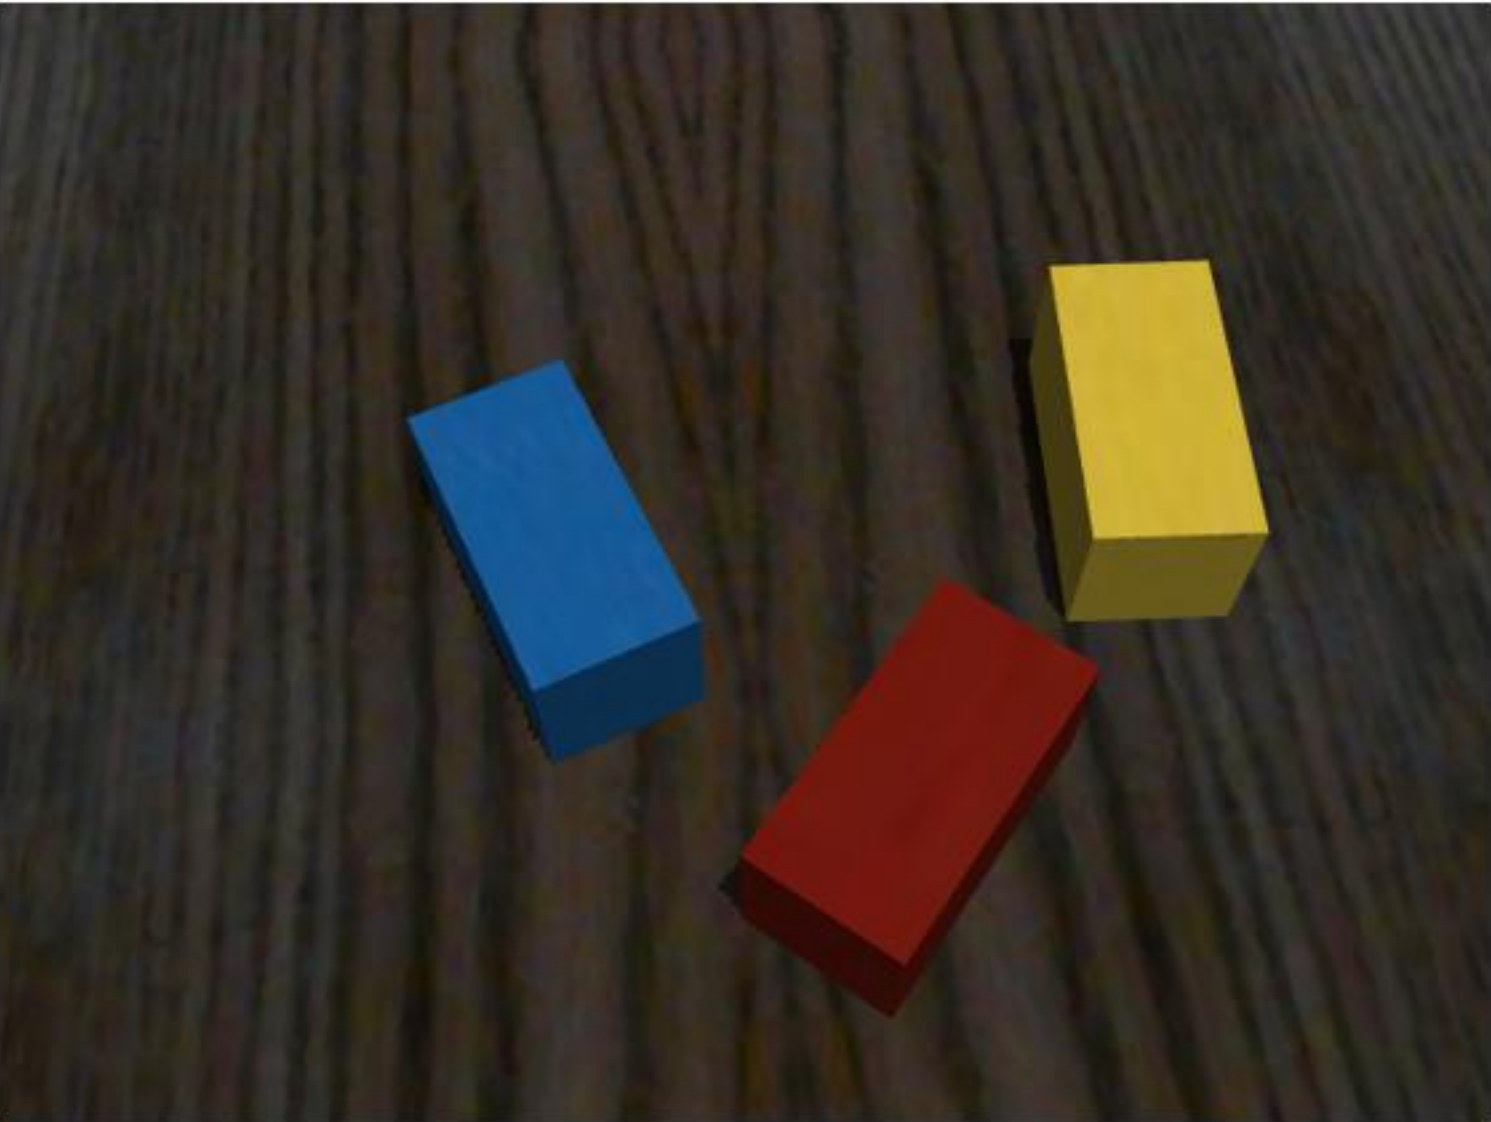

- 1. blue far edge 9.7 cm left edge 15.2 cm turned +26° (far end to the left) flat on the table (TARGET)
- 2. green far edge 10.4 cm left edge 8.9 cm turned -29° (far end to the right) flat on the table
- 3. red far edge 8.5 cm left edge 14.2 cm turned +33° (far end to the left) lies on blue, level

C1-12 [SPARE] target: YELLOW

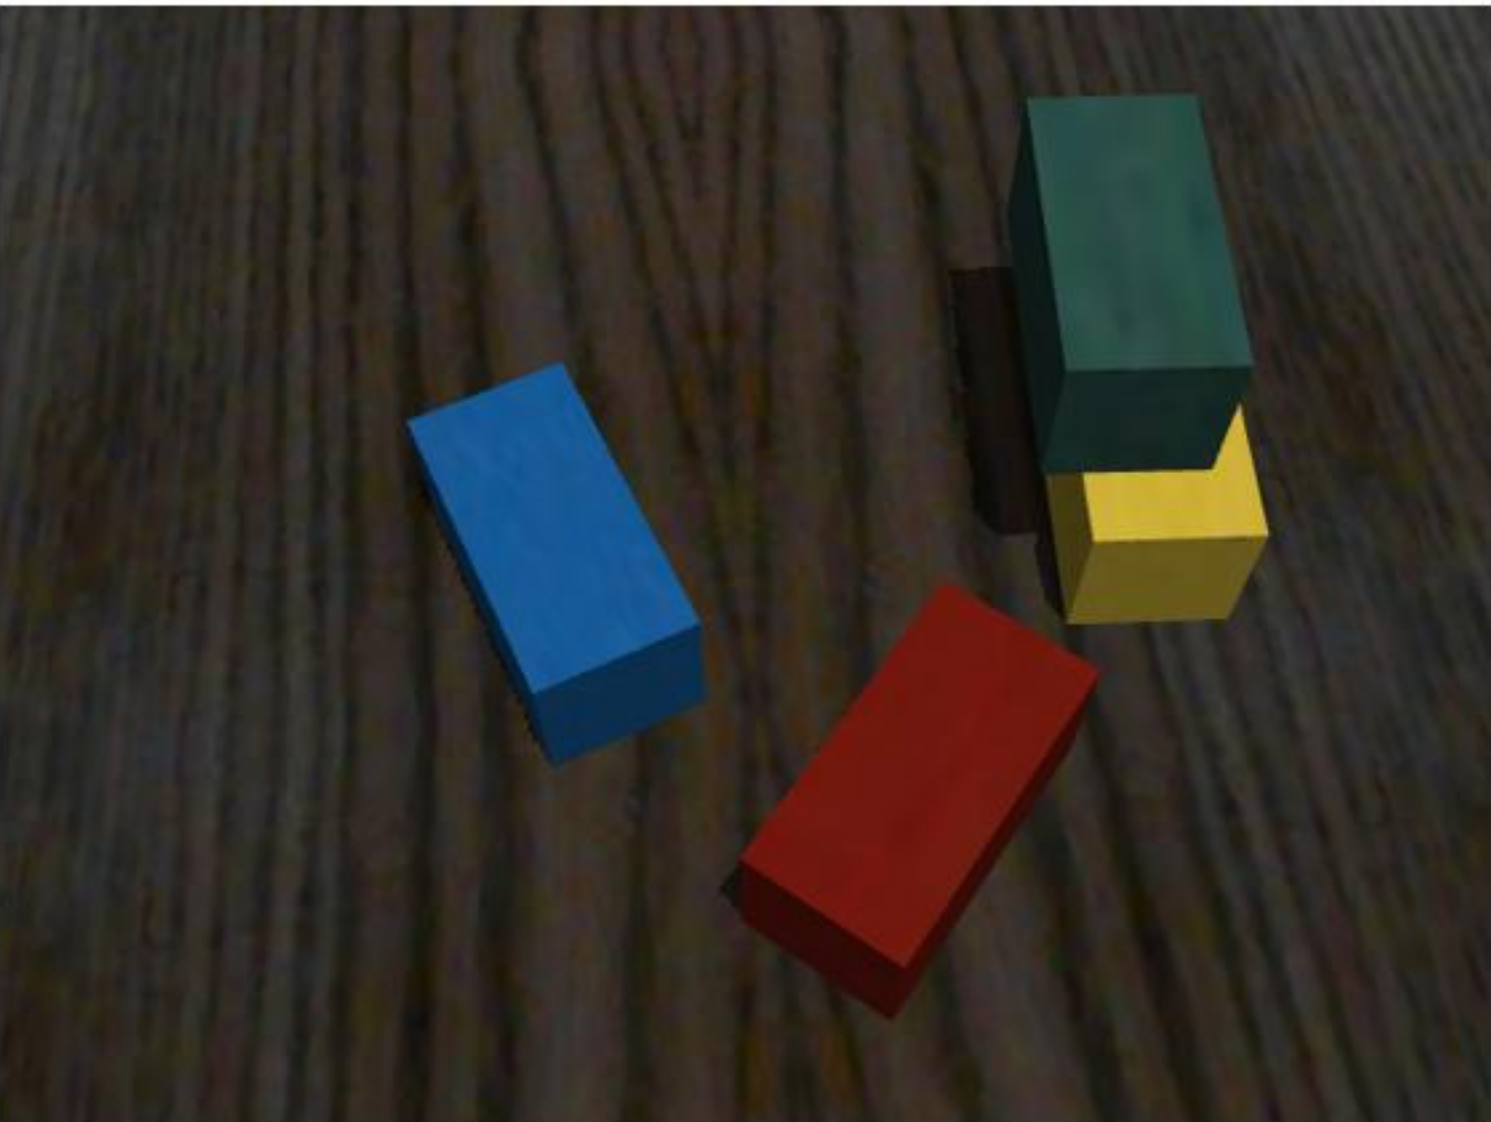

one block on the target; occlusion: partial; best order: green → yellow (2 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

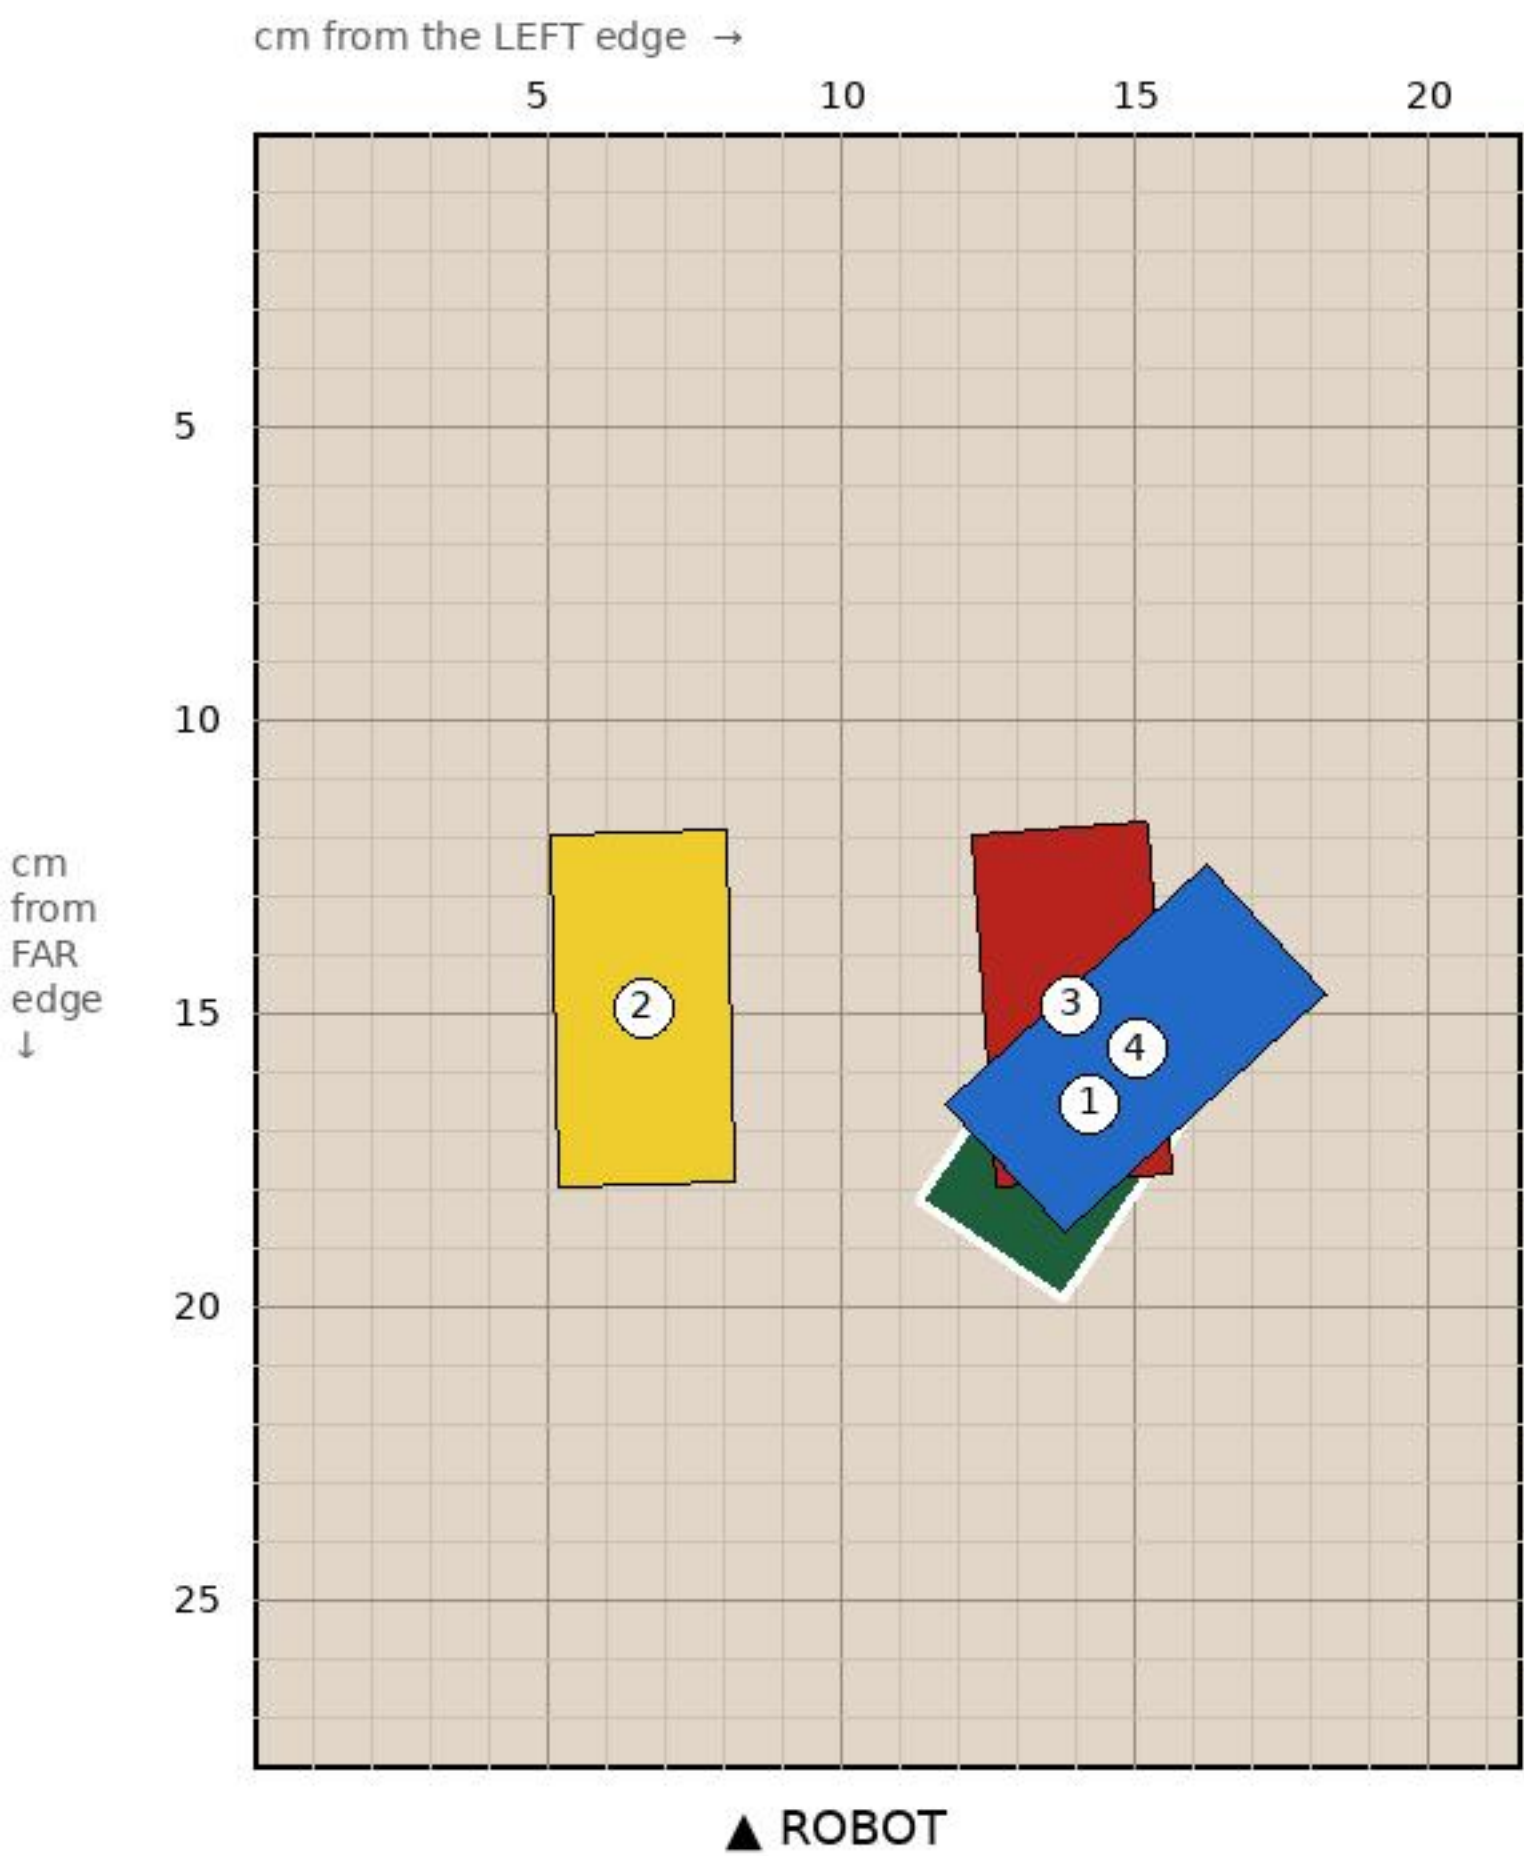

Build in this order (numbers = the circles in the top view). Positions are block centres.

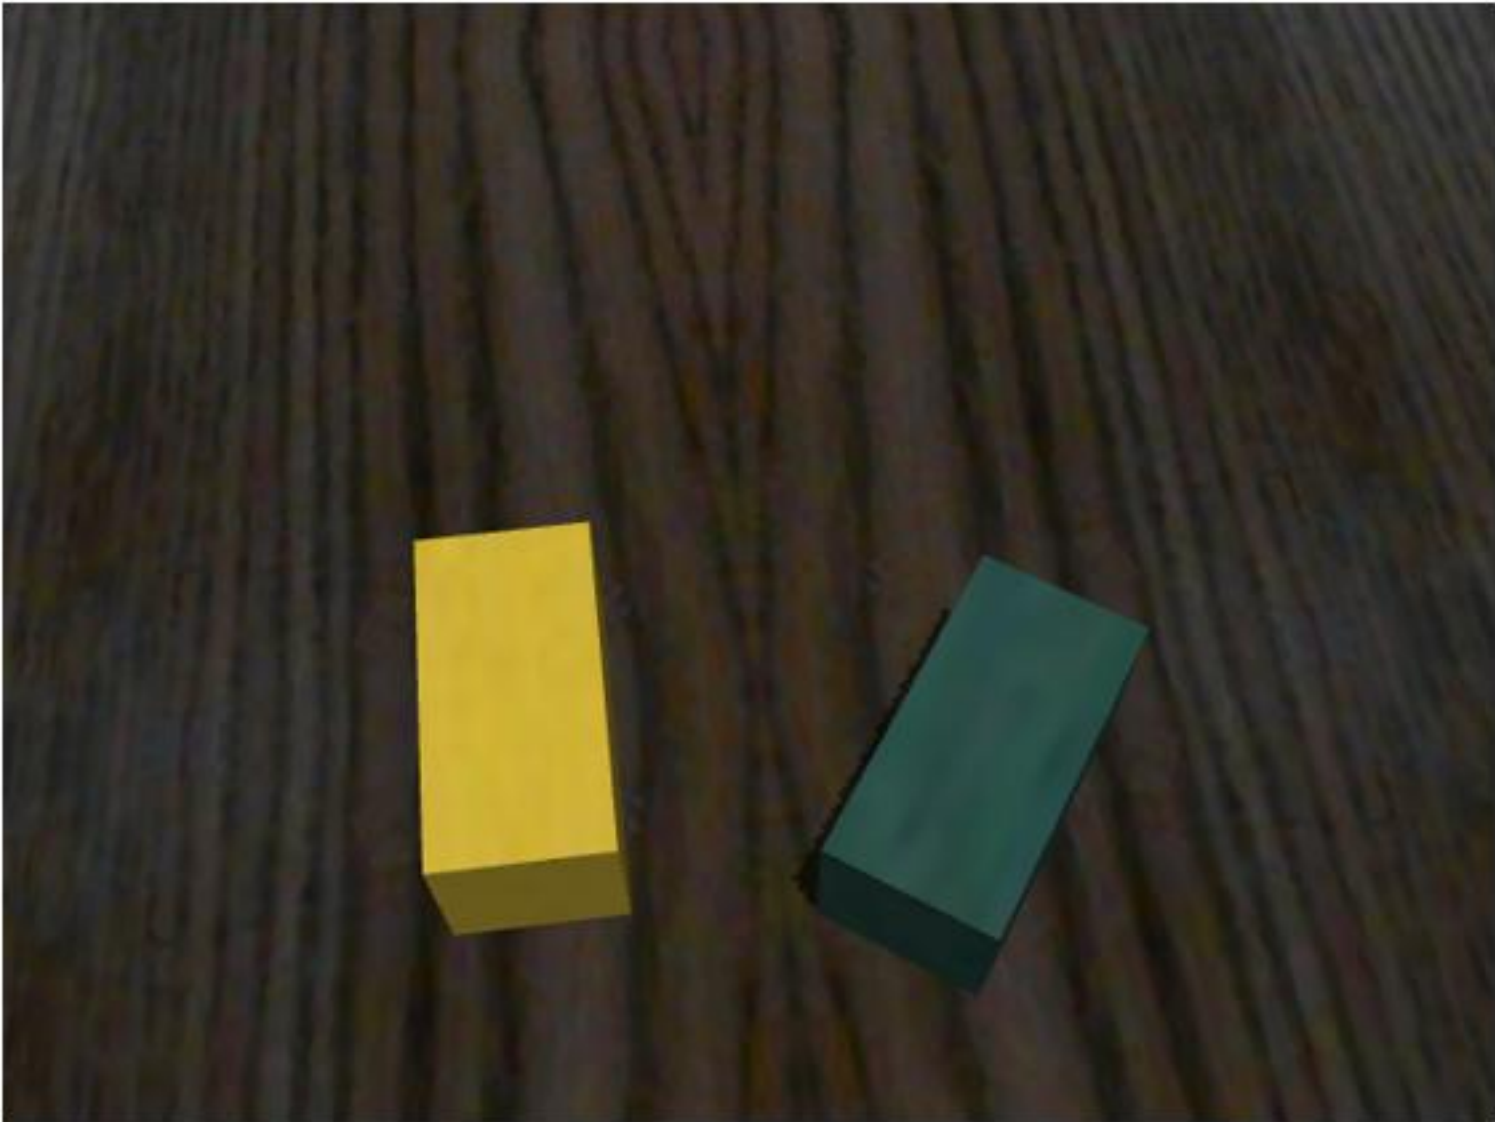

- 1. yellow far edge 10.2 cm left edge 18.4 cm turned -4° (far end to the right) flat on the table (TARGET)
- 2. blue far edge 11.7 cm left edge 7.5 cm turned +20° (far end to the left) flat on the table
- 3. red far edge 16.9 cm left edge 13.2 cm turned -41° (far end to the right) flat on the table
- 4. green far edge 8.8 cm left edge 17.8 cm turned -4° (far end to the right) lies on yellow, level

C2-01 [EVAL] target: GREEN

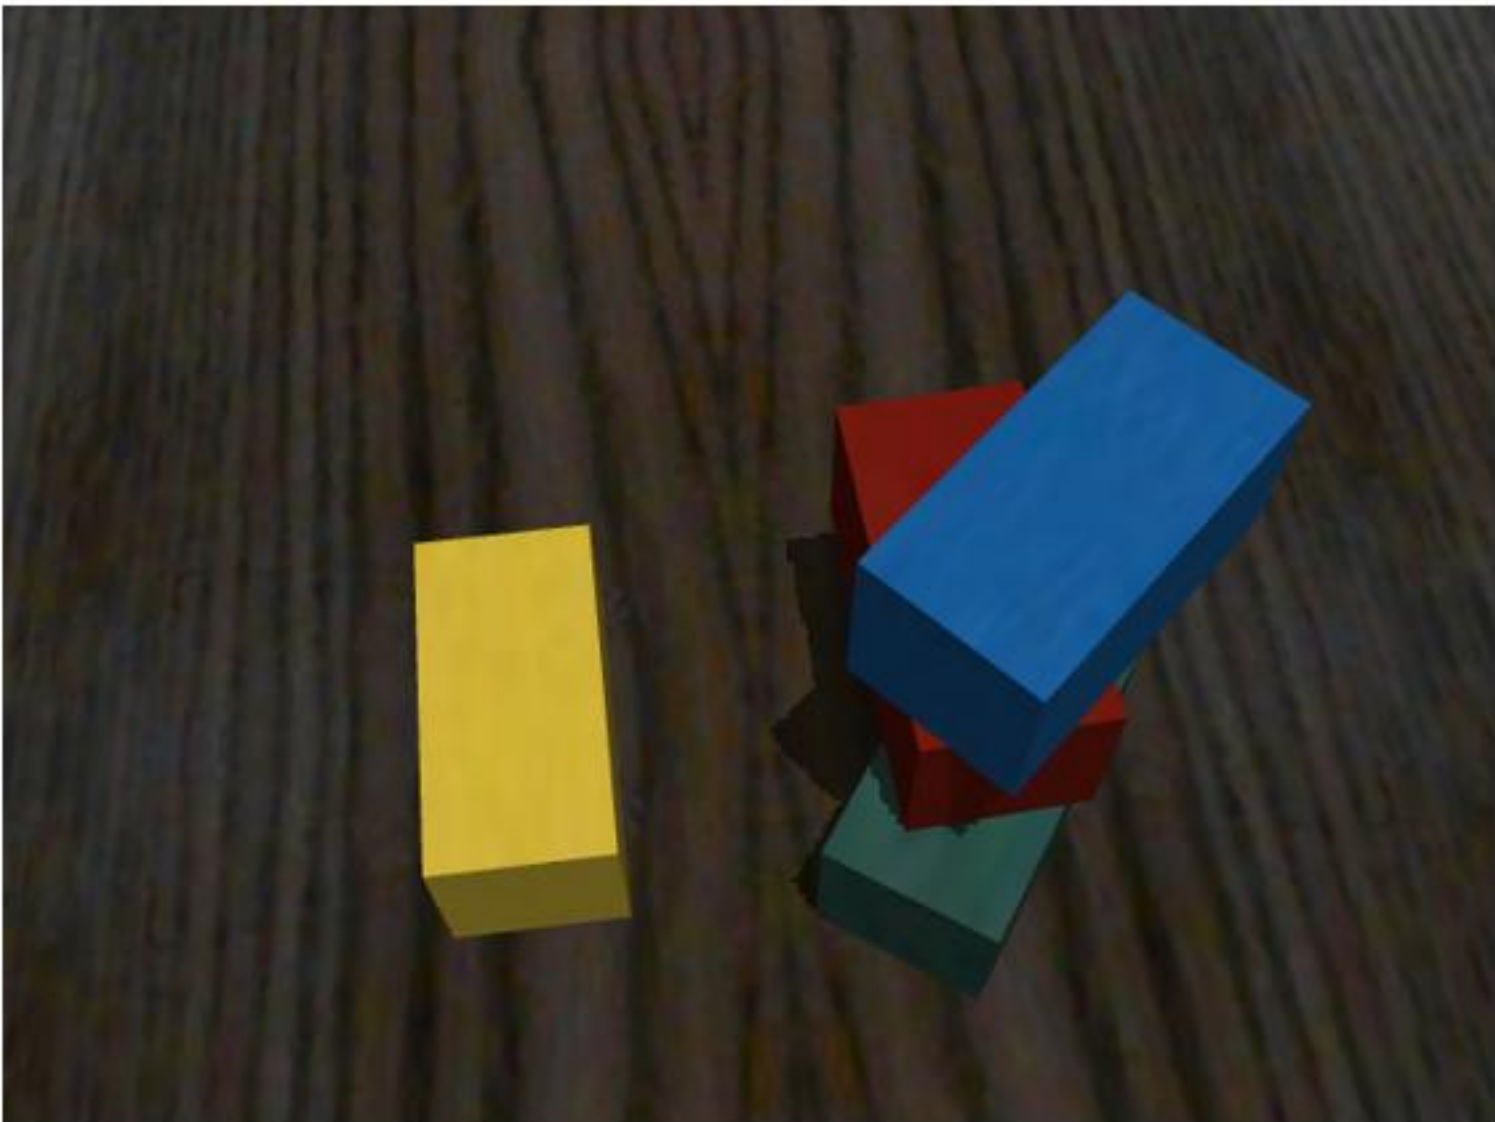

two blocks on the target; occlusion: partial; best order: blue → red → green (3 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

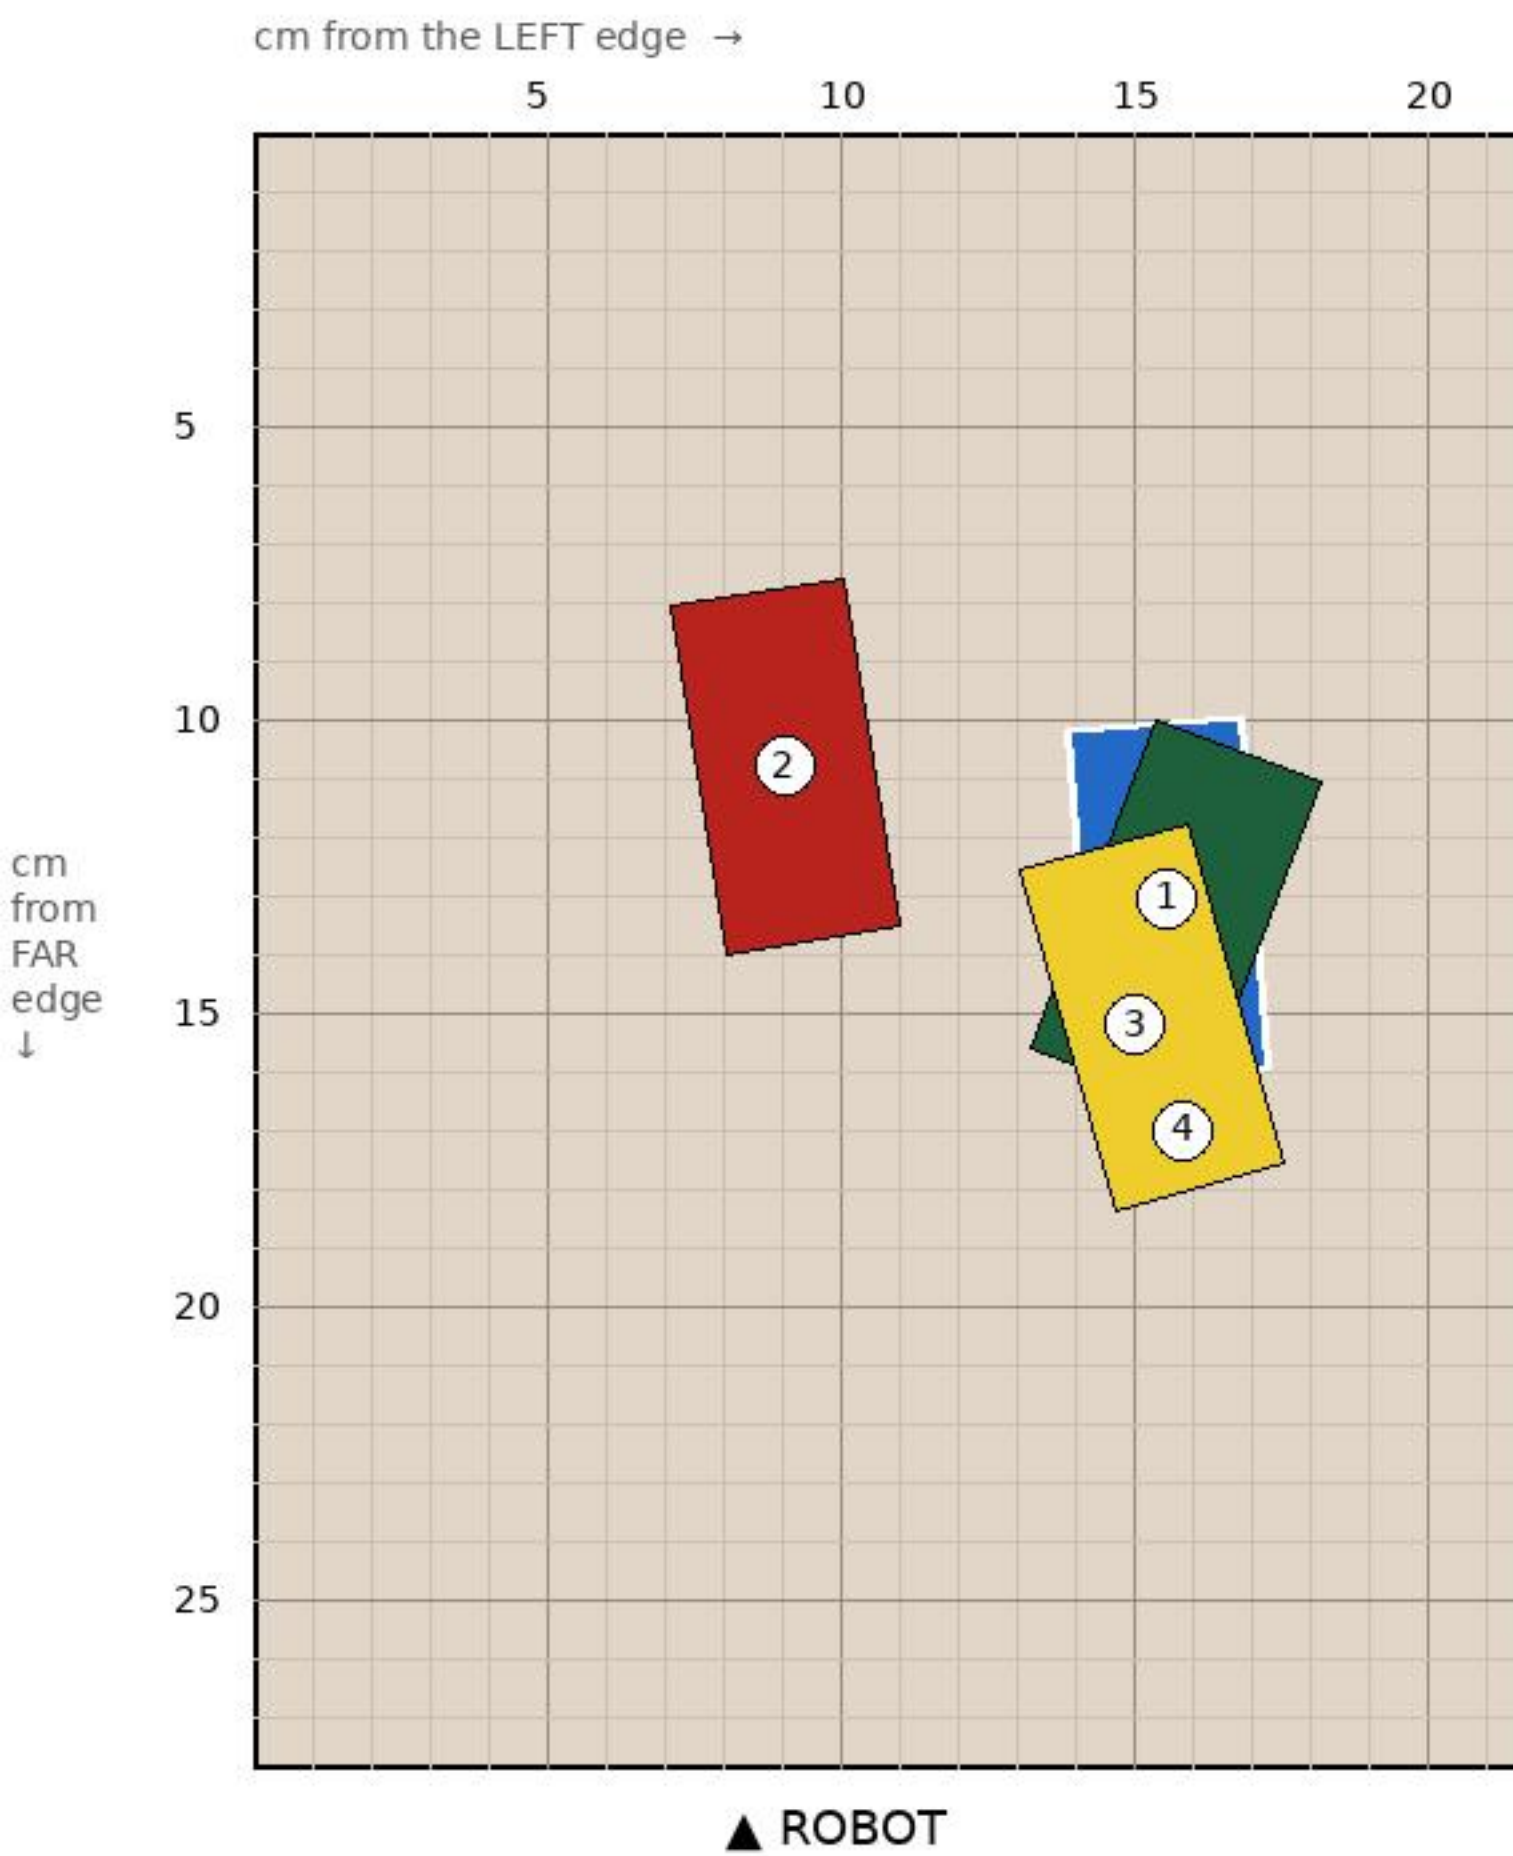

Build in this order (numbers = the circles in the top view). Positions are block centres.

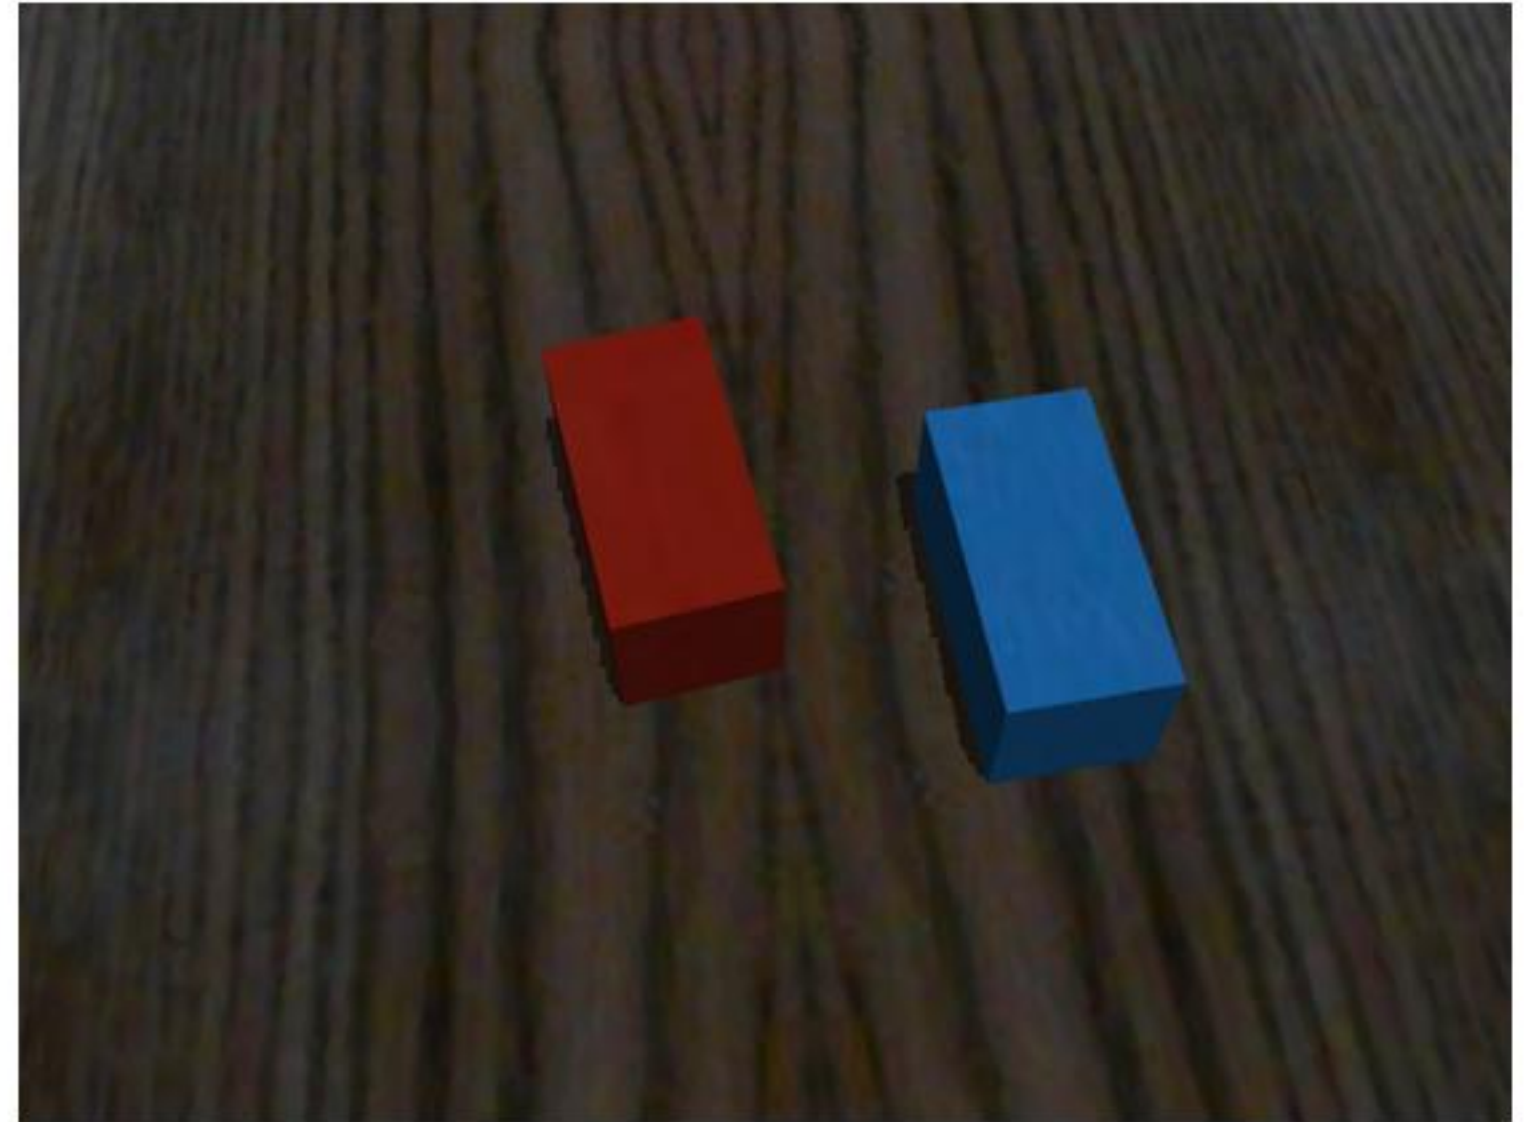

- 1. green far edge 16.6 cm left edge 14.3 cm turned -34° (far end to the right) flat on the table (TARGET)
- 2. yellow far edge 14.9 cm left edge 6.6 cm turned +1° (straight) flat on the table
- 3. red far edge 14.9 cm left edge 13.9 cm turned +4° (far end to the left) lies on green, level
- 4. blue far edge 15.6 cm left edge 15.0 cm turned -48° (far end to the right) lies on red, level

C2-02 [EVAL] target: BLUE

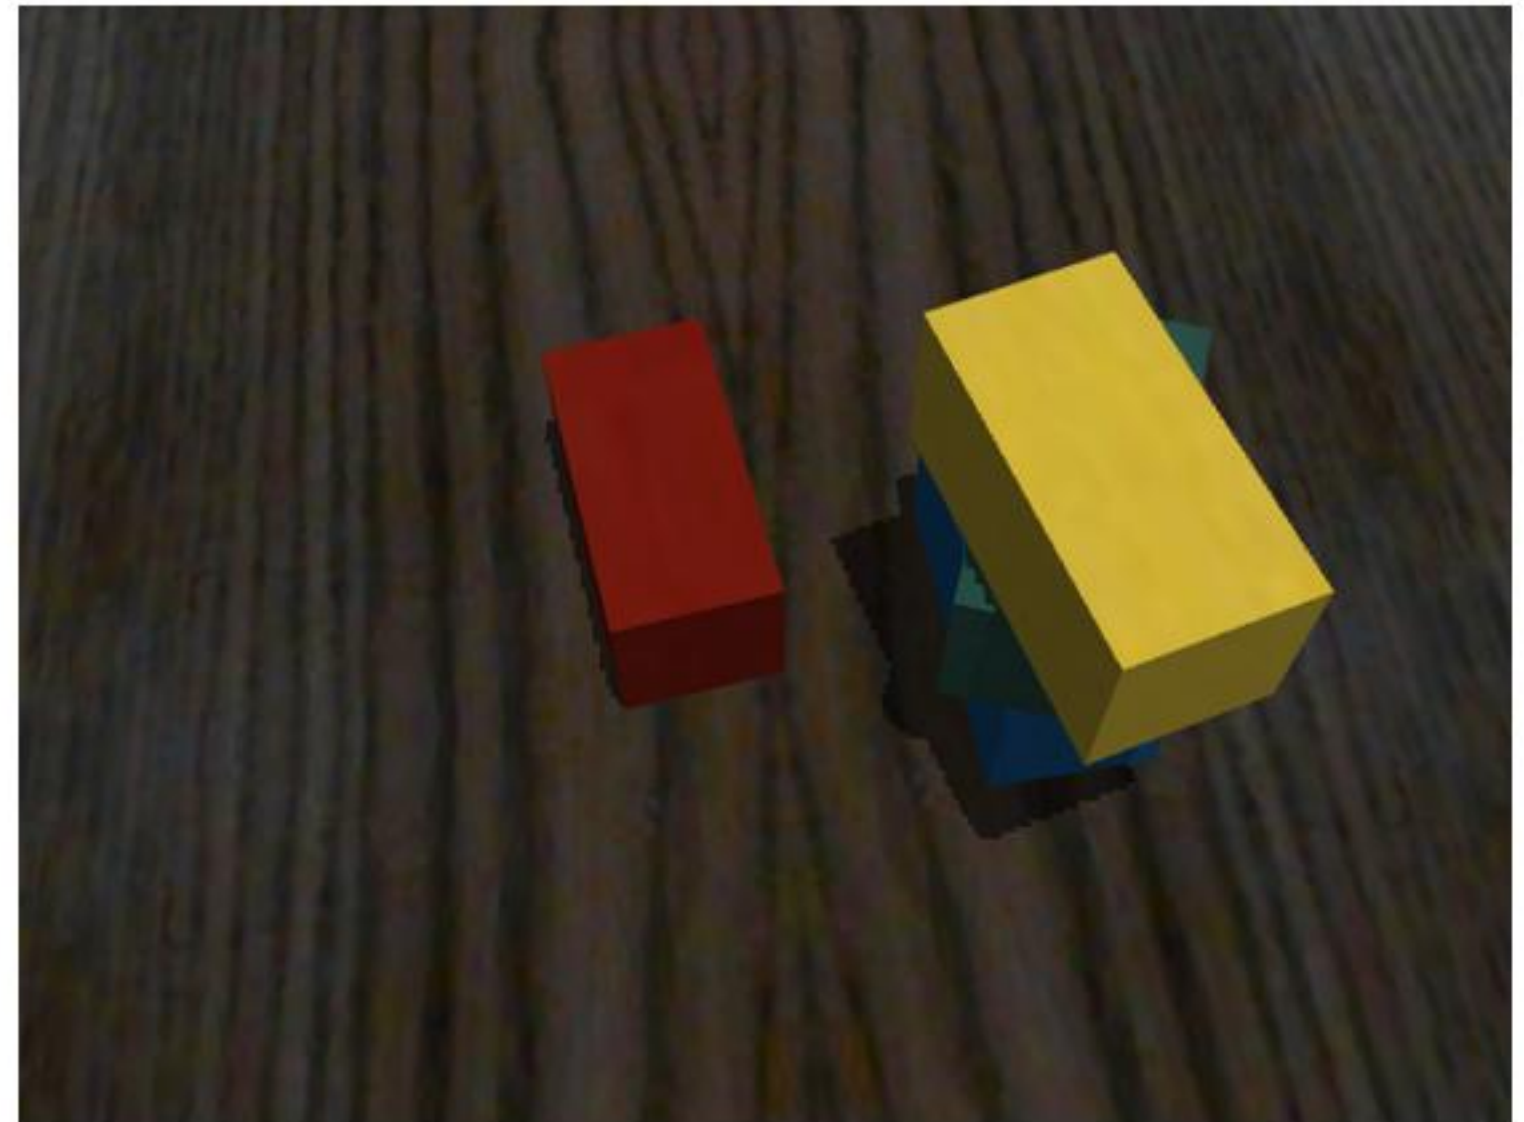

two blocks on the target; occlusion: partial; best order: yellow → green → blue (3 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

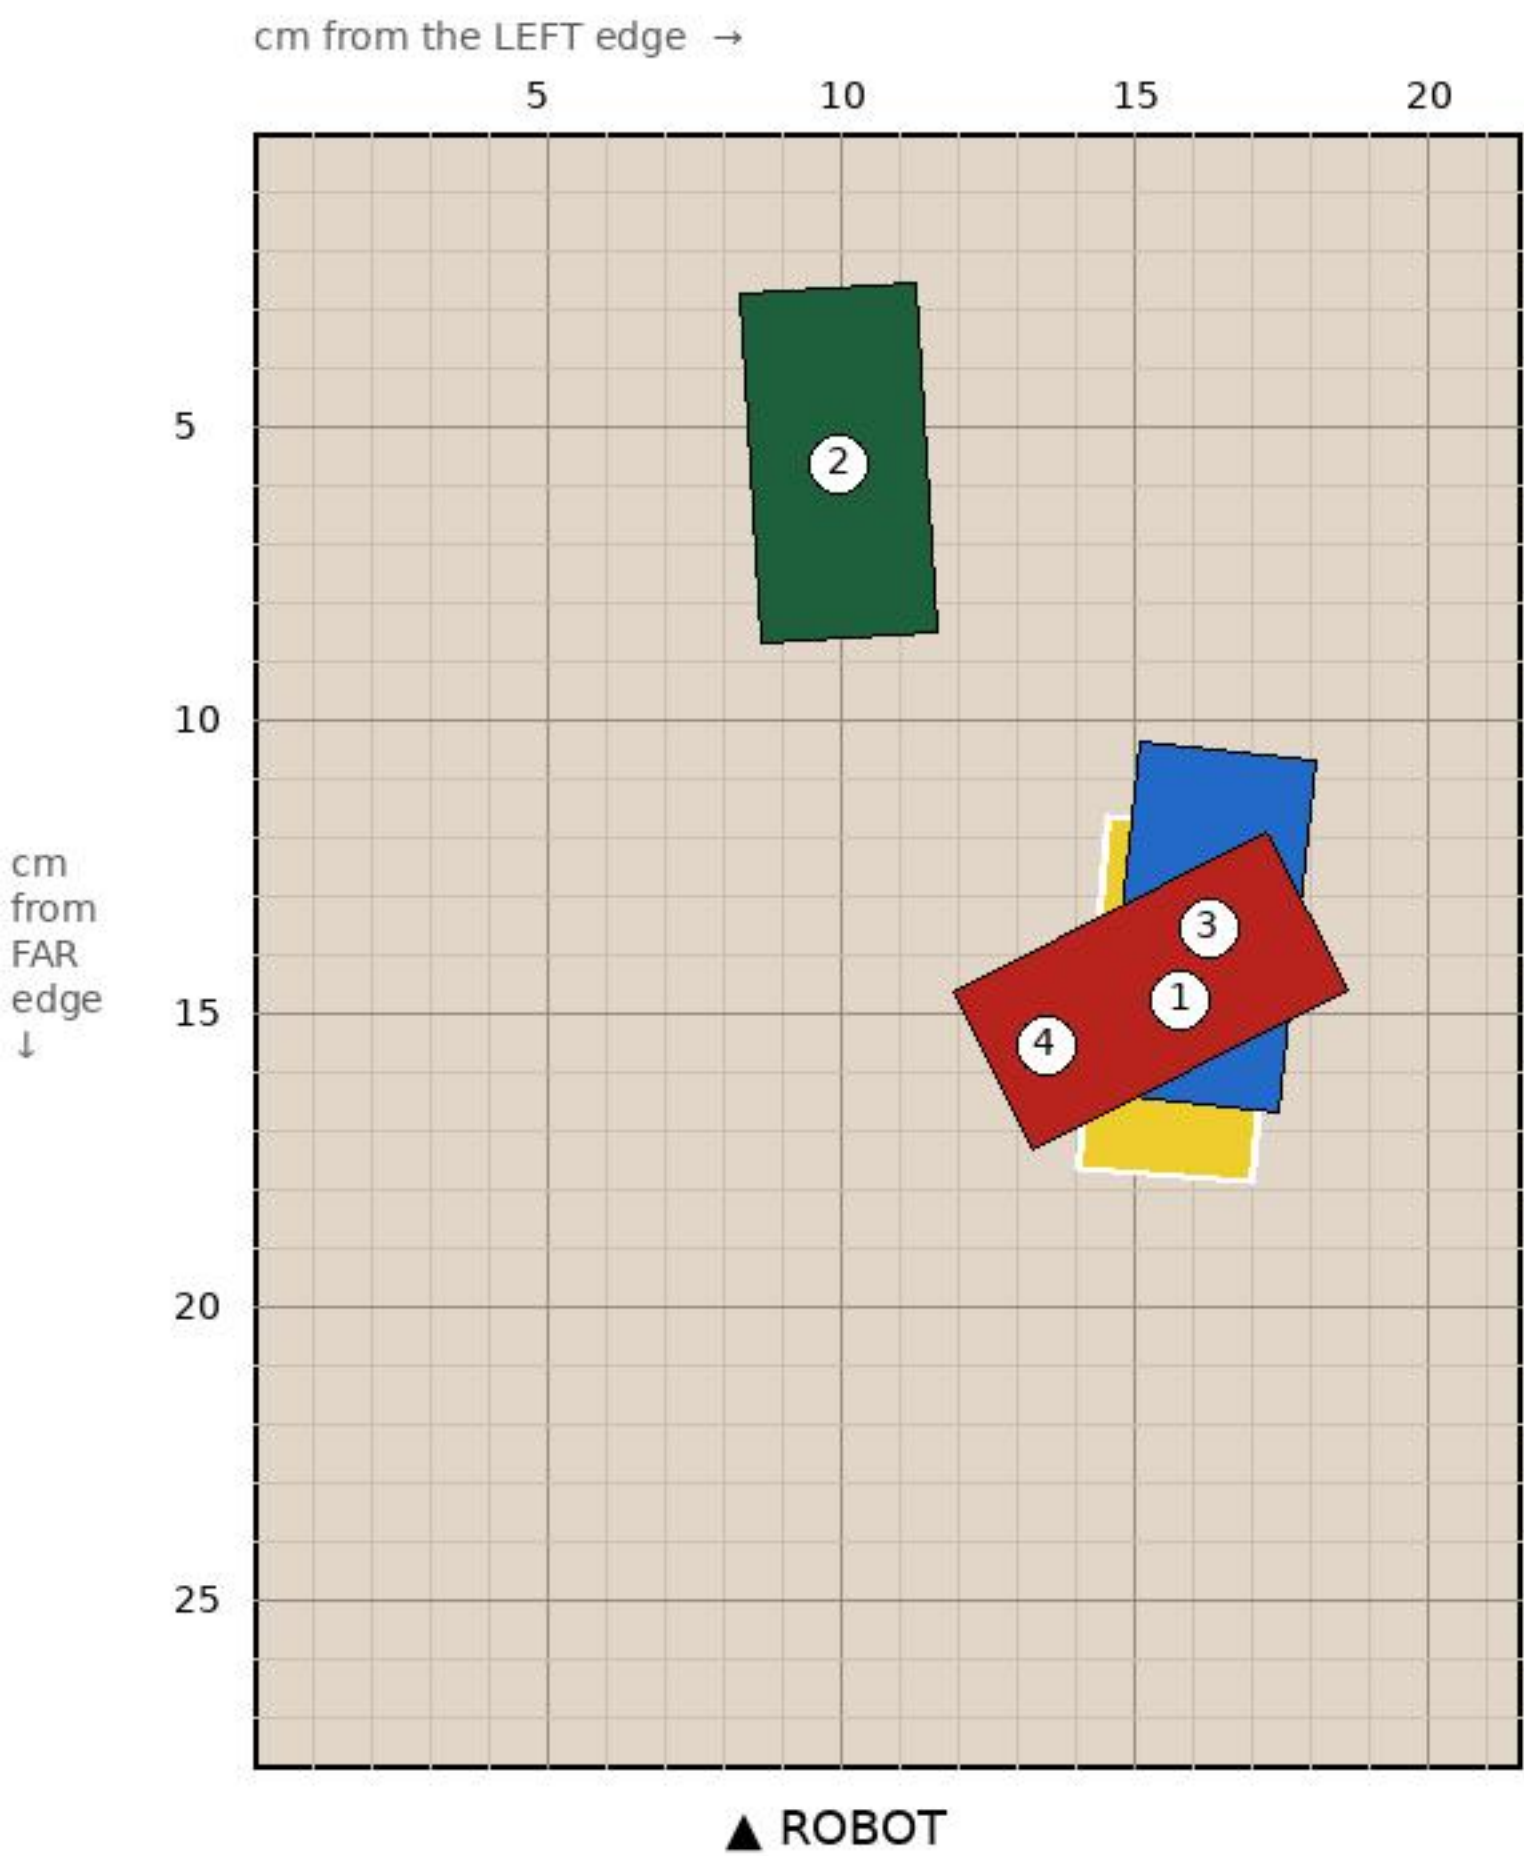

Build in this order (numbers = the circles in the top view). Positions are block centres.

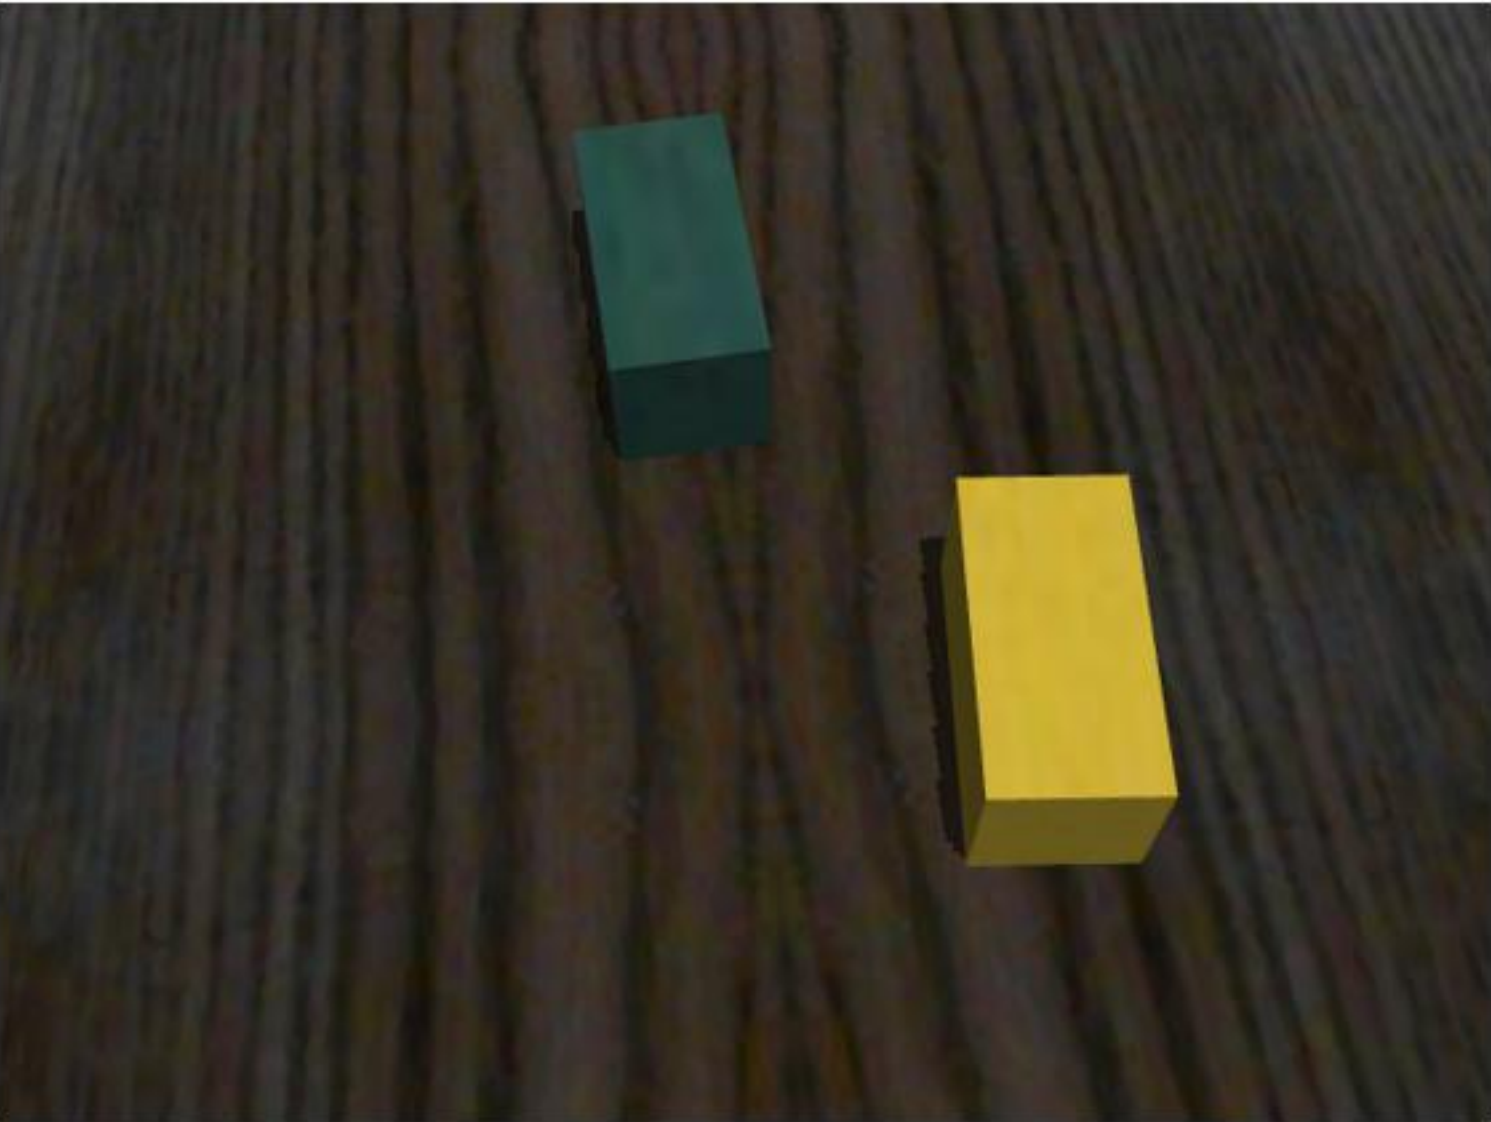

1. blue far edge 13.1 cm left edge 15.6 cm turned $+4^\circ$ (far end to the left) flat on the table (TARGET)
2. red far edge 10.8 cm left edge 9.1 cm turned $+9^\circ$ (far end to the left) flat on the table
3. green far edge 13.4 cm left edge 15.7 cm turned -21° (far end to the right) lies on blue, level
4. yellow far edge 15.1 cm left edge 15.3 cm turned $+16^\circ$ (far end to the left) lies on green, level

C2-03 [EVAL] target: YELLOW

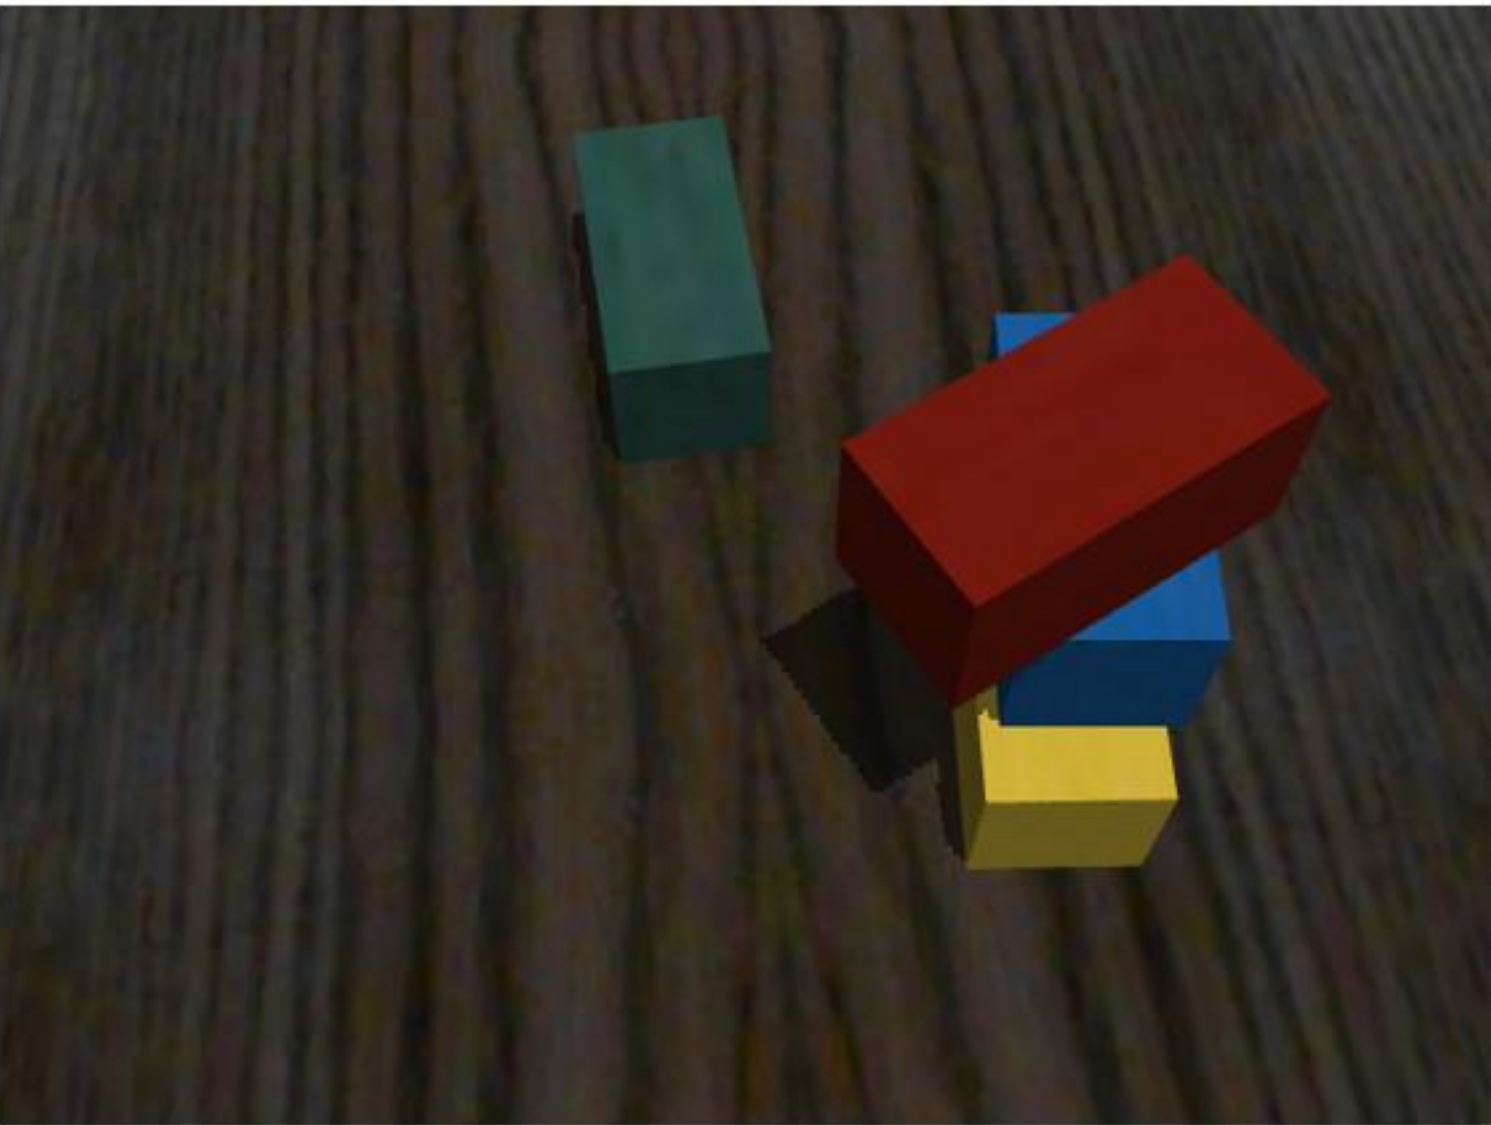

two blocks on the target; occlusion: partial; best order: red → blue → yellow (3 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

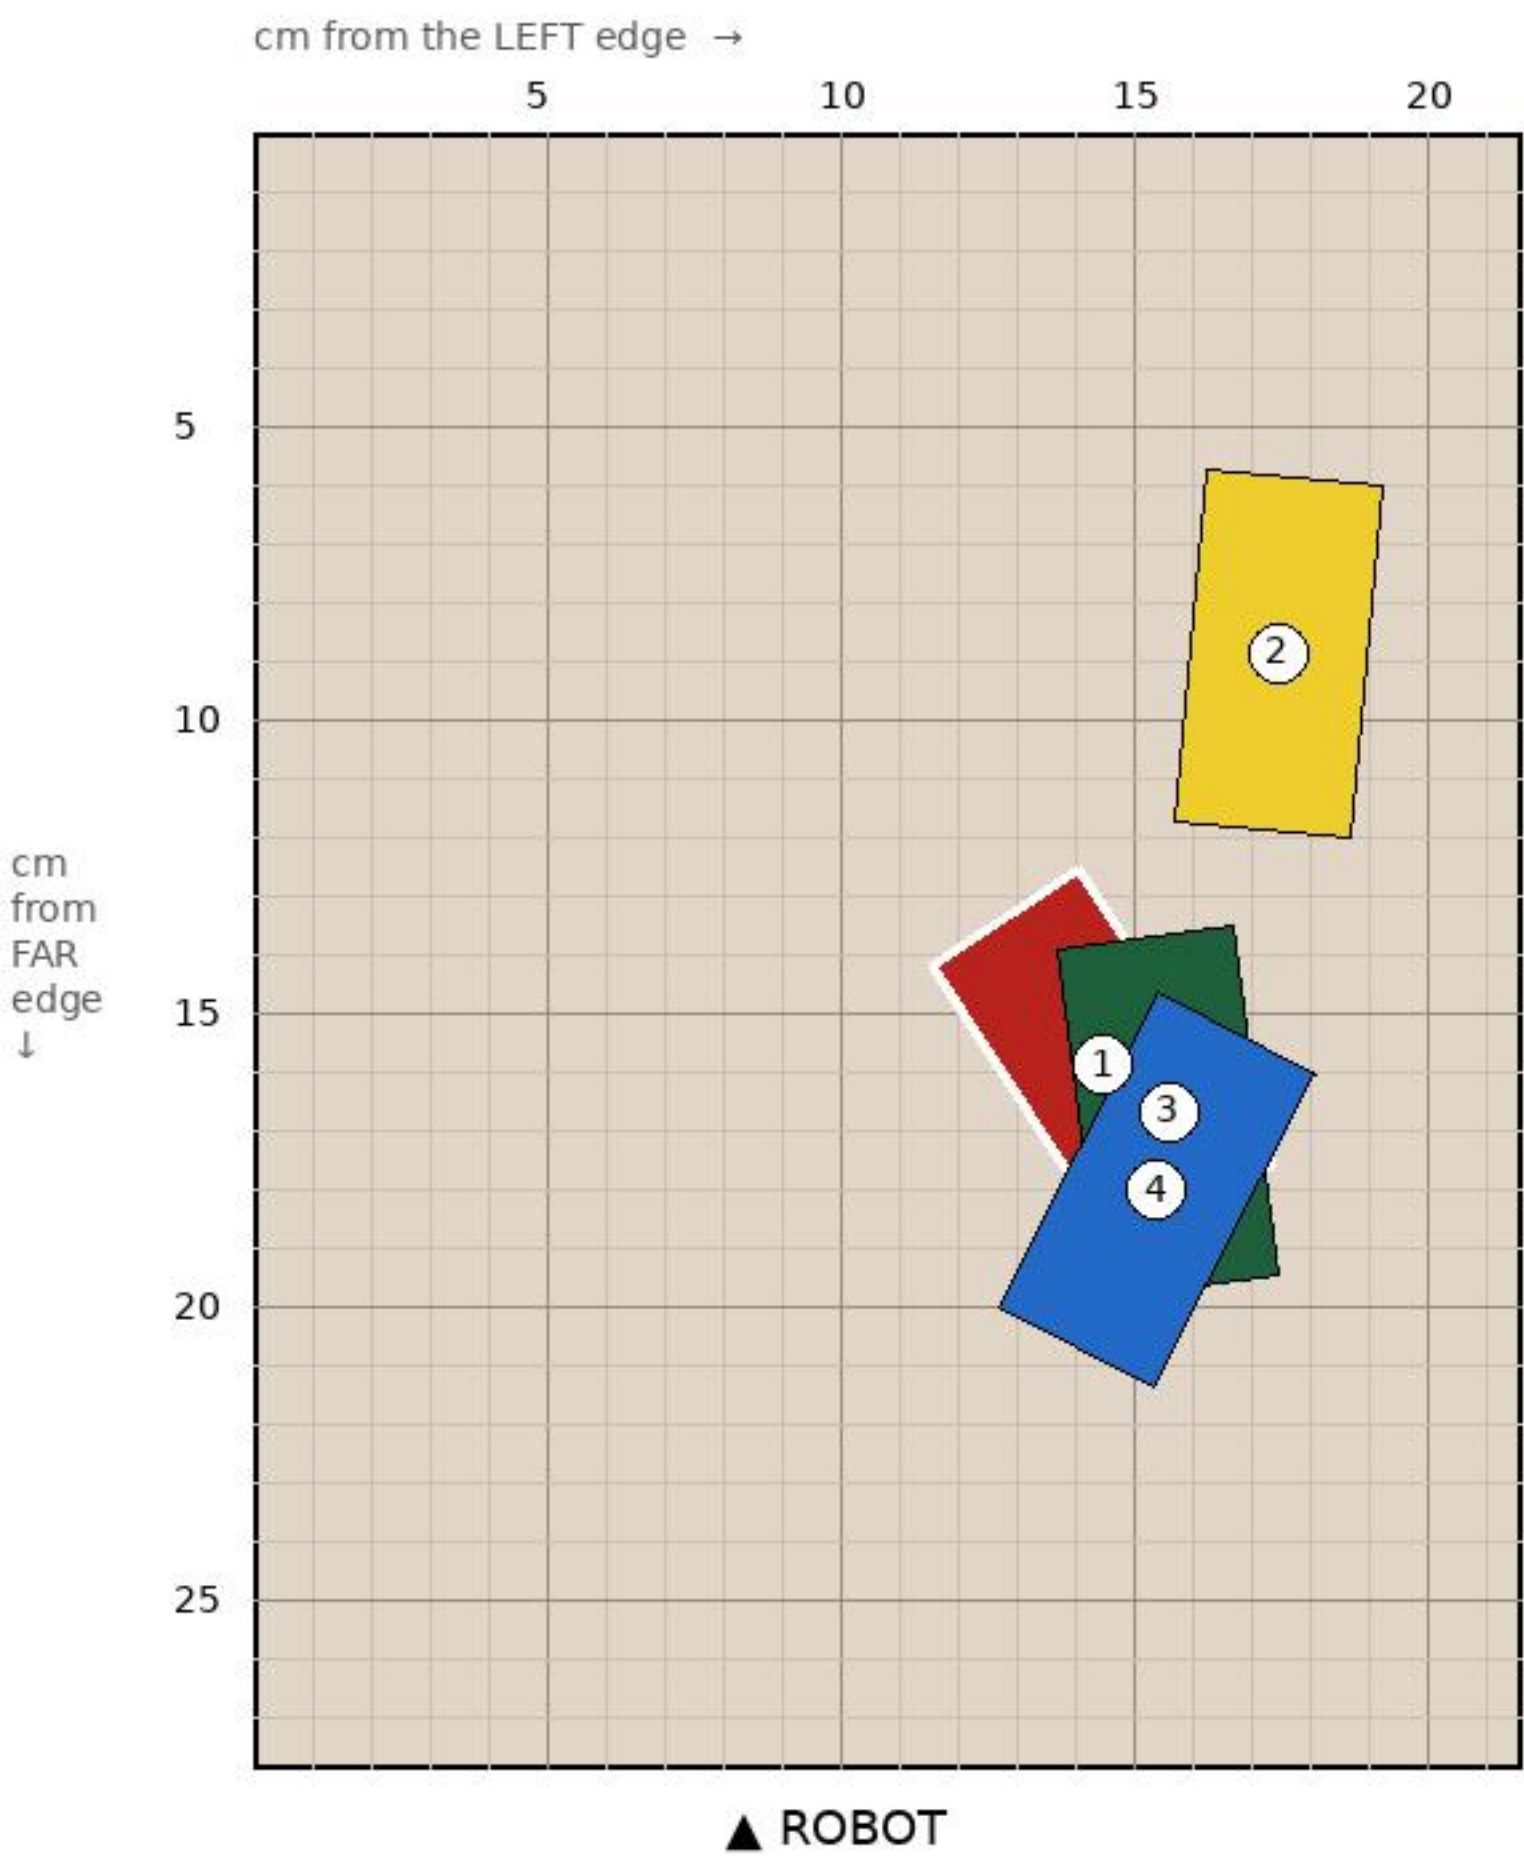

Build in this order (numbers = the circles in the top view). Positions are block centres.

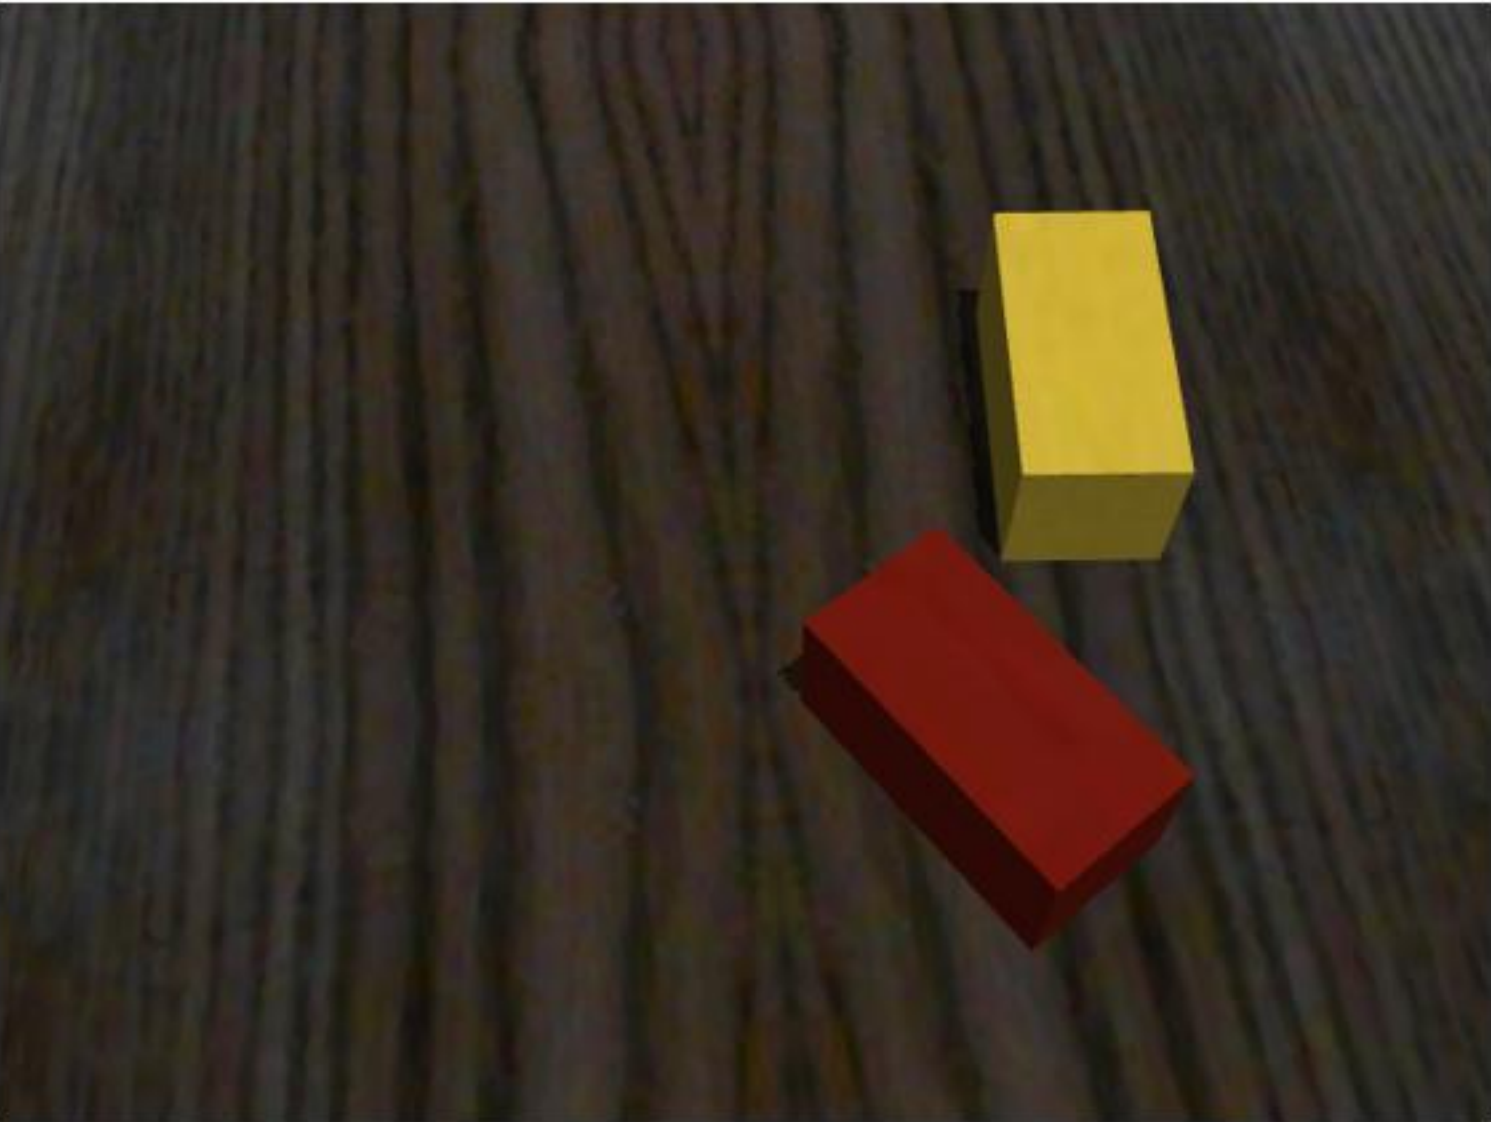

- 1. yellow far edge 14.8 cm left edge 15.8 cm turned -5° (far end to the right) flat on the table (TARGET)
- 2. green far edge 5.6 cm left edge 10.0 cm turned +4° (far end to the left) flat on the table
- 3. blue far edge 13.6 cm left edge 16.3 cm turned -6° (far end to the right) lies on yellow, level
- 4. red far edge 14.7 cm left edge 15.3 cm turned -63° (far end to the right) lies on blue, level

C2-04 [EVAL] target: RED

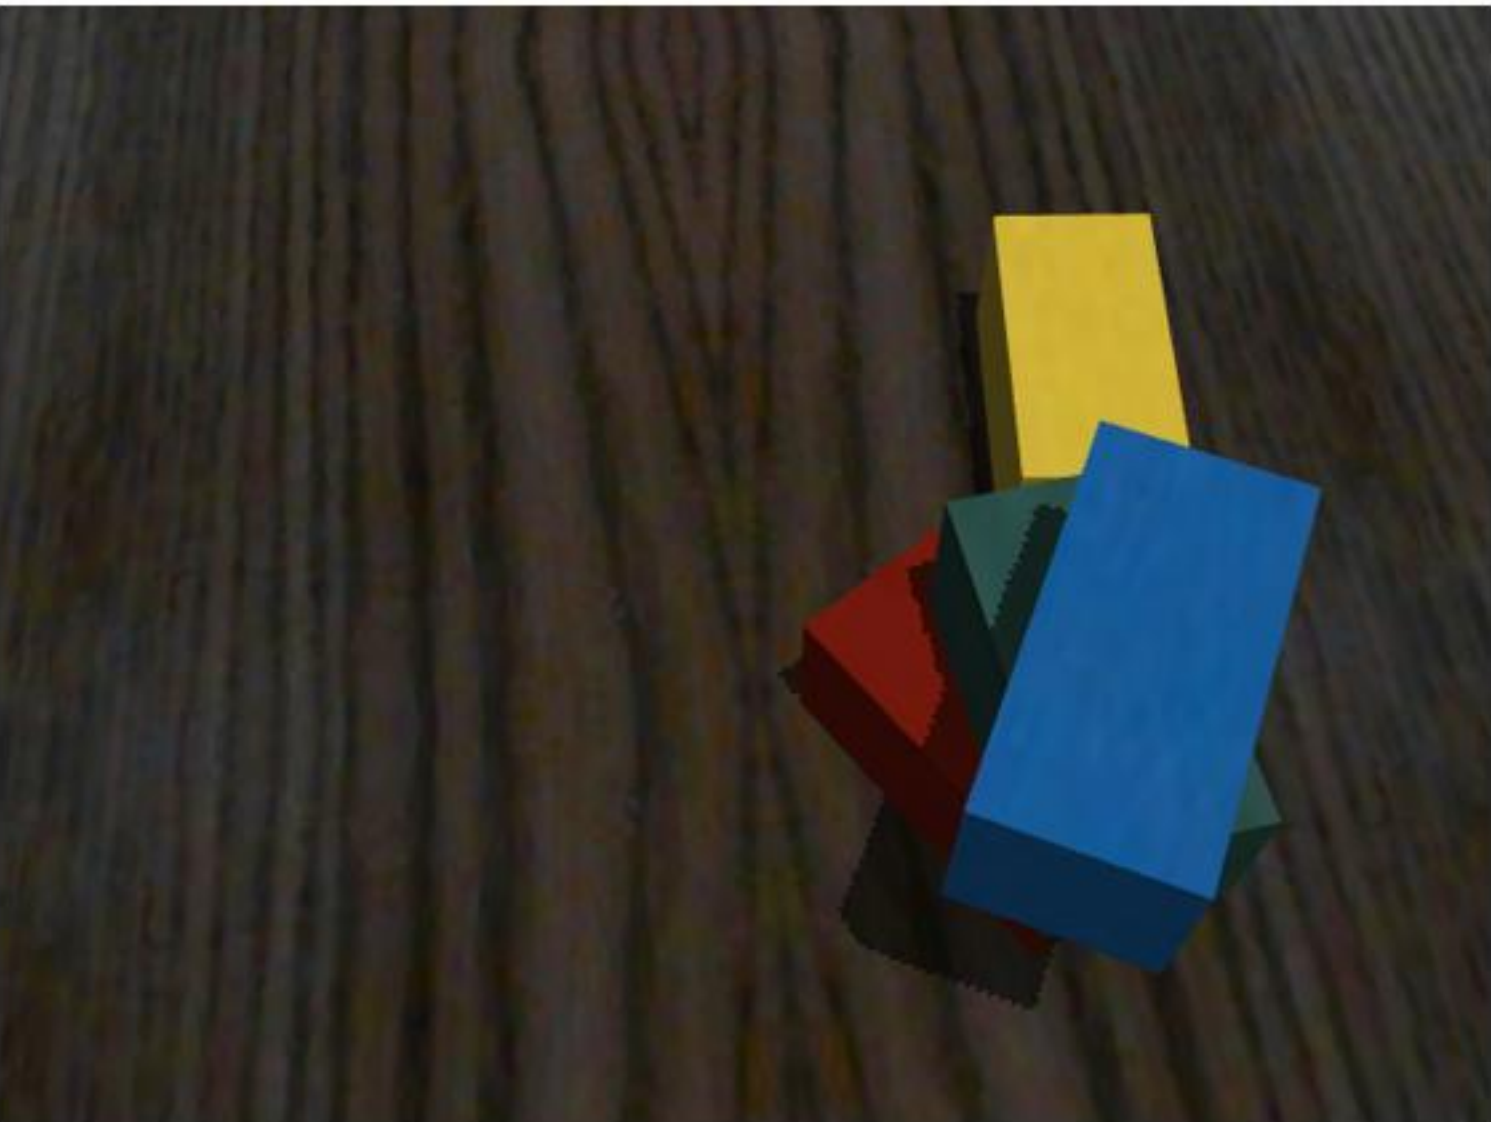

two blocks on the target; occlusion: partial; best order: blue → green → red (3 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

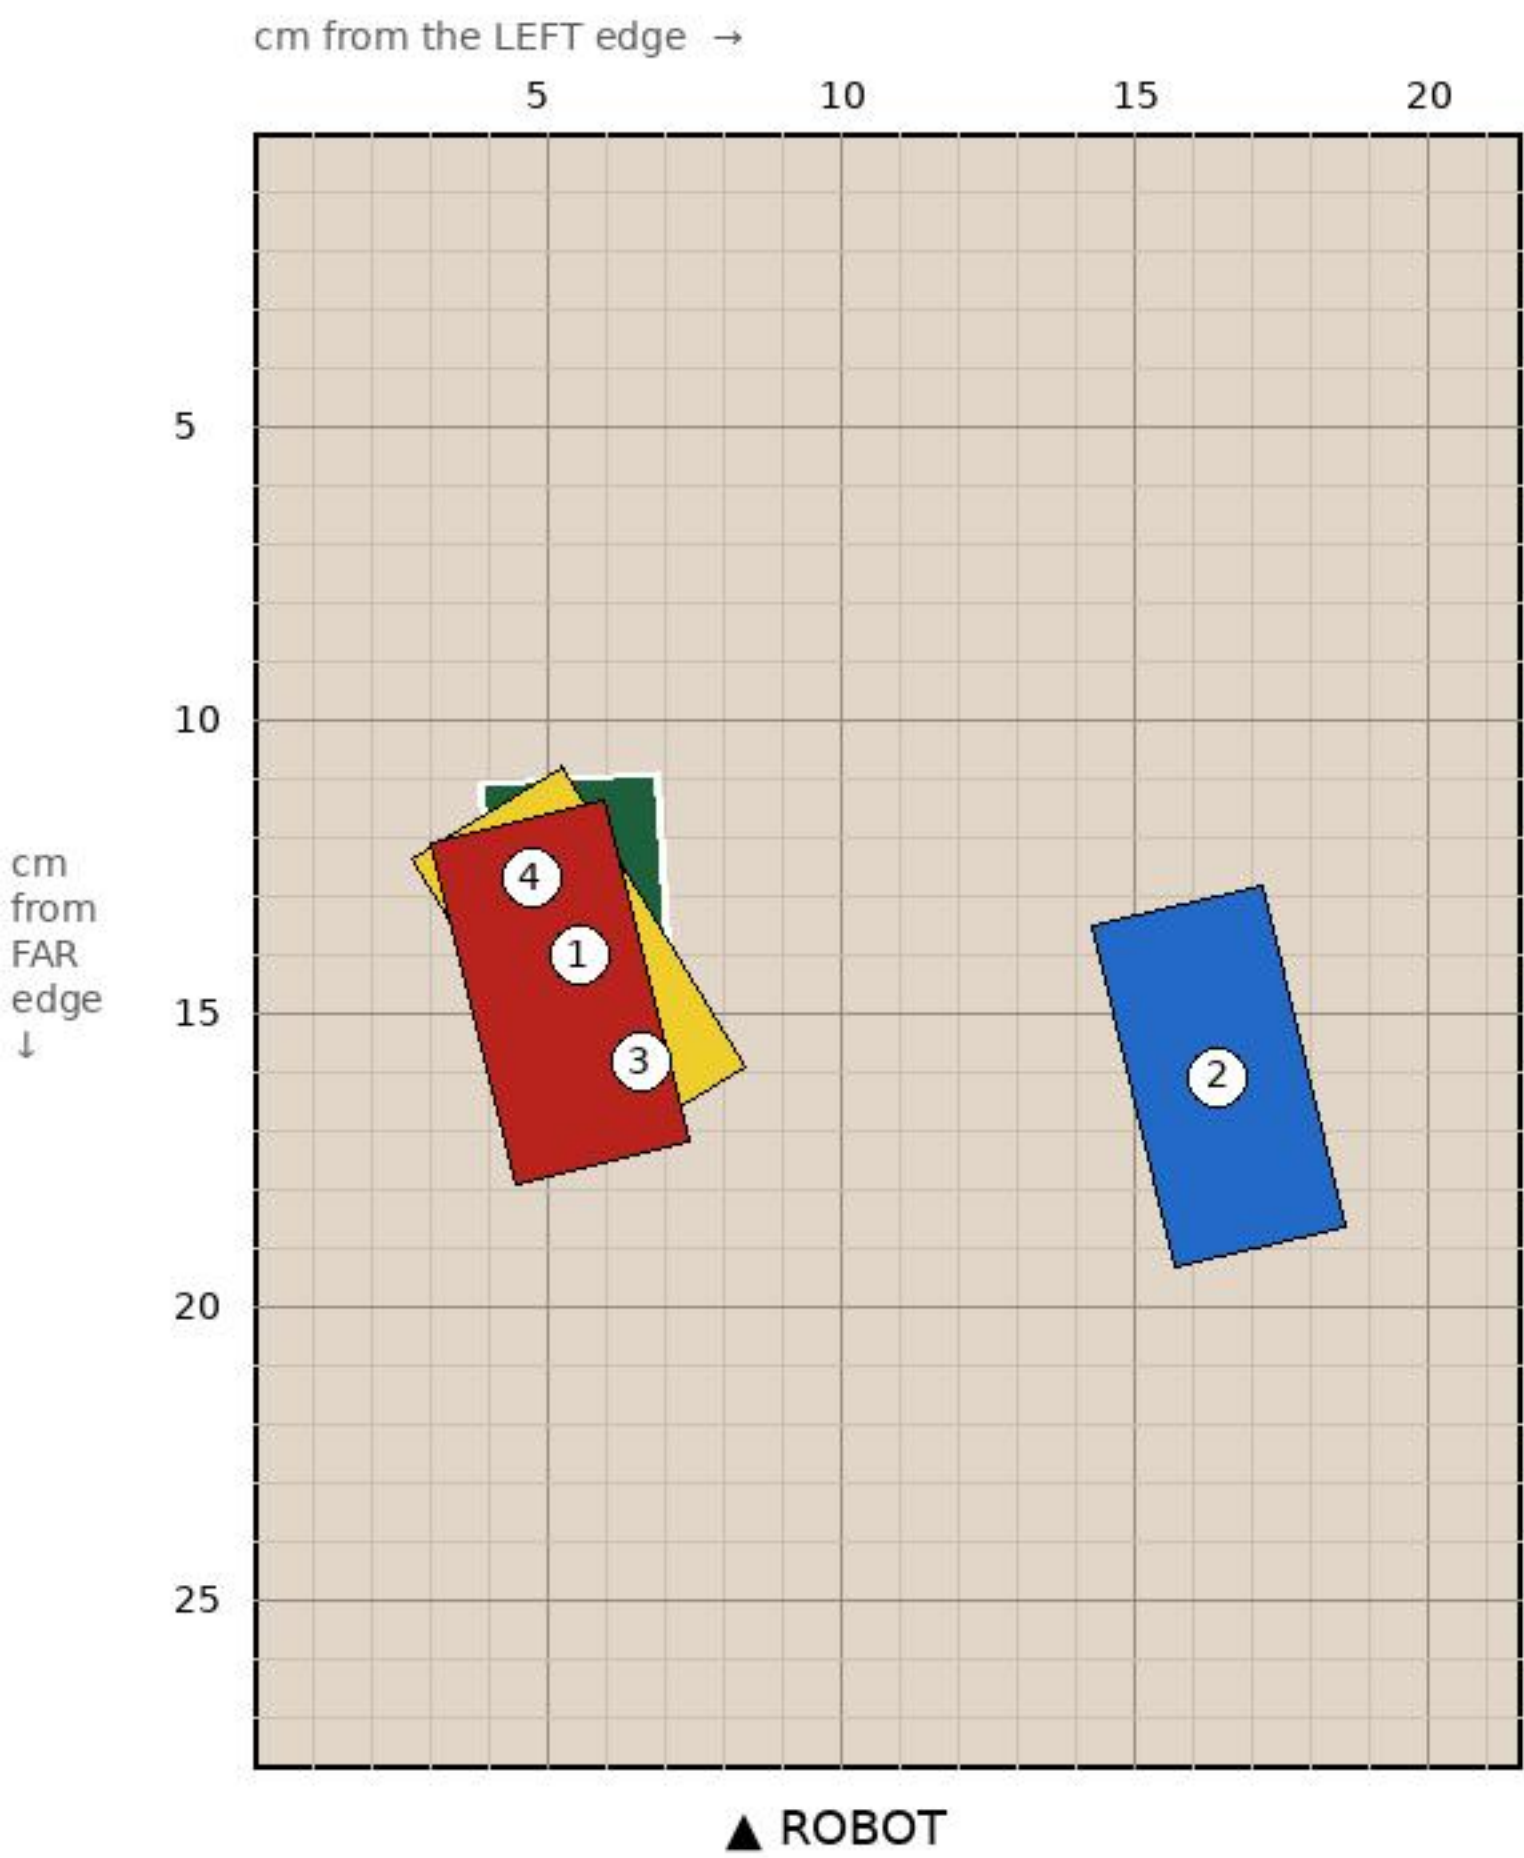

Build in this order (numbers = the circles in the top view). Positions are block centres.

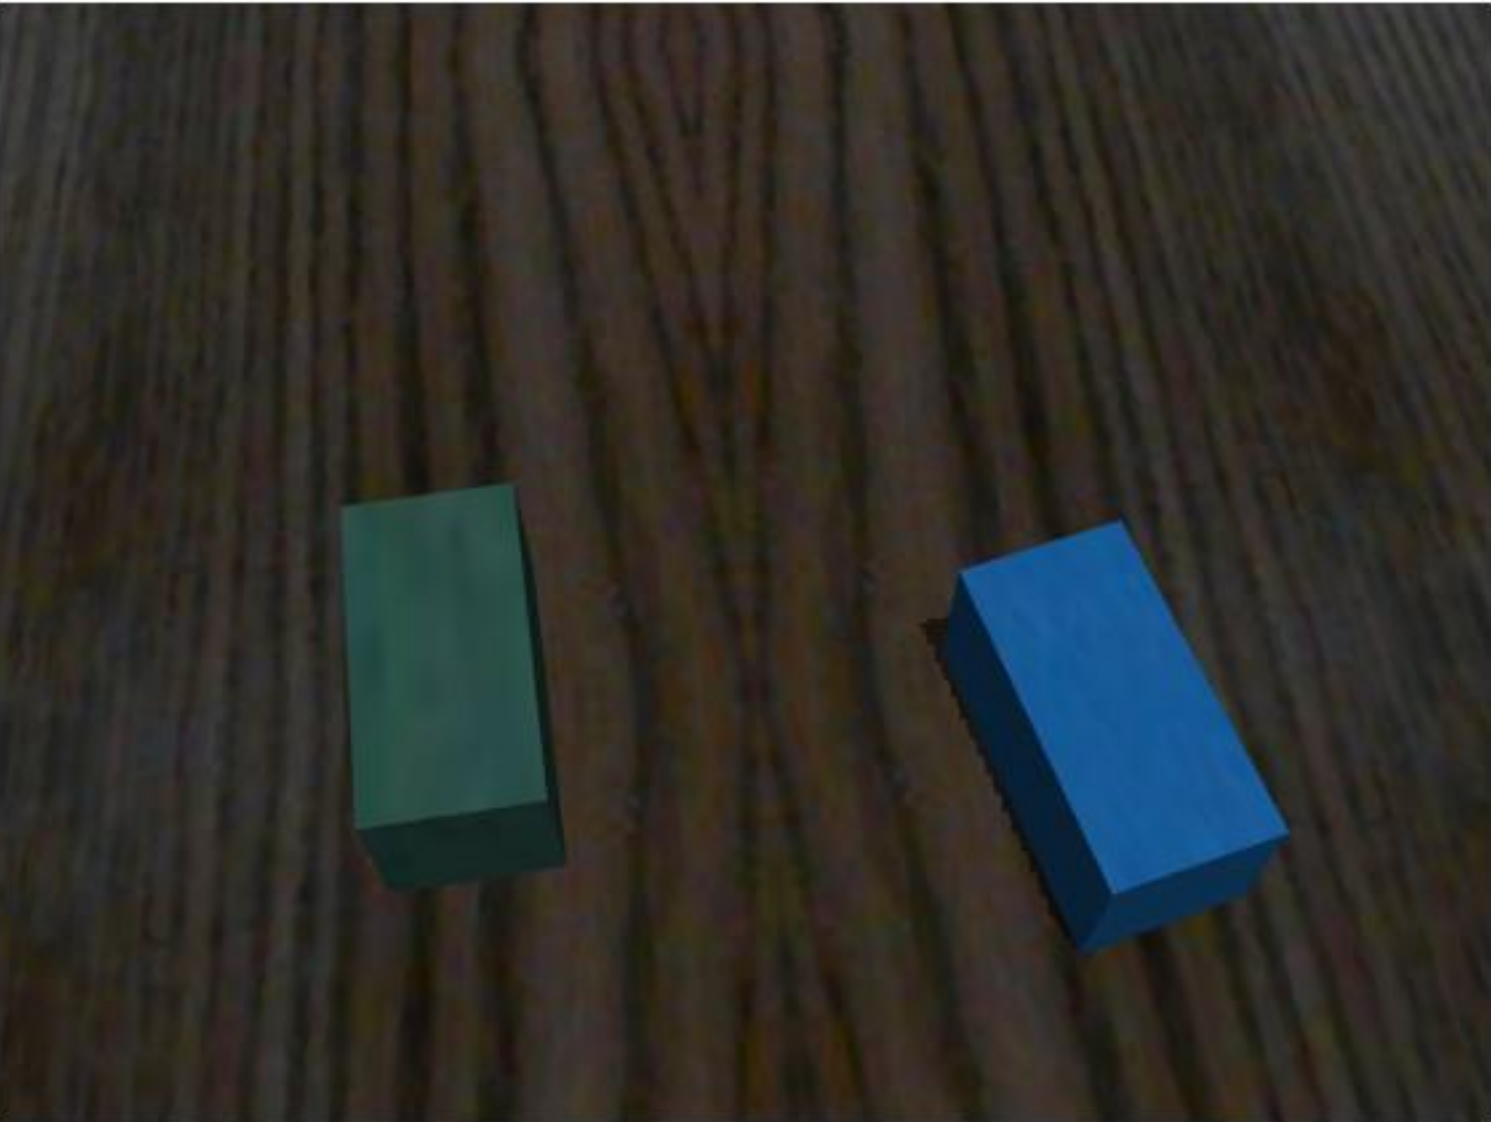

- 1. red far edge 15.9 cm left edge 14.5 cm turned +34° (far end to the left) flat on the table (TARGET)
- 2. yellow far edge 8.9 cm left edge 17.5 cm turned -5° (far end to the right) flat on the table
- 3. green far edge 16.7 cm left edge 15.6 cm turned +7° (far end to the left) lies on red, level
- 4. blue far edge 18.0 cm left edge 15.4 cm turned -27° (far end to the right) lies on green, level

C2-05 [EVAL] target: GREEN

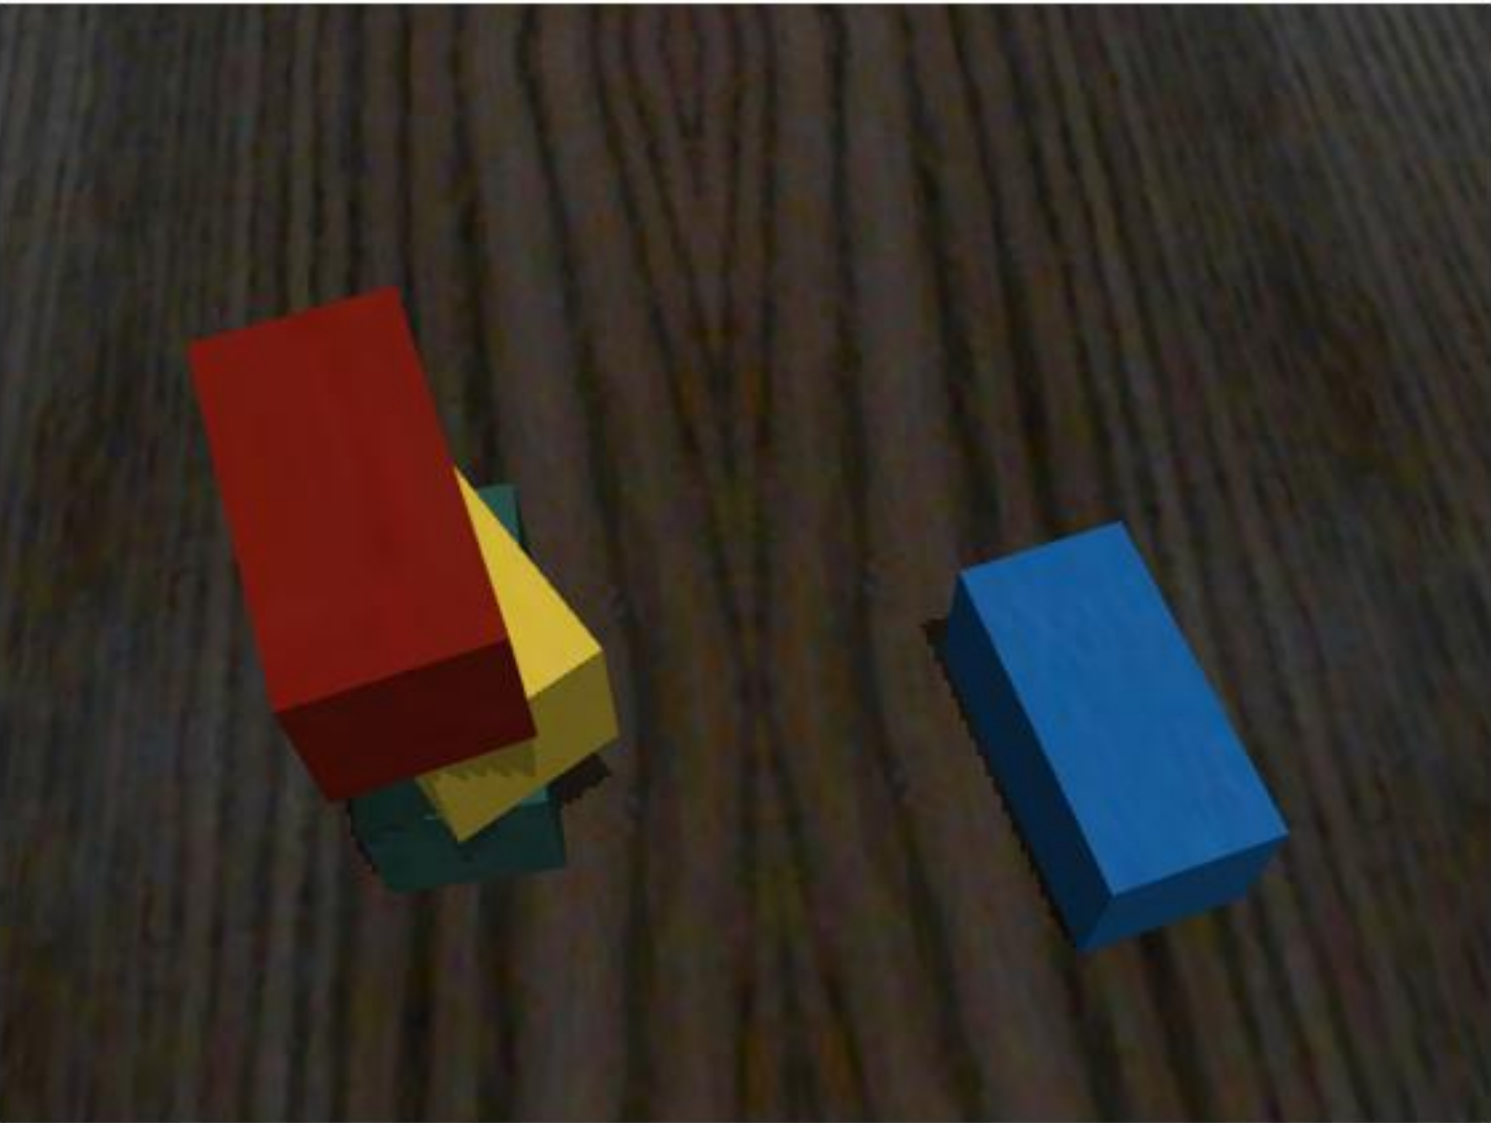

two blocks on the target; occlusion: partial; best order: red → yellow → green (3 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

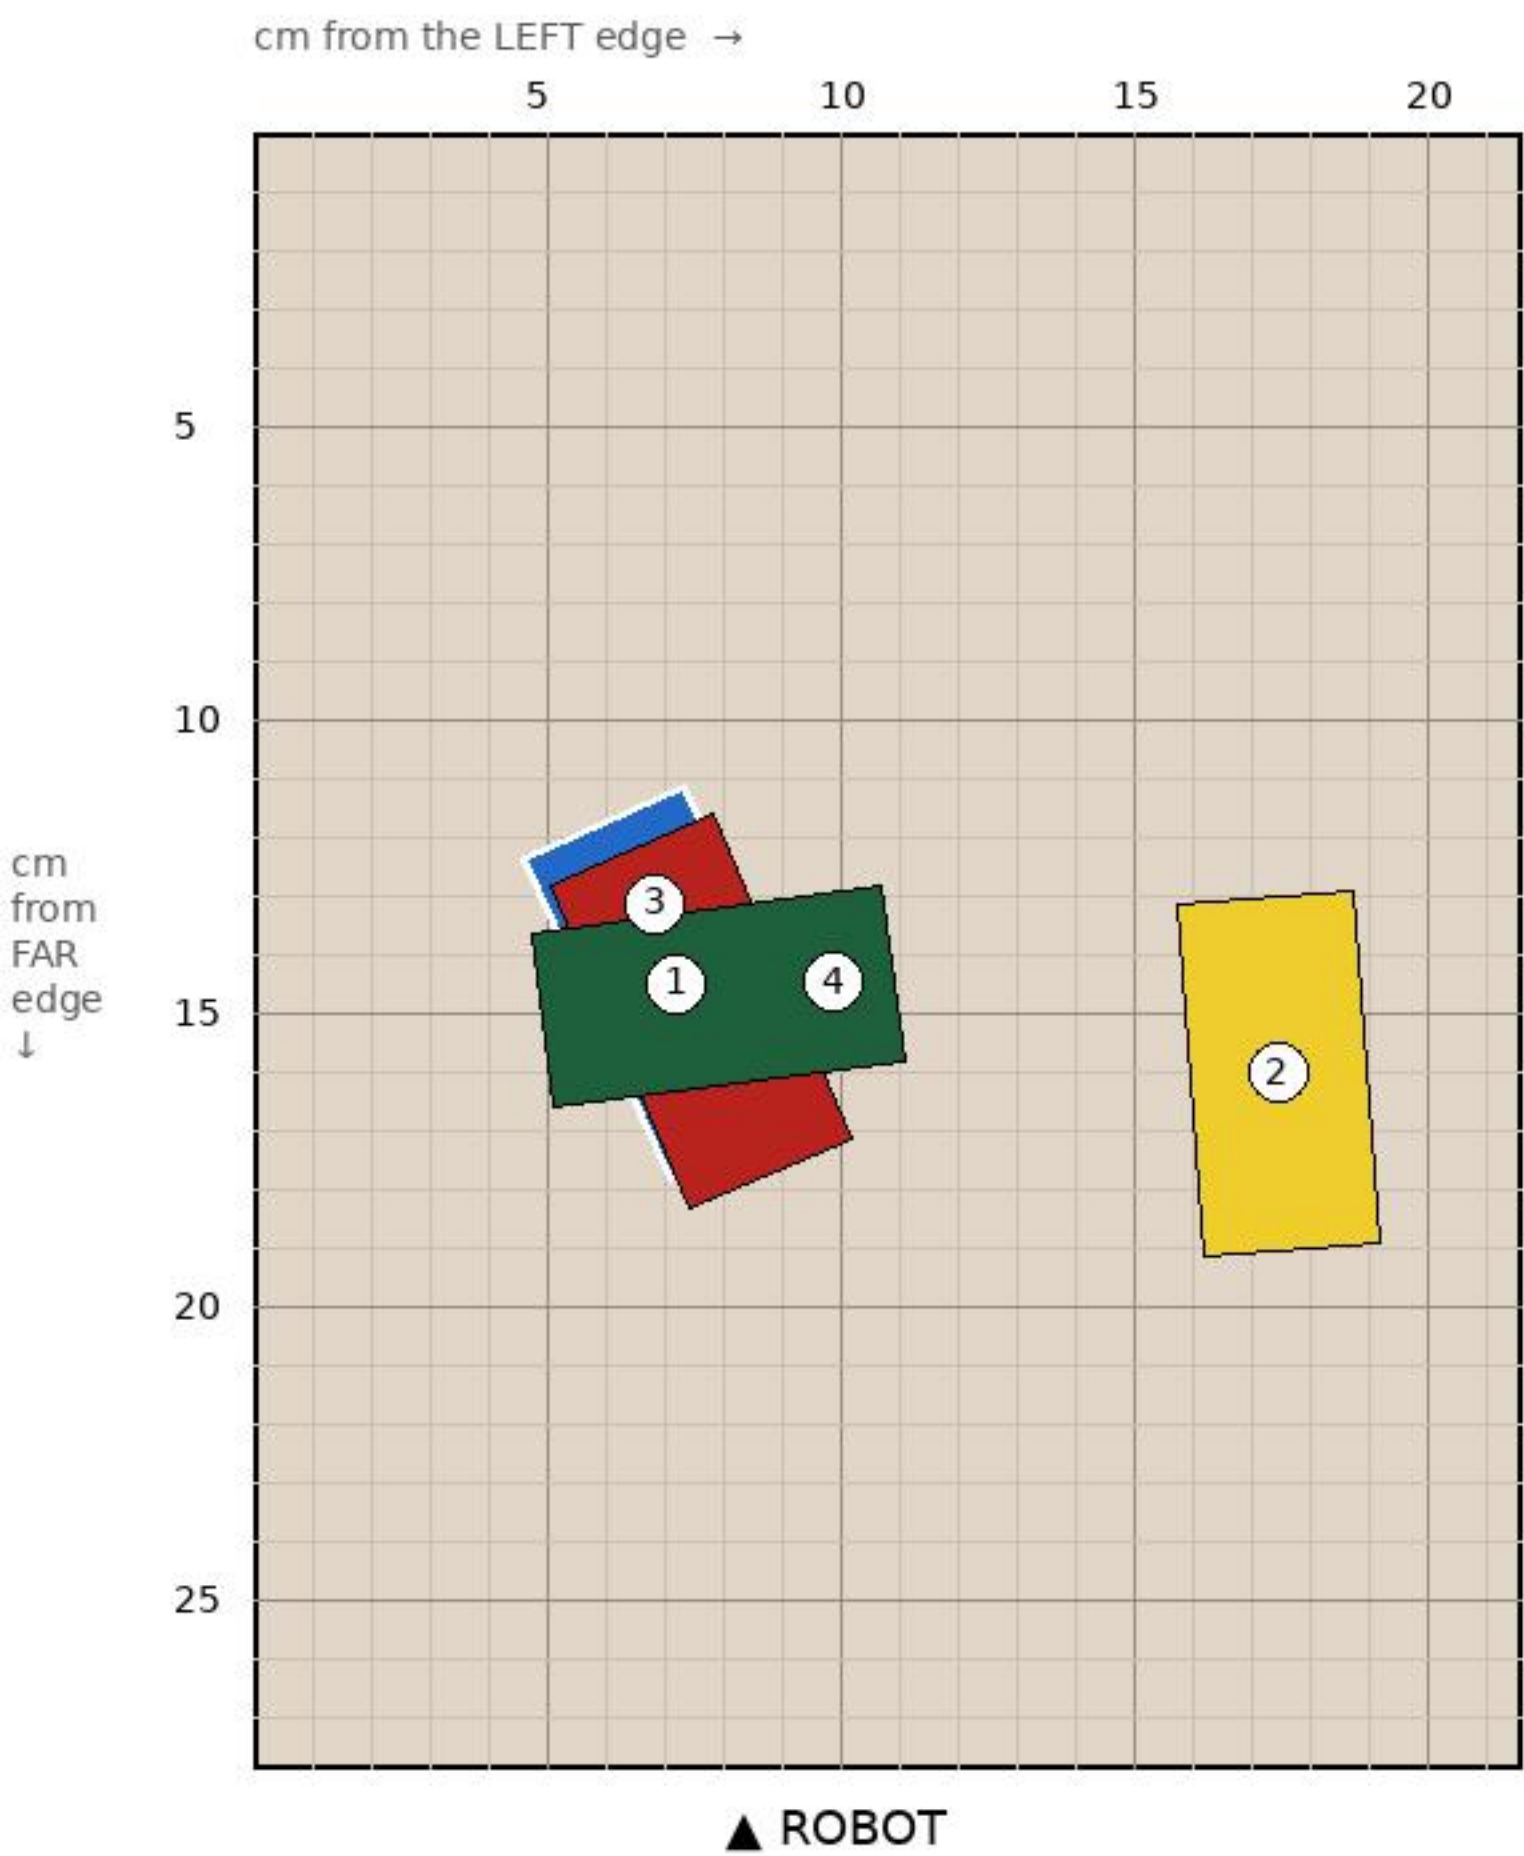

Build in this order (numbers = the circles in the top view). Positions are block centres.

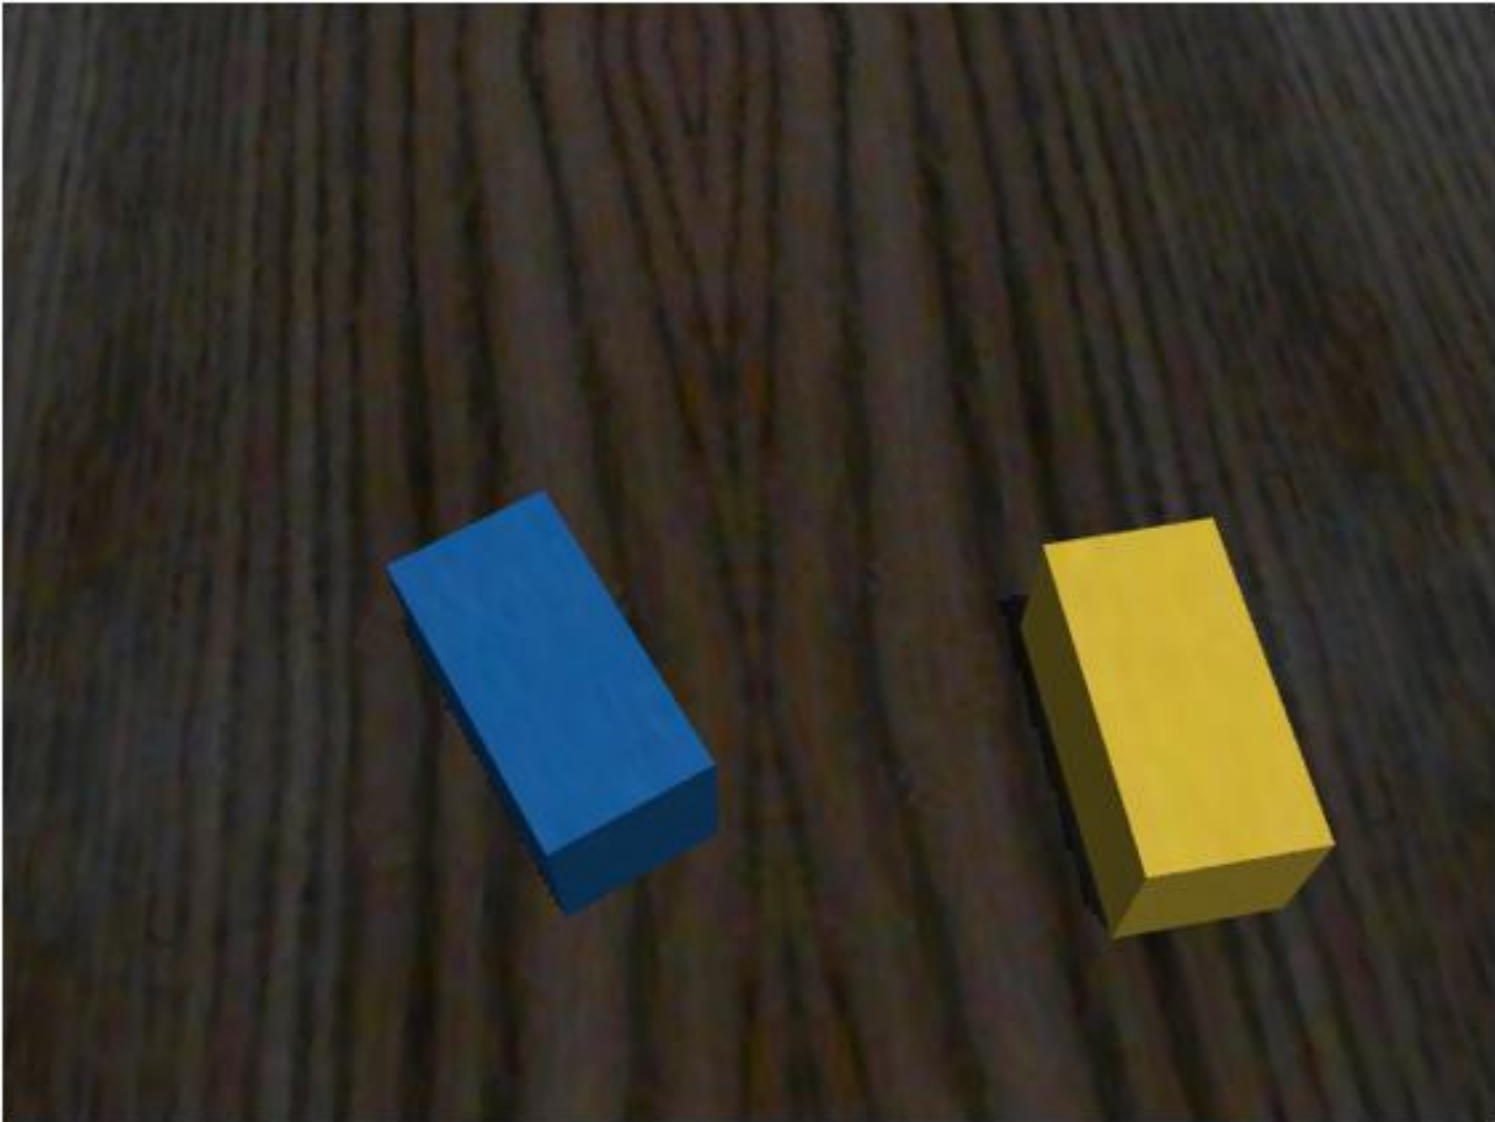

- 1. green far edge 14.0 cm left edge 5.6 cm turned +3° (far end to the left) flat on the table (TARGET)
- 2. blue far edge 16.1 cm left edge 16.5 cm turned +13° (far end to the left) flat on the table
- 3. yellow far edge 14.2 cm left edge 5.5 cm turned +32° (far end to the left) lies on green, level
- 4. red far edge 14.7 cm left edge 5.2 cm turned +14° (far end to the left) lies on yellow, level

C2-06 [EVAL] target: BLUE

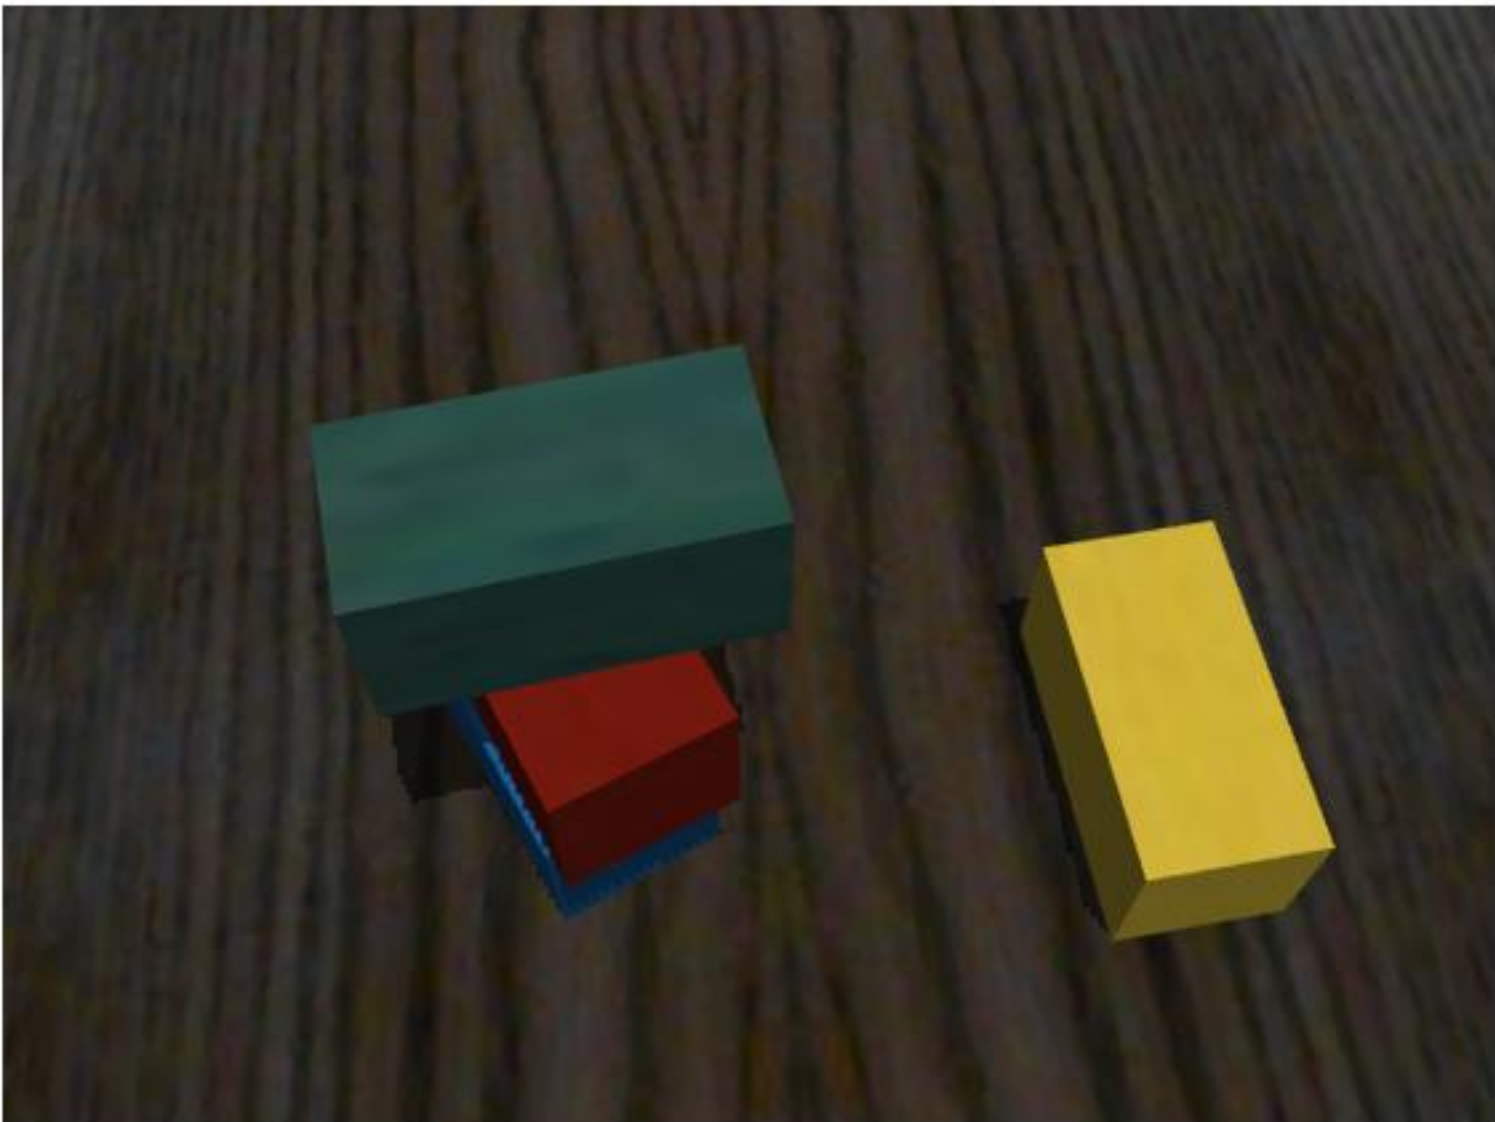

two blocks on the target; occlusion: partial; best order: green → red → blue (3 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

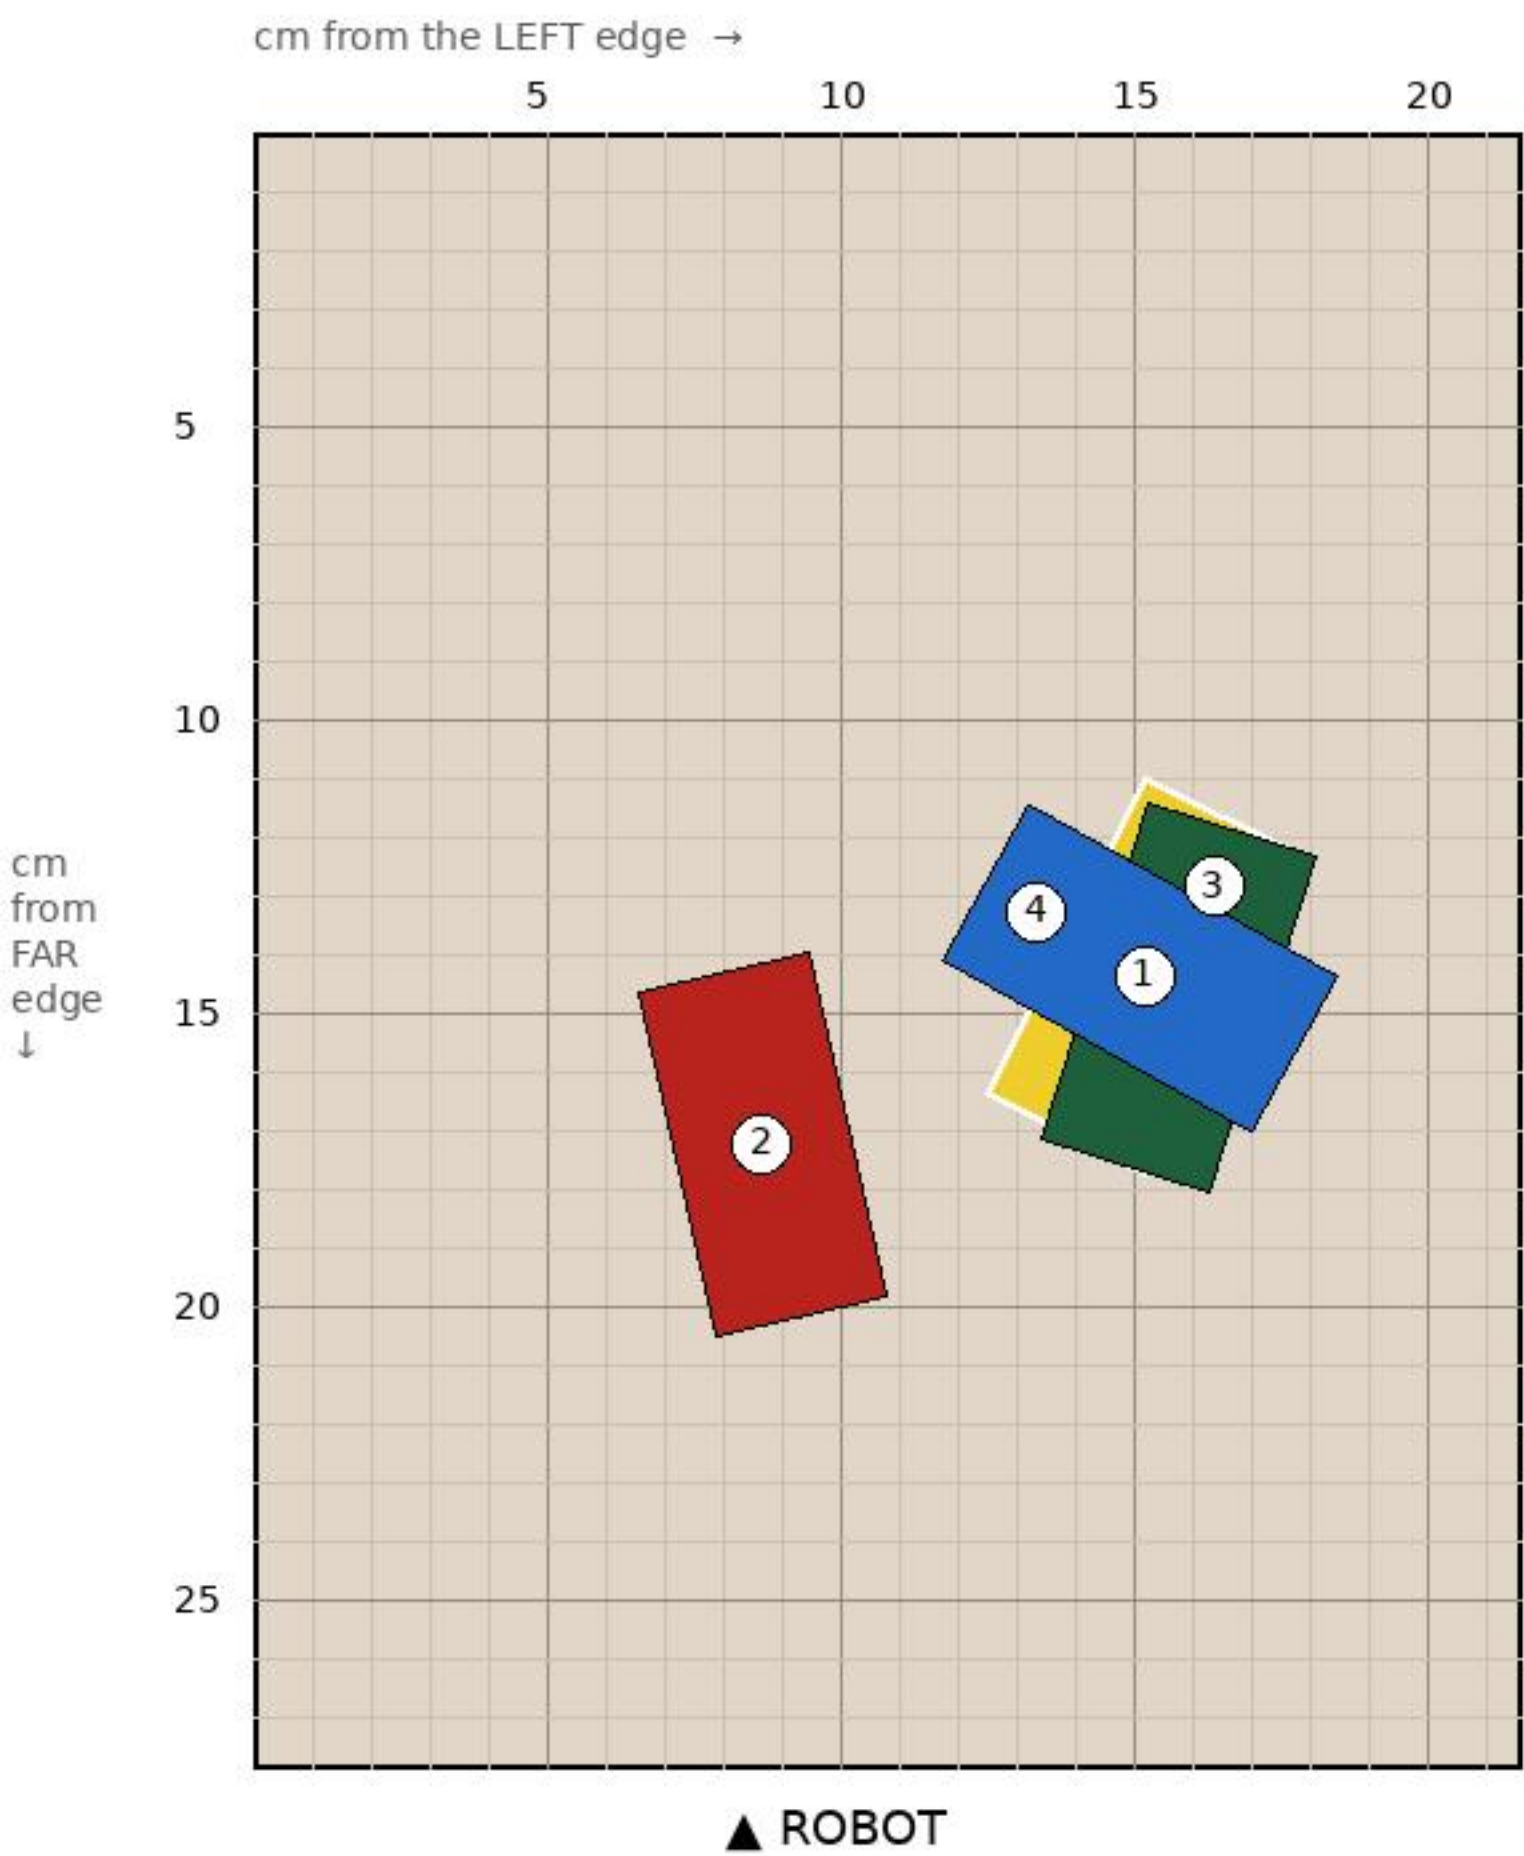

Build in this order (numbers = the circles in the top view). Positions are block centres.

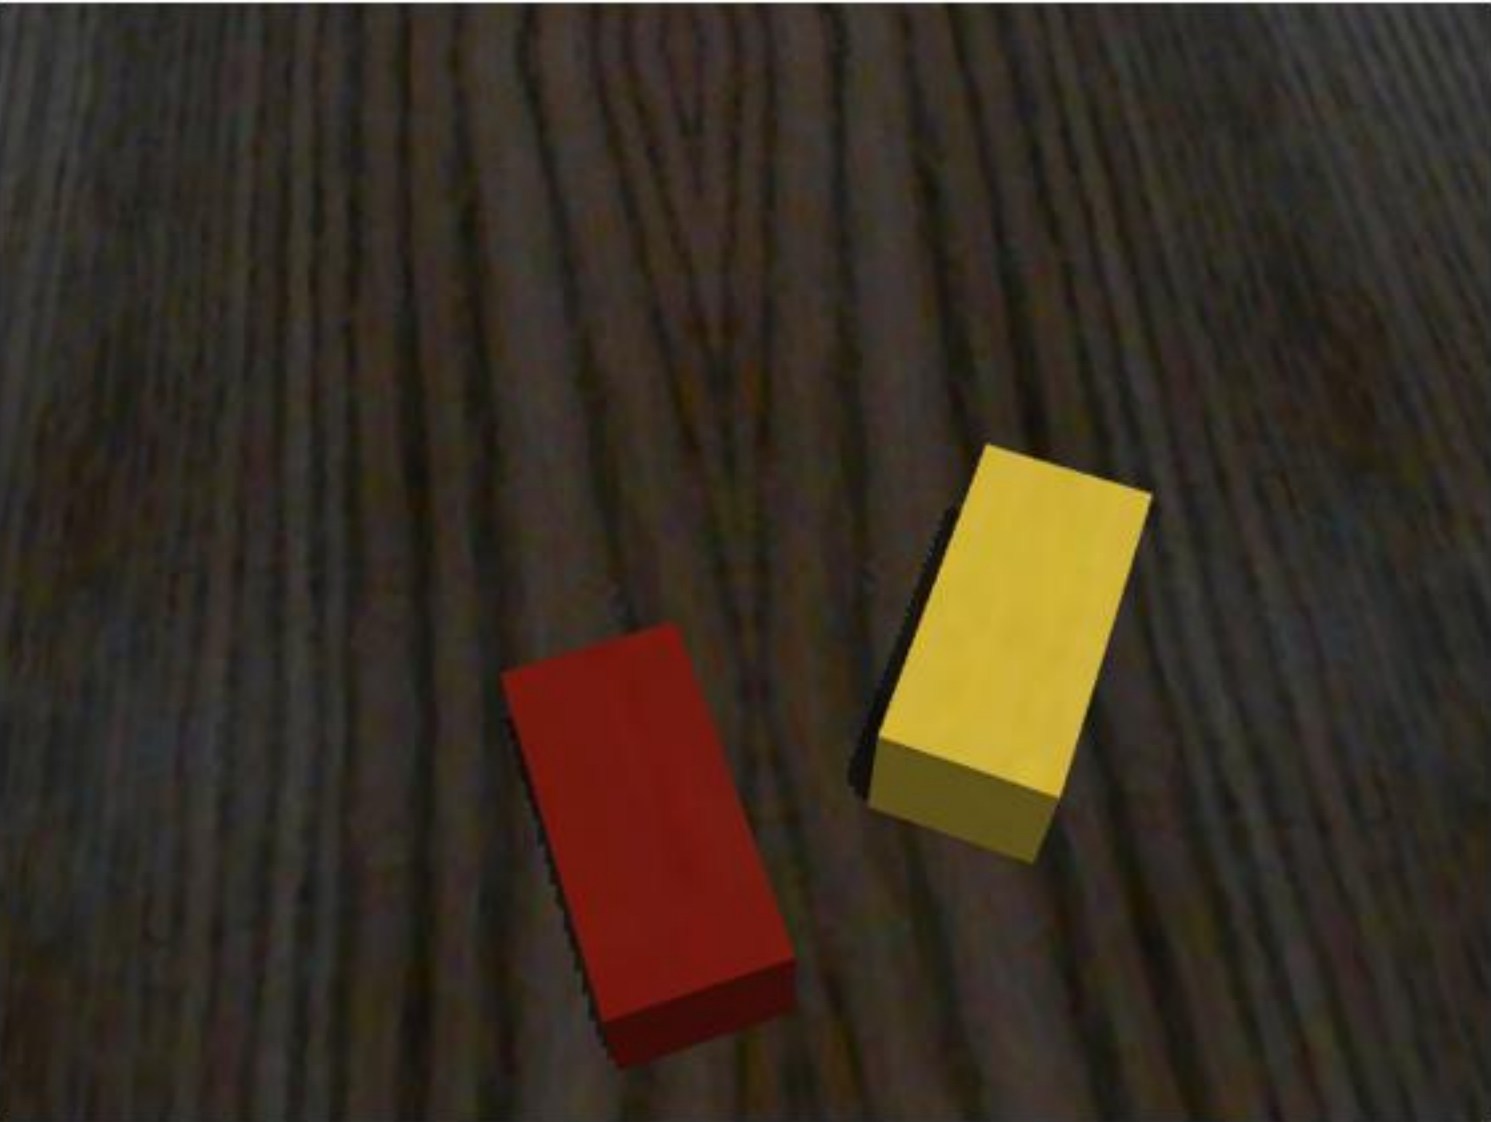

- 1. blue far edge 14.5 cm left edge 7.2 cm turned +25° (far end to the left) flat on the table (TARGET)
- 2. yellow far edge 16.0 cm left edge 17.5 cm turned +4° (far end to the left) flat on the table
- 3. red far edge 15.0 cm left edge 7.6 cm turned +23° (far end to the left) lies on blue, level
- 4. green far edge 14.7 cm left edge 7.9 cm turned -82° (far end to the right) lies on red, level

C2-07 [SPARE] target: YELLOW

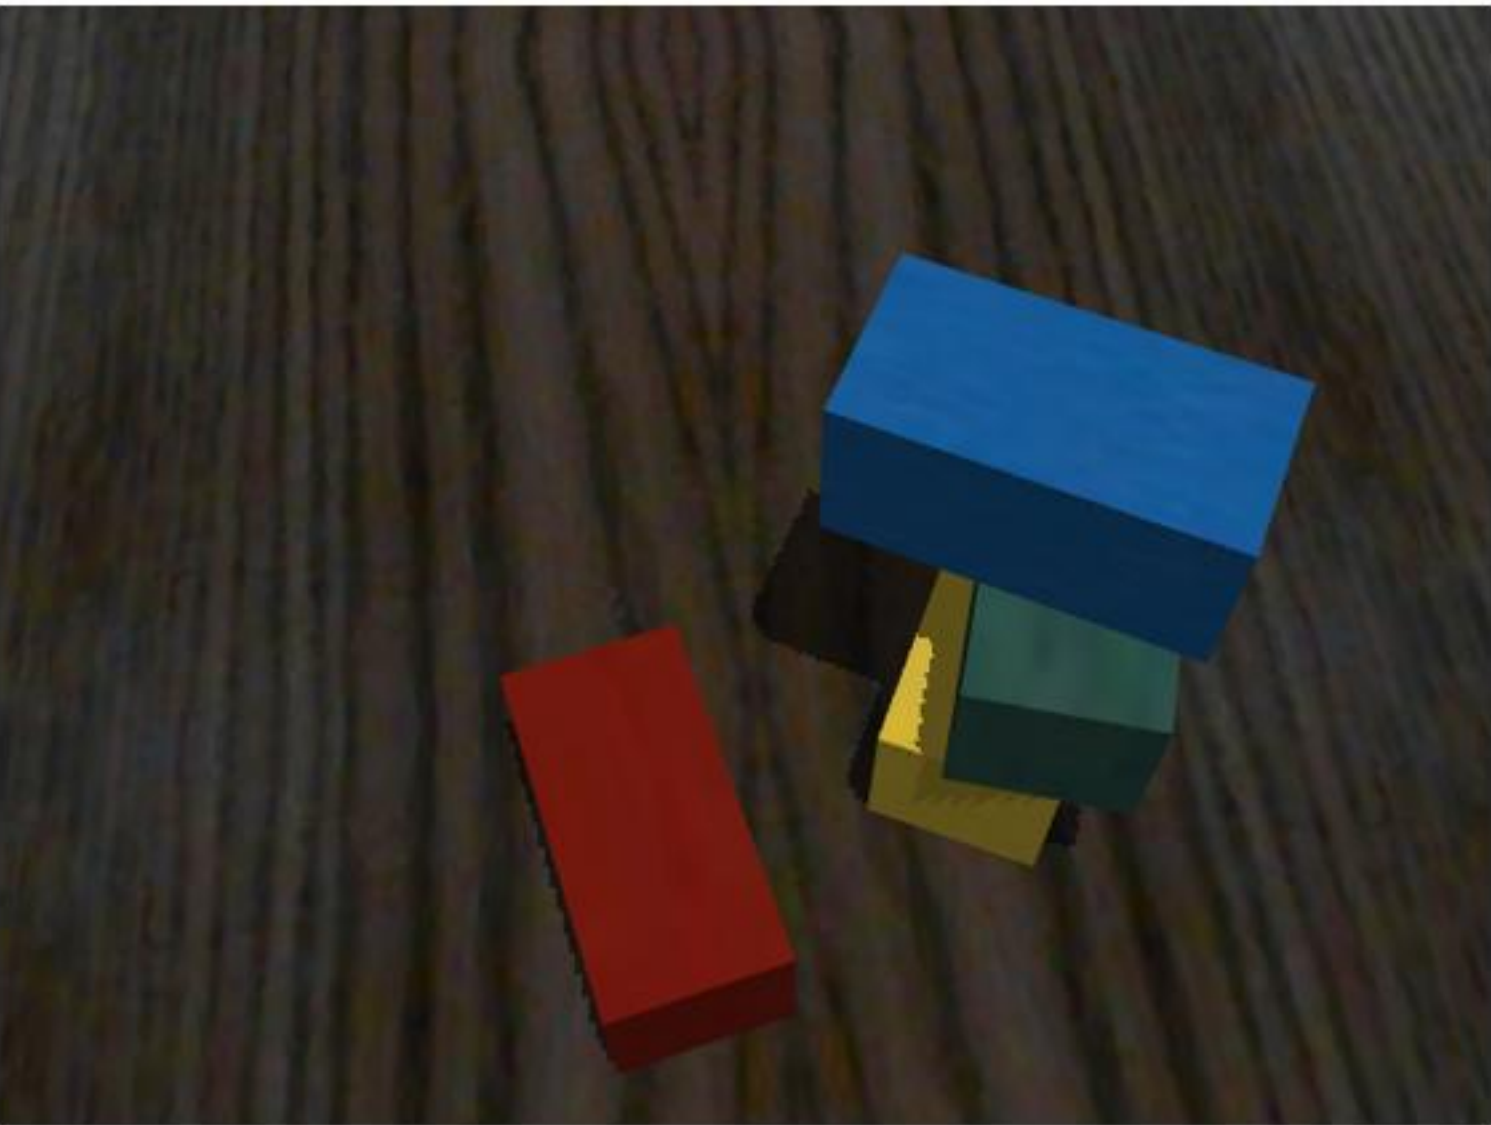

two blocks on the target; occlusion: partial; best order: blue → green → yellow (3 steps)

arm-camera view, table blocks only:

arm-camera view, finished scene:

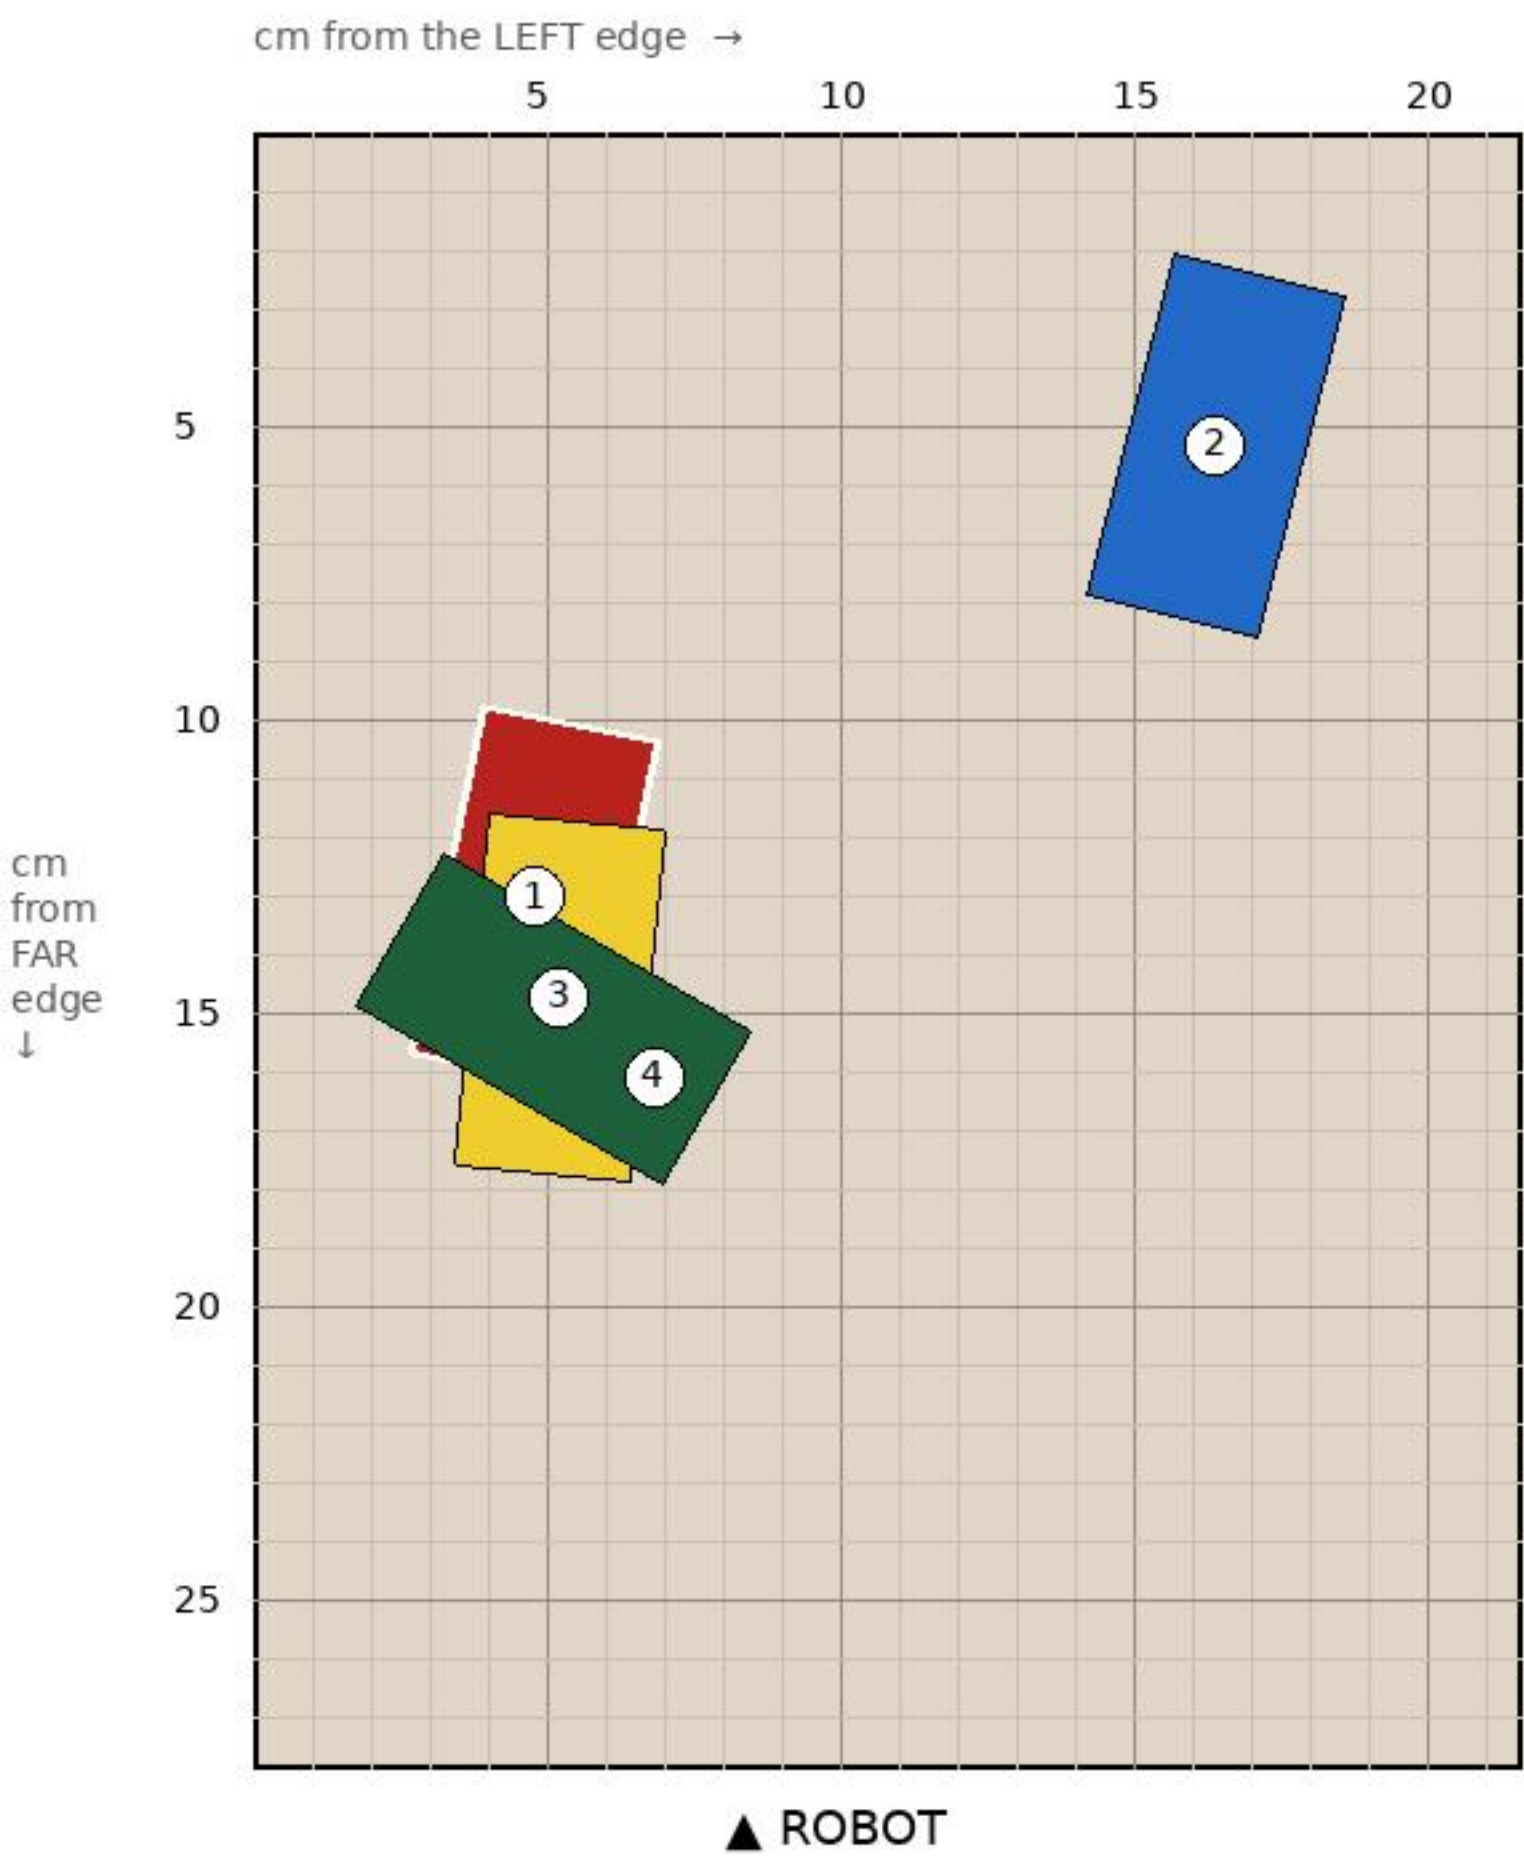

Build in this order (numbers = the circles in the top view). Positions are block centres.

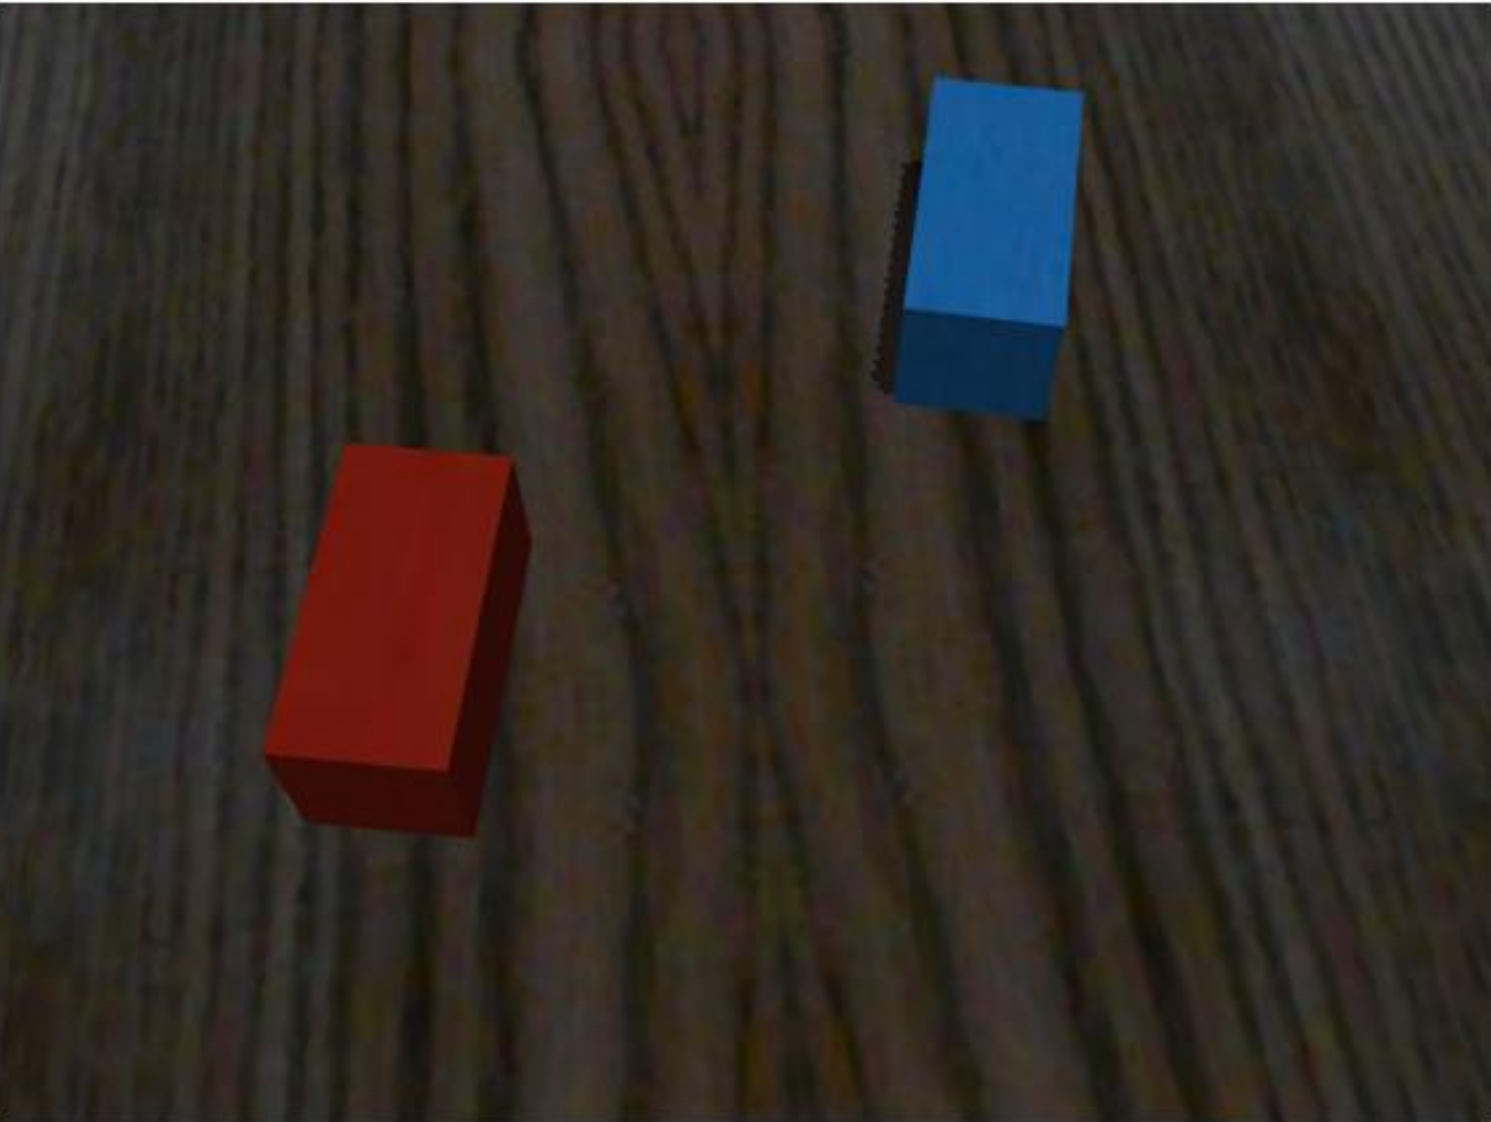

- 1. yellow far edge 14.4 cm left edge 15.2 cm turned -26° (far end to the right) flat on the table (TARGET)
- 2. red far edge 17.2 cm left edge 8.7 cm turned +13° (far end to the left) flat on the table
- 3. green far edge 14.7 cm left edge 15.8 cm turned -18° (far end to the right) lies on yellow, level
- 4. blue far edge 14.3 cm left edge 15.1 cm turned +61° (far end to the left) lies on green, level

C2-08 [SPARE] target: RED

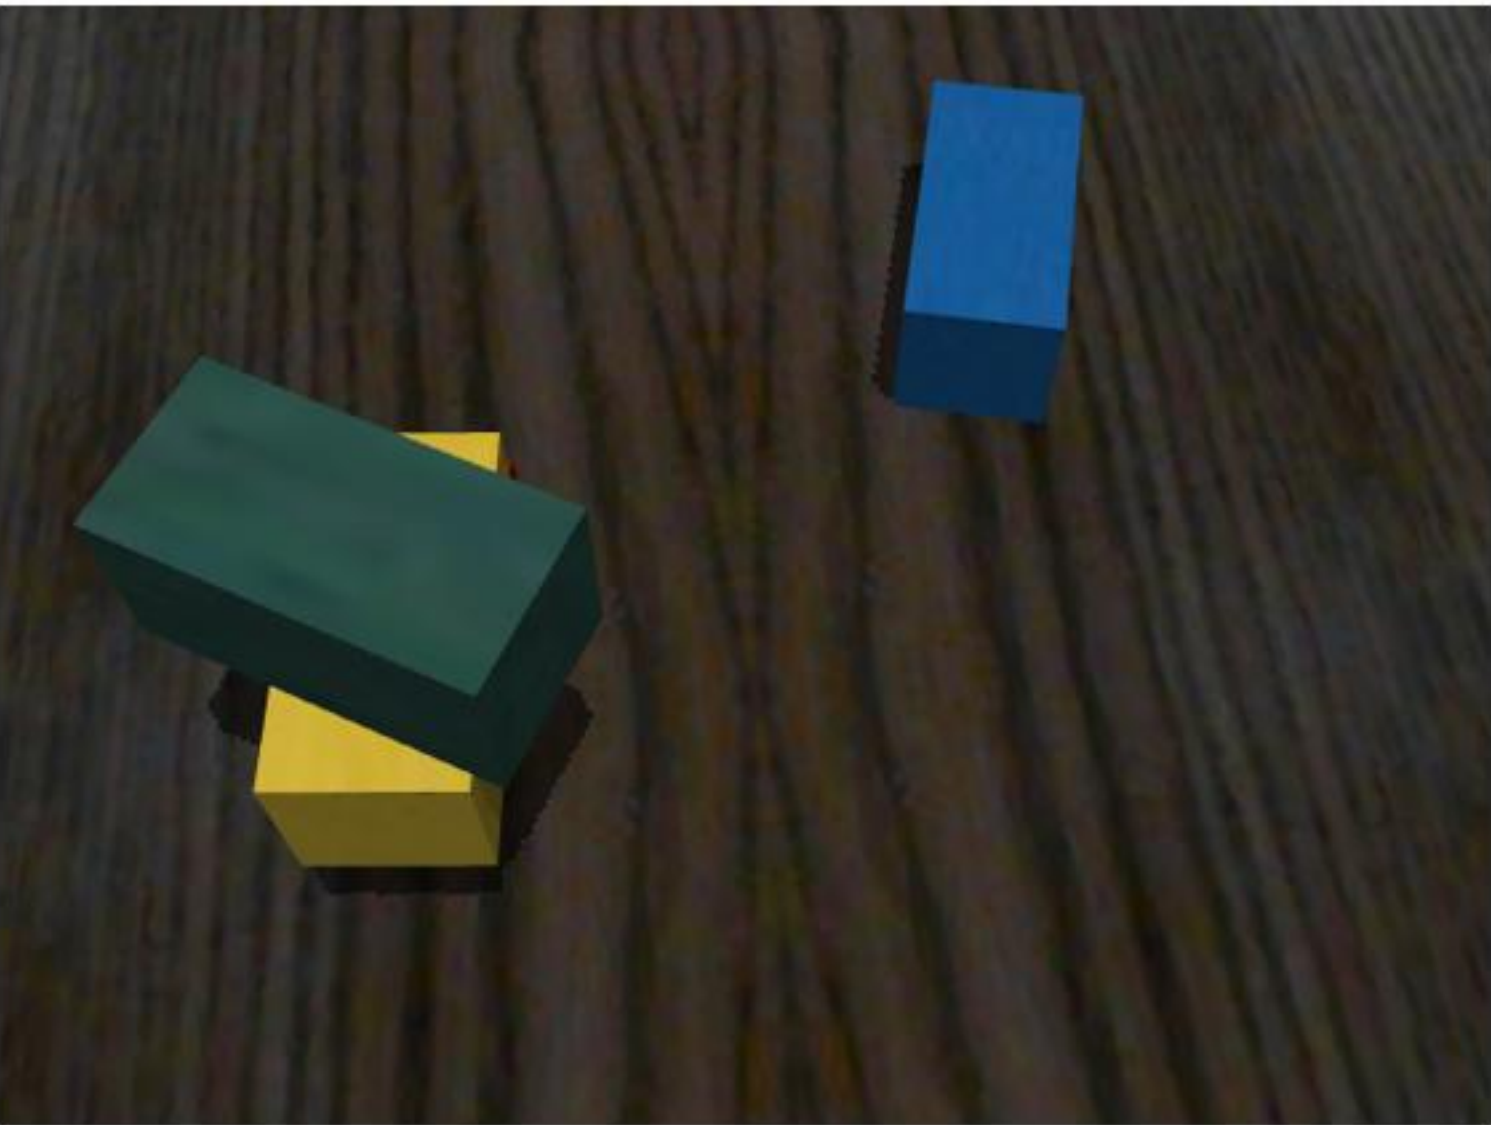

two blocks on the target; occlusion: full; best order: green → yellow → red (3 steps)

arm-camera view, table blocks only:

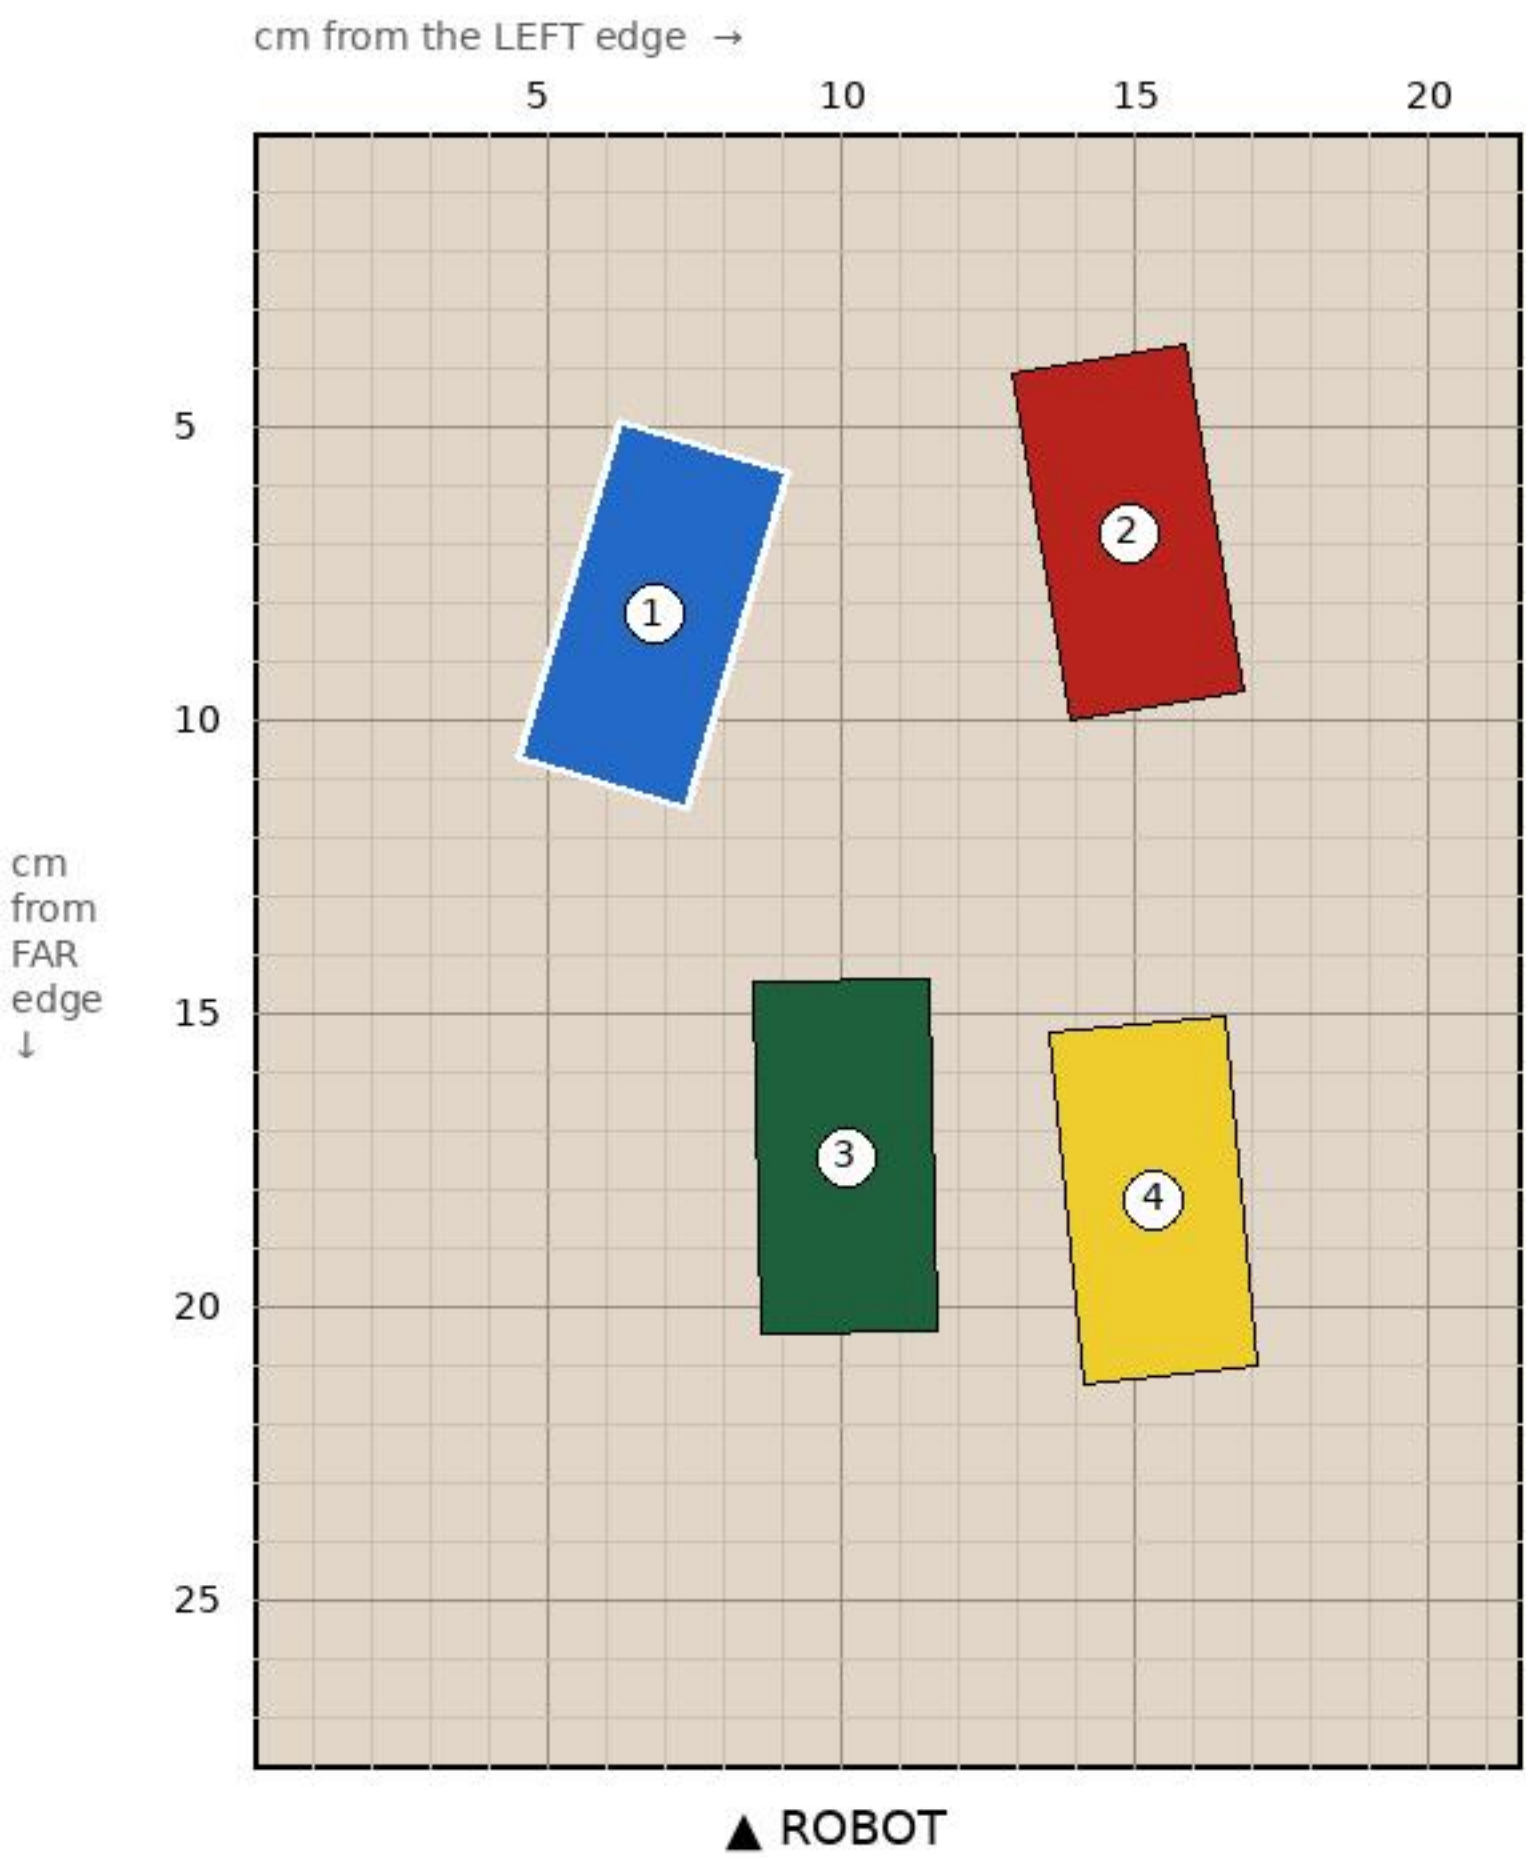

arm-camera view, finished scene:

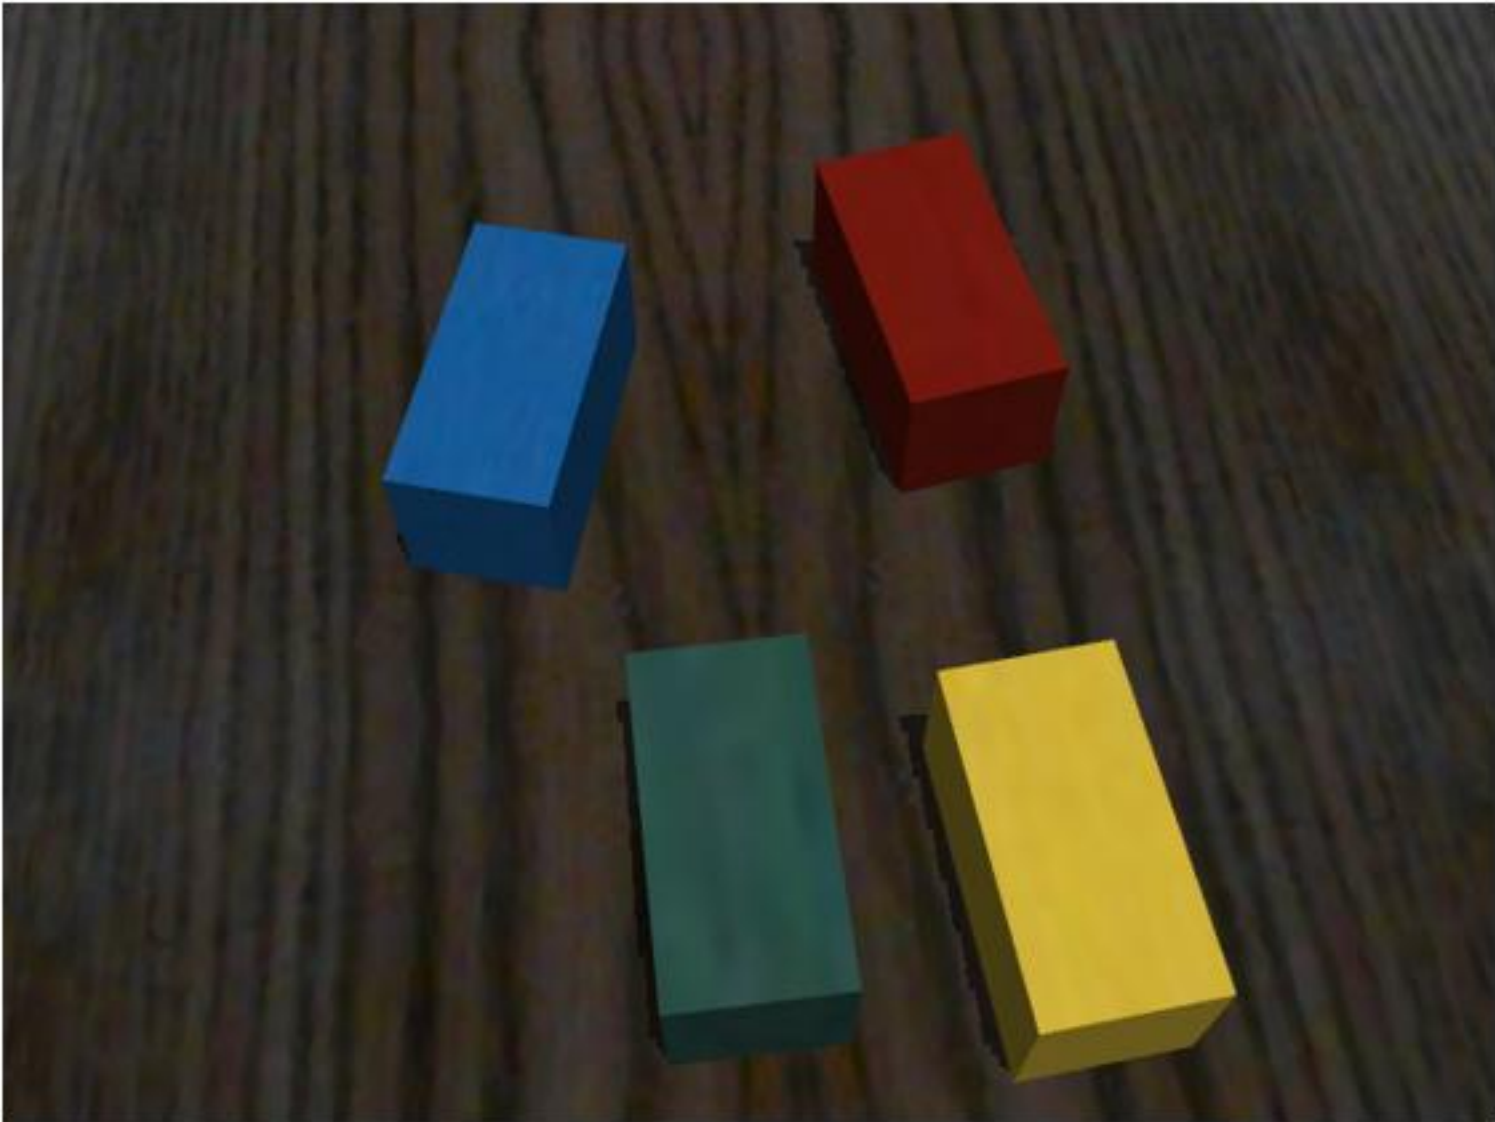

Build in this order (numbers = the circles in the top view). Positions are block centres.

- 1. red far edge 13.0 cm left edge 4.8 cm turned -12° (far end to the right) flat on the table (TARGET)
- 2. blue far edge 5.3 cm left edge 16.4 cm turned -14° (far end to the right) flat on the table
- 3. yellow far edge 14.7 cm left edge 5.2 cm turned -5° (far end to the right) lies on red, level
- 4. green far edge 15.1 cm left edge 5.1 cm turned +60° (far end to the left) lies on yellow, level

F-01 [EVAL] target: BLUE
free target (control); occlusion: free; best order: blue (1 step)

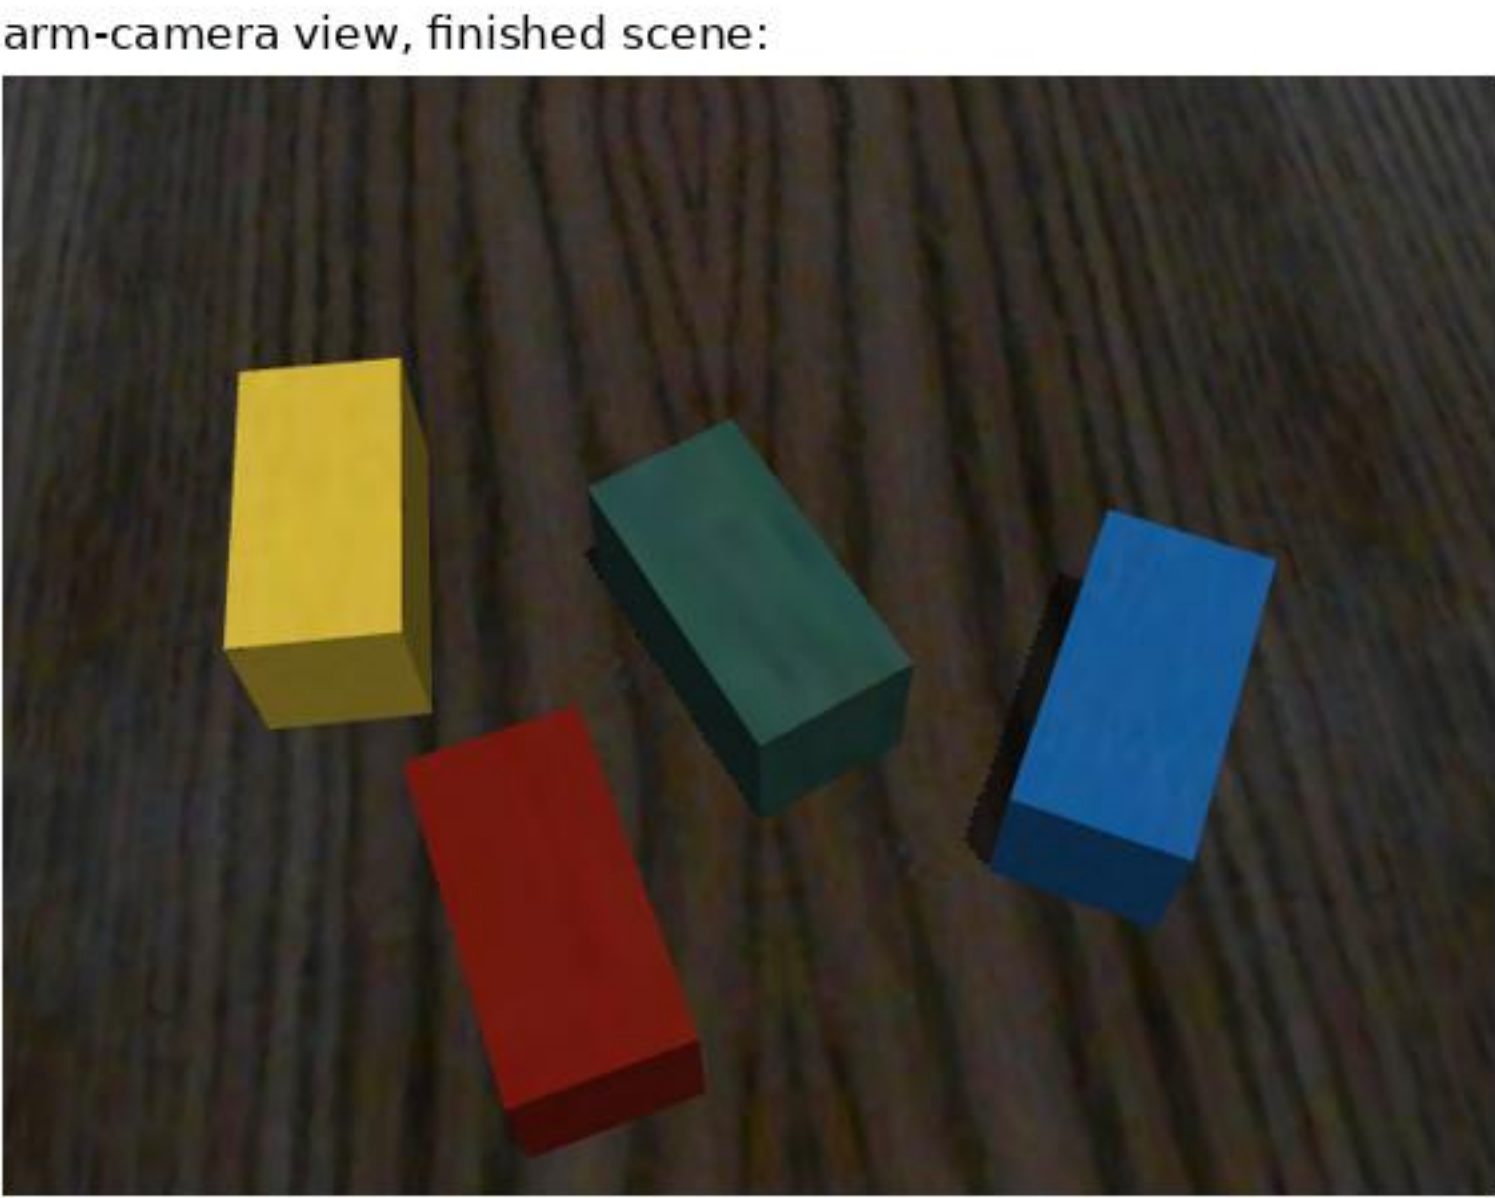

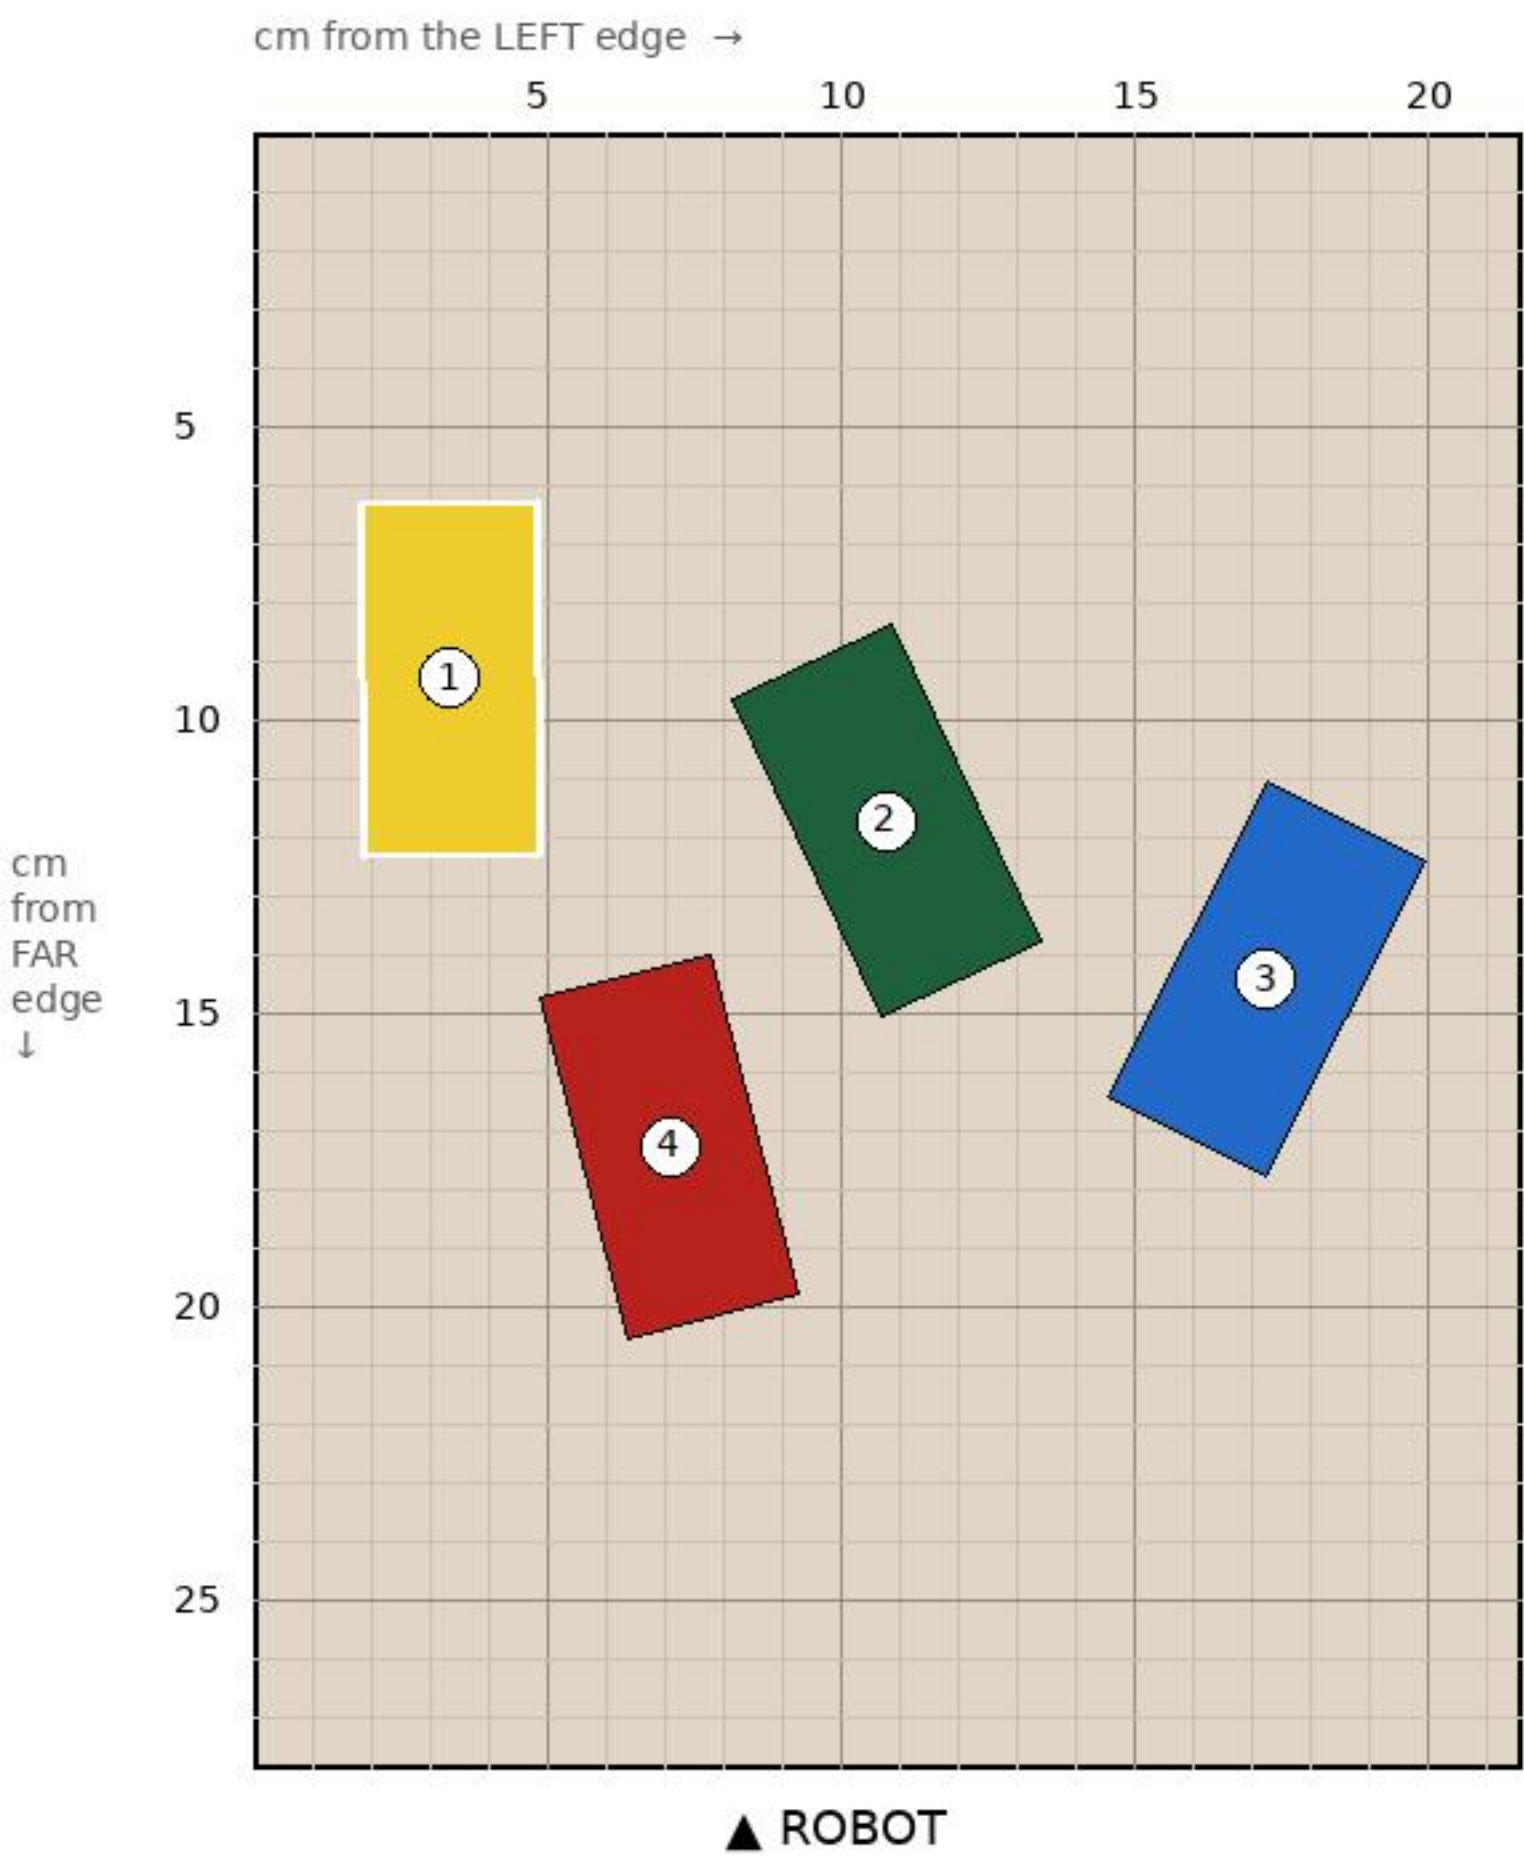

arm-camera view, finished scene:

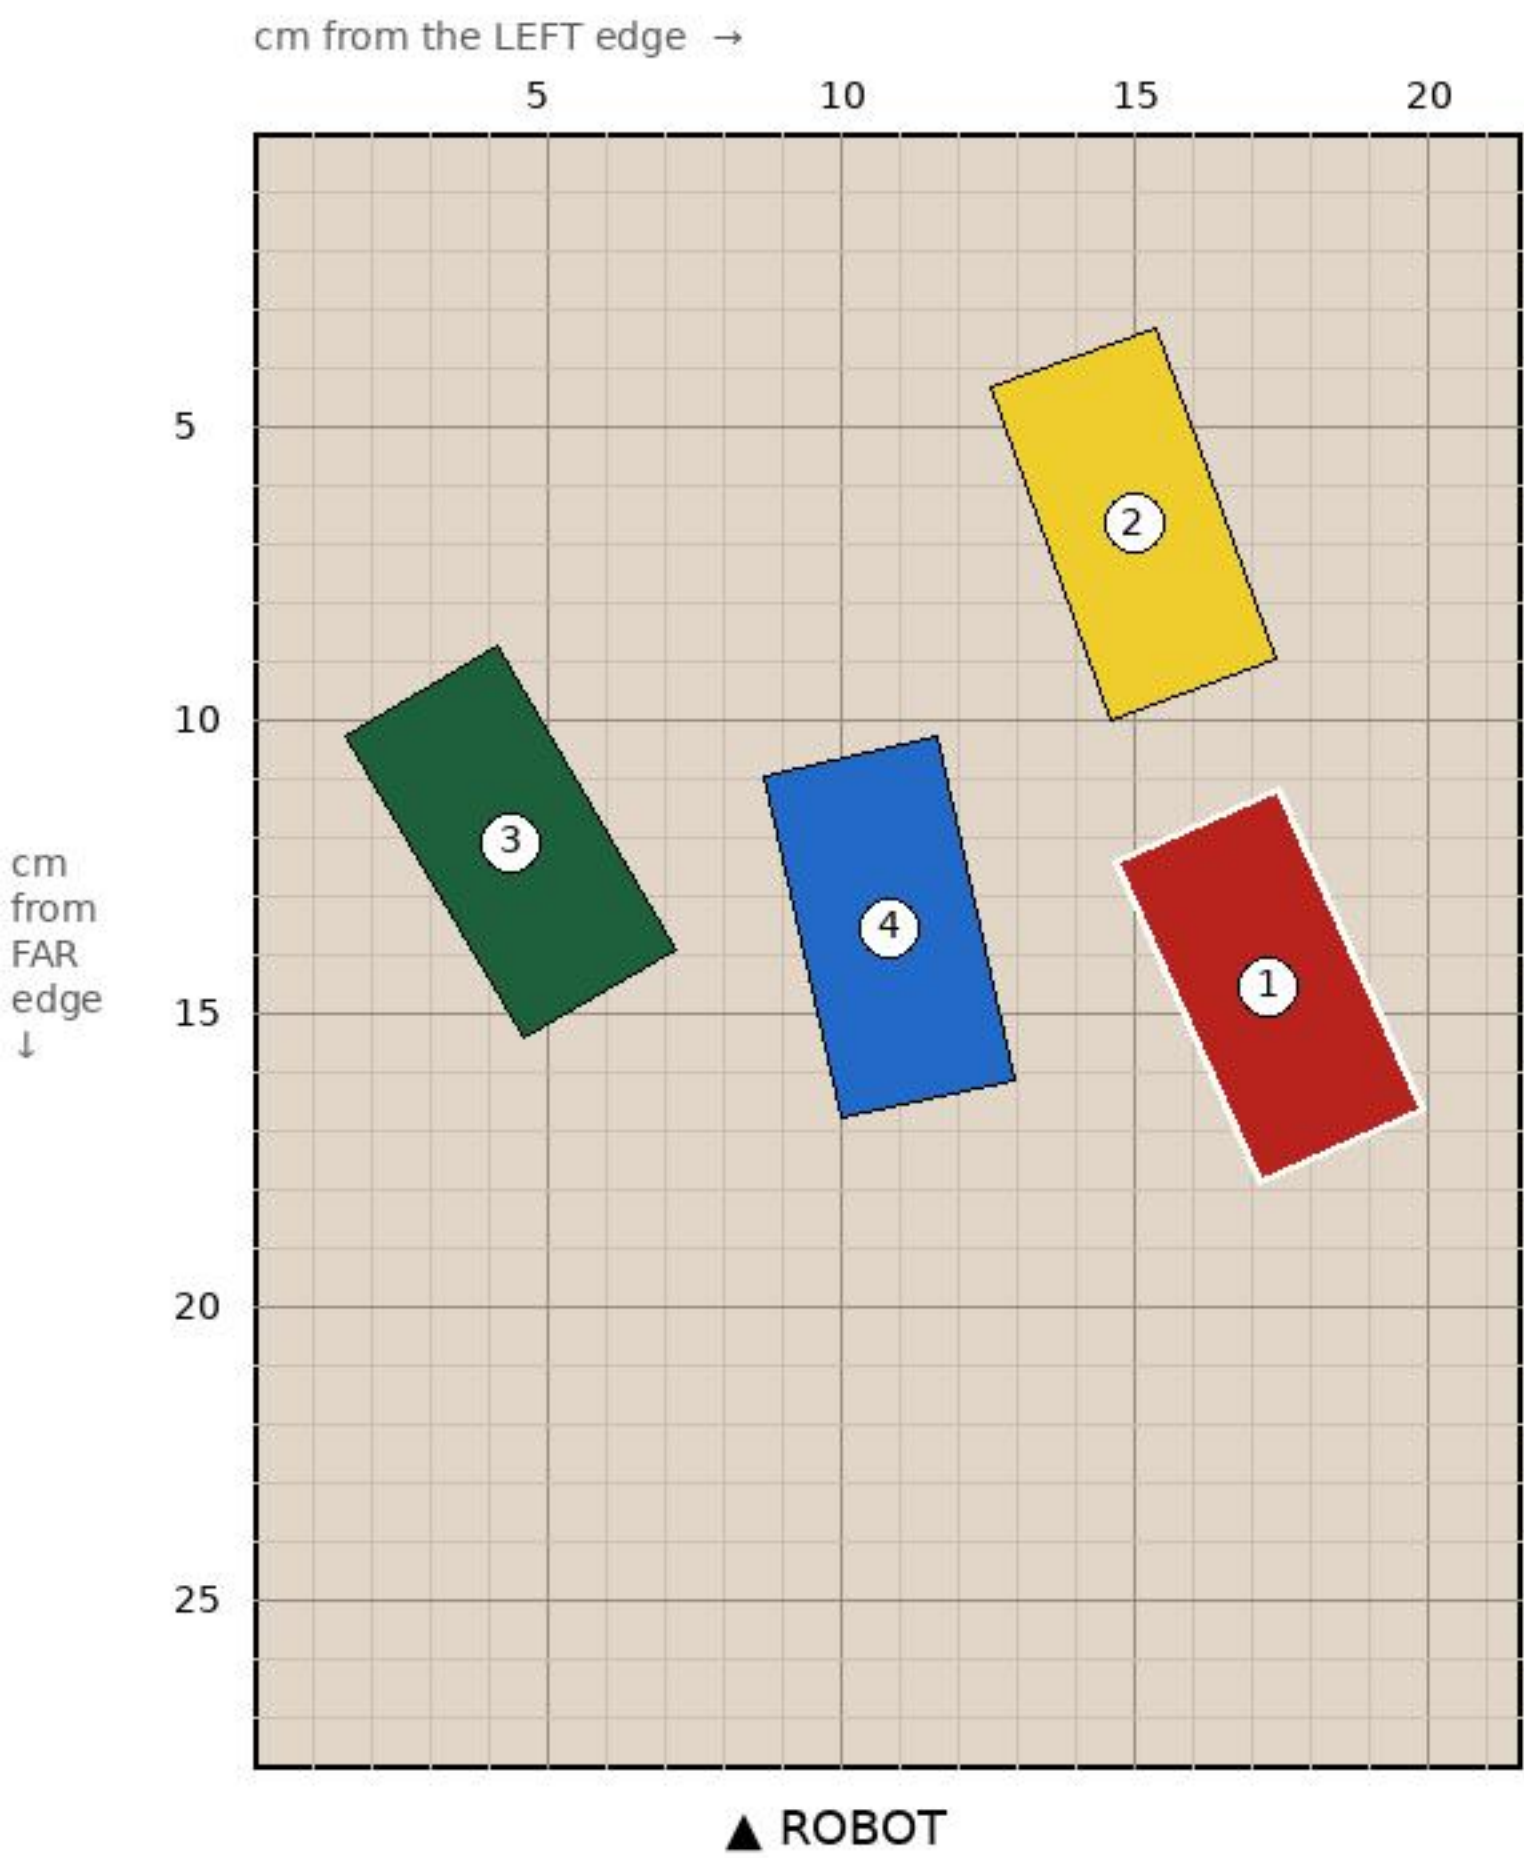

- Build in this order (numbers = the circles in the top view). Positions are block centres.
- 1. blue far edge 8.2 cm left edge 6.8 cm turned -17° (far end to the right) flat on the table (TARGET)
 - 2. red far edge 6.8 cm left edge 14.9 cm turned +10° (far end to the left) flat on the table
 - 3. green far edge 17.5 cm left edge 10.1 cm turned +1° (straight) flat on the table
 - 4. yellow far edge 18.2 cm left edge 15.4 cm turned +5° (far end to the left) flat on the table

F-02 [EVAL] target: YELLOW
free target (control); occlusion: free; best order: yellow (1 step)

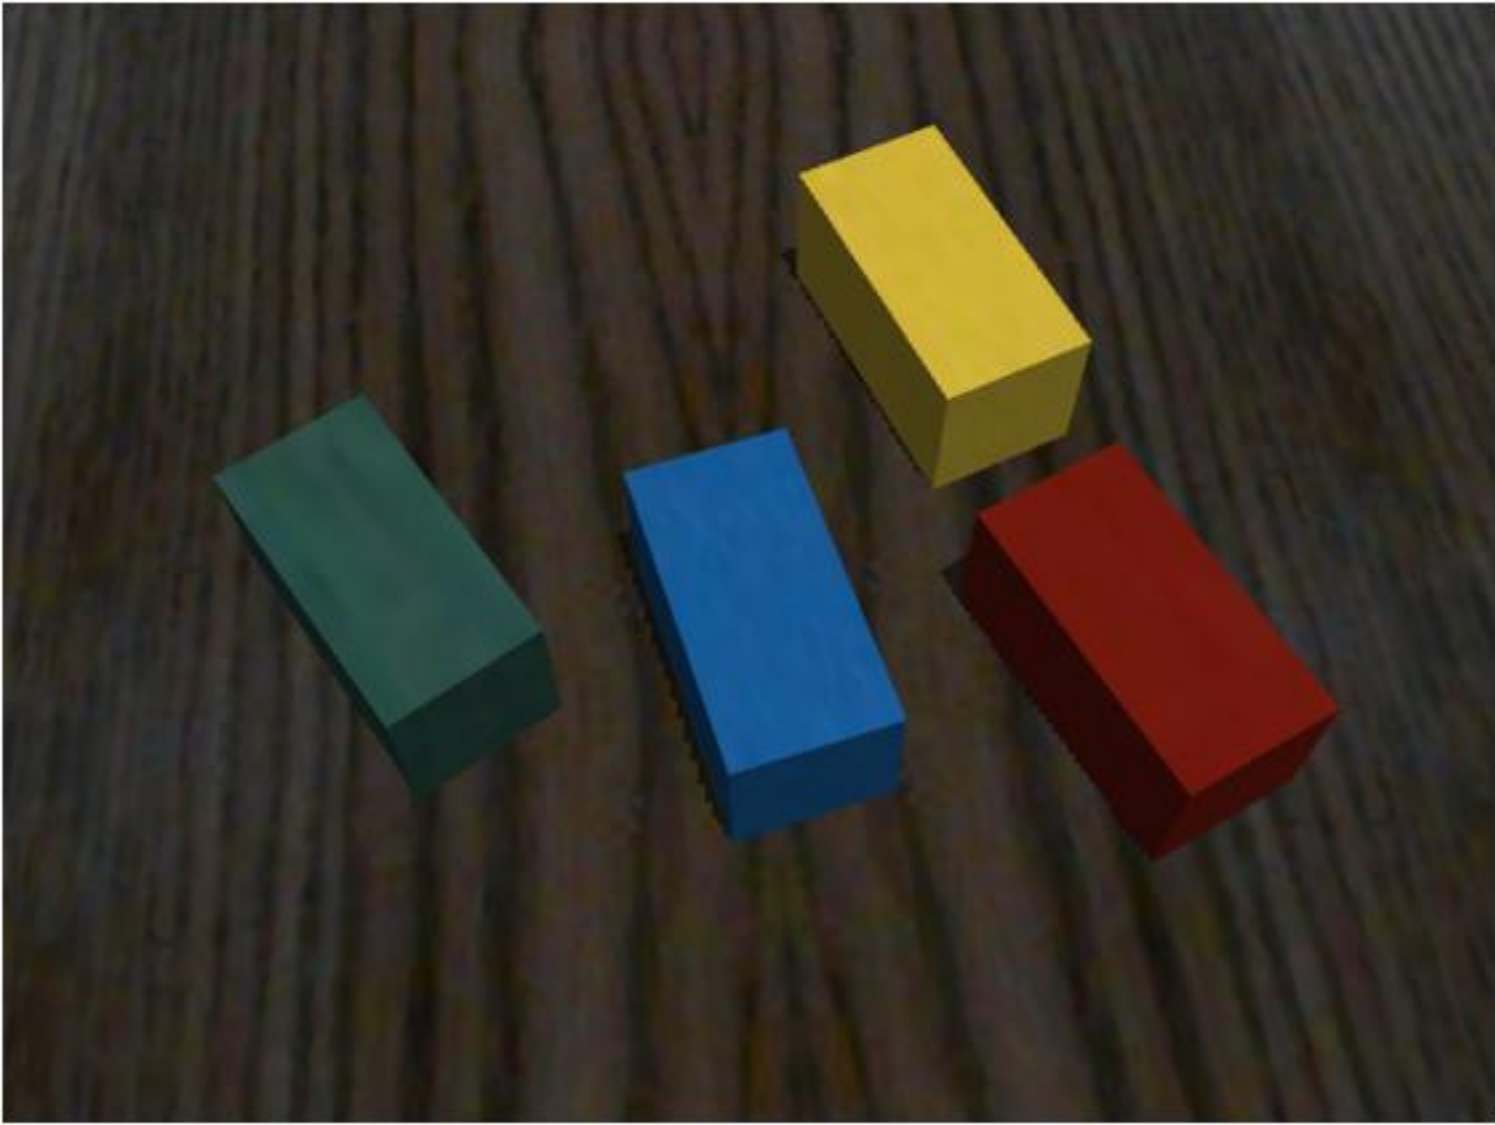

- Build in this order (numbers = the circles in the top view). Positions are block centres.
- 1. yellow far edge 9.3 cm left edge 3.4 cm turned +0° (straight) flat on the table (TARGET)
 - 2. green far edge 11.7 cm left edge 10.8 cm turned +25° (far end to the left) flat on the table
 - 3. blue far edge 14.4 cm left edge 17.3 cm turned -27° (far end to the right) flat on the table
 - 4. red far edge 17.3 cm left edge 7.1 cm turned +15° (far end to the left) flat on the table

F-03 [EVAL] target: RED
free target (control); occlusion: free; best order: red (1 step)

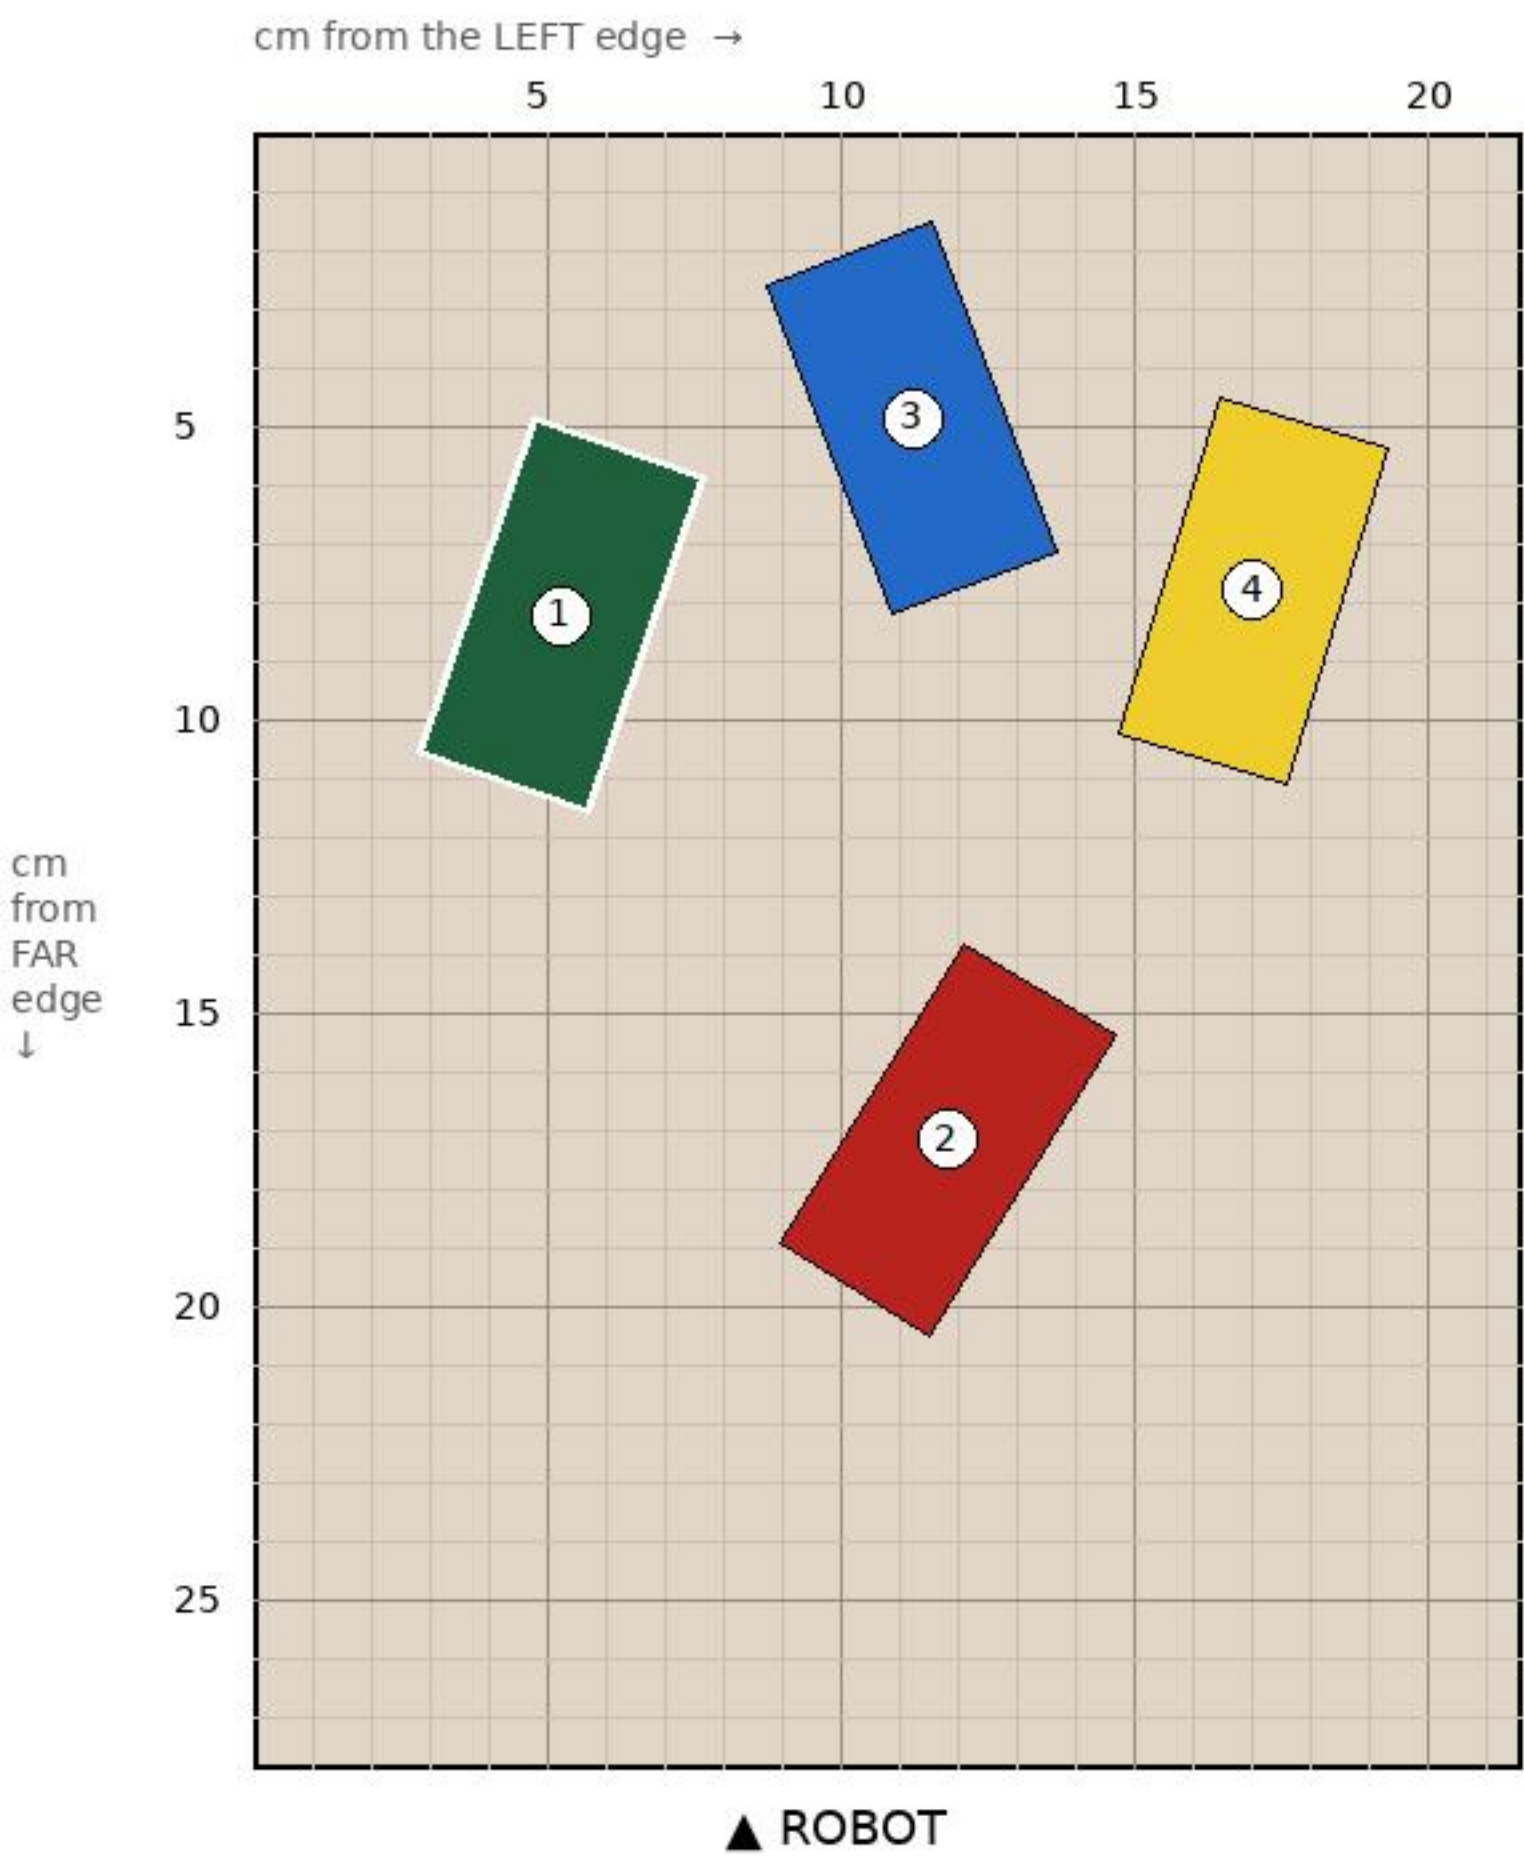

arm-camera view, finished scene:

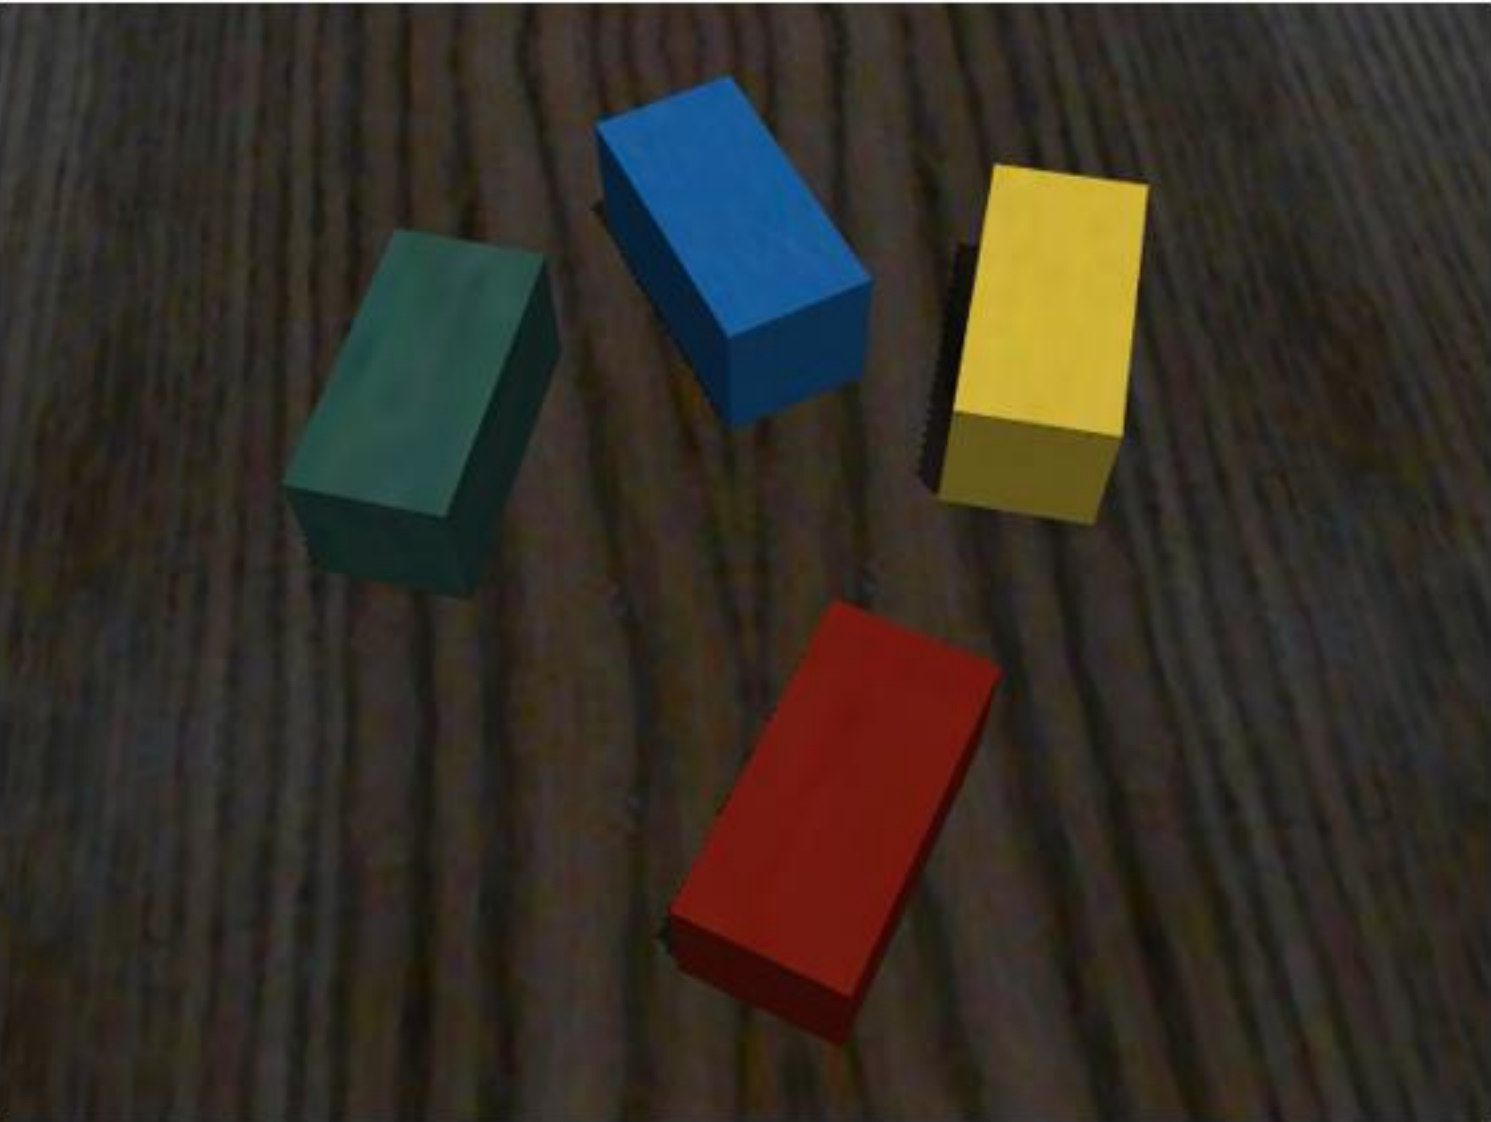

Build in this order (numbers = the circles in the top view). Positions are block centres.

- 1. red far edge 14.6 cm left edge 17.3 cm turned +24° (far end to the left) flat on the table (TARGET)
- 2. yellow far edge 6.7 cm left edge 15.0 cm turned +20° (far end to the left) flat on the table
- 3. green far edge 12.1 cm left edge 4.4 cm turned +31° (far end to the left) flat on the table
- 4. blue far edge 13.6 cm left edge 10.8 cm turned +13° (far end to the left) flat on the table

F-04 [EVAL] target: GREEN
free target (control); occlusion: free; best order: green (1 step)

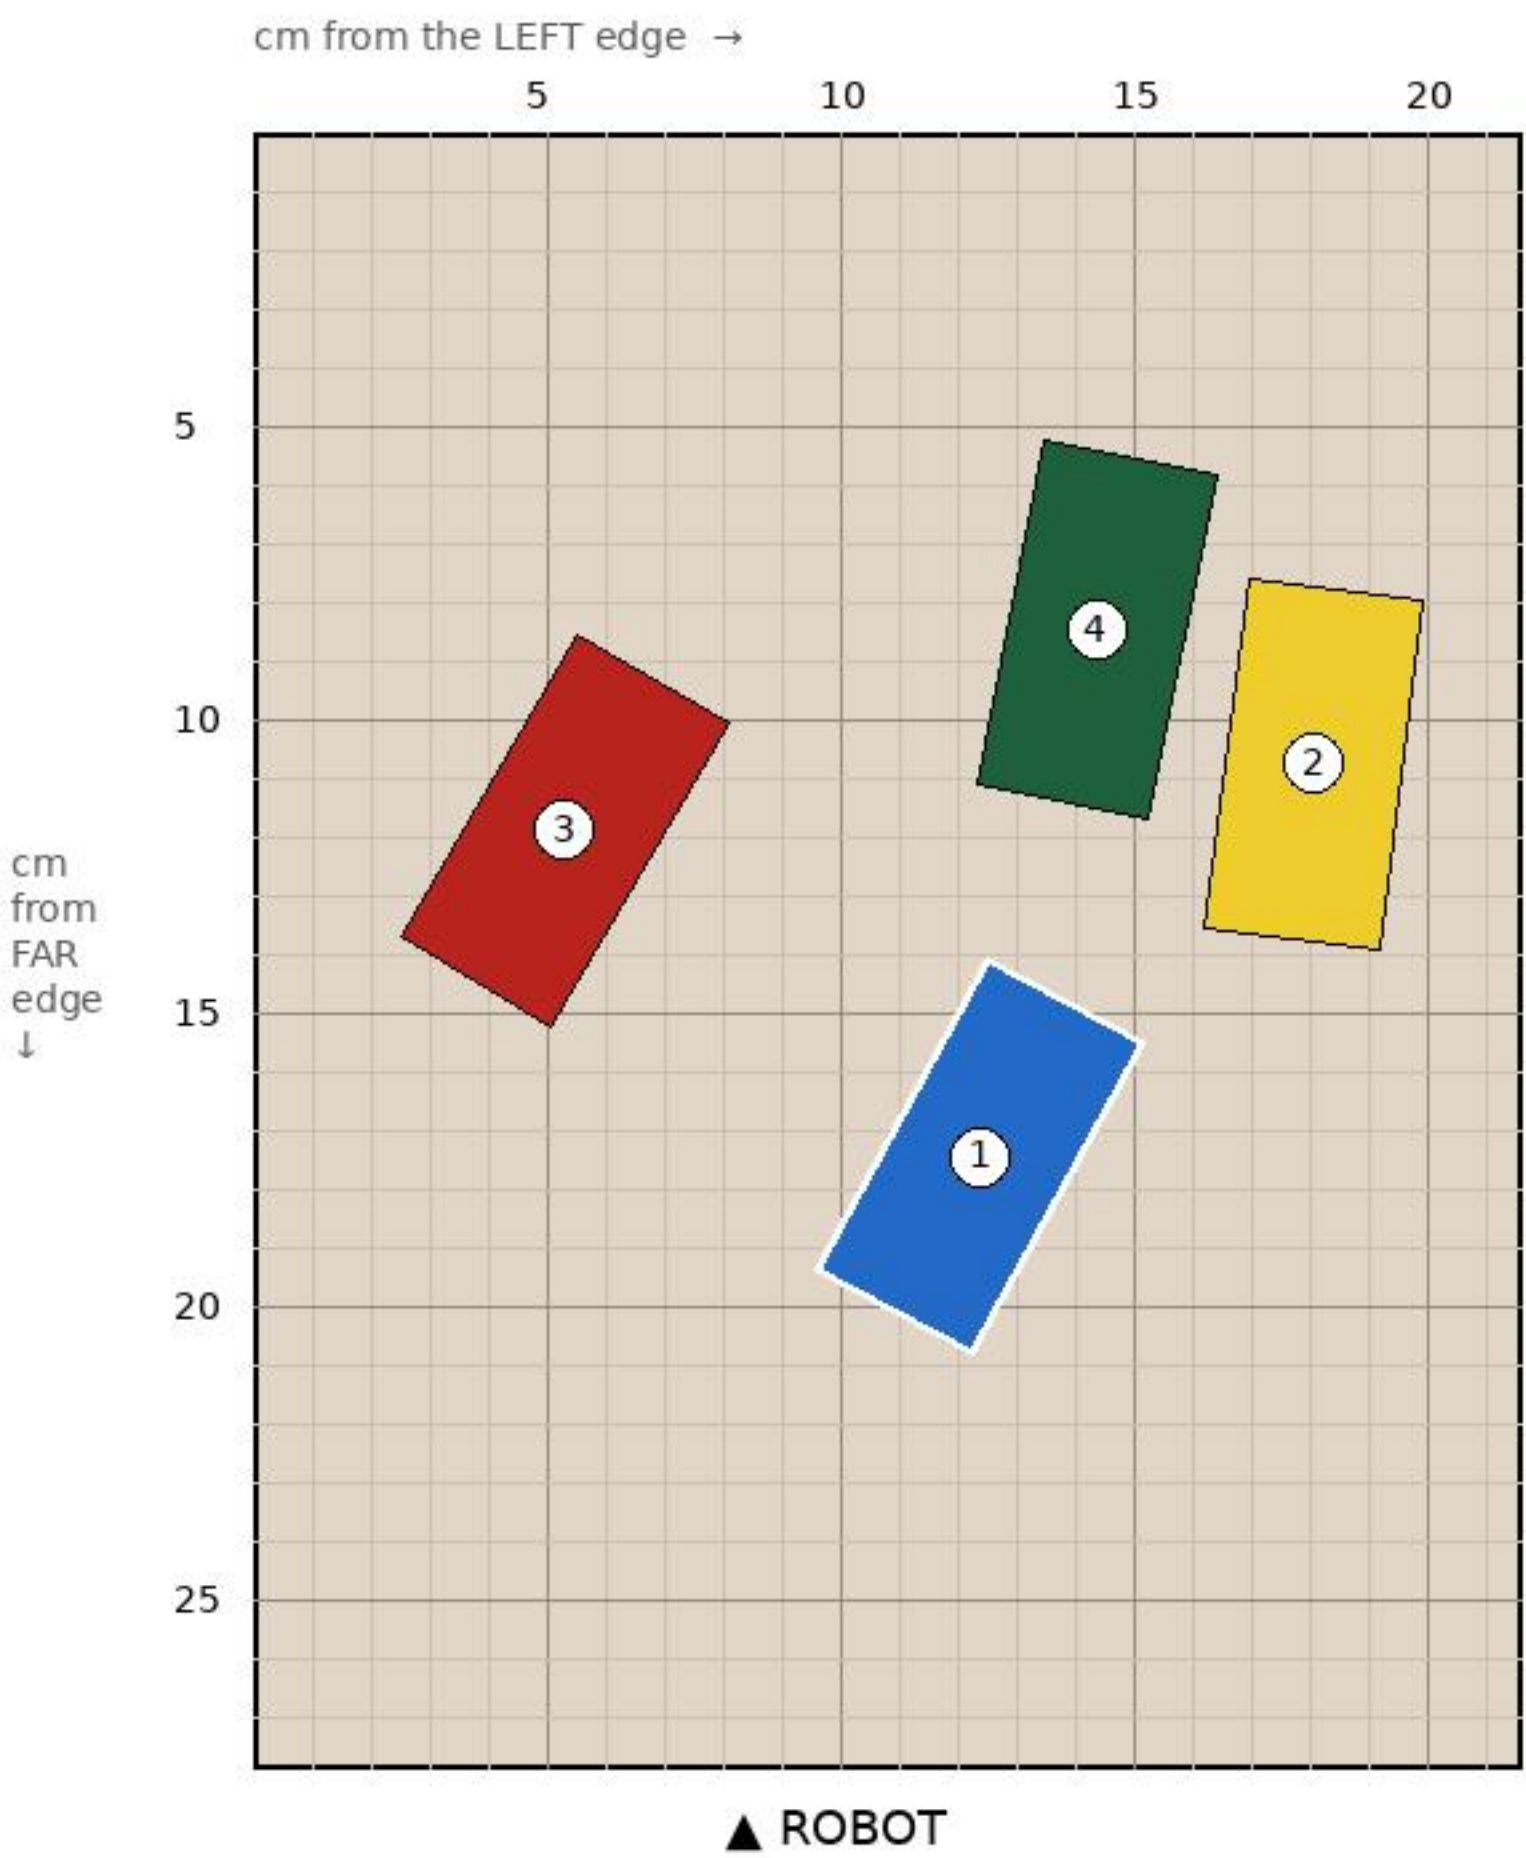

arm-camera view, finished scene:

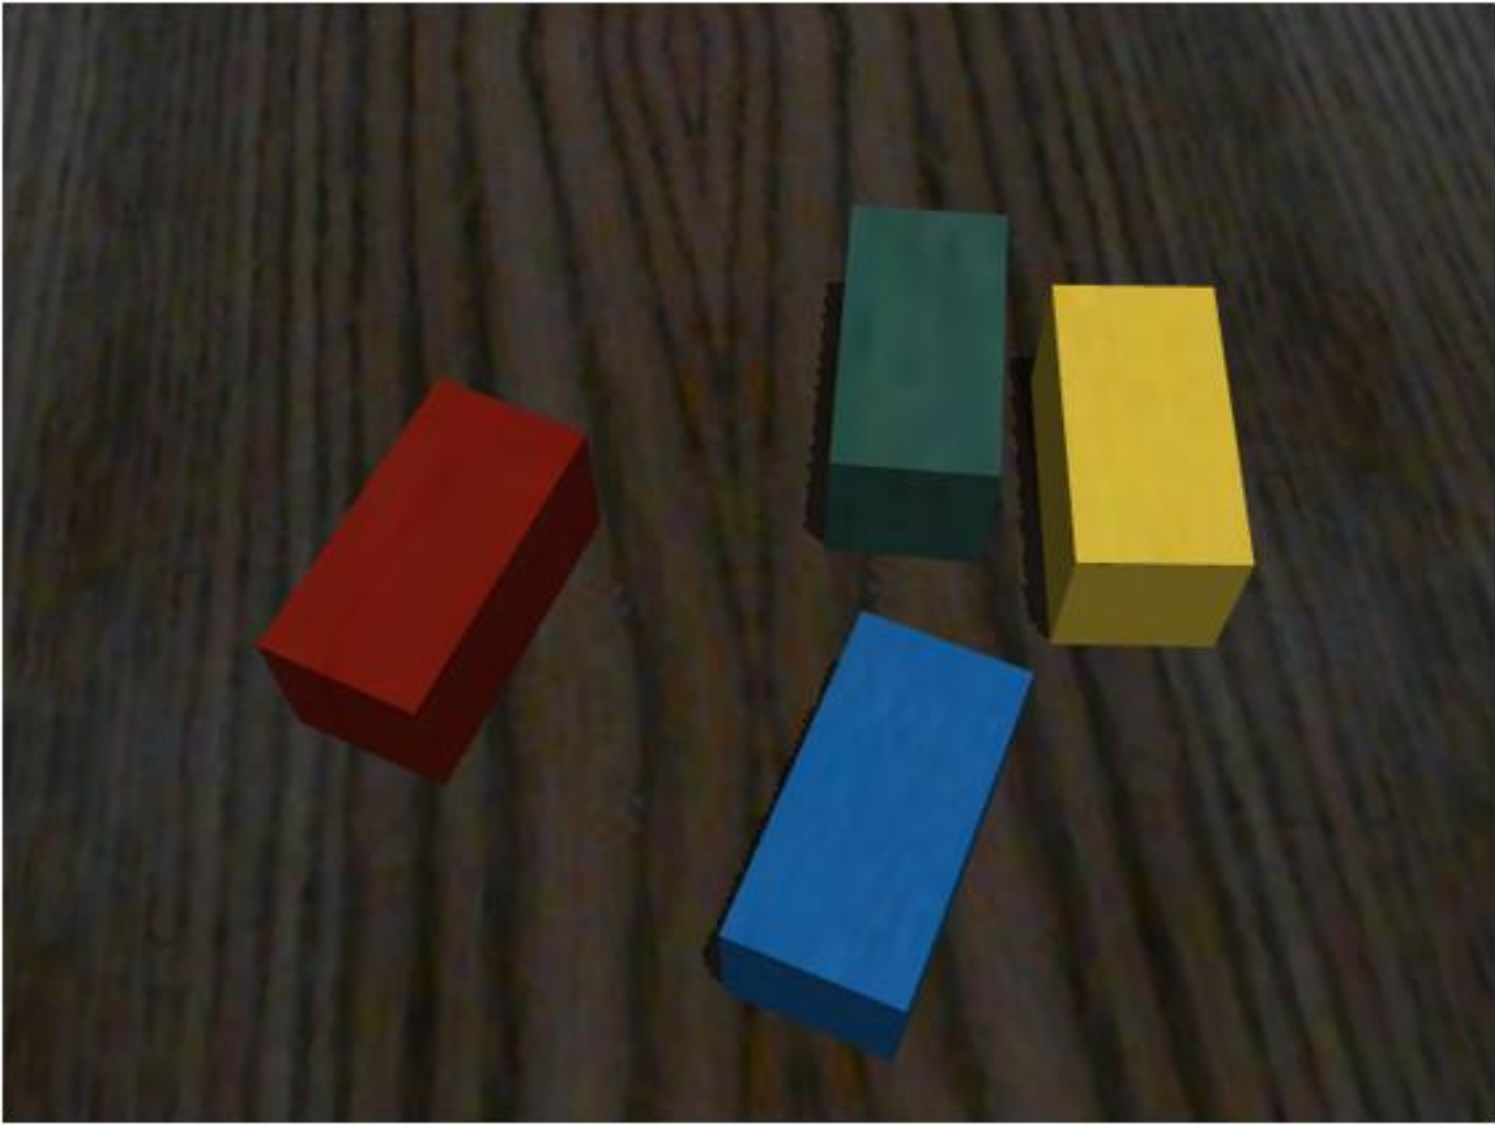

- Build in this order (numbers = the circles in the top view). Positions are block centres.
- 1. green far edge 8.2 cm left edge 5.2 cm turned -19° (far end to the right) flat on the table (TARGET)
 - 2. red far edge 17.2 cm left edge 11.8 cm turned -32° (far end to the right) flat on the table
 - 3. blue far edge 4.9 cm left edge 11.2 cm turned +21° (far end to the left) flat on the table
 - 4. yellow far edge 7.8 cm left edge 17.0 cm turned -17° (far end to the right) flat on the table

F-05 [SPARE] target: BLUE
free target (control); occlusion: free; best order: blue (1 step)

arm-camera view, finished scene:

Build in this order (numbers = the circles in the top view). Positions are block centres.

- 1. blue far edge 17.5 cm left edge 12.4 cm turned -29° (far end to the right) flat on the table (TARGET)
- 2. yellow far edge 10.8 cm left edge 18.1 cm turned -7° (far end to the right) flat on the table
- 3. red far edge 11.9 cm left edge 5.3 cm turned -30° (far end to the right) flat on the table
- 4. green far edge 8.5 cm left edge 14.4 cm turned -11° (far end to the right) flat on the table
